The very best medicine I know of for dysentery, cholera morbus, and cramps in the stomach. Have used it for years, and it is *sure* every time.
JULIUS W. DEE.

MONMOUTH, IOWA, March 12, 1881.
I have used your PAIN KILLER in severe cases of cramp, colic and cholera morbus, and it gave almost instant relief.
J. E. CALDWELL.

CARNESVILLE, GA., Feb. 26, 1881.
For twenty years I have used your PAIN KILLER in my family. Have used it many times for bowel complaints, and it always cures. Would not be without a bottle in the house.
E. R. IVIE.

BACO, ME., Jan. 22, 1881.
Have used PERRY DAVIS' PAIN KILLER for twelve years. It is *safe, sure, and reliable.* No mother should allow it to be out of the family.
H. I. HAYES.

ONEIDA, N. Y., Feb. 19, 1881.
We began using it over thirty years ago, and it always gives immediate relief. Would hardly dare to go to bed without a bottle in the house.
W. G. STEREY.

CONWAYSBORO, S. C., Feb. 23, 1881.
Nearly every family in this section keeps a bottle in the house.
DR. E. MORTON.

U. S. CONSULATE,
CREFELD, RHENISH PRUSSIA, Feb. 8, 1881.
I have known PERRY DAVIS' PAIN KILLER almost from the day it was introduced, and after years of observation and use I regard its presence in my household as an *indispensable necessity.*
I. S. CUTTER, U. S. Consul.

BURTON-ON-TRENT, ENG.
I had been several days suffering severely from diarrhœa, accompanied with intense pain, when I tried your PAIN KILLER, and found adapted instant relief.
H. J. NOONE.

31 MONTAGUE ST., LONDON, ENG.
During a residence of twenty-three years in India, I have given it in many cases of diarrhœa, dysentery, and cholera, and never knew it to fail to give relief.
R. CLARIDGE.

Geneva Award.

Special and personal attention given to the preparation, proof and trial of cases in the court of Alabama claims in Washington, D. C.

An extended experience in the former Court and unusual facilities for managing these causes, enables me to render special services to claimants. Time for docketing cases expires January, 14, 1883. All cases not entered on or before that date will be thereafter totally barred and inadmissible.

The court has jurisdiction of claims for vessels and cargoes destroyed by any Confederate Cruisers, and for officers and crews and for War Prisoners paid from April, 1861, to November, 1865. Interest is allowed from the time of the loss, or payment of premiums until March 3l, 1877 at 4 per cent. per annum.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all disease caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *King of medicines.*

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

Beer War in Maine.

At Augusta, Me., on Saturday of last week, Joshua Nye, a well-known prohibitionist and temperance worker, procured a warrant under the provisions of the state liquor law against the Hoyt & Co. Express company for bringing malt liquors to the city, supposed for illegal sale. The deputy sheriff found sixty-two cases of beer addressed to different persons. Teams were engaged to take the beer to the county jail. An immense crowd gathered, some of whom pulled the men from the teams, threw stones and bricks at them, and seized the beer and made away with it. One man, named Wade, was cut badly in the forehead. Another was severely bruised about the limbs and body by being dragged from the cart. One officer was cut on the arm. More than five hundred men and boys composed the crowd.

Books, Magazines, Etc.

"The United Service" for September has the usual interesting variety of papers having special relation to the two branches of the service. Among the articles are "Infantry Tactics in Action;" "A Midshipman's Views on Marriage in the Navy;" "Battle of Grand Berribe;" "Notes for a History of Steam Navigation," continued; and others. L. R. Hamersly & Co., publishers, Philadelphia; single number fifty cents; $5 per year.

Mr. Howell's novel "A Modern Instance," which has been running through the pages of the "Century Magazine," will end with the October number. It has won thousands of new readers for Mr. Howells, who will welcome the announcement of another story from his pen for the coming year of the Century. It is to be called "A Sea Change," and will be a study of international relations, the scene lying in America, and not, as has usually been the case with recent "international" stories, upon foreign ground. It is to deal, also, with problems of self-help among women, and with certain tragic phases of New England life.

E. W. A. BERGENGREN, M. D., Lynn, Mass. Proprietor.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. E. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL, Conductor L. & B. R. R.

I consider Swedish Botanic Compound the best Blood Purifier and Spring Medicine in use. W. B. WATSON, Lynn, Mass.

Sad Accident.

Mr. Oscar Craigg Blown up by a Premature Blast in the Rosendale Cement Quarry—Destruction of an Eye—Its Subsequent Removal by Surgical Operation.

Mr. Oscar Craigg was foreman in a cement quarry at Rosendale, Ulster Co., N. Y. By an explosion one day in the quarry he lost an eye—lost it totally. Under the impression that the matter was less serious the local physician told Mr. Craigg that his eye was not lost wholly, but could be saved by treatment. The experiment was tried and failed. Worse remained behind, for he was in danger of losing the other also, through sympathetic inflammation. In this strait he consulted Dr. David Kennedy, of Rondout, N. Y., who told him the injured eye must be taken out to save the other. To this Mr. Craigg demurred, and went back home in doubt. His local physician said: "Go to New York." To New York the patient went, and one of the most eminent oculists in the country, having looked at the case, said: "You have lost one eye entirely; go back and do what you can to save the other." Briefly, Dr. Kennedy removed the ruined eye and treated Mr. Craigg with "Kennedy's Favorite Remedy" to build up the system, and the result was successful.

Dr. Kennedy's great success as a Surgeon is due to the use of "Favorite Remedy" in the after treatment.

Are you troubled with Dyspepsia, Liver Complaint, Constipation or derangement of the Kidneys and Bladder? then use Dr. Kennedy's "Favorite Remedy." It will not disappoint you. Dr. Kennedy's "Favorite Remedy" for sale by all druggists.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy has discovered a simple method, which he will send FREE to his fellow-sufferers, address J. H. REEVES

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

AROUND HOME.

The last hop of the season at Appledore, on Saturday evening last, was participated in by about fifty ladies and gentle from this city, who went out on the evening boat, and left Appledore to return at eleven o'clock P. M. Neptune affected to believe, from the easterly direction of the wind, that he was to have a storm, and the usual calm of his bosom was a little ruffled; but the enjoyment was quite general, as all similar visits to the Shoals have resulted in. Capt. Rand assured the party that a bright moonlight night would succeed the cloudy day, (which was clear at sea,) and his prediction was literally fulfilled. A beautiful homeward trip succeeded the festive hours at the sea-girt isles.

Mr. J. L. O. Coleman and family arrived home on Monday, from a trip through the White mountain district in their own conveyance. Mr. Coleman reports the roads as being merely beds of dust, and the condition of vegetation in the towns through which they passed as melancholy-looking in the extreme.

Hon. Emmons B. Philbrick, who was so badly injured at the burning of the Perkins and Sanborn boarding houses in Rye several weeks ago, has so far recovered that he was able to be driven out for a short time on Sunday last.

A large number of passengers came in from York beach by the coaches on Monday, bound home. The westward-bound trains over the Eastern railroad were packed, while there was plenty of room in those going east. There were twelve more passenger cars than the daily average put on the various trains out of this city, and over five hundred pieces of baggage, mostly large trunks, were checked; one hundred and twenty-five through tickets to Boston were sold at this station. The morning boat in from the Shoals did not bring in many passengers, but on the afternoon trip she was well loaded down. The Rye beach teams also had more passengers up than they did down.

The new schooner Annie F. Conlon will register 591.15 tons.

The schooner Christie Campbell, Capt. Thos. Jamison, arrived on Monday evening from Portland, landed her seine, and will go into shore fishing. The schooner Storm King, Capt. Joseph Haley, is also fitting for shore fishing.

The gondola Fearless, Capt. Watson, came down the river from Newmarket on Monday, and commenced to load coal at Sise's wharf for the Newmarket Manufacturing Co.

The United States ships Tennessee, Kearsarge, Yantic, Enterprise and Alliance, from this port arrived at Portland, Me., last Sunday afternoon.

There was a big bang just about sundown, Monday evening, from the direction of the navy yard. On enquiry we were informed that orders have been received at the yard to fire a sunrise and sunset gun until further orders, but whether or not the noise on Monday evening was the sunset gun our informant could not tell.

The Stratham and Newmarket bridge will be passable for teams until Thursday, September 1st, to accommodate those who wish to attend the Epping camp-meeting. A larger draw and a new pier are being built, and other repairs are being made.

The U. S. S. Leyden, Comdr. Thos. L. Eastman commanding, arrived at the navy yard about eleven o'clock Sunday night, twenty-two hours from Newport, R. I., to which station she had towed the training ship Jamestown from Boston.

Hon. Daniel G. Rollins, surrogate of New York city, has been spending a portion of his vacation at the Marshall house, York harbor. This house, notwithstanding its enlarged accomodations, has been well filled during the season, and it seems to be the spot where more young people are to be found as guests than at any other similar place of resort on the coast. The large bathing house so near the beach is one of the comfortable accessories at the Marshall, of which few seaside hotels can boast; it contains seventy-six dressing rooms, and stands but a few steps from the shore of the "Short sands." For sea bathing the Marshall house has the best advantages.

The whaleboats and dories brought in a fair supply of fish for the local market on Monday.

The old Spring-market stairs, concerning which there were at one time many complaints on account of their filthy condition, are now kept clean and neat by Caswell & Co., whose fish market is close by.

Hon. Martin Parry Kennard, assistant treasurer of the United States at Boston, passed Sunday at the hotel Wentworth.

Col. B. H. Corning, of the Boston, Concord & Montreal railroad, left the "Ocean Wave" at Rye, where Mrs. Corning has been for the season, and returned to the Fabyan house on Monday.

Dr. George B. Loring, commissioner of agriculture, passed through this city on the Eastern railroad, Monday.

Mr. James Hooper, whose fine pleasure boat was stolen on Friday night last by a deserting sailor from the schooner Julia A. Berkele, and another man, is not as was stated a freight conductor on the Conway branch of the Eastern railroad, having some time ago left that position. He is now engineer of the steamer Clara Batemen.

A Boston paper of Monday says: "The North Atlantic fleet, including the Tennessee, Enterprise, Yantic, Kearsarge, Alliance and Vandalia, has arrived at Portsmouth, after manœuvring at sea for four days." The Vandalia is now arrived at this port, as she has been for some weeks undergoing repairs at the navy yard; the other vessels named are in Portland.

One of the Gangway rock drilling sloops had her deck piled high with broken stone from the rock, Sunday, and the other was loaded with many tons, though not so deep as her consort. Capt. Charles S. Philpot's gondolas, the Ben Butler and Edgar A. Weston, which have been lightering the sloops and carrying the debris to the Newcastle breakwater, were last week engaged in transporting bricks from Pinkham's yard at Dover point to W. H. Goodwin's place on Cutts' island, Kittery.

At York beach some of the bathers wear red caps. The fashion has not extended to the water, which still sports the white caps as last season.

THE PRESIDENT'S FLAG.

So there is nothing new about this "President's flag" after all. A correspondent writes us that President Frank Pierce went from Portsmouth, N. H., to Washington in the United States steamer Wabash, and that ship, during the trip, carried a "presidential flag." Commodore Paulding was in command.—*Boston Herald.*

The "President's flag" recently flung to the breeze from the "Dispatch," has been much criticised by the æsthetic, and consequently the plurality of executives in the department deny, individually, the "design." The president, however, says some one in the bureau of navigation got it up, and it is attributed to "a bald-headed lieutenant-commander." — *Nautical Gazette.*

A correspondent, formerly an officer in the navy, writes us that "when the U. S. S. Wabash left this harbor with President Pierce on board, she had flying at the main a blue flag bearing some 'strange device;' what flag it was I cannot say, as I was not near enough to make out the design; but it was not the 'jack.' During the late war, when the president was on board a national ship the fact was indicated by an ensign at the main; but this was not the case in Pierce's day. I distinctly remember that the New York papers, in their accounts of President Pierce's trip, made special mention of the hoisting of the presidential flag 'for the first time.' It seems strange, when so many comments were made by the press on the adoption of the 'new flag,' that not a paper or writer should have had a word to say about the 'old' presidential flag until after the CHRONICLE had told all about it."

THE CONGRESSIONAL NOMINATION.

The Newmarket *Advertiser* of the 26th inst. published a list of republican candidates for nomination for Congress from this district. The list is divided into two parts, the names of Calvin Sanders and Benjamin F. Prescott being on one side of the line, and those of J. Horace Kent, Andrew H. Young, Martin A. Haynes, Alonzo Quint, Charles M. Murphy and Emmons B. Philbrick on the other. The *Advertiser* speaks of Sanders and Prescott as "the two *bona fide* candidates," unceremoniously throwing all the others overboard as not worth a thought in this connexion. It says of Sanders that "He is a well read lawyer, and well informed in politics; probably has no superior in a knowledge of the politics of his native state. He has the confidence and respect of the people wherever known, and if nominated, as he probably will be, will make a stirring and enthusiastic canvass, and sweep the district with an overwhelming majority." Of Prescott it says: "After the first ballot in the coming convention, he will be supported by a number of paper colonels and one ex-minister, who will withdraw their names and carry over to his support as much of their following as it is possible for them to do." From all which we infer that the *Advertiser* does not favor the nomination of Col. A. H. Young of Dover, but does strongly favor the nomination of Calvin Sanders of Durham.

LIFE INSURANCE !

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Isles of Shoals.

Appledore and Oceanic HOTELS.

THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Jones' wharf, near the foot of Deer street, for these favorite and widely-known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.

LAIGHTON BROTHERS & CO.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well-ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledged professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

Probabilities for New England:—

Cooler generally fair weather, light variable winds, slight change in barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 58 degrees above zero.

Sky clear.

THE CHIMES.

Many hundreds of people from all parts of the city were on the streets at the west end between eight and nine o'clock, Sunday evening, to listen to the ringing of the Christ church chimes by Mr. E. A. Tilton. Whether or not Mr. Tilton ever had any previous experience at chime ringing we do not know, but presume he must have had. It was amusing to us to hear the various comments made by the listeners. We heard one man remark that he had as lief hear a gang of Churchhill boys perform on tin pans and fish horns, and another wondered "if they couldn't play tunes!" Another man called the chiming an "infernal clatter," while a lady impressively pronounced the music "just heavenly." For our own part, we are not inclined to go to either extreme; we enjoyed the chiming much, but one or two of the smaller bells sounded rather tin-panny, and one of them we thought was sharp; while the big one, 'way down at the bottom, seemed to give a tone of different quality from the rest, as though a flute solo should be finished by a note on a trombone. But until the chime gets fairly into use we suppose no just criticism can be made.

TEMPLARS' VISIT.

Hugh de Payens Commandry, Knights Templar, of Melrose, Mass., will visit Portland, Me., on Monday, Sept. 4th, remaining there until Tuesday afternoon, when they will start for this city via Boston & Maine and Concord & Portsmouth railroads. They will arrive in this city at about 5:30 o'clock, and will be met at the Concord station by DeWitt Clinton Commandry of this city, with the Dover cornet band, and escorted through Deer, Market, Congress, Islington, Cabot, Middle, Court, Pleasant, State and Middle streets and Miller avenue to Highland street, where Hugh de Payens Commandry will take barges to the Wentworth house, Newcastle, and DeWitt Clinton Commandry will then return to their asylum.

WOODS FIRES.

An alarm of fire was sounded between three and four o'clock Monday afternoon, occasioned by a fire in the woods in the vicinity of Henry S. Hartshorn's place near Sagamore bridge. Kearsarge engine was sent down, and worked three hours and a half wetting down Mr. Hartshorn's buildings, and around them.

Shortly after eleven o'clock another alarm was given, Mr. Hartshorn having brought up the tidings that a fire in James' woods, on the west side of Sagamore road, was getting dangerously near the buildings of Mr. Albert Shedd, nearly opposite Mr. Hartshorn's place. There was unnecessary delay in giving the alarm, but Col. Sise engine was finally despatched to render aid. A fireman who returned about one o'clock Tuesday morning reported that the fire was found to be in Hall's woods, on Jones' avenue; that no water was to be had, and the firemen were fighting the flames with green boughs.

THE STEAMBOATS.

The steamer Startled Fawn visited this port on Friday last with an excursion party from the Merrimac, and came in again on Sunday, taking a look at the Shoals on her return.

The City of Bangor had but a small number of passengers on her Saturday evening excursion, the marked coolness of the evening being against her. A large crowd of people assembled on the wharf to see her start, but not even the good music of the Sawyer's Mills cornet band could toll them on board. Had the evening been as sultry as several previous ones that week, she would have had all the passengers she wanted.

The steamer Mystic, as usual, had a large number of passengers on her Sunday trip to the Shoals with the mails and papers. She will only make one more of these popular trips this season, as the hegira of summer guests has already commenced at the Shoals as well as at the beaches. On her return, last Sunday, she had many more passengers than she took out, including the *Times* reporter and two other Portsmouth gentlemen, who boarded her some time after she left the islands, from the steamer Startled Fawn, the latter being outward bound.

The mammoth excursion steamer Empire State, with probably 1200 people on board, made a trip from Boston to the Shoals on Sunday, steaming in to the westward of White island ledge, and out between White and Star islands.

The steam yacht Gypsy on Sunday made several trips to the Shoals from Newcastle, with guests of the Wentworth hotel.

The steamer Naumkeag, Capt. Marr, on Sunday supplied the lighthouse at Whalesback with 1500 gallons of Portsmouth aqueduct water.

Three schooners abreast were towed up from below to the draw of Portsmouth bridge by the tug Ann, Monday.

The steamer Fearless was on Monday engaged to take out an excursion party from the Ocean Wave hotel at Rye beach, Monday evening.

MARRYING BY WHOLESALE.

Acting on advices sent by the police authorities of Haverhill, Mass., Sheriff Kent on Sunday last arrested, in South Newmarket, a man who is alleged to have several aliases, his names so far as reported being as follows: William Willis of South Newmarket, William Frost of Derry, and Augustus Peabody of Danvers, Mass. He is charged with being equally well provided with wives, having one from the state of Maine, one from Windham, N. H., and one belonging in Massachusetts; and it is at the instigation of the latter, at present of Danvers, Mass., that the much-named and much-married man had been arrested. He makes a general denial of the charges.

A GOOD ROUND TRIP.

The schooner Cocheco, formerly of this port, Capt. R. H. Seaward of Kittery commanding, arrived at Albany, N. Y., Aug. 19th, from Hallowell, Me., with stone for the state capitol, at $2.25 per ton; and sailed from Albany for Wareham, Mass., Aug. 26th, with pig iron at $1.75 per ton. Capt. Seaward keeps the Cocheco moving, and we believe is making her pay her present owners even better than she did her former ones.

DEATH OF E. A. H. BACHELDER.

Mr. Elbridge A. H. Bachelder, who resided at Cambridgeport, Mass., fell from the platform of a Main street horse railway car on Monday forenoon while in a fit, and was terrible mangled by the wheels of the car, both legs having been run over. He was taken to the Massachusetts General hospital, and survived but a few minutes after reaching the hospital. Mr. Bachelder was for many years baggage-master on the Eastern railroad, and afterwards established Bachelder's baggage express, which has proved of such service to patrons of the Eastern road. He was a native of North Hampton, and a brother of Mrs. E. G. Adams of this city. He at one time kept the newspaper and confectionery store in this city now occupied by Moses Brothers, and was widely known as an excellent business man. His former associates in the employ of the Eastern road will cherish his memory, with no small degree of regret at his death. Several years ago he was injured by an accident on the road, and ever since has been in impaired health; but he was an active, industrious and hard-working man, and was not willing to give up his daily pursuits. His age was sixty years.

ACCIDENTS.

A boy ten years old, son of John S. Wendell, Jr., fell off a fence on Sunday, and broke one of his arms in two places.

One day last week the coach which runs from Little Boar's head and Rye beach to this city, to connect with the Shoals boat and the railroad stations, took a party from the beach to York; and in the evening, when nearly home, being just over the North Hampton line near the Rye fish houses, one of the forward wheels of the coach dropped into a ten-inch-deep cradle hole in the road, the violence of the shock throwing a lady passenger from the top of the coach, completely over the driver's head. The lady (a sister of Mrs. C. A. Stott of Little Boar's head) fortunately struck on a comparatively soft place beside the road, or she would have been killed; as it was she was taken up insensible, and it was feared her injuries would prove serious. The driver of the coach says the hole in the road was carefully filled up before daylight next morning.

A good audience greeted Miss Kate Claxton and her company at Music hall, Monday evening, in "The Two Orphans." Miss Claxton's eminence in the profession is deserved, and the drama is one of the best and most skillfully-constructed of its kind.

On Thursday evening, Aug. 31st, in Music hall, the quaint, honest, lovable old farmer, Uncle Josh Whitcomb, will delight all who may be present—and there will be a lot of them there, no doubt.

Hon. Peter Marcy of New Orleans arrived in town on Monday evening, looking as hale and hearty as of yore.

The schooners Emily A. Staples, Triton and D. K. Ham arrived on Sunday, and the J. M. Eaton, Ocean Eagle, G. W. Raitt and James Nichols on Monday,—all belonging to the "brick fleet," all from Boston, and all proceeded up river to load bricks for another trip.

Hon. D. G. Rollins, surrogate of New York, was in town on Monday, and went to Great Falls in the evening train.

SOMETHING EVERY LADY OUGHT TO KNOW.

There exists a means of securing a soft and brilliant Complexion, no matter how poor it may naturally be. Hagan's Magnolia Balm is a delicate and harmless article, which instantly removes Freckles, Tan, Redness, Roughness, Eruptions, Vulgar Flushings, etc., etc. So delicate and natural are its effects that its use is not suspected by anybody.

No lady has the right to present a disfigured face in society when the Magnolia Balm is sold by all druggists for 75 cents.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Humanity," as none of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants to help her answer the sixty thousand letters which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It promotes every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headache, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. Pk., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

WHEAT BITTERS.

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation, but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a tonic and blood, to be added the best and choicest medicinal qualities, necessary to make a tonic and blood former. It is not once healthful, pleasant to the taste and must not be compounded with the thousand and one cheap and cheap bitters which are sold as cure-alls. Medicine is doubly effective when used with food, as it is to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

A New Steamship Line Projected.

A scheme for establishing a new transatlantic steamship line, which originated among a few capitalists several years ago and which was abandoned upon the failure of Jay Cooke, who was a large subscriber to the stock, has again been revived. The line is to be known as the Great American & European Short Line, its president being Dr. Norvin Green, and its vice-president A. L. Blackman, recently general manager of the Newfoundland Railway company.

It is stated that "A few American capitalists have secured concessions from the Dominion of Canada, and subsidies also, for building a railroad along the straits of Northumberland from Pictou to Oxford. It runs along about six or eight miles back from the coast, and this section will be completed about January 1st, 1884. It forms a cut-off from the line which branches off from Truro, and makes a better route than the one built at the instigation of the English government as a military line to Halifax, about the time of the Trent affair. There is a great deal of anxiety expressed in Newfoundland and Nova Scotia for the building of main lines in those provinces, and really the business interests demand it. This will depend somewhat upon subsequent legislation, but there is no doubt that the time is not far distant when we shall have continuous railroad transportation from all parts of the country to some point on the eastern coast of Newfoundland, and steamship communication from there to the western coast of Ireland. The distance across would be only about 1,640 miles, or less than a four-days' trip with some of our fastest transatlantic steamships. The distance from interior and western points to Europe will be so much less by the new route that the time of transit will be shortened from two to four days."

The route by the new line from New York would be by existing railroads from New York by way of Boston, Bangor, St. John, N. B., to Oxford, N. S., thence to New Glasgow, and from there by the Halifax & Cape Breton railroad to the straits of Canso. The route will then extend to Cape North, 120 miles distant, across the narrows of St. Lawrence, fifty-six miles by steamer, and then across Newfoundland, 320 miles by rail. The terminus in Ireland will be near the port of Galway. From that point there is a continuous rail line to London.

The lease of the European & North American line to the Maine Central is part of this project, and ere long we may expect to see a large share of the summer travel to Europe pass over the Eastern railway en route to take ship at the easternmost port of this continent available for that purpose.

Edward M. Welch, one of the Kewanee, Ill., bank robbers, has been arrested at Chenango, N. Y. He was travelling for a Boston fish house, and had nearly $5000 in his possession when arrested. He hails from Independence, Iowa.

George W. Griffin of East Hardwick, Vt., clerk for F. C. Williams in Coventry, took morphine on Friday, and died that night. He was twenty years of age, and confessed to the doctor that he had taken first a teaspoonful and later a tablespoonful of the poison. He said he wanted to die, and that the girl whom he loved, naming one at St. Johnsbury, would be dead as soon as himself, as they had planned to take poison at the same time.

Lyman D. Ware's house at Walpole, Mass., was burned on the night of Aug. 26th. Loss $2500; insurance $1000. George L. Ware and Calvin W. Gay, two young men, were burned to death.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy the Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unknown. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines.*

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

For Revenue Service on the Lakes.

The steamer Bibb, of the revenue marine service, has sailed from New York, where she has been for some time taking in coal and stores, for Detroit, Mich., where she will take the place of the Fessenden for lake service. The latter vessel is ordered to New York. The Bibb will take a roundabout way in reaching the lakes, first going to Halifax, thence around Cape Breton into the Gulf of St. Lawrence, and up the St. Lawrence river into Lake Ontario, thence into Lake Erie and to Detroit. Her principal officers are: Captain L. A. Shepard, commander; Lieutenant A. D. Littlefield, executive officer and navigator; Lieutenant Benham; Chief Engineer, Daniel Kelly; First Assistant Engineer, J. T. Kelcher.

Mr. J. Levett, 67 Market street, Lynn, Mass., was cured by St. Jacobs Oil of a very severe attack of rheumatism in three days.

Patrick Casey, an elderly man, was riding on horseback at Bennington, Vt., Aug. 26th, when the horse balked on a railroad crossing, and a train killed man and horse.

Are you troubled with such symptoms of dyspepsia as belching, tasting of the food, heart-burn, etc.? Brown's Iron Bitters will cure you.

A young man named Dumas, from Boston, was fatally wounded at Bristol, Vt., Aug. 29th, by the accidental discharge of his rifle as he was climbing a fence.

The Height of Folly.

To wait until you are in bed with disease you may not get over for months, is the height of folly, when you might be easily cured during the early symptoms by Parker's Ginger Tonic. We have known sickly families made the healthiest, by a timely use of this pure medicine.—*Observer.*

Good Words from Druggists.

Malt Bitters are the best bitters. They promote sleep and allay nervousness Best liver and kidney medicine we sell. They knock the 'chills' every time. Consumptive people gain flesh on them. Malt Bitters have no rivals in this town. Best thing for nursing mothers we have. We like to recommend Malt Bitters.

The wheat harvest in Minnesota is nearly completed; the yield in all cases is fully up to, and in many cases above, the estimate, which at one time seemed extravagant. The corn crop promises to be very heavy, and two weeks more of good weather will put it out of the way of frost.

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil one few moments, add a piece of butter and return the oysters to heat, but not boil.

Mrs. J. M. Stratton shot her husband and then herself at Leland, Ill., Sunday night.

The great popular remedy of the day, for Coughs, Colds, Asthma, and all lung difficulties, is Adamson's Botanic Balsam. Inexpensive, reliable, pleasant to take, cures as by magic, and gives universal satisfaction. A trial is the best testimonial. Price 35 cts. Trial size, 10 cents.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Darr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood Diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Sad Accident.

Mr. Oscar Craigg Blown up by a Premature Blast in the Rosendale Cement Quarry—Destruction of an Eye—Its Subsequent Removal by Surgical Operation.

Mr. Oscar Craigg was foreman in a cement quarry at Rosendale, Ulster Co., N. Y. By an explosion one day in the quarry he lost an eye—lost it totally. Under the impression that the matter was less serious the local physician told Mr. Craigg that his eye was not lost wholly, but could be saved by treatment. The experiment was tried and failed. Worse remained behind, for he was in danger of losing the other also, through sympathetic inflammation. In this strait he consulted Dr. David Kennedy, of Rondout, N. Y., who told him the injured eye must be taken out to save the other. To this Mr. Craigg demurred, and went back home in doubt. His local physician said: "Go to New York." To New York the patient went, and one of the most eminent oculists in the country, having looked at the case, said: "You have lost one eye entirely; go back and do what you can to save the other." Briefly, Dr. Kennedy removed the ruined eye and treated Mr. Craigg with "Kennedy's Favorite Remedy" to build up the system, and the result was successful.

Dr. Kennedy's great success as a Surgeon is due to the use of "Favorite Remedy" in the after treatment.

Are you troubled with Dyspepsia, Liver Complaint, Constipation or derangement of the Kidneys and Bladder? then use Dr. Kennedy's "Favorite Remedy." It will not disappoint you. Dr. Kennedy's "Favorite Remedy" for sale by all druggists.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. The Corean Insurrection.

The reports of the insurrection in Corea are confirmed. The rising was occasioned by the opposition of the natives to foreign intercourse, and the trouble was fomented by the Chinese minister. Nearly all the Japanese in the country were massacred. The king's life was spared, but the queen, and the heir to the throne and his betrothed wife, the latter two being children, were forced to swallow poison; thirteen ministers of state were slain. A Japanese fleet has been despatched to the scene of disorder, and troops have been gathered to await the development of affairs. A telegram from the navy department at Washington has been received by Admiral Clitz, commanding the United States naval force in Asiatic waters, announcing that Commodore Shufeldt's treaty with Corea has been rejected, requesting that a ship of war be sent to Corea, and stating that Mr. Young, the United States envoy to China, would assume diplomatic control of the question.

The War in Egypt.

Advices from Egypt are somewhat contradictory. It was reported on the 27th that on the previous day the British attacked the position at Tel-et-Mabuta with infantry, cavalry, and artillery, but were met with a destructive fire and driven back; but the official despatch of the British commander made it appear that the Egyptians were the ones who suffered.

Gen. Wolseley on the 28th telegraphed from Ismailia as follows: "I have just returned from the outposts, and find that our actions on Thursday and Friday had far more important results than I was aware of yesterday. The enemy were completely routed and fled toward Zagazig, throwing away their arms and accoutrements. A very large amount of camp equipage and munitions were captured. Mahmoud Fehmy, Arabi Pasha's chief engineer and military adviser, is now a prisoner in my camp."

The London *Times* despatch from Alexandria says: "Abdel Rasek and four other staff officers have escaped from Arabi Pasha. They were well received by the khedive. It appears that they have been for some time in communication with the khedive through members of Gen. Stone's family. They were entrusted by Arabi Pasha with the defence of Tel-el-Kebir, but abstained from making earthworks. Fehmy, the chief officer attached to Arabi's staff, who was captured by the British at Maksameh, it is reported states that Arabi's position at Tel-el-Kebir is not very strong, he having but a few earthworks thrown up. A son of Fehmy's was also captured at Maksameh. Both prisoners have been sent to the khedive."

On the night of the 28th an attack was made on the British position at Kassasin, and was repulsed with heavy loss. The British loss was 150; they captured eleven guns.

Foreign-Born "Cattle."

In reply to a remark in the Bangor (Me.,) *Commercial* stigmatizing certain foreign-born men who went from Aroostook to Bangor to become naturalized, as "cattle," the Aroostook *Republican* says: "Every Swede that went to Bangor last week to be naturalized was able to sign his name to the necessary papers. They are men of intelligence, sober, honest and industrious, not 'cattle.'"

The *Republican* does not take the correct view of the matter. These Swedes, being men of more than ordinary intelligence and education for foreigners, will probably vote the republican ticket; hence of course they are "cattle." If they had been of the ignorant and unthinking class that only dares vote as the democratic leaders command, they would have been "noble American citizens of foreign birth," the "bone and sinew" of the country, and other nice things.

News and Notes.

The funeral of Mrs. Lydia Cheesebro, aged ninety-two years, took place Sunday at the Baptist church in Stonington, Conn. After the service, Capt. Rev. C. H. Kimball, a native of Hopkinton, and recently of Grace church, Philadelphia, has accepted a call to the First Baptist society of Manchester, as the successor of Rev. W. H. Leavell.

Charles Wade, hailing from Boston, hired a horse and buggy of Mrs. George Burleigh of Meredith, Aug. 26th. He went to Loudon and sold the same to Felix Deetle, and left for parts unknown.

Charles McCloud and Charles L. Eldridge, in jail at Laconia, awaiting trial for breaking and entering and stealing cattle respectively, recently attempted to gain their liberty by making saws of table cutlery, but were discovered by the jailer and placed in close confinement.

Naval Affairs.

The steamer Despatch broke down in her machinery at Newport ont he 29th, as she was getting ready to take the president to Block island. It will take three days to repair damages.

The brickyards of John Mathes and Eli Rose, at Sturgeon creek, Eliot, have knocked off work owing to a lack of water. Brick making at Maria V. Raitt's yard at Eliot has ceased for the season, the kiln-yard being filled with new bricks; at this yard burning will commence immediately, and when completed the active operations of the yard will be ended for the year.

Eva Briggs of Lawrence, Mass., who was claimed to have been relieved of the hip disease, recently, by the "faith cure" at Old Orchard, was taken to the Danvers (Mass.) insane asylum on Monday in a crazed condition, owing to religious excitement.

Notice to Mariners.

Entering or leaving Vineyard sound to the eastward, vessels should keep to southward of line joining Pollock Rip and Shoveltul lightships.

The shoal marked by red and black horizontal striped buoy, to the northward and eastward of Shoveltul lightship, has grown considerably in a northerly and southerly direction, and has but fourteen feet on it at low water. Steering so as to pass a cable's length to southward of the two lightships leads clear of all danger.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and ensures a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from lassitude and weariness, the result of disease, over-study, or nervous toil, derive substantial benefit from its use, both in bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither pals upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the sickness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial stimulative—and especially those who are inclined to Consumption—will find this preparation admirably suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion, to promoting foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and a facsimile of his signature, as well as that of A. YOUKLEN & CO., BALTIMORE, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

HOTELS.

THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Jones' wharf, near the foot of Deer street, for these favorite and widely-known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.

LAIGHTON BROTHERS & CO.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well-ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledged professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

A special meeting of the New Hampshire Society for the Prevention of Cruelty to Animals was held on the 22d inst., to receive the report of the state agent for the last quarter.

Report was made of aid offered the agent in the prosecution of his work, and thanks were voted to various persons for services rendered.

Mrs. Pickering reported the gift of $25 from Philip G. Peabody, Esq., of New York, and the thanks of the society were voted to him.

Several complaints were received and ordered to be investigated.

The following is a summary of the cases of cruelty which have received the attention of the agents of the society, and the work they have performed in its cause, since their quarterly report made to the directors in May:

Cows starved to death	10
Horses " " "	2
Calves " " "	2
Hog " " "	1
Horses killed by abuse	2
Horse severely burnt	1
Horses beaten cruelly	12
Horses overdriven	8

THE STOLEN BOAT FOUND.

Mr. George Scott on Tuesday received a letter from a Mr. Freeman of Cape Neddick, York, informing him that the whaleboat stolen from Mr. James Hooper of this city on Friday night of last week by the sailor "Pete" and his pal, was found near the place of Henry Weare, some distance up Cape Neddick river from its mouth, having evidently been run ashore and abandoned by thieves. Her garboard strake on one side was split, but she appeared to be otherwise uninjured.

REPUBLICAN RALLY IN YORK COUNTY, ME.

There will be a grand republican mass meeting at Old Orchard, in the tabernacle on the Methodist camp-ground, Thursday, Aug. 31st, at two o'clock in the afternoon. Speeches will be made by Hon. James G. Blaine, Gen. W. H. Gibson of Ohio, and others; several bands of music will be in attendance. Half-fare from this city and Kittery on the railroad, on regular trains; return train will leave Old Orchard about six o'clock P. M.

The democrats of ward two hold their delegate caucus in the court house this (Wednesday) evening.

A solid wharf is being built in the rear of F. Jones' office on Market street, large stones taken from the former Sheafe estate, corner of Deer and Market streets, being used for the purpose. Mr. Daniel Littlefield is supervising the work.

Grand Master F. A. Rawson, of Newport, visited Piscataqua Lodge, No. 6, I. O. O. F., of this city, on Monday evening of this week.

The largest potato that we have seen this year, raised in this vicinity, was sent in to our office on Tuesday by Pearson Brothers, grocers, having been brought in to them that day in a lot from York. We do not know how much it weighed, but it would be called a big potato in any season; this year and in this section, it is immense—or was immense, for we ate it for our supper that evening.

The democratic caucus in ward three, for the choice of delegates to the several conventions, will be held in the ward room on Thursday evening, Aug. 31st. The democrats of ward one will hold their caucus on Friday evening.

The Newburyport *Herald* says: "Mrs. Wm. E. Crockett, Jr., wife of the young man who was killed on the Eastern railroad about a year ago, has been presented with $500 by the Eastern railroad company, in whose employ her husband was at the time of his death."

The hotel building at Appledore island will this fall be painted a sea-green on the sides, with dark red roofs, to match the cottages on the island.

The schooner Clara E. Simpson, Swett master, arrived at New York on the 28th inst., having made the run from this port in forty hours.

A lady living on Richards avenue last Monday counted the teams that passed her residence between three o'clock and five in the afternoon, and found the total to be one hundred and sixty-four.

Wm. B. Keen, Esq., the extensive carriage manufacturer of Malden, Mass., was enjoying himself on the 27th inst. by taking a sail on the Piscataqua and outside the harbor in his well-known pleasure boat. What the name of Mr. Keen's boat is this year we do not know; she changes her name oftener than a married woman in Indiana, having at different times been the "Spring Chicken," "Cock Robin," "The Real Boss," and several other boats. Last year she was "Turtle" on one side and "Dove" on the other.

Hon. F. Jones has returned from his trip to the British provinces.

The schooner Mary Willey, Williams master, on her last trip to Bangor was caught in the tornado which did so much damage to houses, trees, etc., in Bangor and Brewer, Me. At the time of the blow she was lying at the wharf in Bangor, light, in four feet of water, the bottom being soft mud; tackles were got out from the mastheads to the shore, and the schooner only listed about a strake; a few treenails were started, but were driven back and re-wedged, no other damage being sustained. The Mary Willey was on Tuesday taking aboard about 40,000 feet of lumber from John H. Broughton, for a summer residence to be put up on Raynes' neck, York, for Prof. Ames; and she sailed at a late hour in the afternoon for York harbor. After discharging her cargo of lumber she will proceed to Portland, take on a cargo of corn for Bangor, and at the latter place load lumber for this port.

A drain leading from the building on Market street occupied as a store by James Junkins was on Monday opened by Dennis Shea, it having become clogged. The trouble was found to be occasioned by coal, which had completely filled the drain some distance from the outer end, and is supposed to have been carried in from the dock by the tide.

Mr. Lemuel B. Caswell came in from Smuttynose island, Isles of Shoals, Tuesday. He reports that some mackerel, and accasionally fair catches of bait, have been taken by the gangs fishing from Smuttynose and Lunging islands, but says the lack of rain has seriously interfered with the success of the season's work! We never before heard that a drought affected the fish crop, but Mr. Caswell asserts that in rainy weather the various kinds of school-fish swim near the surface, where they can be easily caught, whereas in long-continued dry weather they swim deep, below the reach of gill-nets or seines.

The hill on Lafayette road between Sagamore creek and the gravel pit is badly pitted with cradle holes, necessitating careful driving unless the driver is willing to have his neck or the spokes of a wheel dislocated.

A house in Stratham owned by George Wingate, and occupied by William Kirkewood, a hired man, was burned a few nights since, the occupants losing everything. It is supposed the fire was of incendiary origin. The house was partially insured.

Mr. Theodore Robinson and son, of York, on Monday dug potatoes half the day, and the entire produce of their industry was carried into the house in a straw hat! And the hat wasn't heaped up, either.

Gen. Wm. H. Gibson of Ohio, who is anounced to address the mass meeting of York county republicans at Old Orchard on Thursday afternoon, Aug. 31st, is said to be superior even to Col. "Bob" Ingersoll as a stump speaker. Two such speakers as Gibson and Blaine are not often heard at the same meeting.

Mr. George Simpson, of the Scotland district, York, on Tuesday drove into Portsmouth a pair of Black Dutch oxen, five years old and in working condition, and weighing 3500 lbs. on the hoof; they were shipped on the Eastern railroad from this city to Rockport, Mass., Mr. Andrew Lane of that place having purchased them for $210.

Messrs. Simpson and Coburn, two gentlemen of Manchester, N. H., who have spent a portion of the heated term in York, recently espied a seal in York river, and after an exciting chase of two hours captured the "varmint;" but he isn't good for anything in particular now that they have got him, and about the only real service they can put him to will be to take him up to that backwoods village where they live, and put him on exhibition as a State o' Maine woodchuck.

There was a very large picnic party from Eliot at York beach on Thursday last.

Say, maiden, with the raven hair,
So beautiful and lithe and tall,
With eyes so bright and cheeks so fair,
Why let your teeth destroy it all?
For they are dark, and feel the want
Of a soft brush and SOZODONT.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtJan82

Louisville a Fortunate City.

This city has been singularly fortunate, as several citizens have of late gotten small fortunes in drawing prizes in the lottery. The last fortunate one is Mr. Wm. W. Irwin, a clerk in the Auditor's Office of the L. & N. R. R., 2d and Main sts. Mr. Irwin yesterday, while working in the office, received an official looking document bearing the N. O. post-mark, and discovered, to his great joy, official notification that he had drawn one-fifth of $25,000 in the Louisiana State Lottery, amounting to $15,500. The lucky ticket was No. 85,063. Some time ago Mr. Irwin purchased his first lottery ticket, very nearly the number which then drew the capital prize. He then thought he would try again, and this time produced such golden results. Mr. Irwin is a middle-aged man, married, and has a small family. He has been connected with the L. & N. for several years, and has been a faithful worker, and many friends are profuse in their congratulations.—*Louisville Courier-Journal, July* 14.

SOMETHING EVERY LADY OUGHT TO KNOW.

There exists a means of securing a soft and brilliant Complexion, no matter how poor it may naturally be. Hagan's Magnolia Balm is a delicate and harmless article, which instantly removes Freckles, Tan, Redness, Roughness, Eruptions, Vulgar Flushings, etc., etc. So delicate and natural are its effects that its use is not suspected by anybody.

No lady has the right to present a disfigured face in society when the Magnolia Balm is sold by all druggists for 75 cents.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

This above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," because of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purpose. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. It cures all those painful ailments of which women complain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice received in confidence, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (Q) Mrs. A. M. D.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which, from the cradle to the grave, make and mar life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Outrageous Irreverence.

It is not of much use for the Concord philosophers to be pondering upon "the thingness of the here," when a Chicago young man of a practical turn of mind comes around determined to get away with all the "thingness" that they possess. If the swindler should be caught he might be condemned to listen to one of Mr. Alcott's sonnets, a philosophical essay by Prof. Harris, a literary paper by Mr. Sanborn, with a promiscuous discussion by all the faculty and members of the school, all in one afternoon. Come to think of it, however, that would be unconstitutional, for there is a very fortunate provision in our state constitution that forbids the infliction of "cruel or unusual punishment."—*Boston Post.*

"Slow and steady wins the race." Steadily, but not slowly, Kidney-Wort is distancing all competition for universal popularity and usefulness. This celebrated Compound can be obtained in the usual dry vegetable form, or in liquid form. It is put up in the latter way for the especial convenience of those who cannot readily prepare it. It will be found very concentrated and will act with equal efficiency in either form. Read advertisement.

—"Mamma, dear," said a New Haven girl just in the flush of womanhood, "I have something to tell you. George has proposed and I have accepted." "My child, I cannot think of you thus disgracing yourself. George is not a suitable match for you. Besides, this would make him one of the family, and he would pay no more board." Thus will be seen the incompatibility of a boarding-house girl falling in love with one of the boarders.

Highly Esteemed.

The youthful color and a rich lustre are restored to faded or gray hair by the use of Parker's Hair Balsam, a harmless dressing highly esteemed for its perfume and purity.

—"No drive-money has the drive-guest to pay, if to him not at the mounting of the droschke, the valid drive-tickets on hight of the for a simple drive to be paid drive-money by the coacher adownreached become are," is the lucid announcement placarded up in the public carriages at Berlin.

Dyspepsia, flatulency, distress after eating, cramps and pains, diarrhœa, dysentery, no appetite or strength, debility and loss of sleep, demand an immediate use of Sanford's Ginger.

—Master Jack: "It must be very jolly to be pretty, like you, mamma." Mamma (anxious to improve the shining hour): "It is better to be good, Jack." Master Jack: "Ah! but if you're pretty people think you're good, and that's easier than having to be really good, you know."

Where appetite's fierce raging fire
Tends human misery to promote
And burning fluids feed desire,
Poured down the incandescent throat;
Then Sanford's Ginger quells the blaze,
And craving appetite allays.

—A challenge: I hear a great deal about the elephant Jumbo and his enormous strength. As the president of the leading oilymargarine manufacturing company in America, I challenge Mr. P. T. Barnum to back his elephant for strength against half a ton of oilymargarine of my manufacture, for $2,500 a side.

A Difficult Problem Solved.

The desire for stimulants is becoming a monstrous evil and how to overcome it is a serious question with reformers. Parker's Ginger Tonic fairly solves the difficult problem. It invigorates body and mind without intoxicating, and has brought health and happiness to many desolate homes.—*Enquirer.* See another column.

—A Milwaukee woman has kept a kettle of boiling water on the stove every night for the past twenty-two years in order to scald burglars.

—"Suffering sisters," exclaimed the speaker, energetically shaking the hair pins from her head in her excitement, "women will never obtain their rights until they display more courage. Let me say to you, in the words of a famous French orator, "Courage! courage! courage!" At this stage of the proceedings somebody threw a box of catterpillars upon the platform and the meeting broke up in great terror and confusion.

Remember! Glenn's Sulphur Soap presents all the advantages of sulphur baths at a cheap rate.

"Hill's Hair and Whisker Dye," 50c.

Physicians prescribe Colden's Liquid Beef Tonic for the weak, worn, and dyspeptic; no other.

—A writer for the New York *Herald* was talking with a few fellow journalists the other day and said: "Not long ago Mr. Connery, our managing editor, was summoned as a witness in court. Mr. Beach called him and said: 'You will be asked what position you occupy here. Say that you are a clerk. I am the editor of the *Herald*, and the only editor.'"

The digestive organs weakened and worn out by using cathartic medicines, restored by using Brown's Iron Bitters.

Summer Complaints

At this season, various diseases of the bowels are prevalent, and *many lives are lost* through lack of knowledge of a safe and sure remedy. PERRY DAVIS' PAIN KILLER is a *sure* cure for Diarrhœa, Dysentery, Cholera, Cholera Morbus, Summer Complaint, etc., and is *perfectly safe.*

Read the following:

BAINBRIDGE, N. Y., March 22, 1881.
PERRY DAVIS' PAIN KILLER gives *immediate and instant relief* for cramp and pain in the stomach.
JOSEPH BURDITT.

NICHOLVILLE, N. Y., Feb. 3, 1881.
The very best medicine I know of for dysentery, cholera morbus, and cramps in the stomach. Have used it for years, and it is *sure cure* every time.
JULIUS W. DEE.

MONROONA, IOWA, March 12, 1881.
I have used your PAIN KILLER in severe cases of cramp, colic and cholera morbus, and it gave almost instant relief.
J. E. CALDWELL.

CARNESVILLE, GA., Feb. 26, 1881.
For twenty years I have used your PAIN KILLER in my family. Have used it many times for bowel complaints, and it always cures. Would not feel safe without a bottle in the house.
T. J. HACO, M.D.

ALBION, ME., Jan. 21, 1881.
Have used PERRY DAVIS' PAIN KILLER for twelve years. It is *safe, sure, and reliable.* No mother should allow it to be out of the family.
H. T. NAYES.

ONEIDA, N. Y., Feb. 18, 1881.
We began using it over thirty years ago, and it always gives immediate relief. We will hardly dare to go to bed without a bottle in the house.
W. O. SPERRY.

CONWAYBORO, S. C., Feb. 22, 1881.
Nearly every family in this section keeps a bottle in the house.
TH. E. MONTON.

U. S. CONSULATE,
CREFELD, RHENISH PRUSSIA, Feb. 8, 1881.
I have known PERRY DAVIS' PAIN KILLER almost from the day it was introduced, and after years of observation and use I regard its presence in my household as an *indispensable necessity.*
T. S. POTTER, U. S. Consul.

BUNGO-TERRE, ENG.
I had been several days suffering severely from diarrhœa, accompanied with intense pain, when I tried your PAIN KILLER, and found almost instant relief.
H. J. NOOKE.

21 MONTAGUE ST., LONDON, ENG.
During a residence of twenty-three years in India, I have given it in many cases of diarrhœa, dysentery, and cholera, and never knew it to fail to give relief.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursor of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I gain no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

A Put-Up Job.

Edward N. Welch, who was arrested in New York for robbing the First National bank of Kewanee, Ill., has made a confession, stating that Dr. J. S. Scott of St. Louis, formerly a resident of Kewanee, planned the robbery, though he took no direct part in it; that Pratt, the acting cashier, was a party to it; and that instead of a large sum in gold, which is missing, being carried away with the other money, Pratt carried it off the previous day. Welch refuses to give the name of the man who helped him. Welch says that Dr. Scott introduced him to Pratt. Scott is said to be chiefly known in Kewanee as a poker player; he has been arrested.

A despatch from Kewanee says: "Great excitement exists over the arrest of Pratt, cashier of the First National bank, on a charge of complicity in the recent robbery in which thieves got away with $20,000. The arrest has just been made, and the detectives claim to have plenty of evidence to sustain the charge. Pratt was not suspected at first, but the more the detectives hunted for clues the more they became convinced that Welch and his accomplice had inside help; that the valise being left at the bank, the subsequent call for it, and the locking up of the cashier and his assistant, Miss Harris, in the vault, were all prearranged. The detectives feel confident of being ultimately able to recover all the money stolen. A valise containing $300 of the stolen money was found in a corn field near Kewanee."

New Hampshire Items.

A large number of operatives are thrown out of work, and the business interests of the town are considerably injured.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. F. KIMBALL,

Sad Accident.

Mr. Oscar Craigg Blown up by a Premature Blast in the Rosendale Cement Quarry—Destruction of an Eye—Its Subsequent Removal by Surgical Operation.

Mr. Oscar Craigg was foreman in a cement quarry at Rosendale, Ulster Co., N. Y. By an explosion one day in the quarry he lost an eye—lost it totally. Under the impression that the matter was less serious the local physician told Mr. Craigg that his eye was not lost wholly, but could be saved by treatment. The experiment was tried and failed. Worse remained behind, for he was in danger of losing the other also, through sympathetic inflammation. In this strait he consulted Dr. David Kennedy, of Rondout, N. Y., who told him the injured eye must be taken out to save the other. To this Mr. Craigg demurred, and went back home in doubt. His local physician said: "Go to New York." To New York the patient went, and one of the most eminent oculists in the country, having looked at the case, said: "You have lost one eye entirely; go back and do what you can to save the other." Briefly, Dr. Kennedy removed the ruined eye and treated Mr. Craigg with "Kennedy's Favorite Remedy" to build up the system, and the result was successful.

Dr. Kennedy's great success as a Surgeon is due to the use of "Favorite Remedy" in the after treatment.

Are you troubled with Dyspepsia, Liver Complaint, Constipation or derangement of the Kidneys and Bladder? then use Dr. Kennedy's "Favorite Remedy." It will not disappoint you. Dr. Kennedy's "Favorite Remedy" for sale by all druggists.

SOMETHING EVERY LADY OUGHT TO KNOW.

There exists a means of securing a soft and brilliant Complexion, no matter how poor it may naturally be. Hagan's Magnolia Balm is a delicate and harmless article, which instantly removes Freckles, Tan, Redness, Roughness, Eruptions, Vulgar Flushings, etc., etc. So delicate and natural are its effects that its use is not suspected by anybody.

No lady has the right to present a disfigured face in society when the Magnolia Balm is sold by all druggists for 75 cents.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a lifetime, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound has a medicine for good and not evil purpose. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

WHEAT BITTERS

THE BEST AND The Richest

BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED,
THOROUGHLY TESTED,
ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly presented, the most assimilable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to strengthen it is wise to

BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These Leaks in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Outrageous Irreverence.

It is not of much use for the Concord philosophers to be pondering upon "the thingness of the here," when a Chicago young man of a practical turn of mind couses around determined to get away with all the "thingness" that they possess. If the swindler should be caught he might be condemned to listen to one of Mr. Alcott's sonnets, a philosophical essay by Prof. Harris, a literary paper by Mr. Sanborn, with a promiscuous discussion by all the faculty and members of the school, all in one afternoon. Come to think of it, however, that would be unconstitutional, for there is a very fortunate provision in our state constitution that forbids the infliction of "cruel or unusual punishment."—*Boston Post.*

, "Slow and steady wins the race." Steadily, but not slowly, Kidney-Wort is distancing all competition for universal popularity and usefulness. This celebrated can now be obtained in the usual dry vegetable form, or in liquid form. It is put up in the latter way for the especial convenience of those who cannot readily prepare it. It will be found very concentrated and will act with equal efficiency in either form. Read advertisement.

—"Mamma, dear," said a New Haven girl just in the flush of womanhood, "I have something to tell you. George has proposed and I have accepted." "My child, I cannot think of you thus disgracing yourself. George is not a suitable match for you. Besides, this would make him one of the family, and he would pay no more board." Thus will be seen the incompatibility of a boarding-house girl falling in love with one of the boarders.

Highly Esteemed.

The youthful color and a rich lustre are restored to faded or gray hair by the use of Parker's Hair Balsam, a harmless dressing highly esteemed for its perfume and purity.

—"No drive-money has the drive-guest to pay, if to him not at the mounting of the droschke, the valid drive-tickets on hight of the for a simple drive to be paid drive-money by the coacher adownreached become are," is the lucid announcement placarded up in the public carriages at Berlin.

Dyspepsia, flatuleney, distress after eating, cramps and pains, diarrhœa, dysentery, no appetite or strength, debility and loss of sleep, demand an immediate use of Sanford's Ginger.

—Master Jack: "It must be very jolly to be pretty, like you, mamma." Mamma (anxious to improve the shining hour): "It is better to be good, Jack." Master Jack: "Ah! but if you're pretty people think you're good, and that's easier than having to be really good, you know."

Where appetite's fierce raging fire
Tends human misery to promote
And burning fluids feed desire,
Poured down the incandescent throat;
Then Sanford's Ginger quells the blaze,
And craving appetite allays.

—A challenge: I hear a great deal about the elephant Jumbo and his enormous strength. As the president of the leading oilymargarine manufacturing company in America, I challenge Mr. P. T. Barnum to back his elephant for strength against half a ton of oilymargarine of my manufacture, for $2,500 a side.

A Difficult Problem Solved.

The desire for stimulants is becoming a monstrous evil and how to overcome it is a serious question with reformers. Parker's Ginger Tonic fairly solves the difficult problem. It invigorates body and mind without intoxicating, and has brought health and happiness to many desolate homes.—*Enquirer.* See another column.

—A Milwaukee woman has kept a kettle of boiling water on the stove every night for the past twenty-two years in order to scald burglars.

—"Suffering sisters," exclaimed the speaker, energetically shaking the hair pins from her head in her excitement, "women will never obtain their rights until they display more courage. Let me say to you, in the words of a famous French orator, "Courage! courage! courage!" At this stage of the proceedings somebody threw a box of catcrpillars upon the platform and the meeting broke up in great terror and confusion.

Remember! Glenn's Sulphur Soap presents all the advantages of sulphur baths at a cheap rate.

"Hill's Hair and Whisker Dye," 50c.

Physicians prescribe Colden's Liquid Beef Tonic for the weak, worn, and dyspeptic; no other.

—A writer for the New York *Herald* was talking with a few fellow journalists the other day and said: "Not long ago Mr. Connery, our managing editor, was summoned as a witness in court. Mr. Bennett called him and said: 'You will be asked what position you occupy here. Say that you are a clerk. I am the editor of the *Herald*, and the only editor.'"

The digestive organs weakened and worn out by using cathartic medicines, restored by using Brown's Iron Bitters.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the elite and most elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precusors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

A Put-Up Job.

Edward N. Welch, who was arrested in New York for robbing the First National bank of Kewanee, Ill., has made a confession, stating that Dr. J. S. Scott of St. Louis, formerly a resident of Kewanee, planned the robbery, though he took no direct part in it; that Pratt, the acting cashier, was a party to it; and that instead of a large sum in gold, which is missing, being carried away with the other money, Pratt carried it off the previous day. Welch refuses to give the name of the man who helped him. Welch says that Dr. Scott introduced him to Pratt. Scott is said to be chiefly known in Kewanee as a poker player; he has been arrested.

A despatch from Kewanee says: "Great excitement exists over the arrest of Pratt, cashier of the First National bank, on a charge of complicity in the recent robbery in which thieves got away with $20,000. The arrest has just been made, and the detectives claim to have plenty of evidence to sustain the charge. Pratt was not suspected at first, but the more the detectives hunted for clues the more they became convinced that Welch and his accomplice had inside help; that the valise being left at the bank, the subsequent call for it, and the locking up of the cashier and his assistant, Miss Harris, in the vault, were all prearranged. The detectives feel confident of being ultimately able to recover all the money stolen. A valise containing $300 of the stolen money was found in a corn field near Kewanee."

New Hampshire Items.

The opening of the first annual State Grange picnic and festival at Weirs took place Tuesday evening, Aug. 29th, when addresses were made by several of the New Hampshire patrons, the subject being the growth and developments of the order, its aims and purposes.

A large number of operatives are thrown out of work, and the business interests of the town are considerably injured.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 5, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Sad Accident.

Mr. Oscar Craigg Blown up by a Premature Blast in the Rosendale Cement Quarry—Destruction of an Eye—Its Subsequent Removal by Surgical Operation.

Mr. Oscar Craigg was foreman in a cement quarry at Rosendale, Ulster Co., N. Y. By an explosion one day in the quarry he lost an eye—lost it totally. Under the impression that the matter was less serious the local physician told Mr. Craigg that his eye was not lost wholly, but could be saved by treatment. The experiment was tried and failed. Worse remained behind, for he was in danger of losing the other also, through sympathetic inflammation. In this strait he consulted Dr. David Kennedy, of Rondout, N. Y., who told him the injured eye must be taken out to save the other. To this Mr. Craigg demurred, and went back home in doubt. His local physician said: "Go to New York." To New York the patient went, and one of the most eminent oculists in the country, having looked at the case, said: "You have lost one eye entirely; go back and do what you can to save the other." Briefly, Dr. Kennedy removed the ruined eye and treated Mr. Craigg with "Kennedy's Favorite Remedy" to build up the system, and the result was successful.

Dr. Kennedy's great success as a Surgeon is due to the use of "Favorite Remedy" in the after treatment.

Are you troubled with Dyspepsia, Liver Complaint, Constipation or derangement of the Kidneys and Bladder? then use Dr. Kennedy's "Favorite Remedy." It will not disappoint you. Dr. Kennedy's "Favorite Remedy" for sale by all druggists.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple means by which he will send FREE to his fellows the recipe. Address J. H. REEVES,

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Portsmouth Chronicle.

THURSDAY, AUGUST 31, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The War in Egypt.

Toulba Pasha is dead. He was poisoned, being an objectionable person.

The fight at Kassasin, Aug. 28th, was a sharp one, and lasted from ten in the forenoon until midnight. Arabi's troops were finally driven back, but carried off all their cannons, notwithstanding the British official reports that their repulse was a "rout."

Mahmoud Fehmy, recently captured by the British, says Arabi Pasha has five batteries of Krupp guns and three mounted batteries at Tel-el-Kebir. Mohmoud Fehmy designed the lines at Kafr-el-Dwar and Tel-el-Kebir. All the important telegrams which have fallen into British hands from Arabi Pasha and his chiefs are addressed to Mahmoud Fehmy, who "is regarded as the Nana Sahib of the revolt" by the British.

Naval Affairs.

The Tallapoosa, with Secretary Chandler and party, arrived at Boston on Wednesday of this week.

The navy department is informed of the arrival of the Hartford at Madeira, Monday, Aug. 28th, from Boston. The Hartford is to be the flagship of the Pacific station.

Rear Admiral Nicholson, commanding the European station, reports to the navy department under date of Ville Franche, France, Aug. 12th, the disposition of the vessels of that squadron, as follows:—"The Quinnebaug is at Alexandria, and will, on being relieved, proceed to Ville Franche for stores and overhauling engines; the Nipsic, which is at Ville Franche, will leave in ten days for Alexandria to relieve the Quinnebaug; the Lancaster (flagship) will leave Ville Franche in a week for Trieste, to overhaul her engines and calk bends, after which she will proceed to Alexandria and coast of Africa."

Cholera and the Plague.

The cholera is raging terribly in Manila, Philippine islands; there were 300 deaths on Aug. 28th, 294 of the victims being natives. Over 4000 deaths had occurred up to that date.

The cholera is also prevalent in Japan. In Yokohama, within twenty days, there have been 775 cases and 572 deaths. In Tokio there are about eighty new cases and fifty deaths daily.

A despatch to a London paper from St. Peterburg states that the Siberian plague is appearing to an alarming extent in most widely separated quarters of European Russia. One death from the disease has occurred at Odessa.

There is no diminution in the yellow fever in the stricken districts of southwestern Texas and the adjacent parts of Mexico; but the sanitary and quarantine arrangements will it is believed prevent the disease from spreading to any serious extent.

News and Notes.

In a quarrel at Long Island City, Aug. 27th, James Reilly twice stabbed his brother-in-law, Robert Damond. The latter is dead. Reilly was arrested.

At Deming, New Mexico, Aug. 27th, a hard character, name unknown, deliberately killed a man by cutting his throat. A party of citizens took the murderer out of jail and hung him.

All the sub-constables of Limerick, Ireland, who resigned in consequence of the dismissal of five of their mates, have withdrawn their resignations, "satisfactory explanations having been given in regard to the dismissals."

A pauper inmate of the poorhouse at Thetford, Mass., seventy-three years old, is in jail on a charge of causing the death of a female pauper aged seventy-two years, by attempting to outrage her.

Jonathan R. Haskell, recently on trial at Fitchburg, Mass., for setting fire, on June 22d, to the shop in which he and Charles D. York manufactured candy, was convicted Tuesday afternoon, Aug. 29th. The jury was out over three hours.

George Woodward, alias Jack, has been arrested at Greenfield, Mass., as the ringleader of the gang believed to have committed the numerous burglaries that of late have been committed in Greenfield. He was arraigned and held for trial.

Dr. Isaac B. Clayton, who was charged with the killing of Freeman Lester last January, but acquitted, was killed near Goodman, Miss., Aug. 28th.

There was another big fire in Haverhill, Mass., Aug. 29th, when a morocco factory, three shoe factories and a turners' shop, and three dwellings, were burned; loss about $100,000.

At San Jeronimo, New Mexico, Aug. 28th, Jack G. Perry became involved in a fight with several Mexicans. Perry shot and killed one, M. Gonzales, and fatally wounded two other Mexicans. The Mexicans then killed Perry.

Charles Allen, twenty-nine years old, a resident of Brockton, Mass., was brought before the court on Tuesday, Aug. 29th, charged with bigamy. He was married in Pawtucket thirteen years ago, and it is claimed that when he married again last April his first wife was not dead.

A bull on the farm of Carl Nilson, in Ryegate, Vt., attacked Charles McAllister, tossed him high into the air, caught him in his descent, and rolled him several rods down the hill to the fence, which was fortunately high enough from the ground to allow his body to pass through. He was cut in the neck, the horn having passed near the jugular vein and windpipe, and was terribly gored in the thigh, besides having several ribs broken and other bruises in the back.

Messrs. Hancock & Crowell, the well known Philadelphia ice dealers, who have several interests on the Kennebec, have sold out all their ice and contracts on the river, and all their Philadelphia property, to the Philadelphia Knickerbocker company.

The death of Senator Hill of Georgia gives rise to a contest as to who shall be his successor. The nothern congressmen who attended his funeral state that the man most talked of for the place is ex-Senator Gordon, who resigned his seat about three years ago to permit him to take an active part in a railroad enterprise. Alexander H. Stephens and Representative Speer are also named in connection with the position. Mr. Stephens has been credited with considering the senate as the goal of his ambition. If he is elected governor, he will prove a formidable competitor for the vacant seat.

When Senator Bayard delivered his solemn platitudes on "bossism," etc., at Dartmouth commencement, last June, we called attention to the fact that the Bayard family had been autocratic bosses of Delaware for more than half a century. Our reform contemporaries were gushing over the senator's sturdy periods, and refused to see how far from his preaching had been his practice. Now the Boston *Advertiser* says: "The state of Delaware is so small that the two houses of Bayard and Saulsbury have practically controlled political affairs. The end is coming, apparently, to this despotism." Then why gush over Bayard's insincere utterances. —*Lowell Courier.*

The Nonsense About the President's Flag.

Much has been said in unfavorable criticism of President Arthur for flying a special flag at the mainmast of the Dispatch, as if he were the first president who had ever had such an insignia of rank. The fact is, however, that more than twenty-six years ago an almost similar flag was hoisted on board the frigate Merrimack, lying off Annapolis, Md., on the occasion of the visit of President Pierce in 1856. There was a reception on board, in which more than one thousand persons took part. It should be stated in connection with the president's flag that it does not, as many suppose, take the place of the national flag; but while the stars and stripes float in their accustomed place at the peak, the president's flag is hoisted at the main, simply to show the president's presence on board.—*Philadelphia Record.*

A Handsome Ship.

In one of the large windows of an Elm street store there is displayed the present week one of the hadsomest miniature merchant ships ever shown in this city. It is about three feet ten inches in length, and seven inches in width, measuring its widest surface, and is as perfectly rigged as though she was designed for actual service. The masts are made of six pieces, the sails, chains, cords, etc., are all there, and she has been the admiration of several old sailors who have seen it. The ship was made by Mr. William Hay, a seafaring man, who came to this city from Portsmouth, and who is well known about Lake Massabesic, where he has sailed the fast-going sailboat "Spray" on severel occasions. He says that there is six months' solid time in the construction of such a ship as the one on exhibition. It is a handsome ornament, and would be acceptable in most any parlor. It has been presented to Walter S. Killey, Esq., paymaster of the Langdon mills, and by the latter has been named the "Ida A. Killey," in honor of his cousin who is a resident of San Francisco.—*Manchester Mirror.*

Battle Between Birds and a Cat.

At Pottsville, Pa., recently, a half-grown cat caught a young sparrow, and the latter chirped loudly, giving the alarm, and in a very few moments a large number of the belligerent little birds were on the spot. They swooped down on pussy from every direction, and, although she arched her back, distended her tail and tried to give battle, she was overcome by numbers, and fled incontinently to the shelter of a coal shed near at hand. This did not end the matter. In the course of a half-hour puss made her appearance on the scene again. The birds appeared to have put some of their number on picket duty, for, as soon as the cat came from her shelter, the alarm was sounded and the feathered clans came afresh to the attack in greater force than ever. Their feline enemy, profiting by past experience, did not wait to make a fight, but ran swiftly as she could to her home, half a square away, the sparrows striking her as long as she was in sight.

—"Talk about stopping the drinking habits of the people!" exclaimed the lecturer; "there is but one way to do it. You must remove the cause." "True f'r you ol' fell," shouted a demoralized hearer; "true f'r you. That's what I've been trying to do all my life. Bring on yer cause, if you want it removed."

The Biddeford *Times* says: "A certain minister in Kennebunkport, in speaking of the war in Egypt, astonished his congregation by remarking that he thought the people living on the isthmus dug between the Mediterranean and Red seas must suffer terribly."

Hon. Horatio J. Swasey of Standish, Me., died at his residence in that town on Sunday, Aug. 27th, aged seventy-five years. He was admitted to the York county bar in 1832, and practiced law in Standish fifty years; was county attorney of Cumberland county from 1846 to 1853, and a member of the Maine senate in 1856. In politics he was a democrat.

Eva Briggs of Lawrence, Mass., who was claimed to have been relieved of the hip disease, recently, by the "faith cure" at Old Orchard, was taken to the Danvers (Mass.) insane asylum on Monday in a crazed condition, owing to religious excitement

LIFE INSURANCE !

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

LAIGHTON BROTHERS & CO.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well-ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator, operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledged professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

JOSHUA WHITCOMB.

This evening, at Music hall, Denman Thompson will appear as Joshua Whitcomb, the typical New England farmer, supported by very nearly the same company as last season, including Miss Wilson as the crossing sweeper, and Martinetts as the bootblack. The audience will be a large one. Tickets at Preston's.

CLAMBAKE.

The best clambake of the season was given at Dover point on Wednesday, the 30th inst., under the management of Mr. Hanson, station agent at the Dover Point station of the Portsmouth & Dover railroad. The bake included fifteen bushels of clams, a barrel of sweet potatoes, two bushels of lobsters, fifteen dozen eggs, a bushel of tomatoes and six dozen ears of green corn; it was served at three o'clock to a large party, there being much more than enough for all, and the universal comment was that nothing in that line could be better. Among the persons present were the mayors of Portsmouth and Dover, several ex-mayors, the marshals and assistant marshals, and several aldermen and ex-aldermen of the two cities, the assistant sergeant-at-arms of the United States senate, several present and former members of the state senate and house of representatives, and other gentlemen of prominence. Two extra cars took up most of the participants from this city, though a considerable number went up in boats and carriages.

A VALUABLE SPRING.

We have on several occasions, in years past, made mention of an intermittent spring on the farm of Mr. Daniel Cook of Kittery, Me., which is always dry in wet and ordinary seasons, but always "breaks out" and runs freely in excessively dry times. A few weeks ago the old gentleman mowed over the spot where the spring has appeared in years past, and the ground was then dry and cracked; now the basin of the spring is full of good water, and the supply is sufficient for the whole neighborhood. That spring has good sense, and knows where to put its water so that it shall do the most good.

"JANE EYRE."

On Tuesday evening, Sept. 5th, Miss Charlotte Thompson will appear in Music hall as Jane Eyre. Miss Thompson is acknowledged to stand at the head of the profession in her peculiar line, and she has made the part of "Jane Eyre" wholly her own. The version of the drama which she uses was prepared by herself, for herself, and is in many respects the best dramatization ever made of Miss Bronte's popular story. Tickets at W. G. Myers' bookstore, Congress block.

Fifteen barrels of mackerel were sent in from Lunging island, Shoals, on Wednesday of this week. Five Georgesmen were reported lying off the islands, waiting for bait.

Tenney, at the studio on Congress street, has completed a fine portrait of Ex-Governor Fred Smythe; it is considered to be the best portrait of the ex-governor ever painted, though to our inexperienced taste there seems to be a trifle more of the mahogany hue in the color of the face than the original, with his cold-water expression, naturally carries. A beautiful painting by the same eminent artist will be the portrait of Mrs. Smythe, which is sufficiently progressed to impress us with its superior merit as a work of art as well as with its excellence as a striking likeness. Mr. Tenney is painting a second portrait of Ex-Gov. Smythe, and one of the pictures will be given to the Phillips academy at Andover, Mass. The artist has recently completed a portrait of Charles L. Flint, once prominently known in agricultural circles in Massachusetts.

"Rev." A. A. Waite has returned to Lynn, Mass., after a somewhat protracted vacation from pastoral duties, and recommenced preaching on Wednesday evening.

Five loaded "brickers," bound for Boston, were towed to sea from Portsmouth bridge on Wednesday of this week. The Hattie Lewis, Capt. Brewster, went up river to load; and the schooners Sharon and Gold Hunter, with wood for the brickyards, also went up the river.

On Tuesday night of this week the large sailboat belonging to Mr. Alfred R. Goodwin was caught under the steps on the south side of Broughton's wharf, and as the tide rose the boat didn't, but filled and went to the bottom. She was taken into the shoal water at the head of the dock, Wednesday, and bailed out.

Men went from this city to York on the 30th inst., to get the boat stolen on the 25th from Mr. James Hooper; they returned with her in the afternoon.

Thomas H. Odion and wife, City Solicity Hackett and Ex-Solicitor Wm. Russell Foster are at Poland Springs, Me.

Constructor Frank L. Fernald, U. S. N., who has been spending a few days at the Sea Cottage, York beach, was in town this week, and has returned to resume the special duty to which he has been assigned for some time past.

Simeon Locke, of South Newmarket, died Monday night, Aug. 28th, at the age of ninety-two years. He formerly resided in Dover, where he was sheriff and jail-keeper. Mr. Locke arrested the first person committed to the old New Hampshire state prison.

John Griffin of this city, a native of Cumberland, Allegheny county, Md., has been in the marine service of the United States twenty-seven years, having enlisted in 1855 at Washington D. C., at the age of seventeen years, and re-enlisted at the end of every term. His grandfather was one of the garrison of Fort McHenry, below Baltimore, at the time of its bombardment by the British in the war of 1812.

Officers of the United States and the state of Maine have been looking after liquor dealers in Kittery and York. If the dealer had an internal revenue license, the sheriff interviewed him; if he had no internal revenue license, the United States officers invited him to Portland. There is said to have been more open liquor selling at York beach this season than ever before.

The scarcity of water for domestic uses at York beach and harbor has become a serious annoyance, and water for drinking and culinary purposes, for most of the hotels and boarding houses, has to be hauled in casks by oxen for long distances, in some cases for miles. The reservoir water at some of the houses is said to be a very unattractive beverage, and the "oldest inhabitant" never knew water so scarce there before. But then the oldest inhabitant never saw so many boarding houses along the sea front before, nor such crowds of people to drink up the water.

Hon. W. H. Trescott of South Carolina, who has this season rented the Gorgeana cottage at York beach, has leased the Moody house at the beach for the season of 1883.

The 59th birthday of Mrs. Stephen L. Butterfield of north Kittery occurred on the 25th inst., and a large party of friends assembled at the house in the evening to celebrate the event, fifty-nine plates being laid for supper, and all the chairs filled. Several presents, including a large and beautifully-ornamented loaf of cake, were made to the lady, Gen. Butterfield responding on behalf of his wife. The Spruce Creek band, William Peirce leader, furnished music for dancing, and the festivities were kept up until a late hour, the occasion being one of rare pleasure to all present.

Throughout the towns in the western part of York county the feed in the pastures is very low; some farmers feed hay to their cattle night and morning, and many are feeding wholly from their barns; and the butter production is from thirty to fifty cents less than the average at this season of the year, and is steadily falling off.

PRAYERS FOR RAIN.

The almost unprecedented dry season which has continued so uninterruptedly since the first of July, recalls a story told us recently by one of the elderly residents whose memory is rich in local anecdote.

Many years ago, after a protracted drought, Dr. Hall Jackson, a noted wit who lived in the Currier house, opposite the Chase mansion, at corner of Court and Washington streets, while riding down Court (then Pitt) street from a visit in the country, on one week-day afternoon, saw emerging from Parson Walker's meeting-house, then standing on the site of the present South Parish Sunday schoolroom, several good brethren of the church, whom the doctor accosted with the enquiry of what they had been doing? The good men replied that they had been having a meeting.

"Meeting at this time?" asked the doctor; "what for, pray?"

"Why," said Deacon Day, one of the elders, "to pray for rain. It's an awful dry time."

[A shower had just begun to send a few drops to the parched earth.]

"Well," said the doctor; "Do you think your prayers had any effect in sending this rain?"

"Oh, yes; certainly," was the reply.

"Then," said the doctor, with his accustomed outspoken manner, "you all of you ought to have been horsewhipped for not praying for rain three weeks ago!"

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. SOMETHING EVERY LADY OUGHT TO KNOW.

There exists a means of securing a soft and brilliant Complexion, no matter how poor it may naturally be. Hagan's Magnolia Balm is a delicate and harmless article, which instantly removes Freckles, Tan, Redness, Roughness, Eruptions, Vulgar Flushings, etc., etc. So delicate and natural are its effects that its use is not suspected by anybody.

No lady has the courage to present a disfigured face in society when the Magnolia Balm is sold by all druggists for 75 cents.

A NOTED BUT UNTITLED WOMAN.
[From the Boston Globe.]

Messrs. Editors:—
The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a lifestudy, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes, as we personally investigated it and are satisfied of the truth of this.

On account of its proven merits, it is recommended as highly recommended by the best physicians in the country. One says: "It works like a charm and save much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required in regard to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa., 00 Mrs. A. M. D.

WHEAT BITTERS.
THE BEST AND The Richest
BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the forces which bear the burden of every day work and life, and in order to nevercrumble it is wise to BUILD FOR HEALTH.
Wheat Bitters are prepared, not by *fermentation* but by science, and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a beverage, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to subsist, while it corrects.
Sold by druggists, $1.00 per bottle.

"Boss" Hesing Murdered.

A. C. Hesing of Chicago, Ill., formerly widely known as "Boss" Hesing, was murdered near Hermosillo, Mexico, Aug. 26th. He was killed by his servant on the road to his mine, where he was going with $2,000 to pay off his men. He had been in the habit of taking a body guard with him, but was persuaded by his servant that it was unnecessary. It is reported that when found his skull was crushed, and his face badly mutilated. In 1862, when a resident of Chicago, he became financially interested in the *Staats Zeitung*, a leading German daily of that city, and secured a controlling interest in it in 1867; from that time for ten years he practically dictated the policy of the republican party in Chicago, and in the whole state of Illinois.

Charged With Manslaughter.

Frank Harding, captain of the ship Alice D. Cooper of Portland, Me., lately arrived at Boston from Calcutta, was arrested Aug. 29th by Deputy Marshal Gallupe on the charge of manslaughter. The complainants, members of the crew, allege that on June 28th last, as the ship was rounding Cape Agulhas, on the African coast, a French boy named Edouard Phillipton, eighteen years old, was washed overboard from the chains. A life buoy was thrown to the lad by the mate, which he was seen to swim to, but the captain refused to stop the ship or lower a boat or render any further assistance to the unfortunate boy, and he was last seen clinging to the buoy. Capt. Harding claims, in defence, that he had every stitch of canvas set that he could carry, and was going before a twelve knot breeze, with a three knot current in his favor; that he did not dare to tack for fear of taking his masts out, and no boat could be lowered on account of the high sea which was running; and that by the time that he could shorten sail and come about he was so far away that he could not return in time to save the boy, as he would have to beat to windward. The ship is owned in Portland by Harding Brothers, of one of whom the captain is the son. He was held for examination before Commissioner Hallett.

Mr. Eph. Moser, a well-known attorney of Shoals, Ind., had been confined to his room with severe rheumatism. St. Jacobs Oil was used; the third application relieved him from all pain.

There are now only ninety-one inmates of the Vermont state prison, five of whom are in for life. George Miles, the Barrre bank robber, has yet eight years to work at his trade, cutting and sorting shoe heels. Mrs. Meeker, the muderess, is the only woman in prison. On account of her savage and ugly disposition, and her habit of yelling hideously at night, she has been locked in a solitary cell in the new wing of the prison. She is to be hanged next spring.

For years I have suffered from dyspepsia and indigestion, it seemed to weaken every organ of life and shattered my nervous system. I tried Wheat Bitters, and now my stomach digests any kind of food.—F. O. MUNROE, 259 12th street, Brooklyn.

James Hamilton, a tinsmith, and his wife, got drunk on Aug. 29th, and laid down on the bank of the Niagara river; next morning the woman was found caught in the branches of a tree ten feet below the edge of the bank, and the man's mangled body was found on the rocks at the foot of the cliff, 150 feet below.

A Generous Firm.

We are informed that the proprietors, Messrs. A. P. Ordway & Co., recently sent three dozen of their reliable medicine Sulphur Bitters, to the Catholic Home for the aged, which is highly appreciated by the directors and inmates. "As ye sow so shall ye reap."—*Editor Catholic Union.*

At Haverhill, Mass., Aug. 30th, George Rogers, fifty years old, shot his wife and then himself, both dying instantly. No cause is assigned.

Are you troubled with such symptoms of dyspepsia as belching, tasting of the food, heart-burn, etc.? Brown's Iron Bitters will cure you.

— Says a cynical old lady: "Very handsome mothers are often proud of their very ugly babies. I wonder if butterflies are proud of their caterpillars."

Summer Complaints

At this season, various diseases of the bowels are prevalent, *and many lives are lost* through lack of knowledge of a safe and sure remedy. PERRY DAVIS' PAIN KILLER is a *sure* cure for Diarrhœa, Dysentery, Cholera, Cholera Morbus, Summer Complaint, etc., and is *perfectly safe.*

Read the following:

BATHBRIDGE, N. Y., March 23, 1881.
PERRY DAVIS' PAIN KILLER *proves a speedy and instant relief* for cramp and pain in the stomach.
JOSEPH BURNITT.

NICHOLVILLE, N. Y., Feb. 2, 1881.
The very best medicine I know of for dysentery, cholera morbus, and cramps in the stomach. Have used it for years, and it is *sure cure* every time.
JULIUS W. DEY.

MONROONA, IOWA, March 12, 1881.
I have used your PAIN KILLER in severe cases of cramp, colic and cholera morbus, and it gave almost instant relief.
L. E. CALDWELL.

CARNESVILLE, GA., Feb. 28, 1881.
For twenty years I have used your PAIN KILLER in my family. Have used it many times for bowel complaints, and it always *cures.* Would not feel safe without a bottle in the house.
J. R. IVIE.

SACO, ME., Jan. 22, 1881.
Have used PERRY DAVIS' PAIN KILLER for twelve years. It is *safe, sure, and reliable.* No mother should allow it to be out of the family.
W. T. NAYES.

ONEIDA, N. Y., Feb. 15, 1881.
We began using it over thirty years ago, and it always gives immediate relief. Would hardly dare to go to bed without a bottle in the house.
W. O. SPERRY.

CONWATBORO, S. C., Feb. 22, 1881.
Nearly every family in this section keeps a bottle in the house.
DR. E. MORTON.

U. S. CONSULATE,
CREFELD, RHENISH PRUSSIA, Feb. 8, 1881.
I have known PERRY DAVIS' PAIN KILLER introduced from the day it was introduced, and after years of observation and use I regard its presence in my household as an *indispensable necessity.*
T. S. POTTER, U. S. CONSUL.

BURNTCOAT TERRY, ENG.
I had been several days suffering severely from diarrhœa, accompanied with intense pain, when I tried your PAIN KILLER, and found almost instant relief.
H. J. NOCKS.

21 MONTAGUE ST., LONDON, ENG.
During a residence of twenty-three years in India, I have given it in many cases of diarrhœa, dysentery, and cholera, and never knew it to fail to give relief.
R. CLARIDGE.

No family can safely be without this invaluable remedy. Its price brings it within the reach of all.

Geneva Award.

Special and personal attention given to the preparation, proof and trial of cases in the court of Alabama claims in Washington, D. C.

An extended experience in the former Court and unusual facilities for managing these causes, enables me to render special services to claimants. Time for docketing cases expires January, 1a, 1883. All cases not entered on or before that date will be thereafter totally barred and inadmissible.

The court has jurisdiction of claims for vessels and cargoes destroyed by any Confederate Cruisers, and for officers and crews and for War Premiums paid from April, 1861, to November, 1865. Interest is allowed from the time of the loss, or payment of premiums until March 31, 1877 at 4 per cent. per annum.

MALARIA!

THE ONLY REMEDY KNOWN
To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alternative medicine in the world. health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

Daily Chronicle.

The "Century Magazine" will begin, in its November number, the series of illustrated papers by Dr. Edward Eggleston on "Life in the Thirteen Colonies." It is understood that this will be written on a plan new to American history; to give account of the developement of the people rather than a chronicle of historical events or biographies of the rulers. It will, in fact, be a record of the growth of civilization in the New World, the English colonists being presented as essentially one people—local diversities being used to give light and shadow to the picture of the infancy of a great people. The history has been written from a complete study of the original and semi-original authorities, and seeks to preserve the very aroma of the primitive life of the country. The illustrations will include many reproductions of old drawings and portraits, some of them so scarce as hardly to be known even to special students and collectors; among them the striking drawings of Indians, etc., made for Sir Walter Raleigh in 1585, and now first (since 1590) engraved from the original, by kind permission of the officers of the British Museum. Dr. Eggleston's enthusiasm in his work, his scent for the significant and picturesque phases of life, and the fact that he is never dull, augur well for the successful issue of this important enterprise.

The publishing house of John W. Lovell & Co., Nos. 14 and 16 Vesey street, have under the title of "Lovell's Library: a Weekly Publication," commenced the publication of some of the best works in current and standard literature. The price will be the same as other cheap series, namely: ten cents for single numbers and twenty cents for double numbers, with an occasional issue at fifteen cents. This issue will be found to differ from anything heretofore attempted, especially in the following points:

First—The type will be larger and the print consequently clearer.

Second—The size being the popular 12mo, will be found much more pleasant and convenient to handle.

Third—Each number will have a handsome paper cover; and this in connection with the size, will make it worthy of preservation.

Among the numbers already published are the "Abbe Constantin," by Ludovic Halevy, translated by Katharine Sullivan; "The Tricks of the Greeks Unveiled," by Robert Houdin; "Freckles," by Rebecca Fergus Redcliff, a new original story; each twenty cents. "They Were Married!" by Walter Besant and James Rice, ten cents.

The same house has in preparation a new novel by Chas. M. Clay, author of "Baby Rue," "A Modern Hagar," etc., entitled "John Wynde's Wives," that it is expected will make a sensation. The incidents are founded on fact, the scenes being laid in New Orleans and Chicago, and it is said some of the actors are still residents of the latter city.

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat, but not boil.

TRENTON, N. J., Oct. 23, 1880.

I have suffered for eight years with Hay Fever, during July, August and September. In the beginning of July, this year, I resorted to Ely's Cream Balm, and have been entirely free from the fever since the first application. I can recommend it as a cure. EDWARD C. HILLMAN, at the New Jersey State Arsenal. Price 50 cents.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

—Strangers visiting the curious old town of Marblehead are very apt to ridicule its peculiarities, but sometimes the wit of the old fishermen there completely extinguishes the would-be-thought-funny-men. A short time ago a stranger was driving near Fort Sewall, and when his horse was headed directly for the ocean, hailed a fisherman who was standing on the shore with "My friend, can I get to Manchester this way?" "Yes, sir," replied the sailor; "if your hoss is webfooted and you have faith in Christ, I think you can."

—A drunken Denver burglar blundered into his own house and robbed himself of a watch and $70.

—It is the common observation that the standard of natural health and normal activity, among American women, is being lowered by the influence of false ideas and habits of life engendered by fashionable ignorance and luxurious living. It is a happy circumstance that Mrs. Lydia E. Pinkham has come to the front to instruct and cure the sufferers of her sex.

Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Conductor L. & B. R. R.

I consider Swedish Botanic Compound the best Blood Purifier and Spring Medicine in use.

W. B. WATSON, Lynn, Mass.

A lady writes: "After years of severe suffering from female complaints, nervousness and dyspepsia your Swedish Botanic Compound has entirely cured me."

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age. Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self-cure, which he will send FREE to his fellow-sufferers. Address J. H. REEVES, Station D, Brooklyn, N. Y.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. [Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

National Greenback-Labor Convention.

A convention of National Greenback Labor delegates is hereby called to meet at City hall, Manchester, on Wednesday, Sept. 13th, at twelve o'clock, noon, to nominate candidates for governor, councillors and state officers, to be supported by liberal and progressive men at the ensuing fall election. If so agreed upon, the convention will resolve itself into district conventions for the nomination of candidates for Congress.

The chairman of the state committee will call the convention to order, and the basis of organization will be made up by the state committee from the list of names previously forwarded under the call of June 29th, 1882. Other delegates will be admitted by vote of the committee when assembled. The committee call upon all the friends of our cause to be present at that occasion, to aid by their counsel to devise the best plan to disseminate the principles of the party. We also urge our friends to send in full lists of delegates who will attend the convention.

By order of the committee,

JOHN F. WOODBURY, Chairman.
MANCHESTER, N. H., Aug. 14, 1882.

The War in Egypt.

An important order was sent to Woolwich, Eng., Aug. 30th, to forward to Egypt at once a formidable light siege train. It will weigh, with equipments, 2,000 tons, and will require 436 officers and men. The ordnance will consist of thirty-six pieces of artillery of various calibres, including ten forty-pounders and ten twenty-five pounders.

Europeans who have arrived at Port Said from Cairo under escort, by the way of Damietta, announce that owing to the energy of the Egyptian perfect of police at Cairo, Europeans are not molested.

Naval Affairs.

The British government has given permission to an officer of the United States navy to accompany Sir Garnet Wolseley, commanding the English forces in Egypt, on his campaign in that country, and Lieut. comdr. Caspar F. Goodrich, attached to the United States steamer Lancaster, now on the European station, has been selected for that duty.

The North Atlantic squadron had a dress parade at Fort Preble, Portland harbor, Me., Aug. 30th, four companies landing from the Tennessee, two from the Kearsarge, and one each from the Yantic, Enterprise and Alliance. A large crowd assembled on the shores and in the harbor.

The Kewanee Bank Robbery.

The detective who has been working up the Kewanee, Ill., bank robbery case, says Cashier Pratt made a full confession, and took him to the spot in his father's barn-yard where he had buried $8,000 in gold, taken by him the day before the robbery. Pratt lays the blame on Dr. Scott, who he says led him astray, taught him to play poker, etc. Pratt is a son of the Kewanee postmaster, and is a teacher in a Sunday school. It seems now that forged checks to the amount of over $1,500 have been paid by him. The allegation is that Scott procured the checks, Pratt forged the signatures and Welch turned them in, taking certificates of deposit, in order not to excite suspicion. In addition to the $6,000 recovered from Pratt, $3,500 have been recovered from Welch. The detective thinks this is about all that was taken at the time; that possibly $1,000 more were spent by the robbers. The belief is that Pratt cooked up the books to make it appear that $20,000 were taken, in order to clear up all his shortcomings at once. Dr. Scott has also made a confession. He puts the blame on Pratt and Welch.

The Biters Bitten.

The American schooner Transit, of New York, carrying a crew of four men all told, and engaged in trading along the Central American coast, was boarded by six Spanish pirates on the 1st of August while lying at anchor in the bay of Gracias a Dios, Nicaragua, and seized, the crew being bound. The pirates compelled the captain to pilot the vessel to sea, after which they got blind drunk on liquors in the cargo, and were then put in irons by the crew, taken to the nearest port where there was an American consul, and handed over to the authorities.

New Hampshire Items.

Dr. Charles A. Fairbanks of Dover, physician at the Strafford county farm, has resigned. It is rumored that Dr. Fairbanks had some difference with Superintendent Wentworth of the institution, because Wentworth refused to supply nourishment ordered by the doctor to sick paupers. It is further stated that Dr. Fairbanks charged Wentworth with being too harsh with some of the inmates. It is expected that the superintendent will call for an investigation.

-Deputy Sheriff E. R. Prescott of Manchester went to Concord on Wednesday, Aug. 30th, and took into custody Curtis P. Lamos of Lee, who was just released from the state prison. Lamos was sentenced for three years from Rockingham county for burglary, in November, 1879. He was re-arrested on the charge of burglary committed at North Weare, and was taken to jail to await trial at the September term of the supreme court.

Hugh de Payens Commandry of Knights Templar, of Keene, will give a complimentary ball on the evening of the 5th inst., and a banquet on the afternoon of the 6th, in honor of the Grand Commandry of New Hampshire, Trinity Commandry of Manchester, and Mt. Horeb Commandry of Concord.

News and Notes.

Capt. Frank Harding, of the ship Alice D. Cooper of Portland, Me., charged with manslaughter in not attempting to save the life of a seaman who fell overboard from his ship on her late passage from Calcutta to Boston, has been discharged from custody by Commissioner Hallett of Boston.

F. C. Angove, of Milo, Me., appeared at the police station in Bangor on the 30th ult. with his face covered with blood, and reported that he had been stopped, shot and robbed of $480, when six miles from Bangor, by two men of whom he gave a good description.

Later advices show that it was not "Boss" Hesing, of Chicago, who was murdered near Hermosillo, Mexico, but his nephew, A. C. Hesing. The young man was shot from behind, and the indications lead to the conclusion that several persons were concerned in the crime.

John Palmer, a school teacher of Glen, Montgomery county, N. Y., has fled, being charged with attempting to violate two twelve-years-old girl pupils; since his flight it has been discovered that he has for a long time maintained illicit relations with a number of the older girls in the school.

Capt. Henry Arbecam has been chosen superintendent of the East Boston ferries. He has been a sea captain, and is the son-in-law of Mr. D. D. Kelly.

At Pensacola, Fla., Aug. 20th, there were fourteen new cases of yellow fever, and two deaths. At Brownsville, Texas, fifty-two new cases and three deaths. At Matamoras, Mexico, eight deaths.

AROUND HOME.

Rev. Mr. Gushee, of Cambridgeport, Mass., will preach in St. John's church on Sunday.

The semi-annual dividend on the stock of the Wolfeborough railroad will be paid to stockholders in this vicinity on Saturday, Sept. 2d, from three o'clock in the afternoon to five, at the office of Hon. F. Jones on Market street.

A fire was started in Wendell's woods at Sagamore creek on Wednesday afternoon, the 30th ult., and a number of men were fighting it from six o'clock in the evening up to midnight before it was fairly gotten under control.

The press reports announce that "Hon. John Pender, member of Parliament, has arrived in New York." This is all bosh; everybody knows that Mr. Pender is an inspector of customs at this port, secretary of the Portsmouth board of instruction, a native-born American and good citizen generally, and never was in parliament in his life.

A large number of persons of both political parties went to Old Orchard, Me., on the 31st ult., to have a cheap ride, and hear the bands play and Blaine and Gibson speak. Numerous parties boarded the several trains at the Kittery station.

The stockholders of the Maine Central railroad will hold a special meeting on the 13th inst., to act upon the lease of the European & North American railroad to the Maine Central.

The glass of the street lamp at the junction of Elm street and New Vaughan street,—a very clumsy and absurd name that last, by the way, and one which should be changed into some sensible and convenient appellation,—was broken between eleven and twelve o'clock on Wednesday night of this week by one of a small party of young people of both sexes who were seen and heard for some minutes before the breaking of the glass, and who ran across the bridge to Christian Shore. It is suggested that a prompt settlement of the damage may save at least two young fellows and one young girl from serious annoyance.

Frequenters of Pocahontas' point, Gerrish's island, Kittery, will be glad to learn that at last a well has been sunk at that charming spot and an abundance of pure water obtained. The work was done under the supervision of Mr. Libbey Bennett of this city.

At Old Orchard, early in the morning on the 31st ult., the hotel Brunswick was burned; loss $15,000, with $10,000 insurance. The Pleasant house near by also went; loss $8000, insurance $5000. Central hall, worth about $2000, was also burned; insured $1000.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.
NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestive, sharpens the appetite, invigorates and builds up the entire system, and induces a generous flow of milk.
WEAK AND SICKLY CHILDREN, who suffer from inanition and weariness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.
INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It relishes quite upon the appetite nor offends the taste.
DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.
WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are confined to Counting-rooms—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.
AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.
THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fac-simile signature of Baron von Liebig, and a fac-simile of his signature, as well as that of A. VOGELER & CO., Baltimore, Md., Sole Agents for America.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.
Circulars, giving full particulars, may be obtained of

Appledore and Oceanic
HOTELS.
THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Jones' wharf, near the foot of Deer street, for these favorite and widely-known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.
LAIGHTON BROTHERS & CO.

THE WENTWORTH,
NEWCASTLE, N. H.
THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well-ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator, operated by steam, music Hall for dancing and theatricals.
An Orchestra of twenty members of acknowledged professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.
At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

"SEE, THE CONQERING HERO COMES."

Mr. Secretary Chandler told the Boston reporter on Wednesday of this week that his visits to the navy yards are made for the purpose of seeing for himself the capacity of doing work at the government stations. With his previous views as to work being done by contract, it was quite important that he should have an opportunity to learn by actual observation what kind of work could be done at the government yards, and to what extent. The secretary appears to have been met and surrounded by quite a crowd of admirers, who perhaps thought it was themselves, and not the naval station, which it was an object to see. Even Supt. Furber of the Boston & Maine railroad, to whom not long since Mr. Chandler wrote his scathing letter upon declining a free pass, was (if we may credit the reports,) on hand, ready to be forgiven for his sins of liberality in pasteboard distribution. Mr. Chandler has said repeatedly that he wants to see the navy yards, and we are told that he was unable to see the Boston yard by reason of the great numbers standing 'round, though after the lunch there seemed a visible diminution of the staff which had gone down Boston harbor to extend to the coming secretary the assurance of their high regard. We trust on his arrival at this station the Hon. Secretary will be able to appreciate the exceeding advantages of the yard on the Piscataqua over all he has yet visited, and we know that his shrewd insight will lead him to reflect that it is not the station which turns out the largest crowd, which can boast the deepest water or the best facilities for doing naval work.

MUNICIPAL AFFAIRS.

In board of Mayor and Aldermen, regular meeting, Thursday evening, Aug. 31st:

Present the full board.

Records of last meeting were read and approved.

Dr. Curtis was granted leave to encumber Gates street at No. 25, for repairs.

John Nevick and Joseph Davis were appointed special police at the Eldredge brewery, and David Urch at Newcastle bridge, without pay.

An affidavit of John H. Slater, setting forth that his horse was thrown down on Aug. 25th at the corner of Court and Middle streets through stepping on a loose stone, and injured to the amount of $100, for which he claimed compensation, was referred to the committee on claims.

Bond of Wm. Shannon as keeper of the almshouse was approved.

In Convention, Albion S. Carroll was elected highway surveyor of district six, receiving thirteen votes to six for Joseph R. Holmes, a vacancy having occurred by reason of the declination of Mr. James, elected at the last previous session.

In board of aldermen, resumed, a motion was made to appoint Edwin Underhill a supernumerary policeman, Ald. Green of ward four offered an amendment that a ballot be had, and the yeas and nays were demanded; the amendment was lost, and the original motion prevailed.

Ald. Atwell called attention to the noise made by transient fruit dealers crying their wares in the streets, and asked for the local fruit dealers the same rights that non-residents have. No action was taken.

Adjourned for one week.

MATRIMONIAL.

The marriage intentions of ten couples were filed with Col. D. J. Vaughan, the city clerk, during the month of August. Of the high contracting parties five couples were from the state of Maine, and of two of the other five couples one of the parties was from that state.

"JANE EYRE."

Reserved seat tickets for the performance of "Jane Eyre" by Miss Charlotte Thompson and her selected company at Music hall next Tuesday evening, can be procured on and after to-day at the bookstore of W. G. Myers in Congress block.

POLICE COURT.

THURSDAY, Aug. 31; *Batchelder J.*

Nellie Harvey, for drunkenness, was fined $5, costs $6.90. She is an old offender, and goes to Brentwood in default of payment.

Timothy Lyons, drunk, fine $3, costs $6.90; paid.

James McVoy, or McEvoy, was adjudged guilty on a charge of drunkenness, but was let off on probation.

DEMOCRATIC DELEGATES.

The democratic caucus of ward two was held in the court house on Wednesday evening, Aug. 30th, and delegates as follows were elected to attend the several conventions:

State—Alpheus A. Hanscom, Calvin Page, George B. French, Benjamin M. Parker, Daniel E. Leavitt, William T. Frye;

County—Samuel R. Gardner, Charles H. Drown, Howe Call, Herman Manson, Michael Crowley, Levi W. Marden;

Councillor—Albert Hayes, Israel Marden, Walter H. Page, Frank P. Rundlett, John Conlon, Justin D. French;

County—George E. Marden, J. Wesley Young, John S. Wendell, William J. Fraser, Thomas R. Moore, Dennis Shea;

Senatorial—Eben G. Adams, Charles H. Gould, John L. Frisbee, George W. Rundlett, George E. French, Storer H. Gates.

Ward Committee—Calvin Page, Chas. H. Downs, Samuel R. Gardner, Benj. M. Parker, John S. Wendell, J. Wesley Young, William T. Frye, Walter H. Page, Israel Marden, Michael Crowley, Frank P. Rundlett, John Conlon.

PORT OF PORTSMOUTH.

The total number of arrivals of merchant vessels at this port during the month of August was 104, including ninety schooners, thirteen steamers and one brig, all coastwise excepting the brig, which brought salt from Turk's island to E. F. Sise & Co. The amount of coal brought in was 23,450 tons, an increase of about 3000 tons over the total for July; number of colliers arrived, fifty-nine, an increase of three over July. Thirteen vessels brought cargoes of general merchandise, four brought cargoes of lumber, and there was one cargo each of wood, sand, cement and lime. The foregoing of course does not include United States vessels, pleasure yachts or fishing vessels.

The north mill has again started up, under the management of Mr. Rand, and farmers having corn to be ground (there are very few of them in this vicinity, we fear) can again be accommodated there as for more than a century past.

The steam yacht Nameless, of Boston, came into this port on Thursday last, and sailed again after a short stop. The yacht Sunbeam, of South Boston, Capt. Henry T. Hutchings, after a stay in this port of several weeks sailed for her home port on Thursday. The schooner yacht Una is preparing to go into winter quarters.

An order has recently been issued by the Eastern railroad, and is now in force, forbidding the flagmen in the employ of the road from engaging in any other avocation during the intervals between the passage of trains.

Mr. Albert E. Grover, of Christian shore, arrived home this week from the west, after an absence of several months.

The Probate court for the county of Rockingham will come in on the 12th inst. in this city, and the United States District court on the 19th.

The police books for August bear the names of 116 persons, of whom ninety-two were arrested for drunkenness; there were twenty-one lodgers, and eleven deserters from the United States naval service.

The proposed visit of Godfrey de Bouillon Commandry of Knights Templar, of Fall River, Mass., to this city, has been indefinitely postponed.

To all persons wishing the address of a first-class, reliable dye-house, we would name "Lewando's French Dye House, No. 17, Temple place, Boston," where dresses are dyed without ripping, and the dyeing of feathers, laces and gloves is a specialty.

Denman Thompson's dramatic company, in "Joshua Whitcomb," had a large audience in Music hall on Thursday evening last. The sketch (it can hardly be called a play) was well received throughout, the shrewd, honest, simple-minded old New Hampshire farmer seeming to be as much a favorite with the audience as ever.

The seventh annual reunion of the descendants of John Cater took place on Thursday, Aug. 31st, at Pinkham's grove, Dover point.

Fully 2000 people attended the Methodist camp-meeting at Epping on Wednesday, Aug. 30th. Rev. J. E. Robins, pastor of the Methodist Episcopal church in this city, preached in the forenoon.

A serious fire was raging in the woods at Dover point for several days this week, having been started by the carelessness of gunners. Pinkham's grove, the favorite picnicking resort, was threatened, and was only saved by the exertions of a large force of men—fifty or more, it is said—on Tuesday and Wednesday.

It Toughens.

SOZODONT toughens the gums and makes them healthy, so that they hold in the teeth firmly. It removes the tartar, gives comfort, is economical of health and money, and when once used will never be given up. Try SOZODONT.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Invalids, Epicures,

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

A NOTED BUT UNTITLED WOMAN.
[From the Boston Globe.]

Messrs. Editors:—
The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.
On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of Falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."
It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and cures all weaknesses of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.
It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.
For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.
"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.
All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Still a Mystery.

The last time the stockholders in the Keely motor company demanded definite knowledge of the invention, Keely offered to divulge the secret to any one man whom they might select, and whose report, which should not go into particulars, they must accept as all the revelation they would get. A few accepted this proposal, and were induced to choose Mr. Boekel, a practical machinist. That was three months ago. Boekel goes into the shop with Keely several times a week, the doors are carefully locked, and then noises like explosions are heard from the place. These are presumed to come from the machine. They are also presumed to be big fire-crackers, set off to delude the hearers. Boekel has become quite as mysterious as Keely.

A Big Gas Light.

The burning oil well in Washington county, Pa., sixteen miles from Bethlehem, is said to be a grand sight. The well was bored by the Niagara Oil company, and at a depth of 2500 feet from the surface a vast reservoir of gas was struck, and compelled a suspension of work by blowing the tools clear out of the shaft. The escape of gas was so immense that it poisoned the atmosphere, and as stock and vegetation suffered, a pipe was laid from the well for a long distance up the hillside, and then a light was applied. Ever since February the gas has continued to burn in unabated violence, and the supply seems inexhaustible. At night the spectacle is indeed grand. The column of fire is about fifty feet high, and from five to ten feet thick, while the roaring that accompanies it can be compared only to a fleet of steamboats all blowing off steam at once.

One of the greatest trials that housekeepers have to undergo during the hot weather, is that of washing day. Happily there is practical relief for them in the use of James Pyle's Pearline.

—Things one would rather have left unsaid. Amiable hostess—"What! must you go already? Really, Professor, it's too bad of this sweet young wife of yours to carry you off so early. She always does." Professor—"No, no, not always, Mrs. Bright. At most houses I positively have to drag her away."

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

—"Yes," said the gilded youth of his friend, "Jack has a passion for proposing to girls. Why, I've known of his proposing to six girls in a week, not one of whom he'd marry for a farm." "Doesn't he run a terrible risk of being accepted by somebody he doesn't want?" "Not a bit. He isn't worth a dollar!"

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

—Magistrate—"You are charged with having emptied a basin of water over the plaintiff." Irishwoman—"Shure, your honor, he must forgive me; in the dark I took the gentleman for my husband."

No earthly reason exists for suffering with rheumatism. St. Jacobs Oil has reversed the order of things.

—When a man kums to me for advice, I find out the kind of advice he wants, and giv it to him; this satisfys him that he and I are two az smart men az there is living.—*Josh Billings.*

*** "Slow and steady wins the race." Steadily, but not slowly, Kidney-Wort is distancing all competition for universal popularity and usefulness. This celebrated can now be obtained in the usual dry vegetable form, or in liquid form. It is put up in the latter way for the especial convenience of those who cannot readily prepare it. It will be found very concentrated and will act with equal efficiency in either form. Read advertisement.

—"It is not necessary for a man to be poor to be honest." Certainly not. But it seems sort o' half way necessary for a man to be poor if he is honest.

Remember! Glenn's Sulphur Soap presents all the advantages of sulphur baths at a cheap rate.

MALARIA!
THE ONLY REMEDY KNOWN
To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

Yellow Fever in Boston.

A young man named Tolman was taken sick in Lynn, Mass., Aug. 31. He belongs in the Bunker Hill district of Boston, but his relatives refused to receive him, as did also the Massachusetts General hospital; so he was sent to the almshouse. His disease was pronounced to be yellow fever.

Shut Your Mouth.

A jovial artist was painting some divine, who felt it incumbent upon him to give the painter a moral lecture during one of his siffings. Somewhat in awe of the artist, he began rather nervously; but as the knight of the brush painted away without any sign of annoyance he gathered courage as he proceeded, and finally administered a pretty good sermon. He paused for a reply, and confessed afterwards that he never felt so insignificant in his life as when the artist, with that urbane, but positive authority of his profession, merely said, "Turn your head a little to the right, and shut your mouth."

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat, but not boil.

Frank H. Chick, of Auburn, Me., was found drowned Aug. 31st. He was twenty-seven years old, and probably committed suicide.

Walter K. Merrill of Bevelry, Mass., jumped from a car on the Eastern railroad in that town, Saturday evening, the 26th ult. He was struck by an approaching train and terribly injured, both legs and one arm being broken. He was taken to the hospital in Salem, where he died shortly after. Merrill was forty-two years of age.

for the care of the sick. How to cure disease, its symptoms and causes, and other information of great value will be found in old Dr. Kaufmann's great book; 100 pages, fine colored plates. Send two 3 cent stamps to pay postage to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

On the 26th ult., at Clarksville, Tenn., Mrs. Daniel Hanley and Mrs. Shepherd engaged in a dispute which ended in a savage fight. Both women fought with the ferocity of tigers, biting and scratching each other until the blood flowed in streams from their arms and faces. When the combatants were clinched, Mrs. Shepherd's son, aged seventeen years, approached them with a hatchet, and struck Mrs. Hanley on the head with it, splitting her skull, and killing her instantly.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

It is now said that the highway robbery of the brothers Howe, at Mt. Desert, Me., was a practical joke "put up" by two young lady friends of the Howes, and carried out by a gentleman of their acquaintance. If this story is true, there have been at least three almighty fools among the high toned boarders at Mt. Desert this season.

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple remedy, which he will send FREE to his fellow sufferers. Address J. H. REEVES, Boston, Mass.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

—"Don't my son owe you a little bar bill?" asked Col. Yerger, as he emptied his glass, turning to the saloon keeper, who was delighted at the prospect of the old man's settling up his son's bill. "Yes, he owes me twenty-five dollars. Shall I receipt the bill?" said the anxious saloon keeper. "Well, no; but give me 5 dozen cigars, and add them to my son's bill."

A Fact. — Electro-Silicon is the best polishing material ever discovered for gold and silverware. Absolutely free from grit or acids, and polishes with less labor than any other article that does not contain destructive chemicals. Druggists, Jewelers.

Portsmouth Chronicle.

SATURDAY, SEPT. 2, 1882.

(Entered at the Post-Office at Portsmouth, N. H. as second-class matter.)

Naval Affairs.

Secretary Chandler finished his inspection of the Boston navy yard on the afternoon of the 31st ult.

Chief Eng. Wm. W. W. Wood, on the retired list of the navy, was drowned at Norfolk, Va., Aug. 31st, from a sailboat.

News and Notes.

There were 240 deaths from yellow fever in Matamoras, Mexico, during August. During the last week in August there were 425 cases in Brownsville, Texas, and the disease is spreading back into the country. Four new cases were reported in Pensacola, Fla., on the 31st ult.

The British steamship Lake Nepigon went on Arklow bank, coast of Ireland, Sept. 1st, and was expected to be a total loss. One boat load of passengers arrived at Wicklow on the forenoon of the 1st, but five boats were then missing.

During the past month more miles of railroad were built than in any previous month in the history of the country, 1274 miles of main lines having been constructed, besides a large mileage of side tracks and branches.

One hundred and eleven Russian Jews were shipped back to Europe on the 30th ult., from New York and Philadelphia. Their laziness and utter worthlessness showed that they would never be anything but paupers in this country; hence they were sent back whence they came.

A year ago Melton Fox, a farmer living at Dracut, Mass., sent his bired man, Frank Bedell, to Lawrence, with nearly $100 worth of potatoes to sell. Bedell disposed of the lot, and immediately afterward disappeared, going west. He returned to Lawrence on the 29th ult., and was arrested.

Returns from twelve of the principal corn-growing states of the west promise a yield fifty per cent greater than last year in the same states, or a total of 1,-800,000,000 bushels.

The "dime novel" literature is coming to a harvest of results. Precocious criminals are common sights now a-days. Two little boys scarely more than ten years old were arrested in the streets of Boston last week for stealing $20 from a neighbor. They had been reading the adventures of baby heroes, and longed to imitate their exploits. In the Tombs, at New York, a boy, not yet out of his teens, is under sentence of death, for murder, and another boy is waiting trial for brutally killing his step-mother. In the same city not many days since, four boys committed a burglary; a boy stole a milk wagon and all the milk, and another young rascal was charged, by half a dozen accusers, with being a swindler. In Philadelphia a boy is awaiting trial for murdering his step-father, and in Michigan a boy of fourteen last week outraged and murdered a girl nine years old.

"Littell's Living Age." The numbers of the *Living Age* for August 26th and September 2d contain the following articles: North Borneo, *Edinburgh*; Natural Scenery, *Quarterly*; Urbs Roma Vale, *Blackwood*; Soliloquium Fratris Rogeri Bacon is, and Three Trips to Tartarus, *Fraser*; The Muses in Tyrol, and Talk and Talkers, *Cornhill*; The Art of Life, and Reindeer, *Spectator*; The Emancipation of Women from the Piano, *St. James' Gazette*; with instalments of "No New thing," and "The Ladies Lindores," sketches of "Lewellin Penrose, Seaman," and "Will Stout, the Parish Beadle," and more than the usual amount of poetry. For fifty-two numbers of sixty-four large pages each (or more than 3,500 pages a year), the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4 monthlies or weeklies with the *Living Age* for a year, both postpaid. Littell & Co., Boston, are the publishers.

—William F. Blanck, a rich widower of New York and over sixty years old, married a widow twenty years younger, who raised such a row with his sisters that the whole family ended up in a station house. The old man is now convinced that he is a Blanck fool.

—The fashionable young ladies at a watering place hotel a few nights ago organized a spelling bee. The belle who wore the most expensive jewelry was the worst speller, and twelve to fourteen went down on the word "separate;" "phthisis" floored them all, and one of the cooks was called in to spell the word for them. A young lady who fondled a pug dog and wore diamond earrings maintained that "d-o-w-t" was the way "doubt" was spelled when she went to school.

AROUND HOME.

William A. Meloon and family, of this city, are stopping at the River View cottage, Newcastle.

Professor Alexander Bell, (the inventor of the telephone,) and Gardner G. Hubbard, Esq., of Washington, D. C., were in town last Thursday.

Rear Admiral Craven, U. S. N., has just built a pier two hundred feet in length, near his residence at Kittery Point.

T. Salter Tredick, Esq., and family, are at the Crawford house, White Mountain notch.

The fall arrangement of the churches goes into effect on Sunday, Sept. 3d, all except the Freewill Baptist having services on that day; the Freewill Baptist church will open on the 10th. Satan will catch it now, to pay him up for the good time he has been having 'most all summer.

The schooner J. P. Ames, Hewitt master, formerly owned at this port, arrived at Exeter on the 26th of August with a cargo of coal for the Exeter Coal Co., sixty-three days from Elizabethport, N. J. She started from Elizabethport on the 24th of June, but was compelled to put back in consequence of having been run into by a tug. On her next attempt she ran into a steamboat wharf; and on the third trial she ran aground, the latter accident detaining her about a month. On the 13th of August she had got as far as Newport, R. I., and arrived in Portsmouth lower harbor on the 24th.

The fire at Old Orchard which destroyed the Brunswick and Pleasant hotels and Central Hall, commenced in the Brunswick house. The hotels were full of guests, and the wildest commotion was excited, most of the guests losing all their clothing and personal effects, and being glad enough to get off at that. It was at first reported that several persons were burned to death, but this happily turned out to be incorrect. In addition to the public houses destroyed, a private residence owned by a Mr. Campbell and valued at $2000, was burned, the estimated total loss being $27,000. The insurance companies will soon begin to fight shy of fire policies on property at Old Orchard, unless some kind of a fire department is organized there.

The Kennebunk & Kennebunkport Railroad company organized Monday afternoon, Aug. 28th, for the purpose of building a railroad between Kennebunk and Kennebunkport. It will connect with the Boston & Maine, and will be operated by that company. Its capital stock is $65,000, all of which has been subcribed, and responsible parties have agreed to build the road for that sum. Hon. Joseph Dane of Kennebunk is president, and N. & H. B. Cleaves of Portland are the attorneys for the company.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

HOTELS.

THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Jones' wharf, near the foot of Deer street, for these favorite and widely-known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.

LAIGHTON BROTHERS & CO.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well-ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledged professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

THE PUBLIC LIBRARY.

Owing to the addition of a large number of new books to the Public Library, and the unavoidable delay incident to cataloguing and arranging the same, the opening of the library for the issuing of books to the public, which was intended to have taken place on Saturday, Sept. 2d, has been deferred to a future date of which due notice will be given.

"JANE EYRE."

The Windsor Theatre in New York city, large as it is, was none too large to contain the audience that flocked to witness each performance of "Jane Eyre" as rendered by the Charlotte Thompson combination. This company has met with remarkable success. Miss Thompson everywhere enjoys the reputation of being the very best among the many who have essayed the difficult role of "Jane Eyre," and her company is in every respect worthy to appear in conjunction with her; each member has been especially selected, and no finer dramatic treat can be looked for than the appearance of this company in our city on Tuesday evening next, at Music hall.

WRECK.

A report came in from the Isles of Shoals on Friday morning, to the effect that the fishing schooner Sylph, of Boston, on the previous day struck a reef about half a mile northerly from Appledore island, and was so badly damaged that the crew were compelled to run her ashore on Smuttynose island, where she filled with water, and was expected to become a total loss. It was reported that everything movable would probably be saved.

Information from the Shoals in the evening was to the effect that the schooner struck on Blue Beach ledge, off Appledore island, and the crew not being able to keep her free ran her into the dock at Smuttynose, where she sank. There should be little difficulty in raising her, if the latter report is correct.

THE GIGANTEAN MINSTRELS.

On Friday evening, the 8th inst., lovers of variety entertainments will enjoy a treat at Music Hall, when and where will appear M. B. Leavitt's "Gigantean Minstrels," an organization spoken of in almost extravagant terms of praise by the Boston papers. The Boston *Journal* of the 29th ult. says:

The grand entertainment given by Leavitt's Gigantean Minstrels finds the readiest appreciation from our amusement public, for it is good in every feature, and more than merits the encomiums which have been given it. The company numbers many old favorites, and each member is an artist of repute. Charming music and uproarious fun alternate throughout the entertainment.

NAMES OF STREETS.

Mr. Editor: I am glad to observe a protest from you against the use of the clumsy and meaningless term "New Vaughan," to designate the extension of Vaughan street. No man among the many enterprising and active Englishmen who settled at "the Bank" was more prominent in working for the public good than Major William Vaughan. It is well that the memory of such a man is preserved in the name of "Vaughan" street; and there is to my mind, no adequate reason for neglecting to apply the same name to the extension. Call it all "Vaughan street."

The fact is, this town is rich in ancient associations, and we will mistake if we do not make the most of them. People from all parts of the country come hither, attracted by the old houses, the old names, the traditions and the associations of the past. It is well to preserve all these names so far as we can. I heartily agree with the views of a correspondent given in your columns some time ago, that we ought to have a "Mason street" here. There are many names for new streets, as they from time to time are laid out, of which may be mentioned: Gorges, Warrenton, Gibbens, Fryer, Moody, Buckminster and others.

I miss the good old name of "Anthony," familiar to my boyhood. Why it was dropped I never could understand. By all means keep up our local names. Penhallow, Sparhawk and Wentworth!—there is a legacy of historical meaning in these names, whereas "Court" and "Union" streets will be found in hundreds of towns, and are without significance.

FELIX.

DEMOCRATIC DELEGATES.

The democrats of ward three on Thursday evening, the 31st ult., chose delegates to the several conventions, as follows:

State—Edward D. Coffin, John W. Caswell;

County—Frank W. Rand, Frank J. Sherburne;

Councillor—George A. Jackson, Harry J. Freeman;

Congressional—Samuel Langdon, Andrew Sides;

Senatorial — Frank Jones, John S. Treat.

The old ward committee was re-elected, with the same officers as last year, excepting that Ira G. Eastman was chosen secretary to fill a vacancy.

The democrats of ward one on Friday evening, the 1st inst., made choice of the following-named gentlemen as delegates:

State — Nathan Whalley, Josiah S. James, Marcellus Eldredge, Dennis J. Lynch, George Lane, John E. Locke;

Congressional—Ozro J. Hobbs, Charles W. Stimson, Samuel Rowe, John T. Shea, Isaac Furber, Daniel Littlefield;

Councillor—Allison S. Littlefield, John Mooney, Charles H. Garrett, John Dyer, William Ward, George Scott;

County—Fred E. Potter, Benjamin F. Canney, Albion Littlefield, Charles H. Foote, Ira C. Seymour, James Sweeney;

Senatorial—Samuel P. Treadwell, Nathaniel D. Miller, Moses H. Goodrich, William H. Dennett, Samuel Spinney, Nathaniel K. Raynes.

It was voted that the old ward committee continue to act.

COMPLIMENTARY.

The Brooklyn correspondent of the *Army and Navy Journal*, writing of the visit of Secretary Chandler to the Brooklyn navy yard, says:

The marine battalion, which was drawn up in line to receive the secretary at the landing, was the recipient of many compliments from the secretary and his party, as well as from the officers attached to the yard and visitors present. The battalion paraded three companies, in full dress with white helmets and white pants, with the field music and colors, and officered by Lieut. F. D. Webster, Lieut. B. R. Robinson, and Lieut. S. J. Logan, the whole being under the command of Lieut. Webster. It is seldom that the secretary of the navy sees so fine a body of marines, both ranks being filled with tall, soldierly looking men. The manual and marching were exceptionally good, and reflected great credit on their officers.

The marine guard of the Brooklyn yard is at present under command of 1st Lieut. Webster, the regular commanding officer being absent on a month's leave.

A despatch was received at the navy yard on Friday last announcing that Secretary Chandler of the navy intended passing the Sabbath at the Isles of Shoals, and to come into this port from there on Monday morning.

It is announced that the schooner yacht Una, owned by Mr. Eckstein of Cincinnati, is for sale, the owner intending to procure a larger boat for his own use.

A large woods fire was set at South Newmarket on Thursday afternoon last, it is supposed by a spark from a locomotive on the Concord & Portsmouth railroad; five acres of woodland belonging to Henry Taplin were burned over, and a large quantity of cord-wood destroyed. In Greenland, Thursday night, several acres of young growth in the swamp near the Concord railroad station were burned; a dwelling occupied by a Mr. Webster was in considerable danger, but was saved by ploughing around it. This fire also is supposed to have been set by a spark from a locomotive.

The north mill, after lying idle for about two months, started up on the afternoon of August 31st, the firm of J. Brooks & Co., corn and flour dealers, having decided to try the experiment as to whether a grist mill can be made a paying institution in our city. The mills at Greenland, where corn has been ground of late, have come to a standstill, there not being water enough even for steaming purposes. Mr. Yeaton, head of the firm of J. Brooks & Co., proposes to develope if possible a mill on this site which shall be capable of grinding anything that may be needed for this market, and we hope he may be successful. Mr. Rand, who formerly ran the mill, is Mr. Yeaton's assistant.

A large Newfoundland dog weighing seventy-five pounds, belonging to Edgar White, gate-tender for the Concord railroad at the Market street crossing, was so badly injured by the cars, Friday forenoon, that he had to be killed. The dog, which was a very gentle and playful animal, was skylarking with a moving train when one of his fore feet was caught under a wheel and crushed to pieces, the poor brute's sufferings being soon mercifully ended by the owner shooting him.

On Wednesday evening of this week Strawberry Bank Lodge, No. 54, I. O. G. T., of this city, visited Whipple Lodge of Kittery, the steamer Mystic making an extra trip to bring the party back. The visitors found Whipple Lodge in a flourishing condition.

Rev. John A. Goss and family are summering at the cottage on "the Cape," Newcastle.

Invalids, Epicures,

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who should, of her humanity, rather may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the manufacture of a medicine, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief received from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weaknesses, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, stimulates the uterine forces for childbirth and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. What female in the land does not know of the Backache, Bearing-down, Fainting pain, weight and backache, is always a sure sign of uterine weakness. It will at all times, and under all circumstances, act in harmony with the laws that govern the female system.

Price one dollar per bottle or six for $5, and is sold by druggists in this city. Any address required as to special cases, and the name and address of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her place of residence in Lynn, Mass.

To all who may be doubtful of either of the above statements we would say that the Compound is the only one of its kind that has been extensively advertised and has received such universal and unanimous testimonials from those who have tried it, that it has established its merits on a firm basis of public confidence, its special line and hold fast to equal the Compound in its popularity.

All send inquiry for an Almanac of Mercy whose sole ambition is to do good to others.

WHEAT BITTERS

THE BEST AND The Richest

BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, TO WHICH PERFECTLY TRUTHFUL ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are the most valuable food properly and nice, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which beat the brain of every day work and life, and in order to save them it is wise to

"BUILD FOR HEALTH."

Wheat Bitters, is prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which added the best and choicest medicinal qualities, necessary to make it a tonic and liver. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is dosing, a tonic when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Making a Passenger "Gift."

A justice of the peace in the interior of Michigan had a case before him some days ago in which the defendant, who had been arrested as a suspicious character, pleading guilty to vagrancy, was sent to the Detroit house of correction for six months. A constable took him in charge to deliver him there, and as the man seemed rather pleased at the idea of securing board and lodging for six months he was not handcuffed. As the train was about ready to go the constable moved across the aisle to talk politics with a friend, and pretty soon they were having it hot and heavy. When the conductor came in for tickets he held out his hand to the prisoner, and the latter shook his head and replied:

"I don't pay fare."

"Aha! You don't, eh? Well, now, you pay or git!"

"I won't pay!"

"Then you'll git! When we slow up at the crossing you jump off. If I find you on the train after we pass there I'll give you a bounce that you won't forget!"

In two minutes the train began to slow, and the prisoner walked to the door and picked a soft spot and dropped off. When the train had made another mile the conductor held out his hand to the constable and received two tickets.

"Who is the extra one for?" he asked.

"For that prisoner over there."

"What prisoner?"

"Why, that fel——"

Then there was raving and gnashing of teeth and hurrying up and down, but it was no use.

"Sorry," said the conductor, as he passed along, "but when a passenger says he won't pay fare on my train I give him the drop. The only thing that surprised me was to see how willingly he obeyed orders."

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. 37 Walker St., Baltimore, Dec. 18st.
For six years I have been a great sufferer from Blood Disease, Dyspepsia and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's Iron Bitters advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

Manufacturers' & Mechanics' Institute Exhibition.

The New England Manufacturers' & Mechanics' Institute in Boston demonstrated last year the justice of their claim to be considered an institution to introduce to the attention of the markets of the world, the product of New England's industry. They do likewise this year. But in addition, the aspect of the Exhibition takes on an educational characteristic. The processes of manufacture that will be demonstrated at its forthcoming exhibition are too numerous to be here mentioned. But it is proper and feasible to point out the importance to New England of this exhibition so far as it relates to its southern exhibits; and the states of Virginia, North Carolina, South Carolina, Georgia and Tennessee furnish, to swell this magnificent display, contributions from its mines, its forests and its fields. New England's capital and labor is invited to contribute to the process of nature, and to make of the south the greatest use possible of its abounding natural resources.

Not the least among the attractions is the Art Display which, it is safe to predict, is the largest and finest ever presented to the visiting public of Boston; and it is to be noted that every picture is for sale to an intending purchaser.

Altogether, no one can spend a pleasanter and more instructive hour or day than in the immense building of the Institute amidst this wonderful collection of displays.

Particularly is the day of opening, Sept. 6th, interesting, when the governors of the New England states and of the southern states specified, will be in attendance, and an address will be delivered by Edward Atkinson, well known to be an authority on all questions relating to New England industrial life.

All are advised to attend, whether they be in search of amusement or information.

The Boston & Savannah Steamship company, whose card appears in our paper to-day, offers to tourists, invalids or travelers wishing to combine business with pleasure the most convenient means of transit between the north and south. Their new and magnificent steamers leave Boston every Thursday, and make connections by rail and steamer with Florida and all points south and southwest. The rates of fare are very low, the trip one of the most delightful on the Atlantic, and everything conducive to the comfort and pleasure of the passengers is lavishly furnished by the managers of this line, which is conceded to be the finest on the coast.

*Women that have been bedridden for years have been completely cured by the use of Lydia E. Pinkham's Vegetable Compound.

—Eighteen months imprisonment for stealing an umbrella is the way they take all the pleasure out of a man's life in England.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

—"What sort of servant have you now?" inquired a lady of a friend she was visiting. "Oh, splendid!" she replied. "He's a Chinaman, and is so methodical in his habits that I know just what he is doing at any hour in the day. He is now probably putting away the dishes and tidying up the kitchen. Come and see if I am right." She led the way to the kitchen, quietly opened the door, and there, in the middle of the floor, sat John Chinaman washing his feet in the dish-pan.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

"The Art Amateur" for September furnishes a notable array of flower designs for painting and embroidery, and handles a long list of art topics in its usual practical and interesting manner. Articles on cloisonne enamels, on book binding, on the art of illumination and on curious shoes and patterns, are copiously and handsomely illustrated. The story of Palissy the potter is retold, and some very interesting examples of his work are given. The frontispiece also represents a notable piece of ceramic ware, which formerly belonged to Louis Napoleon, a majolica plate decorated with the portrait of a beautiful young woman to whom, according to the Italian fashion of the sixteenth century, it was sent, heaped with fruit or confectionery, as a betrothal gift. Among other subjects discussed are painting ivory photographs, stencilling with oil colors, designs in silverware, and bad taste in upholstery. Price $4 per year; single copies thirty-five cents. Montague Marks, publisher, No. 23 Union square, New York.

After you have rubbed with most everything and dosed with the balance for rheumatism,—give St. Jacobs Oil a trial and surprise yourself.

California is doing a larger wine business than ever before. About 10,000,000 gallons of wine are produced there annually, of which nearly 2,000,000 are sent to the eastern states, where much of it is said to be adorned with foreign labels and sold as an imported article. The quality is said to be good, and even some professed connoisseurs are deceived when California wine is offered them under the guise of well known foreign names.

Despatches of Sept. 1st, from London, announced the safe arrival at different points of all the boats of the steamship Lake Nepigon, aground on Arklow bank; and a despatch at midnight reported the steamer as on her way to Liverpool, little damaged, having been towed off the bank by a tug.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the great part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age. Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes, and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Two sunken vessels, a steamer and a schooner, have been discovered in the bay at Charlevoix, Michigan. The weather has been very foggy, and it is supposed a collision took place, resulting in the sinking of both craft. The crews have not been seen or heard from.

A Fact. — Electro-Silicon is the best polishing material ever discovered for gold and silverware. Absolutely free from grit or acids, and polishes with less labor than any other article that does not contain destructive chemicals. Druggists. Jewelers.

Official List of Patents

Granted to citizens of New Hampshire, for the week ending Aug. 29th.

[Compiled weekly expressly for this paper.]

Hiram Blake, Keene; force pump. No. 263,382; application filed June 12th, 1882.

Oscar D. Hartwell, Nashua; telephone case. No. 263,336; application filed May 5th, 1882. [This is a desk attachment for telephones; a battery box with inclosed top, with a hinged extension, etc.]

Romanzo Trefethen and J. W. Willey, Dover; hot-air border. No. 263,443; application filed June 10th, 1882. [This is a register border, composed of artificial stone or other suitable plastic substance, and having embedded within a metallic strengthening frame extended around it.]

The total number of patents issued for the week ending Aug. 29th was 370.

AROUND HOME.

Mestayer's "Tourists in a Pullman Palace Car," with new fun and a new car, will give an entertainment in Music hall on Saturday evening. See advertisement.

Capt. J. Gilman Moses arrived home on Friday evening last from Europe, having spent several months abroad. He finds the millpond nuisance and the Wilson house barricade of Short street (alias New-Vaughan-street - with-a-right-angle-in-it) just the same as when he started.

Freights reported last week were as follows: Cement from Rondout to this port, twenty cents per cask; coal freights same as previous week.

A man named Copp, of Dover, was snatched by the officers at York beach one day last week for illegally selling liquor, and taken to Alfred to await trial.

One of the oldest residents of Eliot, Mr. Andrew Laighton, died on the 31st ult. in the 90th year of his age. For fifteen years past he had been an invalid, being for most of that time confined to his house; but in his early years and middle life he was an active and prominent man, and at various times was selectman, justice of the peace, and state representative and senator. He was upright and straightforward of character, and was one of the first voters, if indeed not the first, to throw a free-soil ballot in Eliot. He leaves three sons, one residing in Manchester, N. H., one in Ohio and one in California.

"JANE EYRE."

There would seem to be no room to question the excellence of the Charlotte Thompson combination, when the press and public are so unanimous in commending it. The leading critics of the day are agreed that as "Jane Eyre" Miss Thompson has no rival, having made this character essentially her own. The company supporting her is said to be the strongest she has ever had, and as they carry with them all the scenic and mechanical accessories necessary to present their stronger scenes realistically, their audiences are treated to the same kind of performances as those offered in the large cities.

THE GIGANTEAN MINSTRELS.

Leavitt's Gigantean Minstrels, advertised to appear in Music hall on Friday evening, claim to be the largest and best minstrel organization now travelling. The list of comedians numbers twenty, headed by Lew Benedict, and including Fred Matthews, the English facial comedian, and Orm Dixon, the ventriloquist. There is a double quartette of vocalists, and the programme is new and original, the performance concluding with a burlesque on Gilbert & Sullivan's "Patience," in which all the original music is given, Mr. Burton Stanley, the burlesque prima donna, taking the part of "Patience." An orchestra of ten solo musicians is a part of the combination. Tickets to be had at Myers' bookstore.

ACCIDENTS.

A young man named John Blake was found drowned in a small salt-water creek on Hampton meadows, on the evening of the 1st inst. He left home in the morning with his gun, for the beach. Not returning when expected, and being subject to fits, his brother went to look for him, and soon found his gun and shoes by the side of the water, which could be easily forded at low tide. Thinking he might have crossed and fallen on the other side, the brother called to some ladies and asked if they had seen anything of him; and on their looking down the creek a short distance they found him lying in the water, face downward. He was a worthy young man, of good habits, and about twenty-four years old.

An unknown man was found upon the track of the Eastern railroad on Saturday morning, a mile west of Biddeford, Me., with one arm ground off near the shoulder, without hat or coat, and one shoe gone. He was taken back to the Biddeford depot and his arm amputated. He is not able to give much of an account of the affair, but says that his name is Harry Wilson and that he belongs to the United States steamer Enterprise, now in Portland, and was going to Philadelphia, and that he fell from a train. A pocket torn from his coat, containing a sailor's knife marked "T. M. B., Enterprise," was found a mile east of the Biddeford depot. It is supposed to belong to him, but no explanation as to how it came so far from where he was found can be given, unless he was dragged that distance by the cars. He says he had no money with him. He will probably recover.

The horses attached to one of Mr. Geo. A. Perkins' ice-carts took fright Saturday morning near the Vaughan street railroad crossing, and ran furiously down the new street toward the Wilson house. By the time the team reached the house of Alfred P. Blake it had hauled in so close to the left-hand side of the street that the hub of one wheel knocked away the water conductor at the corner of the house, and the cart knocked down Mr. Blake's sign. Mrs. John Hurley's house was next hit, hard enough to split and displace the corner-boards; and next the hub went through the board fence separating the Noble lot from the street, the jerk tumbling one horse over the pole of the wagon, breaking a whiffletree, and binging the team to a standstill within a few feet of the Wilson house, with which there would certainly have been a rude collision had the team kept on. The old house seems to bear a charmed life; neither city officials nor runaway teams dare touch it; but this incident emphasizes the need of its being legally removed, before it causes a big bill of damages against the city.

SUPREME COURT--LAW TERM.

The law term of the Supreme court of this state held an adjourned session at Concord last week.

In the case of H. L. Penhallow's will the court held that the waiver of dower, etc., of an insane widow might be made by the court in her behalf, but could not be so made for the simple object of the enrichment of the heirs at law. The case goes to the trial term to determine the facts as to the result of such waiver,—as to whether it would be for the advantage of the widow or for her heirs.

Mr. Chandler's proceeding against the Manchester & Lawrence railroad was dismissed, on the ground that another was the proper remedy.

Case State vs. Concord railroad, being the "contempt" case for the operating a road in violation of injunction, was continued.

In case County vs. Derry, the court decided that the selectmen's valuation of a resident's inventory of estate was final, and proof of its greater value could not be had. Judge Blodgett gave a dissenting opinion.

The town of Hancock was held to pay the gratuity to the Manchester & Keene railroad.

The court also decided that the very injudicious law passed by the legislature at the June session, 1878, taxing legacies and successions of estates of deceased persons, was unconstitutional. Many persons have paid the one per cent under protest, and in many other instances executors and administrators have ignored the law altogether.

The number of opinions delivered was quite large, being over a hundred.

AUCTION.

DWELLING HOUSE, BRICK BAKERY, Stable and Shed at No. 15 State Street will be sold at auction on

Saturday, September 9th, at 12 noon.

THE House contains nine rooms, and is very convenient. The Bakery has **two coal burning ovens**, in complete repair, a large stable with four stalls and large storage capacity, and a good shed.

The property has a frontage of about fifty feet on State Street, running back one hundred and thirty-five feet. The premises can be examined at any time. C. DWIGHT HANSCOM, *Auctioneer.*

A seaman belonging to the U. S. S. Vandalia was pushed off Commercial wharf at low tide Sunday forenoon by a fellow known as "Pop Lolley," and struck on the back of his head and shoulders, but fortunately escaped serious injury through the softness of the dock mud.

The republican mass meeting at Old Orchard, last week, was attended by fully 4000 people, notwithstanding the distance of the place from any of the great centres of population. The meeting was called to order by Gen. M. F. Wentworth of Kittery, chairman of the republican committee of York county, and Judge R. P. Tapley of Saco was chosen president. Mr. Blaine was suffering greatly from hoarseness, but made an argumentative speech which was closely listened to by the immense audience; he was followed by Gen. Gibson of Ohio, who fairly electrified his hearers, repeatedly calling forth cheers and other lively demonstration of approval.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Prostration, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and makes a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from inanition and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the blood of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither pails upon the appetite nor clloys the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine prepared only by Dr. Liebig, and bearing the signature of Baron von Liebig, and a facsimile of his Signature, as well as that of A. VOGELER & CO., BALTIMORE, MD., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

LAIGHTON BROTHERS & CO.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well-ventilated rooms, furnished in hard walnut, with **the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledged professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

ROBERT SHILLABER.

Capt. Robert Shillaber died on Saturday morning, Sept. 2d, at his home on Wibird street, in the 78th year of his age.

Robert Shillaber was the son of William Shillaber, who lived in Langdon street. His brothers were Joseph, who was a shipmaster, and died many years ago, and Benjamin P., widely known for his writings under the *nom de plume* of "Mrs. Partington."

"Capt. Bob" was a character well known in Portsmouth and vicinity for three score years and more. His title as "Captain" was derived from being captain of Engine No. 5, the old "Sagamore," which was located on Summer street, near Islington, and afterward removed to State street, on Mason's hill. The Sagamore had forty members, and was the best tub in town, forty years ago. The captain naturally took to public position. He was for many years constable and police officer, and attested the warrants posted for town meetings. He for many years attended as doorkeeper every session of the courts in this city, both state and federal, and not until quite recently did he give up this duty; and although not inclined to manifest his respect for the court by any outward personal adornment, yet was ever reliable and faithful in the discharge of these duties.

But his great public post of duty, beside which the later offices of messenger of the court, (which he held for forty-five years,) health officer, and keeper of the pound, in which positions last named he did much service, seem insignificant when compared with his service as constable at the polls on town-meeting and election days in the olden time. Those who recall Jefferson hall in the days of the town government, with its long and narrow entrance to the polls, where the moderator and selectmen occupied an enclosed space, will remember "Capt. Bob" standing at the top of the walk, (which rose as it approached the moderator's desk, and fell as the voter passed the ballot box,) opposite the moderator, where the ever-present constable, as each voter approached, announced his name in full with almost invariable accuracy. Thirteen to fifteen hundred voters passed through at a poll, as rapidly as their names could be checked, and the vigilant and efficient constable kept order, with one voter at a time presenting his ballot. He possessed a remarkable knowledge of the inhabitants of the then town.

Mr. Shillaber lived for many years in Ann street, on the shore of the north millpond and in what was once known as "Rock pasture," but long since sold his estate in that location, and built a home in which he has since resided, in Wibird street. Indeed, for some fancied or real grievances extended to him by the projectors of the old Portsmouth & Concord railroad, he ever maintained a determined hostility to the corporation, and wished as he asserted, "to be out of sight of its belongings." So immovable was his prejudice in this respect, that at the last time he voted he was especially careful to vote against the candidate for high office nominated by the party which had since its existence kept him uninterruptedly in office, on account of his wrath in this respect, which had been warmly nursed for thirty years.

If he had a soft side it was not often turned outward. He had his opinions, his likes and his dislikes, and to his credit it must be said there was no hypocrisy in his ways; no man was likely to be deceived into the belief that the captain held him in reverence, if such was not the case. In his early days he was of the democratic school of politics, but he afterwards proved too outspoken for party disciplipe, and as he could not be kept in line he drifted towards the whig element, and when the republican party came into existence was identified with that organization. His language was plain, but not ornate; and every one who has seen him engaged of late years in pruning trees or such out-of-door labors, can remember that his orders and comments were rendered generally in a most stentorian tone of voice. He was noted for his outspoken manner; he never "minced matters;" for him language was not uttered to conceal thought, but to emphasize it.

In his early years, besides making a trip or two at fishing with his father, who was master of one of Noble's fishing schooners, he made a voyage to the West Indies; but his principal seafaring experience was gained while on a long sealing voyage in the Sarah Atkins, a pink-stern schooner of about forty tons, commanded by Capt. Joshua W. Kenney, which made a very profitable trip, going for seals as far south as to the Falkland islands. The schooner was after this voyage refitted for sea at considerable expense, again sailed under command of Capt. Kenney, and was never afterward heard from. It was the profitable trip of the Sarah Atkins which caused the sending out of the famous schooner Pacific, built by George Raynes for Pray & Neal, which was fitted out in 1829 by a stock company in which many prominent merchants held shares, and made the cruise from this port for two years, without success pecuniarily.

It was as a nurse in cases of contagious diseases, particularly small-pox, that Capt. Bob was best known to many, he having probably attended more persons ill with small-pox, during the last thirty years, than any other five men in the city. He was entirely without fear of the disease, and was never attacked by it, though we believe he was never vaccinated. Patents under his care at once *felt* that their bluff nurse, who gave his instructions in such tone and style that they dared not disobey them, knew just what was best to be done, and that concealed under a brusque manner was an earnest desire to benefit those in his charge.

Capt. Shillaber married a daughter of the late Nathaniel Walker, and his widow and two sons survive; one of these is Mr. John F. Shillaber, the well known locksmith on Bow street; the other, Charles E., resides in California. One son, William, died many years ago; and Robert E., who served with distinction in the New Hampshire Battalion, First New England Cavalry, Troop I, in the late war, died after the close of the war from disease incurred in the service.

Mr. Shillaber had a vast store of ingrain common sense. His sayings were oftimes incisive, but at the same time were full of truth. Satirical he may have been, but his knowledge of men, and his quick insight into the motives of conduct of those around him, were remarkable. His pithy sentences, and the many incidents of his years, have from time to time furnished his brother Ben with a fund of material which has been adroitly employed in the latter's publications. With all his peculiarities he had very many warm friends, who appreciated his salient qualities. Indeed

"He was a man, take him for all in all,
We shall not look upon his like again."

FUNERAL NOTICE.

Members of New Hampshire Lodge, No. 17, I. O. O. F., are notified to meet at Odd Fellows' Hall this (Monday) afternoon at 1:15 o'clock, to attend the funeral of our late brother Robert Shillaber. Per order.

THORNTON BETTON, Sec'y.

The Christ church chimes were rung on Sunday morning at 8:30 o'clock, when the other church bells were sounding, and again from eight o'clock in the evening to nine.

First Lieut. I. H. Washburn, U. S. M. C., has been detached from the marine barracks at the Boston navy yard, and ordered to the barracks at this naval station.

The steamer Mystic started for the Shoals on Sunday morning with a large number of passengers, but put back on account of the dense fog and heavy sea outside the harbor. The Clara Batemen went out with 5000 gallons of water for the hotels, and reported the Tallapoosa at anchor in the roads.

At the state fair to be held in Concord on the 19th, 20th and 21st insts., Lewis G. Davis and A. F. Howard of this city will officiate as members of the committee upon pictorial and industrial art; E. G. Pierce, Jr., upon miscellaneous articles; and John S. Tilton upon articles manufactured from leather.

The schooner Ann T. Sipple, from New York for this port with a cargo of coal, went ashore on Shovelful shoal on the 1st inst., and was gotten off and towed into Chatham, Mass., leaking badly.

It Toughens.

SOZODONT toughens the gums and makes them healthy, so that they hold in the teeth firmly. It removes the tartar, gives comfort, is economical of health and money, and when once used will never be given up. Try SOZODONT.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer im mediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

More Trouble in Ireland.

There is serious trouble in Dublin, Ireland, over the police quarrel. On the 1st inst. a large detachment of rifles took possession of the police barracks. Of the entire police force of the city, numbering 1175 men, 240 were dismissed on the 1st, and 620 refused to do further duty. Special constables were called for, and many Orangemen presented themselves to be sworn in. At 10:30 o'clock that night a mob in Brunswick street was charged by the soldiers, and another bayonet charge was made in Sackville street. The gates of Dublin castle were closed at five in the afternoon, and double guarded; and troops were stationed before the Bank of Ireland. It was stated that the dismissed constables would nearly all emigrate to America or Australia.

—"Boy," said a stranger to a lad who was blacking his boots in front of a hotel yesterday, "if I should give you a dollar, would your first impulse be to go to the circus?" "No, sir," was the prompt reply; "my first impulse would be that it was a counterfeit bill!"

German Corn Remover eradicates corns Beware of base imitations. Get the genuine. 26c. All Druggists.

Secretary Chandler and party left the Boston navy yard at noon on Saturday in the U. S. S. Tallapoosa, for this port via Isles of Shoals.

J. D. Alexander, Esq., editor Barnesville, Ga. *News*, says: I recommend St. Jacobs Oil to those who are suffering with rheumatism and similar complaints, as the best remedy that can be had. Nothing has done me so much good.

Engineer Melville and the seamen Noros and Ninderman, of the Jeannette, and Lieut. Robert M. Berry, late commander of the Rodgers, sailed from Liverpool on the 2d inst. for New York, in steamer Parthja.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

A Loss Prevented.

Many lose their beauty from the hair falling or fading. Parker's Hair Balsam supplies necessary nourishment, prevents falling and grayness and is an elegant dressing.

Joshua L. Foster is one of the democratic delegates to the state convention from ward four in Dover, and also to the congressional convention. That means that these conventions, as far as Dover is concerned, must be in sound democratic condition, or there will be trouble in the camp.

THE ONLY REMEDY KNOWN
To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and unfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Erie & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. Address the proprietor, Dr. David Kennedy, Rondout, N. Y. all 4w

37 Walker St., Baltimore, Dec. 28th. For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

The War in Egypt.

A dispatch of the 3d inst., from London, says "Much surprise is expressed at Gen. Wolseley's delay in following up the fruits of his victory, alleged to have been gained at Kassassin lock last week. It is useless longer to conceal the fact that the troops at his command are entirely inadequate for the task he has undertaken. It is asserted that the casualties at Kassassin have seriously retarded his movements, and that the climatic influences have reduced the ranks of the available force to an alarming extent. Meanwhile the British troops are quietly returning, their outposts extending but ½ mile beyond the scene of the last engagement. The absence of definite knowledge as to the precise number of the Egyptian troops in the field, and the promptness with which Gen. Wolseley's change of base from Alexandria to Ismailia was met by Arabi, leads to the belief that the Egyptian army is much larger than was anticipated. There is no doubt that the transfer of the Highland brigade and the summoning of Gens. Hamley and Alison to Ismailia were necessitated by the critical position in which Gen. Wolseley finds himself. The existence of this necessity is loudly condemned, and the effect is that Alexandria has been almost completely drained of troops, and fears are expressed of another uprising of the natives and the massacre of the Europeans."

Heilman, the Indiana brewer and iron-mill man, who has twice bought his way into Congress, has been renominated in spite of his desire to let some one else take the laboring oar for a time. He is pretty certain of defeat this time, as a strong candidate who will hold his party vote, has been nominated against this coarse, inefficient man.—*Manchester Union.*

Mr. Heilman, of Evansville, Ind., is an extensive cotton manufacturer, turning out over 25,000 yards of sheeting each day, and owns a large machine shop and foundry, which he runs. He is not to blame for the *Union* supposing he must be a brewer because he is rich. But he is far from inefficient, as the democracy in his district have found to their sorrow when he has run as a candidate.

It is a much-mooted question now as to the propriety of the president flying his flag at the "peak" or whether it should be hoisted at the "main." We appeal to the admiral of the CHRONICLE to enlighten an anxious people.—*Journal.*

That's an easy one, neighbor. The "peak" is where the national ensign belongs, by universal custom of all maritime nations; the president's flag is not a national ensign, but simply a distinguishing flag to designate, when he is on board a national ship, that the commander-in-chief of the navy is there,—just as an admiral's or commodore's flag, when displayed in its proper place, tells of the presence and authority of an admiral or commodore.

—Vennor said this would be a cold, wet summer. The weather has caused everything but Vennor to dry up.

—Taking the human race as a whole, it is observed that races living almost exclusively on meat have been the most savage ones. Nothing is so apt to make the human being into a savage as to pay thirty cents a pound for a roast, and then find it as tough as sole leather.

One of the greatest trials that housekeepers have to undergo during the hot weather, is that of washing day. Happily there is practical relief for them in the use of James Pyle's Pearline.

Schooner H. B. Griffin, Capt. Van Amburg, arrived at Gloucester, last week from a Grand bank fishing trip, bringing about 320,000 pounds of codfish, the largest fare yet, besides disposing of a portion of her catch in Nova Scotia, giving her a total fare of about 400,000 pounds, the largest ever taken by a Gloucester vessel.

Says the Boston Post: "While Admiral Nicholson toadies to the English at Alexandria, the English fleet in Japan refuses the ordinary international courtesies to our American war ships, and ostentatiously goes out to sea the day before the Fourth of July to avoid giving the customary salute. Similar discourtesy has been recorded before, and what is worse, the officers assert that their conduct is regulated by orders from London."

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

Capt. Hooper of the schooner Kate E. Tilghman, which arrived at Philadelphia Sept. 3d, picked up at sea between Chincoteague and Winter Quarter shoal a number of cork life preservers with the name "Western Texas" marked on them in black letters. The Western Texas is a steamer of 1,100 tons, belonging to C. H. Mallory & Co., of New York, and left the latter port Sept. 1st for Fernandina, Fla.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people for the following: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite City Hall, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. Sawtjan3

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

A train of cars running between Frieburg and Colmar, Germany, left the rails on the 4th inst., killing fifty persons and injuring many others.

A Fact. — Electro-Silicon is the best polishing material ever discovered for gold and silverware. Absolutely free from grit or acids, and polishes with less labor than any other article that does not contain destructive chemicals. Druggists. Jewelers.

Portsmouth Chronicle.

TUESDAY, SEPT. 5, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Republican Canvass.

In the whole history of the republican party in New Hampshire, there has never been such an opposition to the nomination of a man who has sought the office of governor, as to-day is developed against Mr. Hale of Keene, and the chief of this objective element comes from his own neighbors. Even the stir made when the late Gov. Gilmore put in his claim for a nomination seems at this day to have been of lesser magnitude. The feeling may have been deeper, but the Gilmore manipulators managed better than have the members of the Hale bureau. Of course, with such a candidate as Mr. Hale in nomination by the republicans, there would be a lively movement on the part of the democracy with such a man as Geo. B. Chandler in the field, with a good prospect of a successful run.

No Joke About It.

A despatch from Bar Harbor, Mt. Desert, says the absurd story published in the Portland *Argus* concerning the late Green mountain highway robbery, alleging that the same had been discovered to be a practical joke and that the stolen property had been returned to the Messrs. Howe, is an utter lie from beginning to end, false in every particular, and without the slightest foundation. A reward of $5000 awaits the person who shall secure the arrest and conviction of the highwayman, and no efforts will be spared on the part of the Messrs. Howe or the local authorities to secure the arrest and punishment of the offender, whoever he may be or whatever may have been his motive.

New Hampshire Items.

Senor Albert Warren Murphy, dentist to the royal family of Spain, resident of Madrid for twenty years past, a native of Barnstead, and brother of Mayor Murphy of Dover, is visiting friends in the latter place.

A Frenchman, eighteen years old, was killed at Epping on Saturday afternoon by the caving-in of a clay bank he was digging in a brick-yard near the village. He delayed to wheel out a wheelbarrow, and was buried alive.

A large number of men under the direction of Sheriff Foster of Hanover and Col. Stephen Pingree of Hartford, Vt., were searching the woods between Hanover and West Lebanon, all day Sunday, for Lyman Peck, who escaped from the custody of Sheriff Savage of Hartford, last Saturday, while being taken to the jail in Woodstock, Vt. He was seen, pursued and shot at, but got away. Peck, who had but recently completed a term in the Vermont state prison for burglary, was arrested there last Friday morning for breaking and entering Frank Holt's store in West Hartford, Vt., the night before, and committing an assault upon Mr. Holt, who caught him in the act.

Woodbury Berry of Exeter was robbed and shot about eight o'clock on the night of the 2d inst., while going from an outhouse to his dwelling house. He was suddenly attacked by two men, and knocked down. Berry drew his revolver and fired, but without effect. His assailants then fired three times. One ball cut Berry's hat; another entered the back of his head, going around the skull, coming out at the front of the head; the third entered behind the ear. Berry was robbed of a watch and chain, and about $9 in money. He was found an hour later by relatives. His injuries are severe, but he will recover. The robbery was a daring one, for the house is in the village, surrounded by other houses. There is no clue as yet to the perpetrators; Berry describes his assailants as beardless, dressed in dark clothes; one tall and slim. The attack was without doubt made by strangers. Berry seldom carried much money.

The grand jury of the United States circuit court at Parkersburg, W. Va., on the 2d inst. brought in a presentment of manslaughter against Inspector Young, for granting a permit to the steamer Scioto to carry more passengers than authorized by law; also against David Keller, pilot of the Scioto, and Capt. Inglebright and Pilot Long of the steamer Lonas.

It is said the Judge Blodgett will hold the term of the supreme court commencing in this city Oct. 17th. Judge Blodgett last week gave, before the law term in Concord, a dissenting opinion in the Derry case, the views of the law as stated by him being regarded by most of the lawyers present as far more sound than those enunciated by the majority of the court.

The orchestra of the hotel Wentworth finished their "season" there on Friday of last week. The orchestra was this year organized and directed by Mr. Henry L. Harlow of this city, and has been a marked success.

Incident in a Barber Shop.

Quietly entering a barber shop, the stranger removed his hat and coat, and taking a card from his pocket wrote on it:

"I want to be shaved."

A barber stepping forward, read the card, and pointing to a chair, said to his brother artists:

"Deaf as a brass kettle, and dumb as an oyster."

The man straightened himself out in the chair, when his manipulator began lathering his face.

"This deaf cuss has a cheek like a stone wall," he said, when a general laugh followed.

"Stick a pin in him and see if he is entirely dumb," said another.

The victim remaining undisturbed, the following shots were fired at him by the delighted tonsorial artists:

"He needs a shampoo; his head is dirtier than a cesspool."

"Shave him with a stool leg; don't spoil your razor on that stubble."

"Gracious! what a breath. It smells like a Dutch band of music."

"He ought to rent that nose for a locomotive headlight," etc., etc., etc.

While all these complimentary allusions were flying about him, the operation of shaving was finished, and the man arose, put on his coat, and then turning to the astonished barber, said:

"How much for the shave and compliments?"

"I—I—I—I," gasped the astonished man: "Oh, nothing—nothing, call again, excuse"—and as the stranger left the shop the discomfited barbers swore they would never believe a deaf and dumb man again until they had first fired a ten-pound cannon about his ears.

Teeth Marks on the Bedpost.

It happened in Philadelphia and is on this wise: There was a beautiful dinner given, and she sat opposite him and looked ever so charming in a wine-colored silk with a square neck, and otherwise arrayed as never were the lilies in any valley of this poor earth. Well, the idiot of a waiter in handling the soup, upset the entire contents of a plate right in her lap. Just think of it, girls! The whole front breadth utterly ruined, and for the world it could not be matched. Well, what did she do? Did she faint? Did she say "you horrid man?" Did she scream? Not at all; she passed the thing off in some witty remark about fiery baptism, and calmly resumed her dinner. He, of course, was delighted, thought her a most remarkable woman, and indeed she was; became attentive to her, and finally married her. One evening long after the event they were sitting before the fire, the children having gone to bed, and were talking about the old times, when he said:

"My dear, I never told you, I think, how I first thought I would like to marry you, did I?"

"Why, gracious goodness, no; never."

"Well," he said, "do you remember that dinner at Mrs. Simpkins' where your dress was spoiled by the soup?"

"Indeed I do," she replied; "I shall never forget it as long as I live."

"Well," he continued, "you behaved so well about it that I thought you a perfect jewel."

"Yes," she answered, "I remember behaving very well about it at the time, but, good land, you should have seen the marks of my teeth on the bed post that night."

Mrs. Livermore's Shot.

"Women are so frivolous, so fond of dress, parade and show that they would make of government an everlasting spectacular drama" says a man.

"Possibly," retorts Mrs. Livermore, "but I cannot remember ever to have seen women walking delightedly, for hours, in a torch-light procession, through muddy streets, amid the thundering of cannon, the flash of rockets, and the blaze of colored lights. I think I have never seen them parading by daylight, clad in bits of abbreviated aprons, ornamented, as to the shoulders, in what seemed exaggerated horse-collars, their heads supporting an infinite amount of 'fuss and feathers,' and their padded coats over their swelling bosoms nearly bursting with ecstatic delight as they caught admiring glances from the other sex in balconies and at chamber windows."

—"There," she said, waving her marriage certificate in the air, "there is the flag of our union!"

— The Bridgton *News* calmly says: "The types last week made us say that 'the showers were not sufficient to meet the wants of milkmen', etc., instead of 'millmen.'"

Notice to Mariners.

Capt. Petty of schooner Caroline, of Tiverton, reports that in returning from Cottage City, through Vineyard sound, he saw a sunken schooner about midway between Cuttyhunk and Gay Head. He ran as near the wreck as possible, but discovered nothing floating around her. She lies in a dangerous place for vessels passing through the sound, as nothing but the masts could be seen.

Long Island Sound.—A dangerous obstruction to navigation, supposed to be a grounded wrock, is known to exist about north by east half east of Execution Rocks lighthouse, about three-quarters of a mile from the light, and about one-quarter of a mile from the buoy marking the north end of Execution Rocks shoal. Every effort will be made to locate the obstruction referred to, and until it is marked by a buoy, the channel north of Execution rocks should be entered with great caution. GEORGE BROWN, Captain, U. S. N.

A spar buoy, painted red, has been placed to mark the Eastern Drunker's ledge in Casco bay. It is about 100 feet south by west from the shoal part of the ledge.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE NAVAL SECRETARY'S VISIT.

The U. S. S. Tallapoosa, Commander A. G. Kellogg commanding, with Secretary Chandler of the navy on board, arrived at the navy yard about half-past nine o'clock Monday forenoon, from Boston via Gloucester and the Isles of Shoals, and hauled in to the wharf abreast of the sheers. Secretary Chandler on landing received the regulation salute of nineteen guns.

The secretary, accompanied by Commodore Earl English, chief of the bureau of equipment and recruiting, Commodore W. H. Shock, engineer-in-chief of the navy, and Commodore T. D. Wilson, chief of the bureau of construction and repair, spent the day in inspecting the yard and its appointments, and looking over the vast capabilities the station possesses for accomodating increased facilities for work of all kinds—the building and repairing of vessels, and the manufacturing of almost anything required in the navy.

The secretary's immediate future movements are said to be undecided on, from the fact that the president is expected to visit this station, in which case the North Atlantic squadron will return. If the president should not visit this port the secretary will make a brief visit to the interior of the state, and then proceed to Bar Harbor, Mt. Desert, where he will meet the president.

The Tallapoosa on this trip carries at the main the regulation flag of the secretary of the navy, namely, a blue flag having in the centre an anchor in white, and a white star in each corner.

The officers of the Tallapoosa are as follows: Commander A. G. Kellogg, commanding; Lieutenants J. F. Merry and William H. Everett; Mates F. H. Poole, T. W. Bonsall, A. P. Bashford and Hugh Kuhl; Passed Assistant Surgeon P. M. Rixey; Passed Assistant Paymaster H. R. Smith; Passed Assistant Engineers G. E. Tower, J. A. B. Smith, and L. W. Wooster; Assistant Engineers J. S. K. Reeves and J. A. Henderson; Gunner C. A. Young; Carpenter W. L. Maples.

DEMOCRATIC DELEGATES.

The democrats of ward four have made the following choice of delegates to the several conventions:

State—Henry F. Wendell, Alonzo K. W. Green;

Congressional — William S. Hazel, George S. Leach;

Councillor—Charles W. Norton, David Urch;

County—Shirley B. Cunningham, David Urch;

Senatorial—Benjamin Atwell, Wm. H. Smart.

"PROTECTION" VS. "FREE TRADE."

Mr. Editor: I see by your report of the deliberations of the city fathers, that one of our aldermen from ward four, whose election was secured by the persuasive efforts of Capt. Marcy, who poured oil upon the disturbed waters of Sabastopol politics at the last contest, wants his business protected from the noisy competitors who advertise their wares in loud shouts in our streets. This may be well enough in the abstract. If our alderman in his sales confines himself strictly to articles of traffic allowed by the law, and unlike his competitors does not violate the ordinances and laws he has just sworn to support, by encumbering the side-walk in front of his premises, then he might have a right to complain that "street venders," who sell from carts instead of from stands in the street, were a nuisance, although selling articles of growth on farms, etc., such as I believe the law has always permitted without restriction. But what I want to know, Mr. Editor,—and I know that editors are presumed to know everything,—is, "What becomes of our glorious old democratic doctrine of free trade, of which the aldermen of our ward are the embodiment? Shall it come to pass that the representative men of our time-honored ideas shall prove recreant to our confiding trust, and seek to protect the home dealer against the incusions of the foreign merchant in their wares?" Out upon such federal doctrine! It is unworthy of the men who are sent to the city councils from the home of Gardner and Manning, and whose ideas upon free trade ought to be properly put in shape, before the nomination. Some of us thought at the time of the caucus that we were in danger of making a wrong selection, but Capt. Daniel assured us he would see that it was all right; and yet here is the maiden speech of our new alderman, solid against "free trade and sailors' rights," for which we have always so lustily contended. Such doctrines will not satisfy the constituency who vote in WARD FOUR.

EXEUNT.

There is a peculiarly happy sensation experienced in the advent of our summer visitors to the many attractive places of resort in our vicinity. We enjoy the additional activity which the summer travel affords to the railways. The well loaded stages to Rye, York and other places are pleasant to behold. The Shoals steamer, with its complement of passengers bound for the health-affording isles, is one of our summer sights we delight to contemplate; and the appearance in our streets of the equipages from the Wentworth, Rye beach and other noted resorts, affords an agreeable aspect to our thoroughfares on a summer afternoon. But the time for departure has come, the trunks are packed, and the visitors are making the homeward march.

"Slow rolls the coach along the dusty road,
Big with its filial and parental load."

The outward-bound trains are filled with the parting guests, and the general indications point to the end of the season. We shall miss these sojourners from their accustomed haunts. They have enjoyed a pleasant season, serene skies have shone upon them, and happy hours have been experienced, we hope, by all. We trust that the enjoyment of the many advantages of this locality have been so far appreciated that another season will see our summer visitors present in increased numbers.

"JANE EYRE."

This evening, at Music hall, a rich dramatic treat will be afforded in the presentation of "Jane Eyre" by Miss Charlotte Thompson and a strong supporting company. Miss Thompson has made the very exacting part of Jane Eyre her own, her impersonation of the character being confessedly far superior to that of any other actress who has undertaken it. Tickets can be secured at Myers' bookstore.

Hugh de Payens Commandry of Knights Templar, of Melrose, Mass., will arrive in this city by special train over the Concord railroad at 5:30 o'clock this evening, and be received at the station by DeWitt Clinton Commandry of this city, with the Dover cornet band. The route as previously announced will be marched over, after which the visiting Sir Knights will take barges for the hotel Wentworth.

The first rain worthy the name with which we have been favored for two months came on Sunday night,—too late to save the crops of potatoes, corn, fruit, fall feed, etc., from serious blight, but nevertheless most welcome.

A live alligator a year and a half old and two and one-half feet long, caught in the St. John's river, Florida, and brought from there by Mr. Wm. S. Plummer, a son-in-law of Rev. I. S. Jones of Rye, can be seen at Mr. Wood's hairdressing rooms on Congress street. The "critter" has been in a tank on Mr. Jones' lawn at Rye since June 1st, where it has attracted much attention from the summer visitors and residents of the town.

A large number of calkers who have for some time been employed on the U. S. S. Vandalia were suspended from duty on the navy yard on the 2d inst., having completed the job.

The house on Whidden street, advertised to be sold at auction on Wednesday, will be open Tuesday afternoon for examination. See advertisement in this paper.

Walter C. Harriman, Esq., county solicitor of Rockingham county, announces that he will not be a candidate for reelection.

A few days ago a couple (James Marron and Ellen Fahey, both of Waltham, Mass.,) were married on the Eastern railroad at the rate of forty miles an hour. The train was speeding through Lynn as the blushing bride, with a beautiful babe in her arms, and the handsome bridegroom, stood up and were declared husband and wife by Justice Wakefield of Everett.

Of Leavitt's Minstrels, which will give a performance in Music hall on Friday evening, the Boston *Globe* of Aug. 30th says: "No minstrel company has been seen in Boston for years that can even remotely be compared to this superb organization."

Eastern railroad 4 1-2 per cent bonds are now known only by tradition and history, having become six per cent bonds on the 1st inst. The bonds were issued in 1876, to run thirty years, at 3 1-2 per cent for the first three years, 4 1-2 for the second three years, and six per cent for the remainder of the life of the bonds.

Naval Affairs.

A dispatch from Yokohama says: "Ill feeling among American residents in Japan has been started by repeated and apparently studied discourtesies to the United States flag on the part of British naval officers. The American ship Swatara left Yokohama homeward bound on July 27th, and was saluted according to custom by war ships of every nationality except the English. The British fleet at Yokohama was sent away on the 2d of July last and remained at sea over the fourth, avoiding the necessity for a salute. Similar incidents were of constant occurrence during General Grant's visit, and the determination of the British army officers at Hong Kong to withhold salutes on Washington's birthday has been a cause of difference between the officers and Governor Sir John Hennessey, who shows a sense of the proprieties of such occasions. It is claimed on behalf of the British agents that their conduct is regulated by orders from London."

The North Atlantic squadron sailed from Portland for Eastport on the 2d inst., and will return to Hampton roads Oct. 15th.

Two Doctors Drowned.

Drs. A. O. Dickey and J. C. Marshall, of Lyme, were both drowned in the lake at Post Mills village, Vt., Sept. 3d. They were driving in a covered buggy with a pair of horses along the shore, when their horses took fright and ran into the water, and overturned the carriage. Their bodies were recovered in a few minutes, but not until after life was extinct. Dr. Dickey was sixty-two years of age, and had spent his active life at Lyme in the practice of his profession; he had no family. Dr. Marshall was about thirty-five years of age, had practiced medicine in Lyme for the past eleven years, and leaves a widow but no children.

Which Third?

Consul Gifford, at La Rochelle, reports to the state department that a very large portion of the brandy exported from France to the United States is adulterated to such an extent as to justify its total exclusion. He says that the production of genuine brandy ceased three years ago in the Cognac region, and that now exported is necessarily falsified. He estimates that not over one-third of the brandy received from France can be regarded as above suspicion—and what troubles the American brandy-drinkers is to know which third they may place confidence in.

A Bath, Me., man went to a barber's to get shaved and left in a chair checks and other papers representing $15,000. The barber found them and returned them to the owner.

We find mentioned in a New York daily the case of Mr. John S. Briggs, a well-known citizen of Omaha, Neb., who had been terribly afflicted with acute rheumatism in the back, and who was rescued from its clutches by the use of St. Jacobs Oil, after vainly trying very many other means.

Physicians who have examined Maggie Keppel, who abducted little Lizzie Selden from her home in Brooklyn, have pronounced her insane.

Special and personal attention given to the preparation, proof and trial of cases in the court of Alabama claims in Washington, D. C.

An extended experience in the former Court and unusual facilities for managing these causes, enables me to render special services to claimants. Time for docketing cases expires January, 14, 1883. All cases not entered on or before that date will be thereafter totally barred and inadmissible.

The court has jurisdiction of claims for vessels and cargoes destroyed by any Confederate Cruisers, and for officers and crews and for War Premiums paid from April, 1861, to November, 1865. Interest is allowed from the time of the loss, or payment of premiums until March 31, 1877 at 4 per cent. per annum.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. ☞ Walker St., Baltimore, Dec. 188.
For six years I have been a great sufferer from Blood Disease, Dyspepsia and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

I was induced to try your Cream Balm; have used it with favorable results, and can confidently recommend it to all similarly afflicted. ROBERT W. TOWNLEY, (ex-Mayor) Elizabeth, N. Y.

TRENTON, N. J., Oct. 23, 1880.
I have suffered for eight years with Hay Fever, during July, August and September. In the beginning of July, this year, I resorted to Ely's Cream Balm, and have been entirely free from the fever since the first application. I can recommend it as a cure. EDWARD C. HILLMAN, at the New Jersey State Arsenal. Price 50 cents.

Apply into nostrils with little finger.

Frank Henry of Newport, Me., was found dying on Mechanics' wharf at Portland, Me., Sunday, and taken to the Greeley Hospital, where he died Monday morning. Before his death he stated that he was drugged and robbed in a saloon, and afterwards carried to the wharf and left there. Coroner Gould states that he was evidently poisoned.

One of the greatest trials that housekeepers have to undergo during the hot weather, is that of washing day. Happily there is practical relief for them in the use of James Pyle's Pearline.

The Louisiana Lottery company, on the 4th inst., by Messrs. Jeff Chandler and Charles Thompson filed a suit in Washington against the District Commissioners for $7000 damages, claimed to have been sustained by the defendants closing up the lottery office in that city, arresting their agents, etc.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent
Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

Mother Died from it
J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

Psoriasis.
H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful case on record. Cure certified to before a justice of the peace and prominent citizens. All addicted with itching and scaly diseases should send to us for this testimonial in full.

Salt Rheum.
Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally.
MRS. WM. PELLINGTON, Sharon, Wis.

Mr. Wm. Westfall,
Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why
Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

On Sunday evening, the 3d inst., a boat was capsized on the Merrimac river some distance above Lowell, Mass., and two of the three occupants, A. Stockwell and a one-armed man, were drowned, the third man swimming ashore. The one-armed man was employed in a Lawrence machine shop, and capsized the boat while drunk. Stockwell leaves a family.

Modern Housekeepers have abandoned all cleaning compounds of acids, whiting and ammonia, and use only Electro-Silicon, the standard silver polish of the world. Sixteen years in household use. The best, the cheapest. Druggists. Jewelers.

Portsmouth Chronicle.

WEDNESDAY, SEPT. 6, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

A Sweeping Indictment.

In the course of a characteristically strong and incisive speech which he delivered before his fellow-citizens of Maine, a few days ago, Mr. Blaine issued the following notable challenge: "I challenge any gentleman to show that in the whole of twenty-one years the democratic party and its various side issues, like the greenback and labor and other organizations, has ever proposed a measure that was able to be materialized into the form of a bill or resolve in the Congress of the United States for the amelioration of any human woe or for the advancement of any public good." This is a remarkable challenge. Certainly no more terrible indictment of a political party was ever drawn. Consider its scope and significance. The twenty-one years to which Mr. Blaine refers are, in many respects, the twenty-one most important years of our national life, covering as they do the war for the Union period, the reconstruction period, and the resumption period.

Try Again, Governor.

Governor Plaisted of Maine is convinced, doubtless, that the political tide is running against him. He made an effort in his speech at Augusta to turn discussion into a new channel, by making grave charges against the management of the state reform school. He stated that gross abuses were prevalent there, and cited several illustrations to prove his statement. But the superintendent of the school, the chaplain, several of the trustees, and other gentlemen whose word is unimpeachable, have promptly denounced the governor's charges as unqualifiedly false. Plaisted will have to try some other means to retrieve his failing political fortunes.

The War in Egypt.

An Alexandria despatch says Mahmoud Fehmy is kept in a wretched room, and strictly guarded. It is stated that his custodians gave him only sea water to drink on the first day of his imprisonment, saying "You tried to make us drink sea water by stopping the sweet water canal."

Recent observations show there are seven distinct lines of defence between Arabi's fort and Damanhour.

The khedive has issued a decree forbidding the importation of petroleum into Egypt.

The London *Standard's* despatch from Kassassin says Arabi Pasha has regained confidence. It will be necessary to prepare for a scientific and methodical advance, and to attack him in force. The fire of the English infantry in the last engagement appears to have inflicted very slight damage upon the enemy. The Martini-Henri rifles used by the British troops are apt to be rendered unserviceable by hard usage.

The London *Times* says that though Wolseley does not require a third division, the government is determined to strengthen his hands by sending three battalions of infantry, so that Wood may be set free without leaving a garrison of less than 5000 men in Alexandria. Reserve depots of 150 men for each of the regiments which are at the front with Wolseley, will also be formed at Alexandria, and a large depot of a thousand reserve men will be formed to replace these as they are drafted to the front to supply casualties. The result of these measures will be that Wolseley will have 22,000 men on the main line of operations, besides the garrison of Alexandria and the Indian contingent.

News and Notes.

A safe in L. L. Crawford's store at Greensboro, Pa., was burglarized of between $10,000 and $12,000 on Sunday night.

A handcar was struck by a train on the Michigan Central railroad, near Edwardsburg, Sunday night, and three men killed.

George Grieve of St. Louis, Mo., on the 3d inst. killed his two children, and then shot himself. Domestic infelicity.

The president of the New Orleans board of health publishes a card stating that there has been no case of yellow fever in that city since Aug. 11th.

Legal proceedings were commenced in Portland, Me., on Monday, against the Grand Trunk railway company, to compel the payment of $30,000 taxes.

David Lennott, of Newbury, Mass., has been arrested on suspicion that he is the person who has recently committed several burglaries at that place.

Bob Ford, who killed Jesse James, says he is convinced that Frank James left for England after a short stay in Lynchburg, Va., soon after the death of Jesse.

When the self-accused assassin of Lord Frederick Cavendish, hailing from South America, "confessed" that Mr. O'Connor, member of parliament, gave him £20 for his part in the murders in Phœnix park, Dublin, the British authorities might have let him go instantly. They have given this fellow free passage as far as the island of Jamaica, however, and it looks as if he would succeed in his transparent plan of reaching England without expense to himself.

Susan Coolridge has translated Theophile Gautier's "Household of Pets," and it will be published soon by Roberts Brothers. This firm also announce "Art and Nature," a series of letters from Italy by Eugene Benson; "Wit and Wisdom of Don Quixote," a volume uniform with the "Wit and Wisdom of George Eliot," and Mrs. Harriet Prescot Spofford's first juvenile, "Hester Stanley at St. Marks."

Gen. Sherman will visit Boston Sept. 13th, and go to the Weirs reunion on the 14th. Subsequently he will visit the White mountains.

SEND THEM HERE.

The new Cunard steamer Cephalonia, which arrived in Boston on Monday, brought the Jordan & Marsh tourists who have been abroad, as Mr. Jordan explains, "as a step towards the elevation of the working people, and giving them self respect and the knowledge that will dignify them," etc. The steamer drew twenty-three feet four inches of water, and consequently had to wait for the high tide to go up to her dock, as there is so little water in Boston harbor at low tide. The inference is plain: the Cunard managers must either build vessels of a lighter draft, or else send their steamers to Portsmouth, where at the lowest tides could come to the wharves vessels of the deepest draught, fully laden.

THE LAKE SHORE RAILROAD.

The Belknap *Tocsin* frequently speaks of Hon. Moody Currier as president of the Eastern railroad!

The president of the Eastern road is E. B. Phillips, Esq., of Boston. Mr. Currier fills the nominal position of president of the Eastern railroad in New Hampshire, which is the corporation in this state, preserving the organization only to comply with the laws, and owning the line of road between Massachusetts and Maine, leased for a long term of years at a fixed rate to the Eastern Railroad Co. Its officers have no voice whatever in the management of the Eastern railroad or any other road, and whatever position the Eastern corporation may see fit to assume regarding the Lake Shore road, in no way concerns the E. R. in N. H., whose income cannot be increased, diminished or in any way affected thereby.

The *Tocsin* in its heated zeal for the Lake Shore seems to regard severest criticism upon all who do not favor the granting the charter to the Boston & Maine railroad for their own purposes, the design of which some (by no means all) of the Laconia people can see, as the most expeditious mode of obtaining a charter, and perhaps building the road. That paper has been far more gushing than judicious in its advocacy. If the L. S. is to be chartered, it will be not in consequence of its friends abusing the Eastern road and the representatives who were not taken in at the last session, but because some one comes forward who can give assurance that the road will be built, and that the enactment is sought in good faith. In the meantime, the ill-advised mode of proceeding of the *Tocsin* is sure to kill the project from an over-dose of gall, where a more palatable ingredient might accomplish some better result.

REMOVAL OF A CATARACT.

Doctor N. L. Folsom of this city performed, on the 21st of May last, a successful operation by removing a cataract from the left eye of my mother, Mrs. Ellen Lewis. For over a year she was totally blind, previous to the operation. In September, 1881, she went to the Eye Infirmary in Boston for treatment, but returned without having received any benefit to her eye. I am under great obligation and thankful to Dr. Folsom for his attentions, kindness and skill, in restoring her sight to her once more, and would recommend him as an efficient and skillful operator on the eye to any one requiring his services and advice.

CORNELIUS LEWIS.

PORTSMOUTH, Sept. 5, 1882.

The schooner Ella M. Johnson, loaded with salt from E. F. Sise & Co., for Elvin Newton at Lunging island, Isles of Shoals, sailed for the islands on Tuesday.

The total number of guests remaining at Old Orchard beach on the 2d inst., according to the Biddeford *Times*, was 536, divided among eleven hotels, a twelfth house being bare of boarders. The paper says: "Everybody seems to express the same idea at the beach—that they never knew so many people to leave the beach in so short a time."

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestive, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from inanition and wasting, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining and rapidly restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither pails upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting benefit from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from Alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fac-simile signature of Baron von Liebig, and a fac-simile of his Signature, as well as that of A. VOGELER & CO., Baltimore, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

"JANE EYRE."

When Charlotte Bronte's novel, "Jane Eyre," appeared in 1848, it was a story which was read and commended far and wide. Mr. Whipple, in criticising the book in the *North American Review*, said that its "popularity was due in part to the freshness, raciness and vigor of mind it evinced, but it was obtained not so much by these qualities, as by frequent dealings in moral paradox, and by the hardihood of its assaults upon the prejudices of proper people." The attempt to maintain a similar interest, in a dramatic representation, to that we have experienced in reading a story, is not apt to be successful, unless an artist of acknowledged ability makes a study of the author's plans, and is able properly to present them on the stage. Such, for example, has been the result of Mr. Jefferson's delineation of Washington Irving's "Rip Van Winkle."

We are induced to expect much from Charlotte Thompson's impersonation of Jane Eyre, not that we are to be delighted or appalled at the "fire scene" and other incidents of the play, but we have the same anticipations as we feel when one of Shakespere's plays is brought out, that study will show how the actor can reproduce in appropriate tone the poet's lines. With many of these representations there is no previous consideration moving the spectator; one goes to see them simply *pour passer le temps*, and the temporary enjoyment of the evening passes at once from memory; but seeing Jane Eyre is a higher order of entertainment and consequently we have great expectations as we repair to Music hall.

The representation on Tuesday evening was well and successfully rendered, all the leading parts being well sustained. The audience testified their appreciation by liberal applause, and at the close of the fire scene Miss Thompson appeared before the curtain. The play has lost none of its interest, and it is safe to warrant that every one who goes to it will have an evening's pleasure far beyond that afforded by the ordinary entertainment, as in Jane Eyre, as rendered by this company, there is much to enjoy and nothing we would desire omitted.

The company will play in Manchester to-night.

TENTH REG'T REUNION.

The members of Co. G, 10th Reg't N. H. Vols. in the war of the rebellion, living in this city and vicinity, will have a meeting in the common council room on Friday evening, Sept. 8th, to make arrangements for attending the reunion of survivors of the regiment, at Manchester on the 22d inst., the 20th anniversary of the regiment's departure from Manchester for the seat of war.

THE "TOURISTS."

On Saturday evening, in Music hall, Mestayer's "Tourists" will take a jaunt in a "Pullman palace car." The Tourists was the first piece of its kind to be brought before the public, and has given its name to a class of light, sketchy entertainments which have won and maintained remarkable popularity during four or five years past. This season the Tourists set out in a new car, and furnish new music and new fun to cheer themselves and amuse the audience. Seats can be secured at W. G. Myers' bookstore.

STEAM TRAFFIC BETWEEN PORTSMOUTH AND YORK.

For years there has been talk about the establishing of steam communication, either by rail or boat, between this city and York, Me., during the season of summer travel at least, if not permanently throughout the year; but as yet the railroad or steamboat service has not come to the front.

There was indeed once an attempt made (about the time the Marshall house was opened to the public) to run a passenger steamer from this port to York harbor; but the boat procured for the service was wholly unfitted for it, being of small carrying capacity and little power; besides this, her machinery was constantly giving out, and before the end of the first season she was taken off the line and made fast to a wharf near Liberty bridge, where she laid idle for many months, and was finally sold to parties in Portland or some other eastern port.

Last year there was talk in York of a steamboat to ply this season between Portsmouth harbor and Lobster cove, York, but the failure of the town authorities to lay out and build a half-promised highway from the cove to York harbor, past the hotel Bartlett, put a stopper on this scheme, and the steamer was not put on the route.

It is reported now that "almost" enough money has been subscribed to pay for a practical survey of the route for a narrow gauge railroad from some point on the Eastern railroad to York beach, but whether or not the railroad would be built after the survey was made is a problem; there has been plenty of talk about a railroad there within the past two or three years, but no railroad has been built.

But there is at last a fair prospect that another year will see a steamer plying between Portsmouth and York, a Manchester gentleman named Forsaith, who own a cottage in York, offering to put on a boat of good speed and a capacity for 150 passengers, provided a proper landing stage and approaches are constructed for her use in a cove between Union Bluff and Concordville.

A meeting of parties interested was held at Fairmount cottage one evening last week, and $600 subscribed to defray the preliminary expenses, with promises of more when needed. Should the boat be put on, as now seems very probable, arrangements will be made to have her touch at York harbor on her trips each way. That a good sized, fast steamer would pay largely on this route we do not have a shadow of doubt; the local patronage alone, in the busy season, would go a long way toward paying all the running expenses.

There was never any talk, so far as we are aware, of establishing steam communication between this city and Kittery Point, until Mr. T. Keen went ahead and put on a boat which has proved a source of profit to its owner and to this city, as well as a great convenience to visitors at the point during the summer, and to the residents at all times.

At ten o'clock this forenoon will commence an auction sale of all the furniture in the house formerly owned by the late Lafayette Laighton, a partial list of which is given in another column. At noon the house and lot will be sold. See advertisement.

On Sunday afternoon last, about four o'clock, a boat belonging to Mr. George J. Fernald and containing five men was taken against Portsmouth bridge by the tide, and was held there (without filling) until the tide slackened, when she was brought down the river by Mr. Frank Wendell. The five men made a magnificent display of agility in climbing up on the bridge when the boat struck. Running into Portsmouth bridge with a boat is risky sport.

The internal revenue collections for the district of New Hampshire, during the month of August, were $33,560.84 against $31,825.37 for the corresponding month last year.

A large number of persons witnessed an interesting trotting match at the Rockingham park, Tuesday afternoon, between "Billy Bundle," entered by C. P. Storer of Kennebunk, Me., and "Honest Lion," entered by L. M. Carpenter of Exeter. The race was for $100 a side, and was taken in three straight heats by Billy Bundle; time 2:53, 2:54, 2:49.

Mr. Frank J. Stiles, formerly of the CHRONICLE but now residing in Marlborough, Mass., is spending a few days with friends in this city.

A large number of fishing vessels were off the harbor and Rye beach, Tuesday, after mackerel.

The schooner Lewis A. Rommell arrived at Neal's wharf, Kittery, Tuesday of this week, with between four and five hundred tons of coal on board.

Secretary Chandler on Tuesday made a thorough personal inspection of the dry dock and many of the buildings on the navy yard. The yard fire alarm was sounded and the department turned out, about one o'clock, to enable the secretary to judge of the efficiency of the department; after which the secretary, accompanied by Commodore Wells, commandant of the yard, and Commodore Earl English, proceeded in the yard steam launch to Wood island, to inspect the quarantine anchorage and station there.

The steamer James Sampson has been hauled up for some days, to enable Messrs. Critchley & Whalley, the machinists and foundrymen, to make some needed repairs to her machinery, the steamer Fearless having been running in her place on the route between this city and Kittery Point. The James Sampson will commence running again on Thursday, the 7th inst.

The brig William Mason, from Philadelphia with a cargo of coal for the Concord railroad, was in the lower harbor Tuesday evening.

Peace Produces Prosperity.

The prosperity with which the blessing of Divine Providence has visited the South is evidenced by the increase of the comfort of living in the several prominent cities, notably New Orleans. The great Charity Hospital, which has flourished for over a century, is sustained by the gratuity of $1,000,000 from The Louisiana State Lottery Company, in return for its franchises. The next drawing (the 148th Grand Monthly) will occur September 12th, and prizes of $75,000, $25,000, $10,000, etc., will be given to purchasers of tickets—whole, $5; fifths, $1. Invalids, Epicures,

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

LYDIA E. PINKHAM'S

General Butler's yacht America left Montreal for Boston on the 4th inst.

Sick headache, nausea, rising of food, flatulency, seasickness, cramps and pains, hysteria, nervousness, languor, and loss of sleep call for prompt use of Sanford's Ginger, "the delicious."

Mt. Vernon, Ind., has been raided by rioters who burned the city marshal's house and severely beat his deputy. All on account of an attempt to close the liquor saloons on Sunday.

Fruit of the tropic's burning clime,
Thy wondrous virtues, fadeless still,
Exert an influence sublime
In ministering to human ill;
And many a pang along our way
Sanford's Ginger doth allay.

Monday morning Charles Devernier was assaulted in his store, in Winslow, near Lombardsville, Ohio, by two masked men, bound and gagged and left for dead. The burglars secured $8,000.

*** "Necessity is the mother of invention." Diseases of the liver, kidneys and bowels brought forth that sovereign remedy Kidney-Wort, which is nature's normal curative for all those dire complaints. In either liquid or dry form it is a perfect remedy for those terrible diseases that cause so many deaths.

The Spanish government has ordered quarantine against vessels from Egypt, Malta and Cyprus. An official despatch from Manila states that 347 natives and one European died of cholera there on the 3d inst.

The effects after taking Adamson's Botanic Balsam are a soothing and controlling influence over any Cough or Cold, promoting rest, allaying the tickling sensation in the throat, and causing a healthy expectoration.

The defalcations of Hunter, the absconding notary of Montreal, are now known to exceed $220,000.

No matter what your ailment is, Brown's Iron Bitters will surely benefit you.

James Earles, while intoxicated, was thrown from a wagon on Gorham street, Lowell, Mass., Sunday, and received fatal injuries.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

Mrs. Patience Gibson, of Sutton, Mass., celebrated her 100th birthday last week, eighty-seven of her descendants being present.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

About $1000 have been raised for Mrs. John Brown in Chicago. The amount in the city will, it is believed, swell to $1500.

Special and personal attention given to the preparation, proof and trial of cases in the court of Alabama claims in Washington, D. C.

An extended experience in the former Court and unusual facilities for managing these causes, enables me to render special services to claimants. Time for docketing cases expires January, 14, 1883. All cases not entered on or before that date will be thereafter totally barred and inadmissible.

The court has jurisdiction of claims for vessels and cargoes destroyed by any Confederate Cruisers, and for officers and crews and for War Premiums paid from April, 1861, to November, 1865. Interest is allowed from the time of the loss, or payment of premiums until March 31, 1877 at 4 per cent. per annum.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and in other elevated ground, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Hud. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. Address the proprietor, Dr. David Kennedy, Rondout, N. Y. all 4w

37 Walker St., Baltimore, Dec. 28th.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
MRS. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

Daily Chronicle.

Ex-Senator Eaton, it is stated by a Connecticut paper, prefers to be a candidate for Congress from the 1st district of that state if he accepts any nomination to office this year. As the district has a republican majority of about 2,000, Mr. Eaton is doubtless eager to remain in private life.

Congressman Robeson and James H. Nixon are rivals for the republican nomination to Congress in the 1st district of New Jersey. The contest for delegates to the convention is a close one, each candidate having thus far secured the same number.

The leaders of the woman suffrage movement in Massachusetts are bestirring themselves to check the boom for Mr. Bishop for governor of the state. They urge all their friends to aid in the election of delegates favorable to Mr. Crapo.

A Big Success.
"My wife was sick two years with a complication of diseases, for which her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

—"What sort of servant have you now?" inquired a lady of a friend she was visiting. "Oh, splendid!" she replied. "He's a Chinaman, and is so methodical in his habits that I know just what he is doing at any hour in the day. He is now probably putting away the dishes and tidying up the kitchen. Come and see if I am right." She led the way to the kitchen, quietly opened the door, and there, in the middle of the floor, sat John Chinaman washing his feet in the dish-pan.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.
LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,
Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why
Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Parker's Hair Balsam
Satisfies the most fastidious as a perfect Hair Restorer and Dressing. Adopted for its cleanliness and elegant perfume. Never Fails to Restore Grey or Faded Hair to the youthful color. 50 cts. and $1 sizes at all druggists.

PARKER'S GINGER TONIC
Ginger, Buchu, Mandrake, Stillingia and many of the best medicines known are here combined into a medicine of such varied and effective powers, as to make the Greatest Blood Purifier & the Best Health and Strength Restorer Ever Used.
It cures Dyspepsia, Rheumatism, Sleeplessness, all diseases of the Stomach, Bowels, Lungs, Liver, Kidneys, and all Female Complaints.
If you are wasting away with Consumption or any disease, use the Tonic to-day. It will surely help you. Remember! it is far superior to Bitters, Essences of Ginger and other Tonics, as it builds up the system without intoxicating. 50c. and $1 sizes, at all dealers in drugs. None genuine without signature of Hiscox & Co., N. Y. Send for circular. LARGE SAVING IN BUYING THE DOLLAR SIZE.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

AN IMPORTANT DECISION.

The late law term of the Supreme court rendered an important decision in relation to requiring ballots to contain the full Christian and surname, and if any middle name, the initial letter of it, of every person voted for, in the case of Holden vs. Colburn, which was a petition in the nature of a quo warranto to determine the office of supervisor of elections in the town of Temple. Two ballots were had at the election, and on the second there were forty-eight votes for Elias E. Colburn, three votes for E. Everett Colburn, and fifty votes for James M. Holden. The moderator declared the three votes cast as for a third candidate, and that there was no choice. It was admitted that these votes were intended for Elias E. Colburn. The court decided that they should have been counted for Elias E. Colburn, and hence on the second ballot there was a choice. The effect of this decision is that the spelling in full of the first or middle Christian name is sufficient to determine for whom the ballot was intended, and when the intention is clear on the ballot, it must be counted for the person for whom it was cast.

AROUND HOME.

The tug Ann on Wednesday of this week towed down at one time four schooners, namely: the D. K. Ham, Garland master, and the Triton, Freeman master, bound from Eliot for Boston with bricks; the Oregon, Brookings master, from Dover for Rockland, and the Mentor, Hinckley master, from Dover for Bangor, the latter two being light. The tow strung out a long way behind the steamer.

The schooner Celia, of this port, Julius Ingebredsen master, came into port on the 5th inst. to procure ten tons of ice. The Celia has been fresh-fishing, taking her catch into the Boston market, and has stocked over $1800 since she was last in this harbor.

Commodore T. D. Wilson, chief constructor of the navy, on Wednesday evening, the 6th inst., gave a reception in honor of Secretary Chandler at the house on Seavey's island occupied by his family while he was constructor at this navy yard. The officers of the yard will give a reception in the secretary's honor this (Thursday) afternoon, in the ordnance building.

A petition is in circulation asking for the increase from $1500 to $1800 per year of the salary of the principal of the high school.

George W. Marston, Esq., formerly editor of the CHRONICLE has returned to New York from this city, where his summer vacation was mostly spent.

On Wednesday morning, Sept. 6th, the yacht Wm. H. Russell of this port, Capt. Drown, sailed for Mt. Desert island, Me., on a pleasure excursion, with a party of gentlemen from Lawrence, Mass., the following being their names: C. F. Sargent, Esq., E. W. Hodgkins, A. L. Barnes, A. A. Lawrence, S. B. Eaton, J. H. Emery, A. L. Snell, F. Pearl, D. W. Scott and E. A. DeMars. The party anticipate a good time, and there is no reason why they should not have it; they have got a good boat under them, in any event.

The horse race at the Rockingham trotting park, Tuesday of this week, between the Exeter horse "Honest Lion" and the Kennebunk horse "Billy Bundle," was won by the former, and not by the Maine horse as first stated. Billy Bundle has since the race been sold to Andrew Roberts of Dover point.

A small schooner, light and bound to the eastward, put back on the 6th inst. on account of head wind and sea, and in making a berth between Clark's and Seavey's islands ran on a ledge, and stuck fast. She was said to be the J. P. Ames of Rockland, which recently used up sixty-three days in getting a cargo of coal from a coal port to Exeter.

John Knowlton, Esq., and wife, have gone to East Saginaw to visit their son, who some time since went to Michigan "to grow up with the country," and who does credit to the city of his birth, as a business man of the west.

Mr. L. B. Parsons of New York, brother of Dr. John W. Parsons of this city, has returned to business after spending several weeks at Appledore. He gave us a welcome call on Tuesday afternoon of this week,—the first time we had seen him for ten years,—and made sure of keeping posted in home news for another year by subscribing for the GAZETTE.

Ann Mahoney, administratrix of the estate of James Mahoney, has brought suit against Charles E. Walker to recover ten thousand dollars damages by reason of Mr. Walker (he as alleged being stevedore of the schooner Yankee Blade at Walker's wharf on the 27th of May last,) not furnishing sound rope of sufficient size to hold a brow on which Mr. Mahoney was wheeling coal, in consequence of which, by the breaking of the rope, said Mahoney fell into the hold of the schooner and was killed, as is alleged by the want of proper care on the part of the stevedore.

The editor of this paper is unquestionably a saint, of very heavy caliber. The foreman of the office, Mr. Edward S. Smart, has gone on a junketting cruise to New York, all by himself; and the editor "makes up" the paper, wrestling mightily with the "ads" which have to go "top col., next reading," and with forty or fifty patent-medicine notices "to be set as reading, and inserted in with or next after pure reading matter," and never a remark escapes him to call a blush to the cheek of even the oldest compositor.

News and Notes.

Edward E. Smart, a patient in the insane asylum at Augusta, Me., a few days ago strangled Capt. William H. Alexander of Richmond, another patient, by tying a towel loosely about his neck, thrusting a piece of gas pipe through the bight, and twisting it up.

Hon. Otis Norcross, ex-mayor of Boston, died on the 5th inst., in his 70th year.

There was an election in Vermont on the 5th inst., when the republicans carried the state by 20,000 majority. It was thought on the 6th that Judge Poland, for Congress, was defeated.

It is said in San Francisco that Lord Beaumont has been refused by an heiress of that city. He made the mistake of asking her father in advance just how much she was to have, business being business.

Dom Pedro, emperor of Brazil, rides out, it is said, in a plain black coach which, in point of style, would scarcely bear comparison with the average public hack of New York. The vehicle is drawn by six mules, and followed by twelve cavalry guards, most of them negroes, and some of them smoking cigars. The emperor wears plain black clothes, bows to all who bow to him, and even raises his hat when saluted in like manner.

Augustus Beede, a building contractor of Dover, fell forty feet from a staging on the 6th inst., and was badly injured.

The U. S. S. Despatch, with President Arthur on board, arrived at Woods Hole from Newport, R. I. Sept. 6th.

Mr. Blaine's speeches are arousing more than the usual enthusiasm in Maine. He never had such crowds to listen to him in any previous campaign as now. The Augusta *Journal* says: "The desire to see and hear him is all-pervading. His popularity in Maine never was so great as at the present time. And let it be remembered that this does not come from any office or patronage which he wields in state or nation, or even as a member of the state committee, for he holds no office whatever, and instead of directing the campaign as in years past is doing duty as a private, speaking when and where the state committee directs."

Governor Foster expresses himself as sanguine of the result of the canvass in Ohio. To a correspondent of the *Commercial*, of Cincinnati, he said that "There can be no possibility of defeat if this temperance question is carefully presented, and we propose that it shall be so presented. But it will depend very greatly upon our ability to force this issue. This is the absorbing topic throughout the state, and I cannot see that there is much else in the campaign. It is one of the great problems of the future, and that man must be blind indeed who does not recognize it."

"A careful student of the political situation" has furnished the Boston *Herald's* Washington correspondent with an estimate of the next house of representatives. It gives the democrats a majority of thirty-three over all. The friends of democratic candidates for speaker are advised to begin pipe-laying for their favorites at once. It may be well, however, to remember that the only member of the next house thus far elected is Mr. George, of Oregon, and he is a republican.

Women Poisoners.

The arrest of over 100 women in a little district of Hungary, charged with poisoning their husbands, and the conviction of one-third of the number, is startling, but not without a parallel in history.

In the 17th century an old fortune teller in Italy carried on the business of selling poisons to such an extent that the attention of the authorities was attracted to her place, and it was discovered that the poisons were supplied to young married women who were desirous of getting rid of their husbands. The courts in those days were little better than Judge Lynch's tribunals, so that it is impossible to say whether their judgments were well founded, but a dozen or more women were hanged and scores of others were whipped through the streets. About the same time there was a similar outbreak of poisoning in France, which was not controlled until over 100 prisoners, chiefly women, had been sent to the stake or the gallows.

Early in the 18th century a woman in Naples carried on a large trade in poisons, and is supposed to have been concerned in bringing about the deaths of over 600 persons. She was tortured to confession, and then strangled. In every instance of wholesale poisoning, such as that reported from Hungary, there has been found some seller of poisons responsible alike for supplying the means and the suggestion of murder.

The poisons used were always slow-acting, frequently administered, and so gradually undermined the health of the victims that their deaths excited no suspicion, until the aggregate grew so large as to cause investigation.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE GIGANTEAN MINSTRELS.

Of this company, which will perform in Music hall on Friday evening, the Newburyport *Herald* of Wednesday morning said:

Of the many minstrel companies which have visited Newburyport in years past, none has excelled, few, if any, equalled the performance given at City Hall, last evening, by Leavitt's Gigantean Minstrels. To say that it was an entertainment first class in every particular would be drawing it mild. It was head and shoulders above any "first-class" minstrel company we know of, and the general verdict of the audience, as they filed out, was, "The best I ever saw." The vocal music was most enjoyable, and the fun was uproarious. The programme was new from beginning to end, and the closing burlesque on "Patience" was as well given as half the regular "Patience" companies sing it. If the combination visits Newburyport again this season it would be greeted with a packed house.

EXCURSIONS.

The Newburyport *Herald* of Wednesday morning, the 6th inst., announced an excursion from Haverhill, Mass., to the Shoals, by the steamer Startled Fawn, and one from Newburyport to Portland by the steamer Twilight. The little Startled Fawn we are told reconsidered the matter, and discreetly stopped at home, the sea being very heavy; but the Twilight, which is a large and able boat, took on board between 1200 and 1400 passengers, made a start, and proceeded as far to the eastward as Wells beach, by which time every breakfast eaten by the passengers that morning had been bestowed on the fishes, and the steamer then bore up for this port to enable them to lay in a fresh supply. The eating houses and oyster saloons were crowded with the excursionists in a few minutes after the arrival of the steamer, and before the hungry people took their departure there was very little cooked food left in the city. The crowd was drawn from Haverhill, Amesbury, Salisbury, Seabrook and other places in the vicinity of Newburyport, as well as from the latter place. The boat made a landing at the Gas Co.'s wharf, and the passengers were piloted through the yard past the gas works, up the steps into Bow street, and then along by the Episcopal church to Market street, what they saw—or rather what they did not see—of life and business on this introduction to our city causing them to suggest that Portsmouth "is a good deal deader than Newburyport." A hundred or more of the excursionists, having had all the ocean cruising they wanted for one day, went home from this city by rail.

THE SECRETARY OF THE NAVY.

Secretary Chandler went to Dover point on Wednesday morning, the 6th inst.; in a steam launch, to escort Mrs. Hale, widow of the late Senator John P. Hale, to the Tallapoosa.

The secretary during his visit has made himself familiar with every nook and corner of the station. He has boarded the ships in process of repair, has been through the shops, examined the sites for suggested buildings, and has seen the superior advantages possessed by this station for repairs of the larger class of vessels of the navy, which can come directly to the yard, at the very lowest state of the tides, and lay without grounding anywhere around the walls. The secretary has acquired, it would seem, more thorough and practical information concerning the capacity of the yard for work than have ever any of his predecessors in office.

Mr. Chandler is a man of remarkably quick perceptions; and the naval officers soon discern that, unlike some of the respectable gentlemen who have had the portfolio of the navy department, the present incumbent is largely informed as to matters under his official charge. Indeed, it was soon found out at Washington that Secretary Chandler knew more about his department in thirty days after he had assumed the duties of the secretaryship, than did some of the former secretaries when they left the office. Such a man is needed at this time to inspire confidence that all sums appropriated for the maintenance of the navy will be judiciously expended, and that if we are to have our navy placed upon a proper footing, it will be accomplished by such a head of the navy, who possesses in a large degree the energy, talent and good judgment which are so much needed to bring about such a desired result.

TEMPLARS' VISIT.

Hugh de Payens Commandry of Knights Templar, of Melrose, Mass., left for home by the 5:10 o'clock train on Wednesday afternoon, the 6th inst., having started on their pilgrimage on Monday, and arrived at Portland, Me., the same day. Tuesday was spent in Portland, down the harbor, a clambake being served by the Portland Commandery; and on returning to the city a special train over the Boston & Maine railroad was taken for Portsmouth.

It had been announced that the Sir Knights would arrive here at 5:30 o'clock, and De Witt Clinton Commandry, with the City band of Dover, marched to the station at 5:15 to receive them; but owing to some mismanagement on the part of the railroads, the visitors did not get here until about seven o'clock. A short march was made by the two commanderies, the De Witt Clinton then returning to their asylum, and the Hugh de Payens proceeding to Newcastle in barges. There was a hop at the hotel Wentworth in the evening, the orchestra of the City band of Boston, accompanying the Sir Knights, supplying music.

On Wednesday the visiting Sir Knights and invited guests had a grand dinner at the Wentworth, after which brief speeches were made by N. J. Simonds, E. C., James Swords, P. E. C., and Sir Knight L. M. Shepard, of Hugh de Payens Commandry, and E. C. Calvin Page, and Sir Knights J. H. Kent and Wallace Hackett, of De Witt Clinton Commandry. A short march was taken through some of the principal streets after returning to this city, the route ending at the Concord railroad station.

BOARD OF INSTRUCTION.

Regular meeting, Wednesday evening, Sept. 6th; present Mrs. Wilson, and Messrs. Vaughan, Goodrich, Locke, Knight, Pender, Batchelder and Garrett.

The mayor being absent, Mr. Batchelder was chosen chairman *pro tem.*

Sundry bills were approved.

Communication of Miss Ellen A. Newton, asking for an equalization of salary, was referred to the committee on salaries.

The following, offered by Mr. Goodrich, was passed:

Voted, that Miss Mary E. Prescott be and hereby is promoted to the first division, grammar grade, at a salary of $450 per annum, and that Miss Lucy H. Rand be and hereby is promoted to the intermediate grade, at a salary of $300.

Some discussion was had relative to the equalization of lady teachers' salaries, but no action was taken. There was also discussion in regard to the Wednesday and Saturday afternoon instruction of teachers by the writing master.

Adojurned.

H. F. Wendell, Esq., on Wednesday forenoon of this week sold at auction the furniture in house No. 2 Whidden street, formerly owned and occupied by the late Lafayette Laighton, the articles generally bringing fair prices. At noon the house and lot were sold for $2050, to Mr. Justin V. Hanscom.

Mr. Lemuel B. Caswell's schooner Lucy came in from the Shoals on the 6th inst., with six hundred weight of dunfish for parties in Cincinnati, Richmond, Va., Salem, Mass., and Hampton, and four barrels of mackerel. The Lucy will take out to Smuttynose island a quantity of lumber to be used in rebuilding Mr. Caswell's barn, burned one night some weeks ago.

The Trouble in Corea.

Rear Admiral Clitz, commanding the Asiatic station, has made a report to the navy department on the outbreak in Corea. Great excitement prevailed at Yokohama. The Japanese government has sent several men-of-war to Fusan with troops and policemen on board. There is no intention of declaring war, but simply to re-establish the Japanese minister with proper dignity and to guard the legation, and to afford a place of refuge for their subjects in case of further trouble. The Japanese do not regard the outrage as a national one. On Aug. 2d Admiral Clitz received a telegram from the department informing him that the treaty with Corea had not yet been ratified, directing him to send a vessel to Corea, and also directing him to communicate with Minister Young. This was accordingly done Aug. 3d by placing the Monocacy at Minister Young's disposal. Admiral Clitz says he learns through the press that China has taken action in regard to the trouble in Corea, and that 15,000 troops have crossed the frontier and entered the Corean territory; also that a like number was approaching the frontier, and that ten gunboats and corvettes were to rendezvous off the southeastern coast.

The Norfolk *Virginian* lately mentioned among other cases, that of a prominent druggist of Warrenton, N. C., who on a business trip to Norfolk, severely injured himself by falling on the ice. By advice he used St. Jacobs Oil with such happy result, that he went on his way cured and rejoicing.

—Vennor said this would be a cold, wet summer. The weather has caused everything but Vennor to dry up.

A Generous Firm.

We are informed that the proprietors, Messrs. A. P. Ordway & Co., recently sent three dozen of their reliable medicine Sulphur Bitters, to the Catholic Home for the aged, which is highly appreciated by the directors and inmates. "As ye sow so shall ye reap."—*Editor Catholic Union.*

—Hungry diner—"Here, waiter! halloa there! I've told you three times I wanted a cup of coffee." Waiter—"I know it; and you haven't got it yet. Ain't it funny?"

Do you feel broken down? Try Wheat Bitters and jump for joy. They will restore you.

—The lab-de-dah cigarette smoking young man is affectionately referred to by the Cleveland *Leader* as "third-class male matter."

Corns cause more suffering than neuralgia. German Corn Remover easily cures them. 25c. Druggists.

—"Horace," said Mrs. Henderson, looking up from the Century's article on "The Horse in Motion," "I withdraw my request for a horse—impartially and unequivocally withdraw it. I have lost all desire to ride behind an animal that looks like a refrigerator running to a fire on a double pair of disreputable stilts."

Sick headache, nausea, rising of food, flatulency, seasickness, cramps and pains, hysteria, nervousness, languor, and loss of sleep call for prompt use of Sanford's Ginger, "the delicious."

—During a thunder-storm out west a book canvasser took shelter under a tree, and was struck on the cheek by lightning. The doctors say the lightning can't live.

Fruit of the tropic's burning clime,
Thy wondrous virtues, fadeless still,
Exert an influence sublime
In ministering to human ill;
And many a pang along our way
Sanford's Ginger doth allay.

—It is announced that science has produced a new silkworm, superior to the old brand. If the new worm will produce a silk that costs no more than calico it will fill a long-felt want.

"Necessity is the mother of invention." Diseases of the liver, kidneys and bowels brought forth that sovereign remedy Kidney-Wort, which is nature's normal curative for all those disc complaints. In either liquid or dry form it is a perfect remedy for those terrible diseases that cause so many deaths.

—Two physicians in Kansas City recently removed a steel arrow-head from the back of Mr. George T. Reynolds, at a point two inches to the left of the spinal column and two inches below the surface. Mr. Reynolds was wounded in a skirmish with the Indians in Texas, sixteen years ago, the arrow entering the abdomen and passing through the cavity. The shaft was pulled out without serious injury, and the removal of the head will cause Mr. Reynolds little trouble.

The effects after taking Adamson's Botanic Balsam are a soothing and controlling influence over any Cough or Cold, promoting rest, allaying the tickling sensation in the throat, and causing a healthy expectoration.

—"Maw," drawled a love-sick society maiden, who was swimming at Lake George; "maw, I would like to spend a few weeks in Egypt." "Why, my dear girl," replied her mother, "what put such a silly idea in your head?" "Well, the reason I want to go is because the papers state that there are many nice fellahs in that vicinity, and you know very well there are none here."

No matter what your ailment is, Brown's Iron Bitters will surely benefit you.

—The gentleman stepped on the coal dealer's platform scales and asked to be weighed. The dealer said: "Why, certainly!" and called to the man inside to take the weight. And the man thought it was coal he was weighing, and shouted back the weight at 900 pounds.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

—A man named Haas, living in Smithville, Tenn., is the father of twenty-one children, twenty of whom are girls. The mother of the children is a stout, robust woman.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

—Flamingo eggs have gone up in price to $30 a dozen, and it is likely to be a hard winter with the poor after all.

Modern Housekeepers have abandoned all cleaning compounds of acids, whiting and ammonia, and use only Electro-Silicon, the standard silver polish of the world. Sixteen years in household use. The best, the cheapest. Druggists. Jewelers.

MALARIA!

THE ONLY REMEDY KNOWN

To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks. It is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. The English Slanguage

Few newspaper readers possess anything like an adequate idea of the capabilities of the English language. There are always in circulation certain racy, idiomatic expressions which seldom find their way into current literature, and which are denominated slang. It would puzzle a man who has a more copious vocabulary than a lightning-rod agent to understand all the choice phrases which are employed by certain young men as vehicles for expressing their thoughts. An amusing illustration of this occurred in the Augusta police court the other afternoon. Two men, Fred McLaughlin and James Conners, engaged in an affray on Water street, and were promptly arrested and taken before Judge Andrews for trial. One of the witnesses, in giving his testimony, completely freed himself from the conventionalities and limitations which restrict men in polite society, and his testimony was as funny as the famous interview between Scotty Briggs and the parson in Mark Twain's "Roughing It."

"Did you see the affray between the two men?" asked the judge.

"Yes, boss, I took in the whole racket."

"State in your own language, to the best of your recollection, what occurred,"

"McLaughlin came out of a saloon, and he and Conners got into conversation. Tney were discussing which was the best man. Conners says, 'I ain't in trainin' for a fight; I am just out of the hospital, and I am all broke up.' (You see he got hurt a while ago, braking, and was sort of paralyzed.) McLaughlin says, 'You might as well put 'em up here,' and allowed he could lick him and not half try."

"What am I to understand that you mean," said the judge, "by such an expression as 'you might as well put 'em up here?' I never saw one man strike another in my life, and the phrase is all Greek to me."

"Why, put up his dukes."

"His dukes?"

"Yes, his fins."

"I didn't know that a man had fins!"

"His fists, I mean. McLaughlin wanted to fight on the street."

"I get your meaning. Go on."

"Jim says, 'I don't want to fight here. I ain't got no money to pay fines.' Then McLaughlin flourished round, called Jim a hard name, and Conners all at once slugged him under the ear."

"He knocked him down?" ventured the amazed judge.

"Yes, he went to grass in one round. Then Jim began to get in some work with his left."

"He struck him after he was on the pavement?"

"Yes, he cuffed his bill a little."

"Cuffed his bill? I don't understand."

"Well, blooded his beak."

"What?"

"Rapped his horn. Struck him two or three times in the face."

"Oh. Is that all?"

"Yes. Just then the cops came up, and run them in."

"I catch on," said the judge. "I fine you each $5 and one-half costs, and advise that you all devote one hour a day to the study of the English language. You must come down with the soap, or go inside. Do you twig? Good aft."—*Kennebec Journal.*

—A correspondent at White Sulphur Springs tells the following story of General Beverly Robertson of Baltimore, He was recently deputed to make a presentation speech, in an affair where a young lady was to be the recipient of the gift. He appeared in full evening dress, and with a bow and a smile began as follows: "Ladies and gentlemen: The bark went down"—then he stopped and blushed in an embarrassed way, and took a new start: "Ladies and gentlemen: The bark went down"—another break and more embarrassment than ever, and the perspiration in great globes on his forehead. The general reached for his notes and made another: "Ladies and gentlemen: The bark went down"—a dead stop again, and Pat Donan, who was in the crowd, sang out: "Let her stay down, general;" and the general did, and went down with her, never to smile again or show himself for three whole days.

—"Stranger, will you take a hand with us at poker?" asked a couple of sports of a man recently arrived. "Thank you, gentlemen, but there are seventeen reasons why I cannot accommodate you." "What are they?" "Well, first, I do not understand the game." "Why, that's the principal reason we want you to play," remarked one of the sports candidly, seeing that as far as "roping in" that stranger, the game was up.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaints and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office. He was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration as the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 13, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3tawtjan9

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Portsmouth Chronicle.

FRIDAY, SEPT. 8, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Death of Father Drummond.

The venerable Rev. Father James Drummond, a well known and highly esteemed Catholic priest of Dover, died Wednesday, Sept. 6th, rather unexpectedly, after being in ill health three years. He was the oldest priest in New England, having been ordained in June, 1832. He was born in 1809, educated in Leitrim county, Ireland, and came to Montreal in 1831. After being ordained in 1832 he was assigned to the charge of a church in Boston; then served in different parts of Nova Scotia from 1824 till 1866, when he was appointed pastor of St. Mary's church, Dover, which position he filled until compelled to relinquish it in 1879 in consequence of ill health.

He will be buried Tuesday next at 10:30 o'clock, when most of the clergy of the diocese of Portland are expected to be present.

News and Notes.

The Elmira (N.Y.) *Gazette* reports that William Peak, formerly of the Peak Family bell ringers, has been sent to jail at Goshen as a vagrant. Ten years ago he was worth $100,000. Benevolence is said to be the cause of his poverty, as he was always liberal to a fault.

Fire about midnight on the 6th inst. destroyed a large barn on the Sprague estate, known as the Colt barn, adjoining Narraganset Park in Cranston, R. I.; loss $1200. This is the fifth building destroyed by an incendiary fire on the Sprague estate within a short time.

The members of the British rifle team who are to contest with the Americans at Creedmore next week, made their first appearance on the ground for practice on Tuesday, the 5th inst. Both teams fired the same number of shots; the first twelve men in the American team scored only 900 points, against 1,1002 made by the British team, and in the grand total the leading twelve men in the British team scored 2,028, to the Americans' 1933, making a difference of ninety-five points in favor of the British riflemen.

Lieut. James Bassett, of the 48th Massachusetts regiment of volunteers, was captured by the confederates July 13, 1863, imprisoned until the close of the war, and not heard from by the survivors of his regiment until he turned up at the regimental reunion a few days ago.

Mrs. Sarah J. Young, a respectable woman, forty-six years old, was outraged near Union City, Tenn., on the 2d inst., by a negro named Alinston Wade. Tuesday night, the 5th inst., the negro was taken from the court house at eleven o'clock by a mob of 100 men, and hanged to the limb of a tree.

On Wednesday afternoon, the 6th inst., a four-story house in Swampscott, Mass., was burned; and a few hours later the Ocean house, a large summer hotel, was also destroyed by fire. The furniture of the hotel was mostly saved, but the house, valued at $100,000, was a total loss; insurance $40,000. The house has had 250 guests during the summer, but only about sixty were stopping there at the time of the fire.

Advices from the Point Barrow expedition report the party all right. The steam whaler North Star was crushed in the ice near the station July 8th, and went down; crew saved.

An official despatch from Manila states that 253 natives and four foreigners, including the American consul, died there on the 5th inst., of cholera. In eighteen villages in the province of Manila there were 368 deaths, that day.

Acting Secretary of the Navy Walker has issued an order detaching Commander Alfred Hopkins from the Pensacola navy yard, and placing him on waiting orders.

Some miscreant drew out a switch bolt on the Bennington and Rutland railroad at East Dorset, Vt., Tuesday night, Sept. 5th, throwing the switch open. Although the signal indicated "all right," an express train running at a high rate of speed ploughed into a gravel bank, and stones weighing a hundred pounds were thrown into the tender. The engineer, fireman, two conductors and a passenger were all more or less bruised. The train was delayed nine hours.

The 11th annual reunion of the First Maine cavalry was held at Brunswick, Me., Sept. 6th. About 125 members were present.

The trial of Capt. Haile for the killing of L. W. R. Blair, a prominent greenbacker of South Carolina, began at Kershaw Court, S. C. Sept. 6th.

The fourth annual reunion of the Emery family was held at Fraternity hall, Newburyport, Mass., Sept. 6th. About 130 were present.

Francis D. Moulton has filed a bill in equity in the United States circuit court against Z. Chafee, trustee, and William Sprague, for possession and title of Cononchet. The writ is returnable Oct. 2d.

Wednesday afternoon, Sept. 6th, Chas. D. Cooke of West Brookfield, Mass., shot himself through the heart with a pistol, causing almost instant death. For three years he lived the life of a recluse in a solitary place near there. He was at his mother's house in the village at the time of the suicide. He was the son of the late Deputy Sheriff S. D. Cooke and a native of that town; he was about thirty years old, and single.

George W. Noyes, a man said to have come from Boston four weeks ago, has been arrested and held for examination on a charge of setting fire to a barn on the Sprague estate in Providence, R. I.

Allen P. Bickford, a policeman in Lowell, Mass., since 1866, was struck by freight cars near the Northern depot on the 6th inst., and received injuries from which he died. His age was sixty-one years.

It Toughens.

SOZODONT toughens the gums and makes them healthy, so that they hold in the teeth firmly. It removes the tartar, gives comfort, is economical of health and money, and when once used will never be given up. Try SOZODONT.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

Lowell's cotton corporations pay a tax this year of $222,429.83.

The Sprague cotton mills at Augusta, Me., are to start up Oct. 2d.

Five hundred Kentucky mules for the English army in Egypt passed through Buffalo, N. Y., Sept. 6th.

Schooner Hattie Williams, towed by tug J. P. White, in passing through Slade's ferry bridge, Fall River, Mass., Sept. 6th, struck the draw, doing considerable damage.

Terrence Monahan, a section hand, seventy years old, was killed in Central Falls, R. I., Sept. 6th, by the fast Shore Line train from Boston. He was thrown sixty feet, and struck on his head.

A woman at Morris, Conn., was offered $10 if she would "fetch rain by prayer" in three days. She accepted, began by praying, and shortly after it commenced to sprinkle. The ungodly man then claimed that the rain wasn't of contract dimensions, and refused to pay. The widow means business and talks of suing him.

The great organ in Boston Music hall has been sold to a church congregation in a western city, and is soon to be removed. Years ago this organ was considered one of the finest in the United States. Organ concerts were given to display the instrument, but the concerts were not remunerative, and now the organ is to be sold.

A Mr. Cook, of Philadelphia, who died in 1846, in his will bequeathed 6,000 acres of wild land near Foxburgh, Penn., to the Pennsylvania Hospital and the Pennsylvania Institute for the Blind. For years these institutions have derived no income from the gift, and have been satisfied by the fact that it required no expenditure on their part. A week ago, however, oil was struck on the property, and there are hundreds of applications for leases of the land. The property is now estimated to be worth from two to five millions of dollars.

A carpenter of Nismes, France, while making some repairs to an old house in the city recently, discovered a secret receptacle in the wall, and in this recess rolls of gold amounting in value to $60,000. The carpenter proposed to divide this sum with the owner of the house. Then it was discovered that the rolls of gold were wrapped in papers on which was written the name of "Marssier," a noted miser who had lived in the house in 1773. The heirs of the miser hearing of the finding of the lost treasure brought suit to reclaim it, and have won the case. The carpenter and his employer therefore get nothing.

Blair Athol, the celebrated English race horse, is dead.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from inanition and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither palls upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restoration—and especially those who are inclined to Consumption—will find this preparation strongly extolled to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its system is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a well preserved likeness of BARON VON LIEBIG, and a Fac-simile of his Signature, as well as that of A. VOGELER & CO., BALTIMORE, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
September 8, 12:00 A. M.

Probabilities for New England:—

Fair weather, followed in northern portion by local rains, southerly, veering to westerly winds, falling, followed by rising barometer, stationary or lower temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 60 degrees above zero.

Foggy.

THE RECEPTION TO SECRETARY CHANDLER.

Commodore Wells and the other officers at this station gave a complimentary reception to the secretary of the navy on Thursday afternoon. The armory in the ordnance building was tastefully decorated with bunting, and on the rails around the stair case entering the armory appeared in letters of bunting the word "Chandler." Harlow's band was in attendance, and dancing was enjoyed.

The secretary was accompanied by Mrs. Chandler and her mother, Mrs. J. P. Hale, and also by her sister Mrs. Kinsley, and her husband. Many ladies were present.

Secretary Chandler seemed happy in meeting the visitors from Portsmouth, some of whom were former legislative associates. There were present many of the federal officers from this city, Ex-Speaker Emery, Ex-Collector Young of Dover, Ex-Mayors Broughton and Sise, Capt. W. L. Dwight, E. P. Kimball, Esq., and others; City Solicitor Hackett represented the city government. Nearly all the officers stationed on the yard were present.

The affair was enjoyed by all who participated, an excellent entertainment being served during the festivities.

MUNICIPAL AFFAIRS.

In board of Mayor and Aldermen, regular meeting, Thursday evening, Sept. 7th:

Present the full board.

Records of last meeting were read and approved.

The committee on accounts reported bills to the amount of $2158.39, (inclusive of sundry salaries;) ordered to be paid.

Sundry bills amounting to $22.50, for services at the fire in the woods of J. Odiorne on the 27th of August last, of some of the neighbors, in extinguishing and watching the fire, were presented by Ald. Caswell. Voted that the claim be referred to the committee on fire department.

E. H. Leslie was appointed special police officer at the post-office, without pay.

The nomination of Wm. G. Snow to be appointed in like manner special police officer at the south bridge, was referred to committee on police.

Ald. Martin brought up the north mill-pond nuisance, and it was voted that the subject be referred to a committee consisting of the mayor and Ald. Sampson and Martin. Ald. Martin declined, but was not excused.

An invitation to attend the reception tendered to the secretary of the navy, received late in the afternoon, was read.

Ald. Caswell brought up the Wilson house matter. A general round of questions were put in regard to this much-talked-of subject, and the present and prospective state of the case was discussed.

Voted to adjourn for two weeks.

POLICE COURT.

THURSDAY, Sept. 7; *Batchelder J.*

George Tighe, for drunkenness, was fined $3, costs $6.90; he will board the bill out in jail.

Reuben Rand, Jr., for vagrancy, was sent to the county house of correction at Brentwood for thirty days; costs $6.90.

Charles Marston, another vagrant, was sent to Brentwood for four months; costs $6.90.

"NEXT!"

Mr. S. Augustus Preble has returned from York beach, whither he went to enjoy a brief vacation, and re-opened his shaving, hair-cutting and hair-dressing rooms at No. 31 Congress street, over Frye's grocery store, up one easy flight of stairs. Mr. Preble's rooms are as pleasantly located and as cheerful as any similar place of business in the city, but long and close attention to his occupation had told somewhat on his health; he has returned from the beach in first-class condition, having added thirteen pounds to his avoirdupois during his three weeks liberty, and is now ready to answer all calls in his line, from his old patrons or new customers. As a tonsorial artist he has no superior in the city, and carries on the business in all its branches.

This evening, at Music hall, Leavitt's Gigantean Minstrels will give an entertainment, which will be entirely satisfactory if only half as good as they are said by the papers to have given in other places.

Dr. J. F. Hall and wife have arrived home from a visit to Colorado.

To-morrow evening, at Music hall, Mestayer's "Tourists in a Pullman palace car" will appear, for the first and only time this season in this city. The "Tourists" have been travelling in public for a number of years, maintaining all the while a most profitable popularity, and though there have been many imitators of this peculiar style of entertainment, the "Tourists" are acknowledged to be still at the head of "Shows of the Tourist class." New specialty artists, new fun for the old members of the company, and a new palace car, have been provided during the summer vacation, and the manager considers his show this year to be the best he has ever put on the stage. Tickets at Myers'.

Mr. William Downs, senior of the firm of Wm. Downs & Son, died on Thursday evening.

The *Times* feels very badly on account of an article in the CHRONICLE of the 7th inst. relative to Secretary Chandler. It is evident that the *Times* has not yet forgiven Mr. Chandler for blocking Reformer Tilden's attempt to buy or steal the presidency of the United States in 1876.

The schooner which went on the rocks near Seavey's island, between that and Clark's island, on the 6th inst., turned out to be the J. P. Ames of Rockland, Me., as reported; she came off unaided, having declined the assistance of a tug, and proceeded on her way to the eastward. She is not a very big craft, registering only 81.30 tons, but she has had more adventures than many a big ship. The fact that she was once owned at this port was due to a disaster, she having been wrecked at the Shoals, and bought while on the rocks by Portsmouth parties, who got her off, repaired her, and again put her in the coasting trade. She was from June 24th of this year to August 24th, in getting from Elizabethport to Portsmouth lower harbor with a cargo of coal; and between those two dates she was run into by a steamer, herself ran into a steamboat wharf, and got ashore on an island.

The "New East Lynne," by Clifton W. Tayleure, author of the original drama of "East Lynne," will be performed at Music hall on Thursday evening, Sept. 14th, with Henrietta Chanfrau as Lady Isabel, and Mr. Tayleure as Archibald Carlyle.

Mr. Lewis E. Staples invites ladies in want of hoopskirts, bustles or anything else in his line, to call at No. 7 Market street and inspect his stock before purchasing elsewhere.

The sloop Gazelle, belonging to the contractors for the removal of Gangway rock, has been sold to a firm of bridge-building contractors who are constructing a bridge across the Merrimac river above Newburyport.

It has recently been discovered that a young girl, twelve or fourteen years old, living at York harbor, has during the summer carried on petty pilfering from rooms in several of the boarding houses and hotels in that vicinity, having taken money, silk stockings and other small articles to the value of several hundred dollars. On account of her youth no legal action has been taken.

Mr. Editor: If the bells of Christ's church are to be chimed next Sunday evening, and at nine o'clock the big bell, in conjunction with that of the North church, proclaim the hour, I would respectfully suggest, (to whoever may be the controlling parties) that many of our citizens would be very much gratified if that solemn old bell of the South Parish church could be rung at that time, (nine o'clock,) so that its tones may be compared with the others. BELL PULL.

New Hampshire Items.

Judge John H. White of Dover died on the 7th inst., after an illness of about two weeks.

The new buildings for the Holderness school, at Plymouth, will be ready for occupancy next month. Their cost will be over $25,000.

A monument to the memory of the late Seth Adams, of Boston, is being set up at Adams' corner, East Rochester. Its cost was nearly $15,000.

According to Edwin Alden & Bro's American Newspaper Catalogue, just issued, there are 12,158 newspapers published in the United States and the Canadas. Total in the United States, 11,522; Canadas, 636. Published as follows: dailies, 1,152; tri-weeklies, 80; semi-weeklies, 150; weeklies, 9,078; bi-weeklies, 28; semi-monthlies, 202; monthlies, 1,290; bi-monthlies, 12.

A. Williams & Co. will issue a new and enlarged edition, in elegant holiday style, of the poems of James H. West, under the title of "Holiday Idlesse, and other Poems," to be ready about Oct. 1st. The author is a promising young divinity student in Tufts college, and has rare gifts in many directions. His poems are highly commended by the secular and religious press, and we shall await their publication with some degree of impatience.

The history of a mistaken little boy who read many dime novels, and was, in consequence, led to make a solitary expedition to obliterate the Indians, has been related by Mr. J. T. Trowbridge, and will be published for the Christmas time by Lee & Shepard. Its title is to be "The Jolly Rover."

A Generous Firm.

We are informed that the proprietors, Messrs. A. P. Ordway & Co., recently sent three dozen of their reliable medicine Sulphur Bitters, to the Catholic Home for the aged, which is highly appreciated by the directors and inmates. "As ye sow so shall ye reap."—*Editor Catholic Union.*

—A young man of Maryland committed suicide because he was too poor to marry. This is an isolated case. The poor young man generally marries, and if his wife doesn't commit suicide a year or two afterward it is got because she hasn't sufficient provocation.

An Indiana paper, we notice, cites the case of Colonel Samuel H. Taylor, of Washington, that State, who was cured by St. Jacobs Oil of a severe attack of rheumatism.

—Not long ago a venerable Scotch elder was obliged one Sabbath to walk several miles to get to the kirk; he was accompanied by a young man, who, when they had proceeded for an hour in silence, ventured to remark that it was "a grand day," whereupon quoth the other, "Whist, mon; is the Lord's day a suitable time to be clavering about the weather?"

Do you feel broken down? Try Wheat Bitters and jump for joy. They will restore you.

—Bismarck says he wants to secure the peace of Europe, but it looks very much as if the piece of Europe he wants to secure is the Baltic provinces of Russia, the inhabitants of which are Germans.

Sick headache, nausea, rising of food, flatulency, seasickness, cramps and pains, hysteria, nervousness, languor, and loss of sleep call for prompt use of Sanford's Ginger, "the delicious."

—It is related that President Seguier was always hard upon the lawyers. When the docket was being called one day it was found that both advocates in a certain case were absent. "Go on with it, then," cried the president in high spirits; "go on with it; we will now have a chance of getting at the truth."

Fruit of the tropic's burning clime,
Thy wondrous virtues, fadeless still,
Exert an influence sublime
In ministering to human ill;
And many a pang along our way
Sanford's Ginger doth allay.

—In England there has been formed a society of young men whose object is the prevention of disfigurement of the female form by stays and fashionable attire. Those fellows had better go slow. They may get themselves into trouble if they try to take the corsets off a girl.—*Post.*

*** "Necessity is the mother of invention." Diseases of the liver, kidneys and bowels brought forth that sovereign remedy Kidney-Wort, which is nature's normal curative for all those dire complaints. In either liquid or dry form it is a perfect remedy for those terrible diseases that cause so many deaths.

—A young lady at Old Orchard beach, upon being asked as to the merits of a religous service she attended last Sunday, replied that "it was a high old rinktum." This betokens something unusually interesting.

Corns cause more suffering than neuralgia. German Corn Remover easily cures them. 25c. Druggists.

—Archbishop Whately was one day asked if he rose early. He replied that once he did, but he was so proud all the morning, and so sleepy all the afternoon, that he determined never to do it again.

The effects after taking Adamson's Botanic Balsam are a soothing and controlling influence over any Cough or Cold, promoting rest, allaying the tickling sensation in the throat, and causing a healthy expectoration.

—Appropriate: "Spankie" is the name of the principal of a boys' school in Kingston, Ontario.

No matter what your ailment is, Brown's Iron Bitters will surely benefit you.

—"Remember," said the venerable Brother Gardner, as he brought the proceedings of the Lime Kiln Club to a close the other evening, "remember, as we parlcoate homewards, dat while a pusson may have a voice like a tornady an' a mouth like a woodshed, de man who winks wid his left eye allus gets de bes glass of sody water."

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

—Stuff and nonsense—A big dinner and the post-prandial speeches.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

—Mater: "So you enjoyed your walk, Katie? Did you go all that distance alone?" Daughter: "Oh, yes, mamma, quite alone." Beastly brother: "Then how is it, Kit, you took an umbrella and brought home a walking-stick?"

Modern Housekeepers have abandoned all cleaning compounds of acids, whiting and ammonia, and use only Electro-Silicon, the standard silver polish of the world. Sixteen years in household use. The best, the cheapest. Druggists. Jewelers.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precusors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. News and Notes.

Judge Poland is undoubtedly elected to Congress in the second Vermont district. Revised returns from all but seven towns, up to the evening of the 8th inst., gave him a majority of 1363 over all others.

Mr. Justus H. Rathbone, the founder of the order of Knights of Pythias, is an active citizen of Detroit. He was a school teacher in Michigan when the idea of the order, which now has a membership of 100,000, occurred to him.

Francis G. Salmon, a Brooklyn lawyer, charged with extensive frauds, has been arrested at Jacksonville, Fla., whither he had fled.

The fishing schooner C. F. May on the 8th inst. took into Provincetown, Mass., James Brown and another sailor named Wilson, two of the crew of the schooner Sabine, of Plymouth. They were picked up sixty miles west from Virgin rocks in an exhausted condition, having been five days in a dory, without food or water.

Mr. Smart, who strangled to death another patient in the insane asylum at Augusta, Me., a few days ago, was the man who built the tower on Central Park, Old Orchard. He went insane soon after the completion of the tower.

—Iowa has nearly 1,600,000 cows, and it's a wonder that a woman can be induced to enter the state.

—Father, "How old must a girl be before she's too old to be spank?" Sir, we've seen some of 'em that were twenty-five, and would be benefitted by a spanking.

—A goat knocked a New York policeman down an embankment the other day, and bruised him so badly that he had to go home. It was a short, sharp and decisive round.

—If you want to know something about the recollections of the stage, just neglect to pass your nickle up to the driver when you enter the omnibus. You'll find the driver's recollections good, if your own are not.

—A fashion item says "old leather work is coming in vogue again." A young man who was assisted from the front door the other night by her cruel parent's foot, says he is painfully aware of the fact. He prefers plush work. The impression is not so lasting.

Hay Fever.

Messrs. Ely Bros., Druggists, Owego N. Y.—I have been afflicted for twenty years, during the months of August and September, with Hay Fever, and have tried various remedies for its relief without success. I was induced to try your Cream Balm; have used it with favorable results, and can confidently recommend it to all similarly afflicted. ROBERT W. TOWNLEY, (ex-Mayor) Elizabeth, N. Y.

TRENTON, N. J., Oct. 23, 1880.

I have suffered for eight years with Hay Fever, during July, August and September. In the beginning of July, this year, I resorted to Ely's Cream Balm, and have been entirely free from the fever since the first application. I can recommend it as a cure. EDWARD C. HILLMAN, at the New Jersey State Arsenal, Price 50 cents.

The commander of the French fleet before Tamative has taken steps to prevent the landing of the cargo of the American ship Allen, consisting of arms and munitions of war. The American consul at Tamative has prohibited the landing of the war materials without notice to the French commander, who has made arrangements to purchase them before they are delivered on shore in order to avoid any difficulty with the American government.

In the Whole History of Medicine

No preparation has ever performed such marvellous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in throat and chest disorders, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and operation, physicians use the CHERRY PECTORAL extensively in their practice, and clergymen recommend it. It is absolutely certain in its healing effects, and will always cure where cures are possible.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman." — R. D., Buffalo.

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat, but not boil.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet th's necessity, being composed of purely vegetable ingredients, of which Podophyll'n or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularides. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Our New York Fashion Letter.

FALL MATERIALS.

Should you desire to establish your claims as a lady of fashion, invest forthwith in a sontache embroidered dress, possessed of which, not even your next door neighbor can controvert your position. If you act promptly too, you may feel yourself on an equality with the most advanced New York styles, for as yet these novelties are not seen upon the streets, but in the wholesale repositories of leading importers preparatory to a display on retail counters for the benefit of the fashionable, who now begin to return from country resorts. As a writer on "clothes philosophy" I was admitted to an inner view of the stock at Lord & Taylor's, and can thus tell you what is to be. The new embroidery is not open, but consists usually of patterns formed of narrow sontache braid or sometimes heavy stiching. In general the colors are identical with the material (cashmere, camel's hair, satin finished cloth, etc.,) but again we see harmonious shadings, with the addition perhaps of velvet put on in applique. Often the entire front breadth is adorned with embroidery, but there are embroidered bands put on in various ways. Then there are wools where the lower skirt consists of wide flounces woven in bold

FLORAL PATTERNS,

While the polonaise is of plain goods. Here of course there is no embroidery but these dresses are not very bright because the colorings have a chine-like indistinctness. But bright woven wools are a feature; some showing pronounced designs, where large fruits look luscious among autumn-tinted leaves. These flowered wools will for the most part be made up as polonaises with plain underskirts. In the upholstery department of the same firm, I observe full lines of fashion drapery cloth, which during the summer at watering places has been in favor with ladies who embroidered it for table covers, lambrequins, etc., and now that autumn has come, select it as an adornment for many a fashionable apartment. Coming in all the new solid colors this stylish material closely resembles plush, but in much more moderate in price, since though sixty-two inches in width it is sold for ninety cents a yard. It is used not only for all upholstery purposes but even as a covering for walls; entire rooms being lined with it. The long, silky looking nap conceals the joints, and in unbroken expanse it stretches with excellent effect.

PLAIN GOODS.

Satin will still be fashionable despite the coming up of wide repped and gros grain silks, while velvet is of extreme importance. Especially in demand comes nonpareil velveteen, which now that its admirable qualities have been tried is more than ever sought after. It has every quality peculiar to fine grades of Lyons velvet, while the cost is much less, as it ranges from one to two dollars per yard. Handsome costumes are made entirely of it, or it is combined with other rich goods, as for example in two elegant imported toilettes; one ruby, the other olive green; the former of nonpareil velveteen united with satin; the latter with velveteen skirt laid in plaits, and having a coat-shaped polonaise of satin-finished cloth. But be sure you see nonpareil velveteen stamped on the wrong side of every second yard, as otherwise you may be imposed upon by a counterfeit.

MILLINERY.

Leaders of fashion for a month past have worn turbans of feathers, or straw turbans trimmed with feathers. Now come wide brimmed straws with crowns covered with velvet, to which additions of birds, ostrich plumes, etc., will be made, while later on will be seen felt hats in all extensions of brim, and colors to match dresses. Capotes seem gifted with nine lives, and through changes of time fatal to all other styles, show front once more, but now become larger, and often, the front grown to the dignity of a coronet. Birds upon birds lie ready for use. Many little ones crowded together on a hat, or very large single ones. LUCY CARTER.

The New England Fair.

The opening of the second annual exhibition fair of the New England Manufacturers' & Mechanics' Institute took place in Boston on Wednesday, Sept. 6th, as previously announced, Gov. Long presiding. On the stage were many persons of note, among whom were Gov. Bell of New Hampshire, and Gov. Littlefield of Rhode Island, Gen. N. P. Banks, Hon. George H. Boutwell, a number of prominent southerners, and the executive committee of the institute. The orator of the day was Hon. Edward Atkinson, who during a lengthy speech held the audience spell-bound. Rev. Brooks Hereford followed with prayer, after which Gov. Long declared the exhibition formally opened, and invited the audience to proceed with him to inspect the vast array of industrial exhibits that were presented. After a promenade through the buildings, the governor and party were entertained by the institute with a "quiet spread." The thousands of visitors who found themselves guests of the institute were well pleased with the many novel sights that were presented, and pronounced this exhibition the most important ever held in Boston. Aside from the great display of mechanical industries and the railroad exhibits from the south, two art galleries are open for the inspection of visitors. If the opening day is a good criterion from which to base an assertion, the exhibition promises to be largely attended by the masses of New England.

The Star Route Trial.

The arguments in the star route trials in Washington, D. C., were ended on the 7th inst., Attorney General Brewster closing on behalf of the government.

After Mr. Brewster had finished his remarks, Judge Wylie said that it had come to his ears that members of the jury had been approached in the most disgraceful way in attempts to influence their action. He had first heard of it about a week ago, when he had received the most direct and positive information of this character. He had then advised the jurymen to say nothing about it, as he did not wish to stop the progress of the case. Within the past twenty-four hours, however, these wolves that surrounded the jury had become fiercer and bolder, and upon hearing of one attempt more brazen and villainous than the others, he had felt such indignation that he had nearly advised the juros to shoot down such a man on the spot. He had thought that, but had not advised it. He now adjured the jurymen to spurn such men with the toe of their foot, to turn from them with scorn. He wished to warn these men that they were not to commit such outrages without punishment. After this trial perhaps an investigation would follow.

Gen. Henkle, of counsel for the defense, immediately arose and said, with much feeling, that, in the interest of his clients, he should demand an immediate investigation. The court said that perhaps he would have it; all of the other counsel for defense gave similar notice.

Foreman Dickson of the jury then rose, and said that when these cases were disposed of he should lay all of the information in his possession, touching the subject, before the court.

Mr. George A. Field of Boston, formerly general ticket agent of the Eastern railroad, has left New York with a party of five or six persons for Saltillo, Mexico, where he goes to examine some large mining and land properties in the interest of a Boston syndicate. Mr. Field will be absent six weeks or more.

—A colored driver of an express wagon made all Cleveland laugh the other day by rigging out his horse in pantaloons in order to mitigate "the scratches," of which the animal was a victim. The colored man took the laughter very philosophically. "Larf on, chile," he remarked; "it doan luk good, but it feels good to the animule."

—A man of swell appearance who announced himself at the desk of the Fifth Avenue hotel in New York to be the Duke of Richmond, was detected as a swindler because of his boots being hopelessly down at the heel. Otherwise his attire was faultless.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 60 degrees above zero.

Foggy.

PRESIDENT ARTHUR'S MOVEMENTS.

Mate John L. Vennard, U. S. N., of this city, left on the three o'clock P. M. train, Friday, for Marblehead, Mass., in obedience to telegraphic orders, to pilot to this port the U. S. S. Despatch, conveying President Arthur and his party.

Secretary Chandler on Friday afternoon telegraphed orders to Eastport, Me., to Rear Adm. Cooper, commanding the North Atlantic squadron, directing him to at once return to this port with the vessels under his command.

HIGH SCHOOL MATTERS.

The CHRONICLE stated Thursday that a petition was in circulation, asking that the salary of the high school principal be increased from $1600 to $1800. The *Union* of to-day says from $1200 to $1500. Neither of these reports are correct, and their publication has done Mr. Goodwin an injury. The present salary of the high school teacher is $1800, and the petition asks for an increase on that amount. It is generally known that Mr. Goodwin has received calls from several cities within a year, all of which he has thus far refused. On Tuesday last he was waited upon by members of the high school committee of Lynn, Mass., who are anxious to secure his services, at almost any price. He is now considering the subject, and will make his decision to-morrow. If the people of Portsmouth desire the services of a good teacher, (and we are satisfied Mr. Goodwin is such a teacher), they must expect to pay for it. The services of Mr. Goodwin should be retained, at almost any sacrifice.—*Times*, 8th *inst.*

That Mr. Goodwin is a good teacher we have no doubt; that he is the only good teacher to be procured we do doubt, and we consider $1800 a year as much as the city can afford to pay, or should pay, for the services demanded in his position. If he can get more in some other other place, of course he has a perfect right to move.

THE PRESIDENT'S VISIT.

At a special meeting of the board of mayor and aldermen, held on Friday evening, Ald. Hackett offered the following preamble and resolutions, which were unanimously adopted:

Whereas, The board of mayor and aldermen of the city of Portsmouth have learned of the contemplated visit of Chester A. Arthur, president of the United States, to the naval station near this city:

Resolved, That the board of mayor and aldermen, in behalf of the citizens of Portsmouth, tender an invitation to the president to visit the city and partake of its hospitalities.

Resolved, That the mayor and a committee of aldermen to be by him appointed be requested to present the above invitation in person, and to request his acceptance.

It was voted that the following-named citizens be requested to co-operate with the board of mayor and aldermen:

Frank Jones, Ezra H. Winchester, E. G. Peirce, Jr., E. P. Kimball, Robert C. Peirce, Calvin Page, Daniel Marcy, William H. Sise, Alexander H. Ladd, Alfred H. Howard.

A Tribute to the memory of the late

ALBERT R. HATCH.

PROTESTANT EPISCOPAL CHURCH,
DIOCESE OF NEW HAMPSHIRE.

At a meeting of the standing committee of the diocese, held at Concord on the 4th day of Sept, 1882, the following record was made:

"The standing committee of the diocese, at this, their first meeting since the death of their fellow member, the Honorable Albert R. Hatch, desire to place on record their sense of the affliction sustained by the diocese and the church in his removal to the rest of Paradise.

We recognize the heavy loss sustained by the state, of which he was a spotless and devoted citizen; the profession in which he was an eminent practitioner; and which he dignified and adorned by his learning and integrity; and the church of which he was a devoted, zealous and consistent member; acknowledging, at the same time, with gratitude, the example and the fragrant memory which remain to us of his industrious, pure and Christian life. We remember him as a tireless laborer in the interests of the church, a warm-hearted, generous friend, a learned lawyer, an accomplished scholar, a safe and prudent counsellor and guide.

Of such nobility of life it is recorded: 'He put on righteousness and it clothed him, his judgment was as a robe and a diadem. Therefore men gave ear unto him and waited, and kept silence at his counsel. After his words they spake not again, and his speech dropped upon them, and the light of his countenance they cast not down. The young men refrained themselves, and the aged arose and stood up, and, as one that comforteth the mourners, his words were heard in quietness.'

Resolved, That we communicate a copy of this record to the widow and family of our deceased friend, with the assurance of our heartfelt sympathy, and that a like copy be printed in the newspapers of Portsmouth."

The foregoing is a true copy from the records.

Attest, WM. L. FOSTER, *Secretary.*

POLICE COURT.

FRIDAY, Sept. 8; *Batchelder J.*

John Welch was charged $9.90 for one grand drunk by him enjoyed; he apparently thought the price reasonable, for he paid it.

Edward Clark, another gentleman of bibulous tendencies, was charged $14.90 for one big drunk by him had and expended. Mr. Clark, having no money and being also indignant that he should be charged more than other people for the same class of goods, declined to pay, and went to jail.

THE "TOURISTS."

This evening, in Music hall, the "Tourists in a Pullman palace car" will present their enjoyable entertainment, greatly improved from what it has been in previous seasons, popular though it has been in the past. See advertisement.

REAL ESTATE TRANSFERS.

The following recent transfers of real estate in this vicinity have been left for record in the office of the register of deeds:

Newcastle—John P. Cooper of Newcastle to Wm. I. Frost of Newcastle, land, $150.

Hampton—Reuben L. Seavey of Hampton to Elizabeth P. Johnson of Hampton, land, $1200.

North Hampton—Wm. H. Garland of Gloucester, Mass., to Mary F. Parsons of Philadelphia, Pa., land, $4500; James Parsons and wife of Philadelphia to Mary E. Baker, land, $2250; Wm. H. Garland, et al., of Gloucester, to Mary F. Parsons of Philadelphia, land, $75.

Hampton Falls—Geo. H. Brown of Hampton Falls to Geo. B. Sanborn of Hampton Falls, land, $50.

William M. Thayer, Esq., of the Boston *Post*, is at the Appledore.

The schooner Mary S. Hontvet arrived on Friday from the Grand banks, with 172,000 lbs. of fish.

It was currently reported on the streets in this city on Friday that the U. S. S. Tennessee, flagship of the North Atlantic squadron, was ashore at Eastport, Me., and that the other four steamers of the squadron had vainly attempted to haul her off.

Leavitt's Gigantean Minstrels made a good street show, Friday forenoon, and their brass band made good music. The company marched direct from the railroad station to the foot of Daniel street, where they took the steamer Mystic for Kittery, and stirred up the natives over there; on their return they made a short march about our principal streets. In the evening they had a very large audience at Music hall, and gave one of the best minstrel shows ever given here.

The valuable real estate No. 19 State street, including dwelling house and well-appointed bakery, will be sold at auction to-day! See advertisement.

The Boston *Traveller* says the Eastern railroad directors met this week, and that it is said on good authority that the chances of a union with the Boston & Maine are now much better than they have been.

At a republican caucus in Kittery, on the evening of the 7th inst., James H. Rowell was nominated as a candidate for representative to the legislature, receiving ninety votes of ninety-one cast.

Henry Pingree, of Boston, while visiting at Saco, on the night of the 6th inst. charged his wife with infidelity, and failing to make her confess, fired two shots at her without effect. Next day, being unable to find bondsmen, he was lodged in Saco jail.

Invalids, Epicures,

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

New Hampshire Items.

The young lad, Fred Orme of Rochester, who some time since while riding a bicycle on the depot platform fell and was run over by a train and had his leg cut off, died in that town on the 7th inst.

The farm buildings of George T. Foss in Hopkinton were burned on the night of the 7th inst., with several hogs, 160 fowls, hay, grain, furniture, etc. Loss $5000; insurance $2000.

The Sullivan Machine Co.'s works at Claremont were badly damaged by fire and water on the afternoon of the 7th inst.

In the supreme court for Strafford county, on the 7th inst., the case of Linda M. Brown against the town of Farmington was commenced, to recover $10,000. Plaintiff claimed that she was standing by a sidewalk on Main street at Farmington, when a horse, frightened by a pile of stones on the street, ran against her, throwing her down and severely injuring her. She claimed that the town was liable because the stones were not properly guarded. The case occupied all day and was given to the jury at night. They on the 8th awarded the plaintiff $2458.33.

The Dover *Republican* says that on Tuesday, August 29th, about three o'clock in the morning, some one entered the barn of Mr. Ichabod Wentworth and threw a handful of paris green into the crib where his mare was eating grain. It was discovered in a few minutes, and prompt measures were taken to save the life of the mare, but to no purpose. She died in great agony on the 31st. She was but six years old, and a valuable mare. No clue to the rascal has been found, and no cause can be imagined why any one should do such a cowardly act.

Katie Garvey, fifteen years old, of South Boston, was drowned while boating in the river at Lawrence, Mass., on the 7th inst. Her body was recovered.

Mr. Julius Hoffstadt, Madison, Ind., bears hearty testimony to the wonderful cure by St. Jacobs Oil, of his wife, who suffered terribly with rheumatism. Permanent relief followed its use.

Thomas Freeman of Templeton, Mass. is in trouble. He has been arrested for willfully giving wrong information to the town clerk as to the age of a young lady he was desirous of making his bride.

The weak, worn, and dyspeptic should take Colden's Liquid Beef Tonic. Ask for Colden's, of druggists.

Hale's Honey of Horehound and Tar overpowers the most troublesome cough.

Pike's Toothache Drops cure in one minute.

Mr. Charles Boyden, train despatcher for the Boston & Albany railroad at the union station in Worcester, Mass., who disappeared suddenly on the 31st ult., has not yet returned, and his place has been filled.

"Necessity is the mother of invention." Diseases of the liver, kidneys and bowels brought forth that sovereign remedy Kidney-Wort, which is nature's normal curative for all those dire complaints. In either liquid or dry form it is a perfect remedy for those terrible diseases that cause so many deaths.

Arthur J. Mellman of Liverpool, N. S., and Gilbert Williams of Rockport, Mass., belonging to the fishing schooner Restless, left the vessel on the banks three weeks ago to visit their trawls, and have not been heard from since.

If you come home late bring your wife a bottle of German Corn Remover. Result happiness.

The pouch of the Adams Express company was stolen at Springfield, Mass., on the 6th inst.; it contained $1,500 in cash, and bonds, stocks and securities, carrying the total up to $25,000. The thieves cannot realize the value of their plunder beyond the $1,500, without making trouble for themselves; but, on the other hand, the company cannot recover on the securities unless they get them back.

The effects after taking Adamson's Botanic Balsam are a soothing and controlling influence over any Cough or Cold, promoting rest, allaying the tickling sensation in the throat, and causing a healthy expectoration.

Mr. Salter, the veteran financial editor of the Philadelphia *Public Ledger*, who recently retired from that position, will receive as an honorary pension his full salary for life. This item will do for those who habitually poke fun at Geo. W. Childs.

After the Ashantee war Sir Garnet Wolseley received some additional letters to his name, and a parliamentary grant of $125,000. He is now a Knight Grand Cross of the Order of the Bath, so that nothing remains to be awarded to him in the way of additional honor save a peerage.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

On the night of the 6th inst. Mrs. Wallace, a widow, living at West Fairlee, Vt., was awakened by a noise of some one entering the window of her house. She arose from her bed, and in the kitchen found two men, who seized her and threw her down. She became unconscious, and when she revived she was being held by one man while the other ravished her. Her children cried in the next room frightened the ruffians, who fled, leaving a bottle of whiskey on the floor. The woman is in a bad condition. There is no clue to the perpetrators of the crime.

A despatch from Tucson, Arizona territory, says the powder house of Tildner & Van Barstel at Guaymas blew up on the afternoon of the second instant. It contained 10,000 pounds of powder. One man had his legs blown off, and died from his injuries. Houses and buildings were cracked and roofs destroyed, and doors and windows were blown in. The damage to the city is estimated at $100,000.

MALARIA!

THE ONLY REMEDY KNOWN

To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The bottoms on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. 37 Walker St., Baltimore, Dec. 1882.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
MRS. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Pimples and Blotches* which mar your beauty and cause many to be impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with Boils, Carbuncles, Scrofula, Ulcers, Sores, Rheumatism? Why do you scratch and rub your skin, with Eruptions? Why let your system be poisoned? Why let your nerves and all your organs be deranged? Why let the best of your life slip by, when a few bottles of SULPHUR BITTERS will restore you to health? Why suffer from Dyspepsia, Sick Headache, Biliousness, and Liver Complaint? Why let your blood become so impure and full of poison that every pimple you see on others, will make you tremble with the fear that it may be the *first sign of Scrofula*? Why let your system be poisoned with Malaria, when SULPHUR BITTERS will drive it out? Why let your Kidneys become diseased, when SULPHUR BITTERS will make them healthy? Why let your Liver become torpid, when SULPHUR BITTERS will make it healthy? Why let your Nerves be shattered, when SULPHUR BITTERS will make them strong? Why let your Blood become so impure, when SULPHUR BITTERS will make it pure? Why let your Stomach be so out of order, when SULPHUR BITTERS will make it sound? Why let your Bowels be so costive, when SULPHUR BITTERS will make them regular? Why let your Skin be so yellow, when SULPHUR BITTERS will make it clear? Why let your Appetite be so poor, when SULPHUR BITTERS will make it good? Why let your Strength be so low, when SULPHUR BITTERS will make it strong? Why let your Nerves be so unstrung, when SULPHUR BITTERS will make them steady? Why let your Blood be so thick, when SULPHUR BITTERS will make it thin? Why let your Blood be so thin, when SULPHUR BITTERS will make it thick? Why let your Blood be so impure, when SULPHUR BITTERS will make it pure? Why let your Blood be so pure, when SULPHUR BITTERS will make it impure? Why let your Liver be so torpid, when SULPHUR BITTERS will make it active? Why let your Liver be so active, when SULPHUR BITTERS will make it torpid? Why let your Kidneys be so torpid, when SULPHUR BITTERS will make them active? Why let your Kidneys be so active, when SULPHUR BITTERS will make them torpid? Why let your Bowels be so costive, when SULPHUR BITTERS will make them loose? Why let your Bowels be so loose, when SULPHUR BITTERS will make them costive? Why let your Appetite be so good, when SULPHUR BITTERS will make it poor? Why let your Appetite be so poor, when SULPHUR BITTERS will make it good? Why let your Strength be so great, when SULPHUR BITTERS will make it small? Why let your Strength be so small, when SULPHUR BITTERS will make it great? Why let your Nerves be so steady, when SULPHUR BITTERS will make them unsteady? Why let your Nerves be so unsteady, when SULPHUR BITTERS will make them steady? Why let your Blood be so healthy, when SULPHUR BITTERS will make it diseased? Peter Clark of Springfield, Mass., a special policeman, gave himself up Friday afternoon for shooting Thomas C. Johnson, the previous evening, wounding him twice in the neck. Johnson was sitting on the fence surrounding some property which Clark claims he was watching, in company with a young woman, and he says that Clark threatened to shoot him without any provocation. During the affray he caned Clark severely. The latter is under $500 bail.

"Sir," said the Peking man.

"Stoppee long in New Yorkee?" repeated Mr. Smith, with a smile broad in its hospitality, and conveying his desire to be pleasant.

"You shall remain in the city but a brief period," replied the Celestial, "prior to resuming our journey to Washington."

Then he walked away, not until he had left with the junior proprietor of the Grand one of his choicest diplomatic grins and rarest Hong Kong bows.

When Mr. Smith ascertained that he had been talking to a Harvard graduate, and one who was "up" in six languages besides broken China, he was dumbfounded, and went out on the Broadway side, walked and looked up and down as if in search of one of those boys who kick a Gordon press.—*Hotel Mail.*

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1865, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and shall be others to employ you. Yours truly, GEORGE DRAPER, Stowhill.

BOSTON, January 1, 1882.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Portsmouth Chronicle.

MONDAY, SEPT. 11, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

THE NATIONAL SHIPS.

The North Atlantic squadron arrived at Eastport, Maine, at noon on Thursday of last week, from this port, and started Friday on the return.

The U. S. S. Despatch, Lieut. Comdr. Greene commanding, bearing President Arthur and party, arrived in the lower harbor on Friday evening, Sept. 8th, at 9:30 o'clock, her arrival being signalled to the navy yard by rockets from the Tallapoosa, which with Secretary Chandler on board steamed to the lower harbor from the navy yard at 7:30 o'clock. The president's flag was saluted by twenty-one guns from the navy yard battery on Saturday morning at eight o'clock, the earliest hour at which the regulations permit a salute to be fired. The Despatch ran up to the navy yard in the forenoon for coal, having received which she again proceeded to the lower harbor, remaining there until about two o'clock, when she steamed away to the eastward, accompanied by the Tallapoosa. The revenue cutter Albert Gallatin arrived in the lower harbor Friday afternoon, and sailed Saturday morning, saluting the president's and secretary's flags as she passed.

The North Atlantic squadron, Rear Admiral Cooper, was sighted on Saturday afternoon at four o'clock from Gerrish's island, the seips being then about five miles northeast of the Shoals, standing in for this harbor under steam. About half an hour later the squadron hauled to the eastward, having probably been signalled to follow the president's steamer.

TENTH REGIMENT REUNION.

A meeting of the surviving members of Co. G, 10th Reg't N. H. Volunteers, residing in this city and vicinity, was held in the common council room on Friday evening of last week; George E. Hodgdon was chosen president, and E. B. Prime secretary. It was voted to attend the regimental reunion at Manchester on the 22d inst., and Charles Hoyt and E. B. Prime were appointed a committee to make all necessary arrangements.

PERSONALS.

Mr. Albert E. Wood of this city ended a brief visit to his native place on Saturday, by starting for St. Louis, Mo.

Mrs. Dinsmore, widow of Ex-Gov. Samuel Dinsmore, is at the Rockingham house.

Among the persons who came to town on Saturday to pay their respects to President Arthur were G. Harrison Jenness, Esq., of Rye, and W. Scott Smith, the widely known newspaper correspondent of Washington, D. C., who has been spending his summer vacation at Rye.

Messrs. Chas. A. L. Stevens and Mortimer L. Raynes arrived home on the afternoon of the 10th inst., after a week's stay in Northwood, spent in gunning and fishing.

Commodore Jona. Young, U. S. N., is at the Rockingham.

THE EASTERN RAILROAD.

The Boston *Traveller* says the August earnings of the Eastern railroad are the largest monthly earnings this year, and are indeed the largest for a single month in the history of the road. They exceed those of August, 1881, by about $26,000. The earnings for the current fiscal year, which closes at the end of the present month, will be not far from $3,400,000, or an increase of about ten per cent over those for 1881. The large expenditures for new equipment and important improvements during the past few months will make the net earnings about the same as those of last year. The road is now, however, in a most excellent condition throughout its entire length; its equipment is first-class and its buildings are all in good shape, so that for several years to come no extraordinary expenditure will be required. The advance in the rate of interest on the company's bonds from four and one-half to six per cent, which went into effect on September 1st, will from this time forward require an increased expenditure of $17,000 per month on interest account. Next year also, for the first time, $100,000 will have to be set aside for the sinking fund. The management, however, hopes next year to earn these extra charges, and still be able to make nearly as good a showing as this year.

AROUND HOME.

The sale of the dwelling, bakery, stable, etc., No. 19 State street, advertised for Saturday last, was postponed to Tuesday, Sept. 12th, on account of the counter interest aroused by the arrival of the President. See advertisement.

The first of the new brown-back bank notes that we have seen are those issued by the First National bank of this city, signed by E. P. Kimball and R. C. Peirce, the new president and treasurer of the bank.

A large fleet of lumbermen, and several fishing vessels, were in the lower harbor on Saturday.

Pearson Bros. of Newburyport are introducing a new bread called the Crown Pilot, and those who have tried it say that it is superior to anything of the kind in the market. All through New England this bread is meeting with a great demand, and Portsmouth will not be backward in acknowledging its superiority. The Crown Pilot is a very crisp, delicate, and most palatable article, and if our readers will once obtain it of their grocer, they will like Oliver Twist ask for "more."

The War in Egypt.

Arabi Pasha's forces made an advance on the British position at Kassassin early in the morning on the 9th inst., and an artillery duel ensued. The Egyptians made good practice with shells, and were reported as having retired slowly and in good order before the British, the latter having over 100 men killed or wounded.

The Star Route Trial.

The star-route jury had not agreed on a verdict up to six o'clock Saturday evening, and the court took a recess until ten o'clock Sunday morning.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Gin ger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. A One-Hundred-Mile Bicycle Run.

Five members of the Boston bicycle club, with guests, started from Northboro' at 4:38 A. M. on Wednesday, the 6th inst., on the club's one-hundred-mile run. The party, which was under command of W. B. Everett, was composed of F. Morris, W. H. Edmands, R. M. Ding and T. H. Wakefield of the Boston bicycle club, and F. J. Philbrick of the Rockingham club, of Portsmouth, N. H., with E. A. Hemminway and C. T. Holland, unattached. The start was made against a strong northeast wind. The following are the places on the route: Northboro' to South Framingham, Natick, (breakfast), Dedham, Stoughton, Brockton, (dinner), Quincy, Waltham, (supper). Boston was reached at 9:30 P. M. The total running time was sixteen hours and fifty-two minutes. Four hours were consumed in stops for breakfast, dinner and supper, making fourteen hours thirty-four minutes the actual running time for 102 1-2 miles. The distances were taken by two cyclometres, which tallied exactly with each other, and are undoubtedly correct. This is the longest club ride ever made in this country, and to the Boston club belongs the honor of the long-distance club of the country. The success of the run was largely owing to the good judgment and pluck of Mr. Everett, who planned it. There was a large gathering at the club-house to welcome the wheelmen.—*Boston Advertiser.*

President Philbrick of the Portsmouth club returned to this city on Thursday in excellent condition, hardly feeling the effects of the all-day exercise. The run was an impromptu affair arranged at the Worcester meet, where a delegation of the Portsmouth club, having run over the roads from Boston to Worcester, arrived in season to participate in the parade of two hundred wheelmen, the captain of the club having command of a division of one hundred men during the fancy drill at the New England fair track. Over two hundred miles was made by Mr. Philbrick during his four days vacation.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest lineage on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their trouble. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from inactivity and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither pals upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are confined to Consumption—will find the preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Field Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and a signature of his Signature, as well as that of A. YOGELER & CO., Baltimore, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

PRESIDENT ARTHUR IN PORTSMOUTH.

President Arthur arrived on Friday evening in the steamer Despatch, which anchored in the lower harbor. On the following morning the President, accompanied by his private secretary, Fred J. Phillips, Secretary Chandler, Commodores English and Wells, Surrogate Rollins and John I. Davenport of New York, with Captain Greene of the Despatch and Comdr. Kellogg, took breakfast at the hotel Wentworth, Newcastle, and at an early hour started for a drive to Rye beach in the large coach of the Wentworth, drawn by a team of six horses driven by Cox, the veteran White Mountain stage driver. Mr. G. F. Thompson of the Wentworth accompanied the party. On the return the president was met at the junction of the Rye road with Lafayette road, opposite the residence of J. Gilman Rand, by Senator Rollins, Collector Howard and Col. Hackett, the two last-named gentlemen having been invited by telephone to meet him on the road, and escort him through some of our principal streets that he might see the chief points of interest.

The president's coach was driven through Middle street, down Court to Pleasant, through Pleasant to Water, thence to State, up State to the custom house, thence through Market, Deer and Vaughan streets to Congress, through Islington, (making a detour through a portion of Hanover and again returning to Islington,) passing thence through Cabot and State streets to the Rockingham house, where he alighted.

He at once entered the hotel, where he was met by Mayor Treat in the hall. The president proceeded to one of the parlors, where the aldermen, members of the citizens' committee, and others, were introduced. Mayor Treat then presented a copy of the resolutions of the board of mayor and aldermen tendering him the hospitalities of the city, and expressed a hearty wish that they would be accepted. To this the president briefly but gracefully responded, thanking the mayor and through him the citizens for their kindness; he said he was much pleased by seeing the places of interest which had been pointed out to him in his ride through a portion of the city, and regretted that his quite early departure would deprive him of the pleasure of accepting the further attentions of the citizens.

Mr. Geo. B. French presented an invitation to attend St. John's church on Sunday. The president returned his thanks, but stated that his early departure would prevent the acceptance of the invitation.

The president had no time for anything like a reception. In the ladies' parlor but two ladies were presented. These were guests of the house, and one of them was an acquaintance of the president.

The stay at the Rockingham was brief. About one o'clock the president and his party took carriages for the navy yard landing, where they at once embarked on board a steam launch to reach the Despatch in the lower harbor, and on their arrival the vessel at once weighed anchor, and proceed to the eastward.

The president had only a look at the water front of the navy yard as he passed down the harbor. The marines were paraded in line, and every preparation was made to properly receive the Chief Magistrate, but his movements seem to have been planned and executed in a manner that permitted only a very short stop at Portsmouth.

President Arthur, while apparently disinclined to receive any extended attention, was quite cordial in his manner. He bears the unmistakable marks of the gentleman, and conducts himself with a wonderful degree of combined dignity and affability. The very brief notice of the visit, and the general expectation that the stay would be more prolonged and a public reception given, doubtless deprived many of our citizens of the pleasure of meeting him.

The president was much pleased with all he saw at the Wentworth; especially was he delighted with what he considered an excellent site for a cottage. After meeting Hon. Frank Jones at the Rockingham house, the president expressed his admiration for the spot as a building site. Mr. Jones, with characteristic promptness replied, "If you will build a cottage here I shall be happy to give you the land at that point for that purpose."

The recent rain had made the road between the Wentworth and Little Boar's head in better condition than at any time during the season, and as the president sat on the box, beside the driver, he enjoyed the trip to the full extent. Hereafter there will be doubtless a lively interest by visitors at the Wentworth to secure the seat beside Cox, where the Chief Magistrate sat on his twenty-mile drive.

The president was much interested in seeing many of the older style of mansions which always attract persons of historical tastes, and of this class our Chief Magistrate is notably an enthusiast.

Surrogate Rollins left the president's party and returned from this city on Saturday afternoon to Great Falls. John I. Davenport, Esq., left for New York by the afternoon express train.

VISITS OF FORMER PRESIDENTS.

The brief visit of President Arthur lends interest to the occasions when his predecessors in office have honored Portsmouth with their presence. This town was the limit of the northern tour made by President Washington, in 1789, who was received October 30th at the state line by President Sullivan and Council, and a body of troops. A further escort of military joined them at Greenland. Three companies of artillery under Col. Hackett fired a salute on his entering the town, and Congress street was lined with citizens—the trades being arranged in alphabetical order. The fort also fired thirteen guns (then the new *federal* salute) and the ships in the harbor were gaily decorated.

Washington entered the State house (which stood in what is now Market square,) and from the balcony of the senate chamber, which faced toward Daniel street, "gratified an immense crowd of spectators, who crowded the parade and the adjacent buildings, and who had collected to pay him their profound respects." An ode composed for the occasion was sung, and a military review had of the troops under Maj. Gen. Cilley. In the evening the State house was illuminated, and fireworks were let off, beginning with a flight of thirteen rockets, denoting the union of the states.

On Sunday morning the President attended services at Queen's chapel—which stood on the site of St. John's church; in the afternoon he heard Dr. Buckminster at the North church. He was rowed down the river on Monday in a barge, landed at Kittery, and also visited the Gov. Wentworth house, at Little Harbor, whence he returned to town by land. During his stay the President was the guest of John Langdon, on Pleasant street, in the house where Dr. Francis E. Langdon now resides. On Tuesday an elegant entertainment was given him by President Sullivan and his Council; and in the evening a brilliant ball completed the festivities.

It was on the occasion of this visit, and the discussion as to the title to be used in addressing the President, that Jonathan M. Sewall (who composed the odes) wrote the famous epigram, the last line of which is, "His name alone strikes every title dead."

President Monroe after his inauguration, in the "era of good feeling" determined to make an eastern tour similar to that of Washington. He arrived here under military escort about seven o'clock in the evening, Saturday, July 12, 1817. A salute greeted him at the Plains, where he reviewed the 1st regiment. On arriving at Wibird's Hill, he was again saluted by the Sea Fencibles, Capt. Brown. The President wore a blue military coat, of homespun, light under clothes, and a cocked hat—the undress uniform of an officer of the revolution. He rode down Middle street between lines of school children, dressed in white, who occupied both sides of the street from Mr. Rundlet's to Maj. Larkins'. The procession moved to Frost's hotel in Market street, where Jeremiah Mason delivered, in behalf of the town, an address of welcome. The President stayed at Mr. Wentworth's house in Jaffray (now Court) street. Sunday he attended St. John's church. The next day he visited the navy yard and the forts in the harbor, which saluted him; and in the evening he attended a concert given by the Social Harmonic Society, at Jefferson hall, which was elegantly decorated for the occasion. At this concert Major Samuel Larkin sang "Yankee Doodle" in inimitable style. The President on leaving Portsmouth went as far east as Portland.

Jeremiah Mason, writing of this visit to Rev. Dr. Jesse Appleton, of Bowdoin college, under date of July 14th, 1817, said: "We have acted foolishly enough, though not in the magnificent style of the Boston folks. * * I gave him to understand that if he went down to your college, you would probably feed him. I do not know whether that was the highest possible stimulus for him. He expresses high satisfaction with New England, and the treatment he has experienced from the Yankees."

The next president of the United States to visit Portsmouth was James K. Polk, who arrived on the 5th of July, 1847, on his return from a visit to Maine. He was received at Portsmouth bridge at ten o'clock in the morning by Col. Ichabod Bartlett, chairman of the committee of citizens. A procession was formed, George W. Towle acting as chief marshal. The Portsmouth Greys, Hampton Artillery, and Rye Rifles, together with a volunteer company, formed the escort. James Buchanan, Secretary of State, and Attorney General Clifford, accompanied the President. The school children with wreaths and banners were arrayed in lines on State street, and arches of evergreen had been thrown over several streets. A large platform was erected in front of Congress hall. Here Levi Woodbury, justice of the supreme court of the United States, welcomed the Chief Magistrate, in behalf of the citizens of Portsmouth. The President in reply complimented the town, particularly with reference to its superiority as a naval station. After visiting the Woodbury mansion and the Rockingham house, the President left town in the afternoon for Newburyport. An incident of the procession was the presence of George Fishley and Mark Green, survivors of the Revolution, in their continental uniform. The President, on the route, stood in his carriage and bowed graciously to the people.

It is safe to say that no occupant of the White House had warmer personal friends than Frank Pierce. Whatever may be thought of his administration, the affectionate nature and high-bred courtesy of the man was sure to win for him the devotion of those with whom he was on terms of intimacy. Under ordinary circumstances, a visit by Gen. Pierce to his native state would have been attended with every demonstration of welcome. Unfortunately, however, he did not come here till late in his administration, when party feeling, upon the slavery question, was running high, and upon the eve of the most exciting election for the Presidency that the country ever had seen. As Chief Magistrate he was treated with respect, but it cannot be said that his presence called forth any popular enthusiasm.

President Pierce came to Portsmouth from Concord by the Portsmouth & Concord railroad, on the morning of October 8th, 1856. He was received at the station, on Deer street, by Hon. Richard Jenness, mayor of the city, who made a speech of welcome, to which the President felicitously replied. Under the escort of the Buchanan Guards he proceeded to the Rockingham house, where citizens called to pay their respects. In the evening Commodore Newton gave him a reception at the navy yard. The next day the President embarked on board the Wabash in the lower harbor, when the yards were manned, and salutes exchanged between the ship and Fort Constitution. The Wabash was a magnificent frigate, carrying seven hundred men, under command of Commodore Hiram Paulding. Among her officers were the following who have since been well known at this station: Lieut. J. C. Beaumont; Midshipman T. H. Eastman; First Assistant Engineers B. F. Garvin and D. B. Macomb. The Wabash sailed for Annapolis, Md., and this is said to have been the first voyage ever taken in a man-of-war by a President of the United States.

For twenty-six years no President has visited Portsmouth. In 1873, on Tuesday, August 12th, President Grant passed through this city on his way to Augusta, Maine, on a special train, which ran from Boston in one hour and twenty-six minutes. The President appeared on the platform and was heartily cheered. No formal proceeding took place, as the train waited only five minutes; but Gen. Grant received many of our citizens with a shake of the hand.

William H. Pepper, Lake Village; circular knitting machine. No. 263,720; application filed Feb. 17th, 1882. This invention embraces novel means for operating the cams borne by the dial plate, whereby the cams in addition to the usual furniture are made to produce a close welt in the fabric, as also slack courses. Jacquard mechanism is employed for timing the various movements so as to form the welts, etc., at the desired intervals in the continuous tubular web.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and invigorated.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, and has cost a London of great experience, to whom was awarded a gold medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample free gratis. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Erie & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where the danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. Address the proprietor, Dr. David Kennedy, Rondout, N. Y. all 4w

37 Walker St., Baltimore, Dec. 28th.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
MRS. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

Daily Chronicle.

The navy department is informed of the death of Medical Inspector B. F. Gibbs, fleet surgeon of the European station, which occurred at the hospital in Trieste. His death promotes Surgeon Edward S. Bogert and Passed-Assistant John C. Wise. Dr. Gibbs was born in New Jersey. He entered the navy in 1858 as an assistant surgeon, and during his service before the war he was attached to the Brazil squadron and Paraguay expedition, and the East India squadron. He joined the West Gulf blockading squadron in 1862, and was some time in charge of the naval hospital at Pensacola. At the close of the war he was attached to the school-ship Sabine, and from 1867 to 1869 he served with the Pacific fleet. From 1869 to 1873 he was on special duty in connection with iron-clads at New Orleans. In 1874 he became fleet surgeon of the South Pacific station. Before joining the Lancaster last year as fleet surgeon of the European station, Dr. Gibbs was a member of the examining and retiring boards.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.
LYNN, March 8, 1882.
DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a great deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,
Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.
Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the [illegible] of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.
The Reasons Why
Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Testimonials.
I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.
"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.
BOSTON, October 19, 1876.
R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The Star Route Trial.

The star-route jurors were dismissed Monday afternoon at two o'clock, having brought in a verdict of guilty against Miner and Rerdell, and not guilty against Turner and Peck. On the others they were unable to agree.

The Trouble in Corea.

The difficulty between Japan and Corea has been arranged. Corea has agreed to pay £500,000 as compensation to Japan and £50,000 to the relatives of the murdered Japanese subjects.

A dispatch from Pekin, dated the 5th inst., which has been communicated to the London *Times*, states that the Chinese authorities intervened boldly in Corea, seized the rebellious father of the king, and took him to China. The king has been reinstated by Chinese troops and ships.

AROUND HOME.

Most of the Portsmouth delegates to the republican state convention went to Concord on Monday by the noon freight train over the Concord & Portsmouth railroad.

Between 2300 and 2500 words of press despatches were sent over the Mutual Union telegraph line by the operator in this city on Saturday.

The democrats of Rye on Saturday evening elected Warren Caswell and Joseph G. Jenness as delegates to the state convention of their party, and G. H. Jenness and B. D. Bachelder to the congressional convention.

The schooner Mary S. Hontvet, which arrived from the banks last week with a fare of 172,000 lbs. of fish, will probably go to Gloucester, Mass., for a market.

Sixty vessels were sword-fishing off Cape Elizabeth on Saturday, and thirty sword-fishermen and seiners were fishing off Boon island the same day, with moderate success.

The Exeter *Gazette*, in an article making mention of the probable or possible nominees of the republican conventions, gives in its list of leading candidates for the congressional nomination the name of "Aaron Young of Dover." It says: "For railroad commissioner but one name has as yet been mentioned, Col. B. W. Hoyt of Epping. The position of councillor from this district will probably be filed by Amos Chase of Kingston. J. Horace Kent will probably be re-nominated as sheriff, without any practical opposition. For county solicitor Exeter presents two names, Charles Knight and F. S. Hatch, and Portsmouth presents one, Wm. Russell Foster. The present board of county commissioners, if they desire a re-nomination, will secure it. No change, of course, will be made in the office of register of deeds; Mr. Weston fills his present position to the entire satisfaction of every one. For register of probate no candidates have yet been mentioned."

A party of ladies and gentlemen from Ogunquit visited Mt. Agamenticus a week or two ago, and the ladies became separated from the gentlemen, and were lost upon the mountains for over two hours. Guns and revolvers were fired, and the party divided up into groups, each group being sent in different directions, before the lost ones were found.

At the annual meeting of the stockholders of the Newmarket Manufacturing company, held last Thursday, the old board of officers were elected, as follows: Directors, William D. Pickman, Benjamin W. Crowninshield, John D. W. Joy, George Z. Silsbee, William G. Saltonstall, John Webster, Samuel A. Haley; treasurer, John Webster; clerk, T. M. Joy. It was voted to increase the capital stock of the corporation $200,000, making it now $800,000.

The body of an unknown man was found on the track of the Eastern railroad near the "know-nothing station" at Newburyport, Sunday morning at eight o'clock, shockingly mangled, having evidently been run over by the cars; one leg was cut off at the hip and one arm at the elbow, and the other leg and arm were crushed. He was about twenty-two years old, poorly dressed, and with nothing in his pockets but a bit of cheese. It is supposed he was a tramp, and was killed while attempting to board the Pullman train, by falling under the wheels.

Mr. Samuel Taylor has this season raised a sunflower that measures sixteen inches across.

Daniel Smith, whose death occurred at Newburyport, Mass., August 14th, was born at Newmarket in 1795 and removed to Portsmouth in 1809. When fourteen years of age, in the war of 1812, he served in Capt. Samuel Shackford's company at Peirce's island, by which he became a pensioner. His wife died about seven years ago, but his five children survive him.

Dennis Mulloy, of Berwick, committed suicide by hanging on Tuesday afternoon, the 5th inst., while on a visit to his daughter, Mrs. Stephen Purrington of Limington. Mr. Mulloy was missed from the house late in the afternoon; search was made for him, but he was not found until Wednesday morning. His body was hanging from a tree a short distance from the house. Mr. Mulloy was a man about sixty years of age, and leaves a family of eleven children; his wife died about a year ago.

MAINE ELECTION.

There was an election in Maine on Monday, the result in some of the towns being as follows:

Governor vote in Kittery: Republican 498, fusion 173; republican majority 325—a very large republican gain over the vote of any recent election; representative, James H. Rowell.

In York the republican majority was seventy-one; representative, John E. Staples.

In Biddeford, according to the first returns, the republicans claimed a majority of eleven on the state ticket, but conceded the representatives to the democrats; a later despatch said the democrats had carried the whole by a small majority.

South Berwick gave a republican majority of fourteen. Eliot gave a democratic majority of fifty-three. These two towns are classed, and George Goodwin, democrat, is elected to the legislature.

Berwick, sixty-one republican majority; representative, Elbridge Wentworth.

Gardner 214, Brunswick 207, Bath 415, Saco 230, republican majorities; Richmond republican, Kennebunk democratic, majorities not stated.

The iron workers' strike at Pittsburg, Pa., has again assumed an interesting phase by the action of the blacksmith men, hammer men and bumper men of Wilson, Walker & Co.'s mill, to the number of 125, refusing to quit work when ordered to do so by the amalgamated association.

Mr. E. Wenz, St. Boniface, Pa., writes: I must recommend St. Jacobs Oil. I had a horse with Sweeny in the shoulder, and used this Oil three times a day, when the ailment was cured.

Gilbert Williamson and Arthur Mailman, belonging to the schooner Restless, of Gloucester, Mass., were picked up from a small boat on the banks of Newfoundland on Aug. 19th, and have been landed at Liverpool, England.

***A coward can be a hero at a distance; presence of danger tests presence of mind." Presence of disease test the value of a curative. Kidney-Wort challenges this test always and everywhere, so far as all complaints of the bowels, liver and kidneys are concerned. It cures all, nor asks any odds.

The petition of Zachariah Chaffee, trustee of the Sprague estate, and Frank D. Moulton, to be put in possession of Cananchet, has been dismissed by the supreme court of Rhode Island, leaving the belligerent Wm. Sprague in permanent possession of the place unless ousted by proceedings at law.

Modern Housekeepers have abandoned all cleaning compounds of acids, whiting and ammonia, and use only Electro-Silicon, the standard silver polish of the world. Sixteen years in household use. The best, the cheapest. Druggists. Jewelers.

Francis Hynes was hanged at Limerick, Ireland, Sept. 11th. He was convicted of an agrarian murder.

Fruit of the tropic's burning clime,
Thy wondrous virtues, fadeless still,
Exert an influence sublime
In ministering to human ill;
And many a pang along our way
Sanford's Ginger doth allay.

Samuel Rowlandson, chief dyer at Faulkner's mill, Lowell, Mass., disappeared Friday, and was on Sunday afternoon traced in a direction away from home, and seen running excitedly. As this conduct is very uncharacteristic, it is believed that he has been seized with sudden insanity, and that some harm has befallen him. He has a family and respectable connections, and has borne an excellent reputation.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched.—Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

Saturday evening John H. Johnston, mayor of Danville, Va., shot John E. Hatcher, late chief of police, inflicting what is believed to be a mortal wound. Johnston had refused to apologize for an accusation made by him that Hatcher had not accounted for certain fines imposed upon convicts. A scuffle ensued. Johnston surrendered himself, and was admitted to bail in $5,000.

In the United States circuit court at Jefferson City, Mo., last Saturday, William P. Barnes and Finis E. Johnston, county judges of Cass county, Missouri, were committed to jail by order of Judge Krekle, for refusing to make a levy on the county to satisfy judgment obtained against Cass county to pay the bonds and interest issued by Cass county in aid of the Tebo & Neosho railroad.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

"NEW EAST LYNNE."

On Thursday evening, Sept. 14th, Mrs. Henrietta Chanfrau, supported by Tayleure's dramatic company, will present on Music hall stage Mr. Tayleure's new version of "East Lynne," Mrs. Chanfrau of course taking the part of Lady Isabel, of which the Boston *Post* says: "Mrs. Chanfrau's rendering of Lady Isabel is admirable throughout, and is absolutely refreshing by force of its artistic purity and the justice it does to the genuine womanly nature." Tickets now on sale at Myers' bookstore.

POLICE COURT.

MONDAY, Sept. 11; *Batchelder J.*

James Shelley, for drunkenness, was fined $3, costs $6.90. Paid.

THE NATIONAL SHIPS.

A despatch of Sunday afternoon, the 10th inst., from Bar Harbor, Me., said: "President Arthur and party arrived here about noon per United States steamship Despatch, from Portsmouth. Secretary Chandler and Commodores English, Wilson and Wells accompanied them on the Tallapoosa. The president came ashore at one o'clock P. M., and dined with Mr. T. B. Musgrave. Secretary Chandler and wife were his guests also. The president is enjoying good health, and had a pleasant trip devoid of incident. The Atlantic squadron also arrived to-day, and there will be a grand naval parade and drill on Monday at nine o'clock A. M. A reception will be given during the day, at which Mrs. Hale will assist. In the afternoon the president and his private secretary will sail for New York."

The navy yard authorities were on Monday notified of the probable arrival of the Tallapoosa on Tuesday, and of the North Atlantic squadron on Tuesday night or Wednesday; orders were received at the yard to have 600 tons of coal afloat in the lower harbor early Wednesday morning, in barges, in readiness to coal the squadron.

ISAAC NELSON GOODRICH.

Mr. I. Nelson Goodrich died on the morning of Sept. 11th, shortly after midnight, in the 48th year of his age.

He was a son of the late Jeremiah D. Goodrich, his brothers being Jeremiah D. Goodrich and Gardner M. Goodrich of this city, and Col. E. M. Goodrich of New York. In early life he followed the sea, and displayed remarkable aptitude for a sailor's life, rising to the position of mate before he was twenty years old.

Soon after the breaking out of the rebellion he entered the navy as acting-boatswain, and was boatswain of the Pensacola when Farragut's fleet passed the forts below New Orleans and captured the city. In this action he was wounded by the bursting of a shell, but remained at his post to the end of the fight, and was warmly commended in the official report of the executive officer, now Commodore Francis A. Roe. A few months later he resigned, and returned home, where he has since resided.

He was for several years an attache of this paper, and also the local reporter of the Boston *Globe*; but he has never been sound in body since his service in the navy, and within a year past his health has failed very rapidly; on the 3d inst. he took to his bed, and never left it alive, though his friends did not suppose him dangerously ill until an hour or two before his death.

He was a member in good standing of Storer Post, G. A. R., and was quite active in the order; the post takes entire charge of the funeral, which will occur at his late residence, No. 1 Franklin street, on Wednesday afternoon at half-past two o'clock, members of the post being requested to meet at Grand Army hall at 1:30 o'clock on that day.

Mr. Goodrich leaves a widow, a son, Henry M. Goodrich of this city, and a daughter, the wife of Dr. N. B. Russell of Lawrence, Mass.

WELL DESERVED COMMENDATION.

The commissioner of internal revenue writes to the collector in this state that he (the commissioner) is gratified to observe from the examination of the office in this city, made on the 25th ult., that the office "is entitled to the highest grade, number one in every particular." Mr. H. W. Putney, the chief deputy of Collector H. M. Putney, the commissioner writes "deserves the highest commendation for his faithfulness and efficiency."

FOUND DROWNED.

A man named Martin Robbins, belonging to the fishing schooner Good Templar, was supposed to have been drowned on the night of Aug. 28th, while on his way from this city to Newcastle in a boat, through being carried by the tide against Portsmouth bridge, the boat and sail being picked up by different parties in that vicinity. On Saturday afternoon last a body supposed to be that of Robbins was picked up near the Newington shore by Charles Huntress of Eliot, and buried by the Newington selectmen near the river. The face and hands of the corpse were badly disfigured by fishes.

Mr. John Bridges on Monday forenoon boarded his boat, which was moored off the Kittery shore, and looking over the side saw a dead body on the bottom. It was taken out, and proved to be a fifteen-years-old son of Reuben Lewis of Kittery, who had probably fallen overboard while playing in the boat. The lad was subject to fits.

THE STORM.

The schooner E. A. Creed, of eighteen tons register, belonging to Laighton Bros. & Co. of the Shoals, was on Monday reported as having been totally wrecked on one of the islands at midnight the previous night; no particulars were given.

A heavy storm was prevailing outside the harbor on Monday, and a large number of coasting vessels sought shelter in the lower harbor. The steamer Appledore had been announced to make her last trip to the Shoals for this season, but discretly remained in port.

About fifty sail of fishing vessels were reported at anchor in the lower harbor Monday evening; only one had any fish on board worth mentioning, her lot being sixty wash-barrels of mackerel seined off Boon island.

There were fourteen fishing schooners at the wharves in the evening, having among them 185 barrels of mackerel, 600 lbs. of sword-fish, and small quantities of other fish.

The little steamer Pinafore ran in from the Shoals on Monday.

CLOSING UP.

The Marshall house, at York harbor closed on Saturday last.

The Atlantic house at Smuttynose island, Isles of Shoals, kept during the season by Mr. Lemuel B. Caswell, has closed. Mr. Caswell has had a very fair season.

The Wentworth closes to-day, Tuesday. Among the guests who leave this morning are Edmund Clarence Stedman, the banker-poet of New York, and Mr. Trumbull, the eminent scholar of Hartford, Conn.

See notice of auction sale of dwelling and bakery No. 19 State street at noon to-day.

The ladies' society connected with the Methodist Episcopal church will picnic at Pocahontas point, Gerrish's island, on Wednesday, the 13th inst., going from Appledore landing on the steamer Fearless at 1:15 P. M.

The schooner Satellite, Aderton master, has been lying at Portsmouth bridge for more than a week with a cargo of bricks for Boston on board, owing to the illness of the captain. The brickers D. K. Ham, Triton and Hattie Lewis all arrived from Boston on Monday, light, and bound up river to load.

It is announced that Secretary Chandler has determined to station a receiving ship at this port, and that either the Constitution or Constellation,—probably the former,—will be designated for that purpose. She will be moored off Pumpkin island, in the berth formerly occupied at different times by the receiving ships Sabine and Vandalia.

The Concord & Portsmouth railroad company have settled with Henry Taplin of Newmarket for damage done to his woodland by a fire set by a spark from a locomotive, the company paying him $168.

Mr. A. K. Brown, who runs the street sprinklers, says his horses and men had not a day's rest this year from the time they commenced work until Sept. 4th. Notwithstanding the long-continued drought the streets were kept free from dust to a great degree, and the citizens and beach visitors did a large part of their riding in the city, in preference to driving over the dusty roads of the surrounding country. Owing to the largely increased cost of the work this season, Mr. Brown will need liberal subscriptions to make him come out square, to say nothing of making a reasonable profit.

Dr. E. W. Twombly, of Newington, lost a quite valuable horse on Thursday of last week, through stoppage; he bought the horse only about three weeks previously, the animal representing the net proceeds of his entire summer's work. As owing to his years the peddling of farm produce is about all the business he can engage in during the winter, the loss is a serious one to him.

The little steamer Lottie, formerly of Exeter, and for several years known as the fastest boat of her size on the river, is now owned by Mr. Dutton of Boston, of the firm of Houghton & Dutton, and is used by him as a pleasure yacht in that harbor.

A Loss Prevented.

Many lose their beauty from the hair falling or fading. Parker's Hair Balsam supplies necessary nourishment, prevents falling and grayness and is an elegant dressing.

The Philadelphia fast freight train, on the Bound Brook route, was wrecked at Bayonne, N. J., Saturday night, by the breaking of an axle, and one life lost.

No matter what your ailment is, Brown's Iron Bitters will surely benefit you.

Dr. Henry E. Turner, president of the Newport, R. I., Medical society, has resigned that position, and also his membership of the society, for reasons growing out of a difference of opinion between him and other physicians regarding the recent alleged case of Asiatic cholera.

Wheat Bitters is a genuine pharmaceutical preparation and so recognized by the profession.

Patrick McKenna, aged twenty-seven years, was kicked in the temple by a horse at Providence, R. I., Saturday. His recovery is doubtful. William McGlyan died in the Providence hospital Sunday afternoon of injuries received by a pickaxe in the hands of a fellow laborer, accidentally.

Hay Fever.

Messrs. Ely Bros., Druggists, Owego N. Y.—I have been afflicted for twenty years, during the months of August and September, with Hay Fever, and have tried various remedies for its relief without success. I was induced to try your Cream Balm; have used it with favorable results, and can confidently recommend it to all similarly afflicted. ROBERT W. TOWNLEY, (ex-Mayor) Elizabeth, N. Y.

TRENTON, N. J., Oct. 23, 1880.

I have suffered for eight years with Hay Fever, during July, August and September. In the beginning of July, this year, I resorted to Ely's Cream Balm, and have been entirely free from the fever since the first application. I can recommend it as a cure. EDWARD C. HILLMAN, at the New Jersey State Arsenal. Price 50 cents.

Apply into nostrils with little finger.

The barn of William L. Lester, near the Pequot stable at New London, Conn., was struck by lightning and set on fire Saturday forenoon, and burned, with ten tons of hay.

When the scalp is covered with dandruff, Glenn's Sulphur Soap will be found infallible. Hill's Hair Dye, black or brown, 50 cts. A remedy for Indigestion, Consumption, Dyspepsia, Weakness, Fever, Ague, etc., Colden's Liquid Beef Tonic.

On Saturday afternoon fire destroyed the fur and hat factory of Brown & Sherwood, Bridgeport, Conn. Loss $10,000; insurance $6,000.

The weak, worn, and dyspeptic should take Colden's Liquid Beef Tonic. Ask for Colden's, of druggists.

Hale's Honey of Horehound and Tar overpowers the most troublesome cough.

Pike's Toothache Drops cure in one minute.

Stephen M. Nash, a mill employe at Norwich, Conn., fell down a flight of stairs at his home, Sunday, and broke his neck.

Sick headache, nausea, rising of food, flatulency, seasickness, cramps and pains, hysteria, nervousness, languor, and loss of sleep call for prompt use of Sanford's Ginger, "the delicious."

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from Indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or virility impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, price only $1 than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!

THE ONLY REMEDY KNOWN

To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precusors of death if the poison is not neutralized. The boatmen on the Hudson Canal know well as do the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. 37 Walker St., Baltimore, Dec. 1881.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

Another attempt to burn the Sprague property at Cranston, R. I., was made Saturday night. The wife of the occupant of the house, Dr. Lawton, too nervous to sleep, discovered two men in the yard, and a flash of fire in broken lattice work. She alarmed the watchman close at hand, who gave pursuit, and fired at the retreating incendiaries without effect. The family had partly packed their goods to move, fearing incendiarism. This is the first attempt to burn the dwelling house on the Sprague estate, but four barns, a grist mill and a planing mill have been destroyed.

The effects after taking Adamson's Botanic Balsam are a soothing and controlling influence over any Cough or Cold, promoting rest, allaying the tickling sensation in the throat, and causing a healthy expectoration.

The Brotherhood of Locomotive Engineers held their ninth annual convention at Terre Haute, Ind., Sept. 11th. Welcoming addresses were made by Mayor Lynn, Gov. Porter and B. W. Hanna. At night a banquet was given, with 700 persons present. Responses to toasts were made by Gov. Porter, Senator Voorhees and others.

Great Valley, N. Y.—Having sold your medicines for the past two and a half years can cheerfully recommend all of them, especially Baxter's Mandrake Bitters, as I have sold several gross of them, and in every instance wherever I have recommended any one to try a bottle they have come back after more. I have used all your medicines in my own family and find them all excellent family remedies.

Yours truly, J. E. CHASE, Druggist.

The stage coach which runs between Seligman and Eureka Springs, Ark., was stopped Saturday evening by two masked men heavily armed, and the ten passengers in the stage were robbed of about $900 and considerable jewelry. The mail pouch was also robbed of registered letters. There is no clew to the robbers.

Rules

for the care of the sick. How to cure disease, its symptoms and causes, and other information of great value will be found in old Dr. Kaufmann's great book; 100 pages, fine colored plates. Send two 3 cent stamps to pay postage to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

A Washington, Ind., despatch says: At midnight, on the 9th, a body of masked men undertook to take from jail and lynch John Hunter, the murderer of William Leutz. They were repulsed by an armed guard of twelve men.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

Charles Hossack of Fredericton, N. B., nine years old, was shot on Friday, the 8th inst., in a school yard by another boy named Walter Gallagher, and died on the 11th. Gallagher has been arrested.

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat, but not boil.

Capt. John Hatcher of Danville, Va., late chief of police, who was shot by John H. Johnston, mayor of that city, on the 9th inst., died on the 11th.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

Misery island, in Salem, Mass., harbor, has been sold by Daniel Nevils to A. C. Goss of Melrose for $1,000. It contains nearly six acres, and is to be used as a headquarters for a fertilizer manufactory. The people of Marblehead, Salem and Beverly are much exercised over this proposed addition to the list of obnoxious smells, and will try to prevent it.

Persons whose blood has been corrupted, and the circulation deranged by foul secretions—the result of the disordered chemistry of the body—need for their purification something like an inward baptism at the hands of Mrs. Lydia E. Pinkham, whose laboratory is at No. 233 Western Avenue, Lynn, Mass. Her Vegetable Compound is fairly inundating the country as with a river of life.

In the supreme court at Dover, Monday, Frank Perkins and Augustus Ristemer, for aggravated assault on Geo. W. Hoitt, pleaded *nolo contendere*, and were fined $25 and costs each. Hoitt lay in an unconscious condition from the effects of the assault for eleven weeks, and his death was expected at one time. This was the Saturday night carouse case, in which Hoitt was beaten nearly to death by his drunken companions.

One of the greatest trials that housekeepers have to undergo during the hot weather, is that of washing day. Happily there is practical relief for them in the use of James Pyle's Pearline.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

Mother Died from it

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

Psoriasis.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful case on record. Cure certified to before a justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

Salt Rheum.

Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally.

MRS. WM. PELLINGTON, Sharon, Wis.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age. Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhaustive vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, every one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of towns adjoining seventy-five miles in length, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this disease lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

Another attempt to burn the Sprague property at Cranston, R. I., was made Saturday night. The wife of the occupant of the house, Dr. Lawton, too nervous to sleep, discovered two men in the yard, and a flash of fire in broken lattice work. She alarmed the watchman close at hand, who gave pursuit, and fired at the retreating incendiaries without effect. The family had partly packed their goods to move, fearing incendiarism. This is the first attempt to burn the dwelling house on the Sprague estate, but four barns, a grist mill and a planing mill have been destroyed.

Charles Hossack of Fredericton, N. B., nine years old, was shot on Friday, the 8th inst., in a school yard by another boy named Walter Gallagher, and died on the 11th. Gallagher has been arrested.

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat, but not boil.

Capt. John Hatcher of Danville, Va., late chief of police, who was shot by John H. Johnston, mayor of that city, on the 9th inst., died on the 11th.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

Misery island, in Salem, Mass., harbor, has been sold by Daniel Nevils to A. C. Goss of Melrose for $1,000. It contains nearly six acres, and is to be used as a headquarters for a fertilizer manufactory. The people of Marblehead, Salem and Beverly are much exercised over this proposed addition to the list of obnoxious smells, and will try to prevent it.

"Persons whose blood has been corrupted, and the circulation deranged by foul secretions—the result of the disordered chemistry of the body—need for their purification something like an inward baptism at the hands of Mrs. Lydia E. Pinkham, whose laboratory is at No. 233 Western Avenue, Lynn, Mass. Her Vegetable Compound is fairly inundating the country as with a river of life.

In the supreme court at Dover, Monday, Frank Perkins and Augustus Ristemer, for aggravated assault on Geo. W. Hoitt, pleaded *nolo contendere*, and were fined $25 and costs each. Hoitt lay in an unconscious condition from the effects of the assault for eleven weeks, and his death was expected at one time. This was the Saturday night carouse case, in which Hoitt was beaten nearly to death by his drunken companions.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

Mother Died from it

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

Psoriasis.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful case on record. Cure certified to before a justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

Salt Rheum.

Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally.

MRS. WM. PELLINGTON, Sharon, Wis.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

BOSTON, January 1, 1882. 1 Stawlyand.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Republican State Convention.

The republican state convention was held in Concord on Tuesday, the 12th inst.

The delegates, and outside supporters of Hale and Currier, the most prominent candidates for the nomination, assembled in large numbers on the previous afternoon and evening, and the excitement was intense.

Hon. Chester B. Jordan of Lancaster was agreed on for president of the convention, with a vice president from each county. J. Horace Kent of this city and A. H. Quint of Dover were appointed on the committee on resolutions.

The convention was called to order soon after eleven o'clock Tuesday forenoon, and the ballotting was as follows:

Whole number of votes	634
Necessary for choice	318
Scattering	46
Moody Currier	291
Samuel W. Hale	297

SECOND BALLOT.

Whole number of votes	637
Necessary for choice	319
Scattering	41
Currier	291
Hale	305

THIRD BALLOT.

Whole number of votes	633
Necessary for a choice	317
Scattering	35
Currier	288
Hale	310

FOURTH BALLOT.

Whole number of votes	621
Necessary for a choice	311
Scattering	20
Currier	276
Hale	324

And Samuel W. Hale was declared the nominee of the convention, the nomination being then made unanimous.

The Verdict in Maine.

The Maine election has fully demonstrated the fact that the people were sick of the Plaisted nonsense. The issue was squarely put by Mr. Blaine, the case stated by the claimant, Plaisted, and the verdict is unmistakably against fusion and all that sort of political odds and ends in Maine.

Gen. Plaisted has wasted his time, his money and his efforts in the attempt "to make the worse appear the better" in the politipal troubles in Maine, but the people in pronouncing against his troublesome policy, have inspired the republicans of other states with renewed assurance that until democracy discovers some new issue of consequence it cannot be revived from its present debilitated condition.

How Maine Went.

The election in Maine on Monday, Sept. 11th, resulted in a surprise almost as great as when Garcelon was elected, the republican success going far ahead of their pre-election "claims." Harris M. Plaisted, the accident which has been for some time rattling around in the gubernatorial chair of Maine, is badly "left," as are also Ladd and Murch, the democ-greenback candidate for re-election to Congress. The republicans made gains almost everywhere, electing the four congressmen, securing a majority of at least fifty in the legislature, (having majorities in both senate and house,) and elected the county officers in all but three counties; Knox, Waldo and Aroostook counties were saved by the democrats.

It was a Waterloo for the market-basket politicians, but was hardly less of an astonisher to the republicans, who however view the result with much more complacency than do the hash party. Up to the day before election the indications pointed to a very close fight, with a small plurality for the side which should win. Men on either side were reluctant to make predictions in figures as to the result, but a few put themselves on record. Senator Frye claimed 4,000 majority for Robie, the republican candidate for governor, while Congressman Ladd expected from 2,000 to 8,000 majority for Plaisted, and Moody Boynton predicted a glorious victory for fusion. Democratic despatches of midnight on the 11th conceded Robie's election by 3500 to 4500 majority, and 5000 to 7000 plurality.

The "independent republican" movement inaugurated by a few republican soreheads, and carefully nursed by the democratic managers, was a complete fizzle, the "independent" vote not being large enough to get out of the "scat" column; the vote for Solon Chase, straight greenbacker, was much larger.

The Portland *Advertiser's* estimate of the complexion of the legislature is as follows: House, republicans 87, fusionists 65; senate, republicans 28, fusionists three.

Kennebunk, republican vote 337, fusion vote 267.

Wells, republican 263, fusion 312.

North Berwick, republican 218, fusion 246.

Kennebunkport, republican 204, fusion 274.

Limerick, republican 168, fusion 159.

The War in Egypt.

Despatches received in London from Kassassin say that Egyptian prisoners report that the object of Saturday's operations by Arabi was the capture of Kassassin, which the enemy believed would be weakly defended. The Egyptians lost 100 killed. The number of their wounded is unknown. Another despatch from Kassassin, dated the 11th inst., says: "The bulk of the English forces has arrived. The army will probably advance on Wednesday morning. There is no doubt whatever that had we advanced on Saturday we could have captured the enemy's position with great ease."

The London *Times* has the following despatch from Alexandria. "The Egyptians at Kafr-el-Dwar appear to have brought up one or two mortars of heavy calibre. The fire from them, however, is so inaccurate that they are practically inoffensive."

AROUND HOME.

The steamer Appledore made her last trip to the Shoals on Tuesday, and the hotels there are now all closed.

The Ocean Wave hotel at Rye beach, Henry Knox proprietor, closed on Saturday last.

Constructor Hichborn, from the League island navy yard, and Constructor Boush, from the Brooklyn yard, are in town, having reported on Tuesday as members of the board of survey on the U. S. S. Plymouth, now in the dry dock at this yard.

Mr. Wm. M. Whittindale, who has for some months past been engineer of the steamer Fearless, left on the 9th inst. to take a position as assistant engineer on one of the big steamships of the Boston and Savannah line.

Mr. John A. Sheridan, formerly of this city but now employed in the *Herald* office at Boston, has lost three children within four months, a ten-years-old girl dying in May, a boy seven years old dying three weeks later, and a four-months-old girl dying about a week since.

Wm. M. Thayer, Esq., formerly editor of the Portsmouth *Times* and now of the Boston *Post*, gave us a brief call on Tuesday as he was on his way from recreation at the Shoals to that old treadmill in Boston. He is as lively as ever, and looks first-rate, but we can still beat him on avoirdupois.

At the house of Mrs. Samuel Trefethen in Rye, on the 5th inst., there met three ladies whose united ages amounted to 258 years, namely: Mrs. Mary Parsons, aged ninety-one, Mrs. Temperance Seavey, aged eighty-six, and Mrs. Sarah Hall, aged eighty-one. The three venerable ladies were all smart enough to walk to the house and home again, and Mrs. Parsons wrote in two albums.

The man killed on the Eastern railroad at Newburyport, Sunday, was on Monday positively identified by a number of persons as being Mr. Edward J. Young of Amesbury, a man with whom they were intimately acquainted. Amesbury was telephoned to, and the answer came back that Mr. Young was at work in the mill there. Mr. Young subsequently visited Newburyport and viewed the body, and it is said that it would be impossible to tell the photograph of the living man from that of the unknown stranger. The body was buried on Tuesday.

Steamboat communication between this port and York beach next season seems to be almost assured. At a meeting last week of parties interested in the enterprise between six and seven hundred dollars were raised, and further sums pledged if needed; and it was decided to build a wharf at Concordville, near the Prescott cottage. The structure is to consist of a truss bridge or jetty 183 feet long, supported by iron piles set in the rock; a floating stage, securely moored off the end of the jetty; and a brow fifty feet long, to span the opening between the stage and the jetty. A building committee was appointed, consisting of Messrs. Morgan, Forsaith and Griffin, and a civil engineer and shipbuilder from this city have visited the site of the proposed landing to make plans and estimates.

A large number of people of all ages, sizes, sexes and conditions came into the city on Sunday from Newmarket, Stratham, Greenland, Hampton and other neighboring towns, to see the president; a little steamer brought down from one of the up-river towns about fifty men and women, and they were so much disappointed on learning of the president's flight that a good proportion of the men took something to get happy on, and succeeded in getting so. The disappointment in this city over the brevity of the president's visit was so great that all the liquor saloons in the place were closed, it is alleged, before eleven o'clock Sunday night.

FUNERAL NOTICE.

Members of Storer Post, G. A. R., are requested to meet in Grand Army hall at half-past one o'clock this (Wednesday) afternoon, to attend the funeral of our late Comrade I. Nelson Goodrich, which takes place at 2:30 o'clock.

L. Lum Smith, a Philadelphia publisher, was arrested several months ago for libelling William Haynes and Lewis A. Kendall of Boston, whom he charged with setting up schemes to defraud, and with using the mails to accomplish their purposes. Smith was tried last week, and acquitted. He then caused the arrest of his prosecutors for conspiracy with others to indict and accuse him of crime. Haynes and Kendall were arrested as soon as they left the court room. They pleaded for a postponement of the case in order that they might consult counsel, but the magistrate held them under $1,000 bail each for a further hearing.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a speedy and lasting relief from their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and ensures a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from lassitude and weariness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither pains nor irritates the stomach nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and a facsimile of his Signature, as well as that of A. VOGELER & CO., Baltimore, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

RAILROAD EXCURSION.

A special train over the Eastern railroad from Portsmouth to Fabyan's will be run on Thursday, Sept. 14th, leaving this city at 7:30 o'clock A. M., and arriving at Fabyan's about one o'clock in the afternoon; returning will leave Fabyan's at four o'clock. Excursion tickets, good only for the special train, going, but good for a return trip on any train until Sept. 20th, will be sold at the Portsmouth station as follows: For Fabyan's and return, $2; summit of Mt. Washington and return, $5. The mountain hotels will make special rates to holders of these tickets. Should the 14th be stormy, the excursion will take place the next fair day.

"NEW EAST LYNNE."

Of the part of Lady Isabel, in "East Lynne," an exchange says:

It is a severe test of the versatility of an actress; from the girlish bride to the devoted, happy wife and mother, to the deceived and wronged and wronging woman, to the part within a part of the governess, and to the terrible death scene—these are chasms, indeed, for one to fill in the course of a few hours. As "Lady Isabel," Mrs. Chanfrau is indeed more than good,—she is great. Besides being one of the most beautiful women on the stage, she is also one whose dressing is not only rich and appropriate, but original, and in exquisite taste. She wore several beautiful costumes last night. She has the excellent judgment to wear her hair low and in waving lines, fastened with bandeaux, which style gives to her a girlish appearance that her face does not belie. She sang the song that is in her part, in a sweet soprano voice, and throughout the entire performance showed trueness and subdued force. She never sacrifices her idea of naturalness to the making of a point, and never jars by sudden displays of strength.

The New York *Herald* says of Mrs. Chanfrau's acting in this play:

The pictures which she presents of the most conflicting emotions—anger, grief, maternal love, remorse and repentance—are drawn with a vigorous and skillful hand.

At Music hall on Thursday evening, Sept. 14th. Tickets at Myers' bookstore.

WRECK AT RYE BEACH.

The schooner Pulaski, of Thomaston, Me., an old craft of 38.82 tons register, was totally lost off Rye beach on Tuesday morning.

Her crew consisted of the master, Capt. George W. Dow of Thomaston, a man seventy-five years old who has followed the sea continuously for fifty-five years, and Isaac W. Seavey, mate and steward, of Cushing, Me. The schooner left Thomaston with 600 bbls. lime on Sept. 2d; went into Portland, sailed from there on the 5th; had her rudder braces broken while leaving, put back for repairs, and sailed again for Boston, her destination, on Sunday, the 10th.

Monday morning, when south of the Shoals, she took the heavy northeaster, sprang a leak, and with a number of other vessels made for Portsmouth lower harbor for shelter. When west of the Shoals, about half way between the islands and the main land, she carried away her mainsail and split her other sails, was unable to hold to windward so as to make the harbor, and drove in abreast of the rocks which separate Wallis' sands and Foss' beach, Rye, where she came to anchor about 1:30 o'clock in the afternoon, a mile and a quarter off shore, in four fathoms of water. All hands went to the pumps, but the increasing sea caused her to labor heavily and the leak to gain, and at eight o'clock in the evening, finding it impossible to free her, the crew abandoned her and went on shore in the schooner's boat, and were hospitably entertained at Capt. Albert Dow's.

About 4:30 o'clock Tuesday morning the vessel was seen to be on fire, and about nine o'clock she went down, her masts showing above water. The crew of the life-saving station subsequently visited the wreck, but could save nothing owing to the heavy sea. The mate came to this city Tuesday afternoon, and was provided with a passage home by order of Mayor Treat, having lost all his effects. The captain remained at Rye, in hope of being able to save the chains, anchors and some of the rigging, barring which the vessel will be a total loss.

The disaster was incorrectly reported in this city Tuesday forenoon, and the tug Clara Batemen went to the schooner's aid, but was unable to approach her; and mistaking the main-gafftopsail for two men in the rigging, returned to this city, and applied to the navy yard for assistance. A volunteer crew from the U. S. S. Vandalia, with the ship's whaleboat, went down with the tug, but of course found their humane services were not required.

The Pulaski was owned by Cushing & Lenuellen of Thomaston; the cargo was owned by D. K. O'Brien of the same place. No insurance.

NAVY YARD ITEMS.

Civil Engineer Henry S Craven, recently on duty at this navy yard, has been ordered to duty at Coaster' Harbor island, R. I.

Passed Asst. Engr. Henry L. Slosson is detached from this navy yard Sept. 15th, and granted leave of absence for one year; his resignation has been accepted, to take effect at the expiration of his leave.

Capt. A. E. K. Benham, and naval constructors Phillip Hichborn and G. R. Boush have been appointed a board to make a resurvey of the U. S. S. Plymouth, at this yard. The Shenandoah, at Boston, and the Ticonderoga, at New York, are also to be resurveyed.

Important meeting of St. Mary's Benevolent Society this evening. See advertisement.

The dwelling house and brick bakery No. 19 State street, with stable and shed, and the lot on which the buildings are situated, were sold at auction on Tuesday by C. Dwight Hanscom, the purchaser being David Flynn; price $1605.

The poles put up by the telephone company on "New Vaughan" street have been neatly painted, brown for about six feet from the ground, and the rest white. None of the telegraph poles have yet been painted, so far as we are aware.

The Wilbur Opera Troupe will give an entertainment in this city on Monday evening, 18th inst., when either "Olivette" or "The Mascot" will be performed. This company was the first to produce "The Mascot" in this country, at Haverley's 14th street Theatre in New York, where it had a run of 150 nights.

A steamship which arrived at New Orleans on the 12th inst. from St. Thomas brought in the crew of the ship Orient, of New York, abandoned on the passage from Ship island to England. The Orient registered 1883.47 tons, and was built in this city in 1852. The steamer reported seeing three other vessels bottom up in the vicinity of the Orient.

"Alvin Joslin" will be at Music hall on Thursday evening, the 21st inst.

John Welch, a section man on the Portsmouth & Dover railroad, while turning the crank of a hand-car at Sawyer's, Monday afternoon, had the sleeve of his coat caught in the handle. He was pulled over and had several ribs and one shoulder blade broken, and other severe injuries inflicted. He lies in a critical condition.

The Eastern railroad runs nine passenger trains between this city and Boston daily. Many years ago there were but three trains run each way. At the same time there were two passenger trains over the Concord & Portsmouth road. There is no doubt that on the latter road, with the large beach travel, a third train would pay; but the managers are too conservative to believe it will be safe to try the experiment until the travel from the north can come to Portsmouth by the way of Lake Winnipesaukie shore. The next time the Lake Shore railroad project comes up the Concord railroad will promise to put this additional train on the line.

Most of the Portsmouth delegates to the democratic state convention at Concord on the 13th inst. left this city by the evening train on the 12th.

One of the long-time democrats of Maine who couldn't stand fusion and Plaistedism, and contributed with his vote toward the glorious republican victory in that state on Monday, is Dr. Edward S. Appleton, the well known custom house officer and extensive fish dealer of Kittery.

It Toughens.

SOZODONT toughens the gums and makes them healthy, so that they hold in the teeth firmly. It removes the tartar, gives comfort, is economical of health and money, and when once used will never be given up. Try SOZODONT.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

How and Where the Money Went.

At the 147th Grand Monthly Drawing of The Louisiana State Lottery at New Orleans, Tuesday, August 8th, 1882, the wheel of fortune under the sole management of Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va. (as it is always), turned out lucky awards in this style—among many of those whose names are withheld by request. Ticket No. 56,021, the first capital prize, drew $75,000. It was sold in fifths at one dollar each to J. A. Burks, Station Agent, N. O. P. R. R. at Robeline Station, La.; D. W. Sweeney of Dodd City, Texas, collected through Fannin County Bank of Bonham, Texas. Ticket No. 16,853 drew the second prize of $25,000—was sold in Chicago, Ills. Ticket No. 38,450 (sold in fifths at one dollar each) drew the third capital prize of $10,000—to John Reed of Bloomington, Ills.; to G. G. Reeve of Lyons, Wis., etc. Two fourth capital prizes of $6,000 each (sold in fifths) were won by tickets No. 38,874 and 74,488—sold to W. W. Holloway, 7 South 3d st., La Fayette, Ind., collected through the La Fayette Nat. Bank; to Daniel Breyl, 181 South Clark st., Chicago, Ills., etc. The scheme of the Company recently adopted offering $75,000 and so on has met with much deserved approbation. Particulars can be had of M. A. Dauphin, New Orleans, La., before the next drawing on Oct. 10th.

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

LYDIA E. PINKHAM'S
VEGETABLE COMPOUND,
Is a Positive Cure
For all those Painful Complaints and Weaknesses so common to our best female population.
A Medicine for Woman. Invented by a Woman. Prepared by a Woman.
The Greatest Medical Discovery Since the Dawn of History.
It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.
Physicians Use It and Prescribe It Freely.
It removes fainting, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.
That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.
For the cure of Kidney Complaints of either sex this Compound is unsurpassed.
LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man, woman or child. Insist on having it.

WHEAT BITTERS.
THE BEST AND The Richest
BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED.
THOROUGHLY TESTED,
ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to sustain them it is wise to
BUILD FOR HEALTH.
Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impurities are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities necessary to make it a tonic and bitter. It is at once healthful, pleasant and invigorating, not brought-founded with the thousand and one cheap alcoholic Bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.
Sold by druggists, $1.00 per bottle.

Naval Affairs.

W. H. Shock, engineer-in-chief of the United States navy, who has been accompanying Secretary Chandler on his tour of inspection among the navy yards on the Atlantic coast, was in New York one day last week, and told a reporter the following: "The secretary has made a very thorough investigation of the navy yards—far more thorough than any which has been made since I have been in the navy. He has had two secretaries with him taking notes of everything, and his inquiries into all matters have been minute and searching. He has finally reached the yard at Portsmouth, and that will conclude his tour. A great amount of information has been collected; and until that can be put into shape and the work of the different yards compared nothing can be decided in regard to the closing of any yards in accordance with the late act of Congress. I can say, however, that none will be closed at present. Such action would entail too great an expense on the government. As fast as certain pieces of work are finished at certain yards, these yards will be reduced to a semi-official condition. The board of appraisers of naval stores has been appointed, and will go to work at an early date."

A Generous Firm.

We are informed that the proprietors, Messrs. A. P. Ordway & Co., recently sent three dozen of their reliable medicine Sulphur Bitters, to the Catholic Home for the aged, which is highly appreciated by the directors and inmates. "As ye sow so shall ye reap."—*Editor Catholic Union.*

Owen McSorley, a wealthy resident of Staten Island, N. Y., went riding with his family on Sunday, leaving a hired man in charge of his house. Twenty minutes later strangers told the hired man that Mr. McSorley's carriage had broken down a mile down the road, and ropes were needed to repair the damage. He started with the necessary utensils, and the strangers entered the house and from an open safe in an upper room took bonds and money aggregating nearly $14,000. Ten of the bonds were Richmond county $1,000 bonds, three $1,000 bonds of the Buffalo, New York & Erie railroad. The thieves also secured $650 in money, and a gold watch. There is no clue.

KNOW THYSELF.

THE untold miseries that result from indiscretion in judgment, are lasting, but can be relieved and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by post, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the Mississippi valley, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this disease lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. 37 Walker St., Baltimore, Dec. 1881.
For six years I have been a great sufferer from Blood Disease, Dyspepsia and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
Mrs. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

The New England Institute Fair.

The great industrial exhibition fair of the New England Manufacturers and Mechanics' Institute, which was opened in Boston on September 6, still continues to attract its thousands of visitors. The few exhibitors who were behind time in arranging their displays have, during the past few days, got their exhibits into shape, and now everything is in full running order. Never before has Boston presented to a public so vast a collection of industrial exhibits; nor has any former exhibition been of so much national importance. The industries of twenty-seven states of the Union are here collected, giving to the people of New England an opportunity to study the industries of our sister states. The processes of manufacture, which so interest not only the mechanical student, but the general public, are the great attractions of the exhibition. Here the visitor is initiated into the mysteries of heliotyping, from the first impression to the artistically finished picture.

Carpet weaving and cotton weaving are fully shown, as is also the interesting process of thread spinning. Not the least attractive feature is the weaving of silk handkerchiefs, which show a beautifully designed picture of the exhibition building. Wood-working machinery in great variety add other attractions.

To enumerate the thousand interesting exhibits would require columns, while to fully investigate the many wonders here collected,—of mechanical skill and inventive ingenuity,—would require days of leisure. The Richmond display, which occupies a central position on the main floor, should be seen by every New Englander who feels a curiosity to know what the South is doing. What the South has to do with, in the way of raw material, is shown by the railroad exhibit, the most notable of which is that of the Richmond & Danville road. In this display is interested the mechanic, the farmer, and the capitalist. The ores, minerals and wood—the product of the field, forest and farm—show how abundantly nature has enriched that section of country. Only muscle and money are needed to convert this raw material into commercial value. To interest the people of New England in the vast possibilities of the South has this extensive display of raw material been made, and it is certainly a notable exhibit, one that should be seen by every one and carefully examined. Besides the great collection of diversified industrial exhibits, two large art galleries are open to inspection, in which are hung some hundreds of paintings, the works of our great American artists. One of the most prominent paintings is the great historical work by Bicknell, "The Battle of Lexington."

While the visitor is carefully examining the many objects of interest so profusely displayed before him, sweet strains of music break upon his ear, giving an air of melody and quiet to the surroundings. For the coming week Baldwin's Boston Cadet Band is engaged for grand concerts, together with Walter Emerson, the eminent cornet virtuoso, and other soloists.

Arrangements are being made to run special excursion trains throughout New England for the benefit of those who desire to visit the Exhibition, and we would advise our readers to go. For a day of pleasure that is instructive and entertaining, a better place cannot be found than the great Exhibition Fair in Boston.

Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., at the time above, in a condition to excite the [illegible] of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years heshes. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents. BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER. BOSTON, January 1, 1882. 3mwtjand

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Democratic State Convention.

The news from Maine did not seem to fire the hearts of the delegates to the democratic state convention on Wednesday, the 13th inst., and the proceedings were more formal than hearty.

Col. Martin Van Buren Edgerly, a gentleman who has his home at Manchester, but is not half as anxious to run for governor as many others who might have been found, was put in nomination for the office, but was not in town to accept the honor. Indeed, a friend and fellow townsman who withdrew his name, informed the convention, that Col. Edgerly would not accept. Edwin A. Peterson, Esq., had one vote,—a good beginning for a president of a national bank in a democratic convention; and Hon. Frank Jones, who of course had declined the use of his name, received three votes. The convention was devoid of interest or enthusiasm on the part of its members.

The candidates for railroad commissioners were nominated by acclamation, and the customary resolutions were adopted.

While the democracy to-day appear to be in a state of torpor, there will be no occasion for the republicans to abate their zeal developed at the assembling of their state convention, but they should continue to show it until the close of the campaign.

Greenback State Convention.

The state convention of the national greenback-labor party of New Hampshire was held in the city hall at Manchester on the 13th inst. E. H. Weston of Whitefield was president; Gardner J. Greenleaf of Portsmouth and Andrew J. Hoyt of Exeter, vice presidents; J. S. Swain of Lake Village and J. D. Howe of Lancaster, secretaries.

After several ballots, John F. Woodbury of Manchester was nominated for governor. Lafayette Moore of Lancaster, Wendell P. Ela of Rochester, and John E. Nowood of Richmond, were nominated for railroad commissioners. Lafayette Chesley of Chester was nominated for Congress from the 1st district, and George Carpenter of Swansey from the 2d.

Republican Nominations.

Edward T. Tenney of Claremont, Benjamin W. Hoyt of Epping and Stillman Humphrey of Concord were nominated railroad commissioners by acclamation.

The republican congressional convention for the second district was held in White's opera house, Concord, Sept. 12th, after the dissolving of the state convention, and Hon. Ossian Ray was nominated by acclamation at Concord on the 12th inst.

The War in Egypt.

Despatches of Sept. 12th, from Kassassin, reported that a personal reconnoissance was made of the enemy's works in the forenoon by Gen. Wolseley, accompanied by the Duke of Connaught, and Generals Lowe, Willis and Wilkinson. About four o'clock orders were issued for a general forward movement of the army, to commence at midnight; and a despatch dated at two o'clock A. M. on the 13th announced the army as then on the march against Tel-el-Kebir, which it was expected would be attacked about daylight.

Despatches from Alexandria and Kassassin, dated at a late hour on the 13th, announced the capture of Tel-el-Kebir by the British, the Egyptians losing 2000 men and forty guns, and being utterly routed. The fight was a short one, the works being carried with a rush. The British loss was 200, including many officers. The Egyptians were reported as flying for the desert, with the British cavalry in hot pursuit.

News and Notes.

The first regular track laying of the the new Pemigewasset Valley railroad was begun on the 12th inst. at the junction with the Boston, Concord & Montreal railroad.

A number of witnesses from Waterbury, Vt., have been summoned before the grand jury, in the McCaffrey murder case. McCaffrey has been in the Brattleboro asylum since last March, when he killed his wife and mother at Waterbury, mutilating their bodies horribly. His insanity is the question.

At Rockland, Me., about ten o'clock on Monday evening, the 11th inst., as Mr. James E. Savage and his brother were returning home they were attacked on Main street by three tramps, who demanded money. One of the tramps drew a knife or razor and cut James Savage in the arm, inflicting a wound about six inches long and quite deep. The tramp then struck Mr. Savage's brother with the knife, and cut his clothing through from shoulder to waist, inflicting a slight wound in the breast. The tramps fled. The police have arrested a gang of tramps. They had a fight among themselves, and one of them is terribly cut. He refuses to give his name. He says he lives in Calais. The gang entered several stores during the evening and demanded money.

A gang of thieves were caught at Pittsfield, Vt., Sept. 11th, who have been stealing in that vicinity for three months. The leader escaped after being caught.

In Washington, D. C., on the night of the 9th inst., in an affray about a woman, Benjamin Taylor was shot by Henry Wright. All the parties are negroes. On the night of the 12th Taylor died from his injuries. After Wright learned that Taylor was dead, it so worked upon his mind that he shot himself through the heart with the same pistol which he used upon Taylor, and died instantly.

A Chicago despatch of the 12th inst. says: "Washington Hesing to-day received from Arizona a letter from his father, A. C. Hesing, dated the day after he was reported to have been killed. The letter says the writer is in excellent health, and that Cord and Noble, who had been to Hermosile to get money and supplies, had arrived all right. August Arok, the nephew, who was subsequently reported killed instead of Hesing, wrote on the same day, from the same place, a letter to Mrs. A. C. Hesing in this city, showing that no accident had happened to him."

James Castles, son of Stephen Castles of Lowell, Mass., has been arrested on the charge of forging his father's name to a note for $50, with which he purchased goods of Norris Bros.

Willie Norton, sixteen years old, while standing near a switch at the depot in Springfield, Mass., on the 12th inst., was motioned by a railway employe to get out of the way of the fast express from Boston to New York, which was approaching and close upon him. He mistook the signal for one to change the switch, and did so, derailing the locomotive and baggage car, which tore up considerable track in the depot. No one was hurt.

A Las Vegas, N. M., despatch says: "George Nesbitt, ranchman, living in Tularosa canon, started for Las Cruces in a wagon accompanied by his wife, Miss Woods and a stranger. The bodies of the three latter were found Monday, the 11th inst. It is thought that Nesbitt, who had been drinking, murdered them and then drove off, as he and the team have not been seen since.

Solomon Raymond of Ripton, Vt., fell from a load of hay recently and was pierced under the arms by a sharp stake. Large blood vessels were broken, and he bled to death within an hour.

In New York, on the morning of the 12th inst., fire was discovered in the mail room of the steamship Alaska, where 300 sacks of mail matter from Australia had been deposited. Ten sacks of newspapers and two of letters were partially destroyed. As a gold watch and two or three sovereigns were found among the ashes, it is believed that a portion of the registered mail was consumed, and that the fire was caused by some combustible matter enclosed in one of the sacks.

A gang of thieves attempted to rob a train on the Missouri Pacific railroad on the night of the 11th inst., near Vinita, in the Indian territory. Two of the ruffians boarded the train and shot the conductor; detectives on the train then killed one robber, and wounded and captured the other.

The yellow fever is increasing at Pensacola, but the reports from Texas are more encouraging.

In investigating the recent registered letter robbery in New Brunswick, evidence pointed against a clerk in the post-office named Patrick Maguire, but not sufficiently strong to establish his guilt. Under promise of being allowed to leave the country he confessed, paid back $500, and took his departure.

It is probably impossible to accurately estimate the amount of injury inflicted on graziers in Australia and New Zealand by the introduction of the rabbit into those colonies. Accounts have from time to time been published showing how large districts of fine grass country have been completely overrun by these prolific rodents, to the entire destruction of all herbage and the ruin of the owners, whose flocks of sheep have been literally starved out of the district.

Lately the commercial enterprise of the colonists has led them to endeavor to derive some profit from the unprofitable swarms of rabbits with which they are surrounded, and the returns of two "rabbit-preserving," or rather rabbit exterminating, factories in western Victoria show the vigor with which the work has been carried on. In one week, lately, upwards of 18,000 pairs of rabbits were dealt with at a rabbit-preserving factory at Colac, while 10,000 were received and treated at another establishment at Camperdown, so that the two factories can be credited with the destruction of nearly 30,000 pairs, or 60,000 rabbits in one week. At the present time the Colac factory gives employment to about ninety men and boys inside and about 300 hands outside, while a similar number of hands are employed at Camperdown; and the manager of the works computes that the area of ground covered by the trappers in both towns comprises a district of seventy miles in length by at least twenty miles in width.

—A girl may look graceful in a hammock, but it requires trouble.

—Statistics show that the average American owes $59; which must make some folks we know wish they were average people.

—The report comes from Missouri Valley, Iowa, that John Lawk, a farmer worth $20,000, recently deeded all his property to his son, on condition that the latter would take care of the old people for life. Young Lawk took possession, but cruelly ejected his parents, who were compelled to seek refuge in the poorhouse. It was learned, however, that the deed had not been recorded. The old man went to town and begged piteously of his son for one more night's shelter. The appeal was granted. During the night the father crept to the bureau drawer, obtained the deed, and burned it. The light from the flames awakened the son, who realized that the game had turned, fell on his knees and supplicated for mercy. But the injured father was relentless; he turned his son out of doors, got a constable to remove his furniture, and took possession of the estate.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

ANOTHER PRESIDENTIAL VISIT.

President Arthur arrived in this city at four o'clock Wednesday morning, the 13th inst., from the eastward, by the express train from Bangor over the Eastern railroad, and went to the Rockingham house, where he took breakfast. About ten o'clock he started in a two-horse carriage for Little Boar's head, returning at midnight to the Despatch, in the lower harbor. He announced his intention to sail direct for New York, at once.

FIRE.

The alarm of fire about two o'clock on Wednesday afternoon, the 13th, was caused by a defective chimney in the house of Mrs. Elizabeth S. Davis, No. 20 Deer street. Some of the furnishings were damaged by smoke, but the fire was extinguished without the aid of the department. This was fortunate, as when the alarm was given one of the city teams were near Hon. F. Jones' place, and the other at the gravel pit on South street, and they did not arrive at the engine houses until fifteen and seventeen minutes respectively, after the sounding of the alarm. Albert Leach, a member of the hook and ladder company, was considerably hurt by being thrown against a post through one of the wheels of the carriage striking a stone.

FATAL ACCIDENT.

Nathaniel Herbert Todd, sixteen years old, son of Nathaniel Todd of Kittery Point, was driving near York Corner on the evening of the 12th inst., when some part of the harness broke, and young Todd was thrown out of the vehicle, receiving injuries from which he died in a few hours.

"NEW EAST LYNNE."

This evening, at Music hall, the new version of "East Lynne" will be presented, with Mrs. Chanfrau as Lady Isabel, supported by Mr. Tayleure, the playwright, and a selected company. See advertisement.

SHERIFF'S SALE.

The stock of hats, caps, etc., in the store recently kept by F. E. Dearborn, will be sold at noon to-day (Thursday) at sheriff's sale, on a percentage of the appraised value, which is $2223.72.

Secretary Chandler goes to Concord to-day.

Tickets for the "Mascotte" by the Wilbur Opera Co. will be on sale at Myers' to-day.

Hon. Frank Jones, and Manager Thompson of the Wentworth and Rockingham houses, are at Bethlehem.

The report that the schooner E. A. Creed was totally wrecked at the Shoals in the gale of the 11th inst. was probably erroneous, as she came in on the 13th for a cargo of coal.

The ship Orient, which was lost in the Gulf of Mexico during the recent cyclone, as previously reported, while on the passage from Ship Island to Liverpool, was built in this city in 1852, by the late George Raynes.

Persons from this city desiring to attend the National Unitarian Conference at Saratoga, beginning next Monday evening, are informed that arrangements have been made by the Eastern and Fitchburg railroad companies to furnish tickets from Portsmouth to Saratoga *and return* at the low price of $9.60. Baggage can be checked through at this station. These tickets can be had of Mr. Foster at the Portsmouth saving bank. The hotel rates are half the usual price. As only a few tickets have been sent it will be well for all persons expecting to go to call for them at once, that if needed more can be ordered.

Sheriff Kent on Wednesday of this week brought from Lawrence, Mass., George H. Smith of Augusta, Me., charged with breaking into Calvin Boardman's house at Salem last June, and stealing $300.

The North Atlantic squadron, accompanied by the Despatch and Tallapoosa, sailed from Bar Harbor, Me., at three o'clock P. M. on the 12th inst., and arrived in Portsmouth lower harbor about eleven o'clock A. M. on the 13th; the Tallapoosa came up to the navy yard, but the other vessels remained below.

President Arthur was driven from the Rockingham house to Little Boar's head, Rye, on the morning of the 18th inst., in forty-five minutes, by Mr. Edgar D. Stoddard.

The schooner Mary Willey arrived from Bangor on the 13th inst. with 100,000 feet of lumber for John H. Broughton,—her eighth trip for this season.

The body of Martin Robbins, the sailor whose dead body was found floating near the Newington shore a few days ago, was buried by the town authorities near where it was found, without coffin or envelope of any kind, below high water mark, where the grave was washed at every tide. His relatives, who went for the body on Wednesday of this week, were not unnaturally indignant on finding how the remains had been disposed of.

The funeral of Mr. I. Nelson Goodrich took place on Wednesday afternoon of this week under the management of Storer Post, G. A. R., Rev. James DeNormandie officiating. The Grand Army turned out quite largely, considering that it was a week day and most of the members of the post are working men, to pay the last token of respect and good will to the deceased, who had an excellent war record and was an actively earnest member of the organization. Appropriate floral emblems were contributed by various personal friends of the deceased, including a beautiful anchor sent by John H. Miller, Esq., of Boston, who has for years past been accustomed to spend a portion of his summer vacation in boating on the Piscataqua, with Mr. Goodrich as sailing master, a position in which he had few equals, being a skillful and cautious boatman and thorough pilot, and an agreeable and entertaining companion. The last time Mr. Goodrich ever went down the harbor was a few weeks before his death, with Mr. Miller and a friend.

There is a dispute as to whether the town of York or the town of Wells is entitled to a representative in the Maine legislature, and accordingly each of them elected a man on the 11th inst.,—the York man being a republican, and the Wells man a fusionist. It seems there is no provision in the law to decide which town shall elect, so there will be a squabble over the seat.

One of the most satisfactory results of the late election, to the republicans of York county, was the defeating for sheriff of Mose Harriman of Kennebunk, one of the two famous "bribery" men of the Garcelon era, the other being Tom Swan of Minot, now a fugitive from justice charged with stealing trust funds and using the mails for purposes of swindling. Harriman has long had the reputation of being ready to support any party that would give him office, but he is pretty thoroughly flattened out now.

Glad to meet a Gentleman.

"May I open the window for you, miss?" politely inquired a gentleman of a young lady on the Northern Pacific road, as he saw her tugging at a sash that had not yet recovered from the preceding winter. She glared at him a moment, and gave a reluctant consent.

"Folks can't be too careful who they speak to or accept favors from," she remarked, after a long pause.

"That is very true," replied the gentleman, quietly.

"Are you a Boston drummer?" she inquired.

"No, I am not," he answered.

"A hotel clerk?"

"No, not a hotel clerk."

"I am glad of that," said she; "I never let a drummer or a hotel clerk speak to me. Maybe you'er an actor?"

"No, nor an actor."

"That's first class!" she exclaimed, showing her dimples, and becoming more and more confidential; "If an actor should speak to me I'd die. What is your business?"

"I'm a barkeeper, and I'm travelling west to get a territorial divorce from my wife," explained the gentleman.

"Oh, I'm so glad!" giggled the girl. "Reach down my satchel; there's a bottle of whiskey and a pack of cards in it. I'll play you an odd game of California Jack for $5 a corner! I like to meet gentlemen, and I know 'em when I see 'em. Ask that bald-headed duffer across there if he's got a corkscrew, will you."

Verbicide.

The gentlemen of the press who look after the "crimes and casualties" are getting the English language down pretty fine. The talented young man who does that department for the "best paper in America" astonished the force by hanging the following on the hook: "The tramp Roderick, who burgled the two houses on West Hill last week and was jailed Sunday night, broke out last evening, but was policed clear to the river, where finding escape impossible, he wharfed himself and suicided. The body piled at the bridge, and will be coronered in the morning. Truly, in the midst of life, we are deathed."

It Toughens.

SOZODONT toughens the gums and makes them healthy, so that they hold in the teeth firmly. It removes the tartar, gives comfort, is economical of health and money, and when once used will never be given up. Try SOZODONT.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of you rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

WHEAT BITTERS.
THE BEST AND The Richest
BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the forces which bear the strain of every day work and in order to accomplish it it is wise to BUILD FOR HEALTH.
"Wheat Bitters are prepared by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter is eliminated. Prepared in this manner it is a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. Print one healthful, pleasant to the taste and must not be compounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is only effective when used with food, so as to nourish while it corrects.

WHIPS All kinds, cheap, at LARRABEE'S, 26 Congress Street, up-stairs

WHIPS! All qualities and prices; LARRABEE'S, 26 Congress

The full text of Justice Field's opinion in the Quong Woo case, which has now come to hand in the "Pacific Coast Law Journal," shows that the decision did not turn, as has sometimes been represented, on any treaty privileges of the Chinese, but on the rights of the general public of all races as against municipal authorities. The petitioner was, it is true, a Chinaman; and this fact is mentioned, but only to sustain the remark that he was entitled, under the Burlingame treaty, to equal privileges with other persons. The principle asserted is of general application, and the case will be found instructive throughout the country.

The circumstances were that the supervisors of San Francisco last spring enacted an ordinance forbidding any person to maintain any laundry within the chief business portion of the city without first obtaining a license; and, further, that no licenses should be granted without a written recommendation from as many as twelve citizens and taxpayers in the block where the laundry should be located. Probably the motive was to prevent Chinese laundries; the supervisors relied upon the probability that Chinamen could not, while Caucasians could, obtain the required written assent from their neighbors; but nothing of this sort appeared in the ordinance, which was expressed in general terms applying to all persons alike. Heavy fine and imprisonment were denounced against anyone keeping a laundry without the consent and license.

Quong Woo, whose laundry had been for eight years established, could not obtain them; because, as he declared, of the antipathy and hatred of the residents of the block toward his race; and he was imprisoned for continuing his business without one. But the only question raised upon his application to the federal court to set him free by habeas corpus was whether this general ordinance restricting laundries was within the power of the supervisors.

The authorities of a town or city generally receive from the legislature some limited power to control vocations within the municipal limits. This power is variously expressed in different states. The law of California authorized these supervisors to "prohibit or to regulate all occupations, etc., which are against good morals, contrary to public order and decency, or dangerous to public safety." Justice Field decides that their power is limited by this language. They may suppress an occupation which is immoral, disorderly or dangerous. A laundry is not either of these. Should some particular laundry be so conducted as to become a nuisance, that one might be controlled; but a general prohibition or restriction applicable to any and all establishments of the kind is beyond municipal authority; is unjust, oppressive and unequal.

If such an edict against laundries were good, supervisors might require lawyers, bankers, merchants, mechanics, printers, indeed all business men, to close their establishments unless they could obtain consent of their immediate neighbors; and the pursuit of any man's vocation might be made dependent, not upon his wishes and means, but upon the caprice of persons whom he could not control. Municipal officers have no such sway as this; they must exercise any power conferred upon them to regulate lawful vocations reasonably, and so as to advance the public good. Judge Field's decision is therefore not only sound law but good common sense also, and will doubtless soon be viewed in that light even on the Pacific coast.

Fruit of the tropic's burning clime,
Thy wondrous virtues, fadeless still,
Exert an influence sublime
In ministering to human ill;
And many a pang along our way
Sanford's Ginger doth allay.

—A gentleman who took to medicine late in life, said to a friend, "You know the old proverb, 'At forty a man must be a fool or a physician?' " Yes," was the reply; "but, doctor, don't you think he can be both?"

No matter what your ailment is, Brown's Iron Bitters will surely benefit you.

—At Spring Lake, N. J., last week, Oscar Wilde was hanged in effigy because he did not bathe on the beach as was announced.

Wheat Bitters is a genuine pharmaceutical preparation and so recognized by the profession.

—Two Irishmen were lamenting the illness of a friend who had been much brought down of late. "It's dreadful wake he is and thin, sure; he's as thin as the pair of us put together," one of the sympathizers observed.

Modern Housekeepers have abandoned all cleaning compounds of acids, whiting and ammonia, and use only Electro-Silicon, the standard silver polish of the world. Sixteen years in household use. The best, the cheapest. Druggists. Jewelers.

—A little girl in Sunday-school, who had been pulling her doll to pieces during the week, was asked by the teacher, "What was Adam made of?" "Dust," replied the little girl. "And what was Eve made of?" "Sawdust," was the answer.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Gin ger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

KNOW THYSELF.

THE untold miseries that result from indiscretion in youth may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!
THE ONLY REMEDY KNOWN
To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alternative medicine in the world. 37 Walker St., Baltimore, Dec. 28th, 1881. For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time. Mrs. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with boils? Why have your blood poisoned? Why let your nerves get all fly and toss on that bed of pain, with rheumatism? What makes you humble and miserable? Your nerves are all unstrung and need a gentle soothing tonic to assist the exhausted nature to repair the damage which stimulate only for a time. Why do you have cause to be so cross? Your stomach is out of order, and you need a good digestive to regulate it. Why do you have those horrible headaches? Why your breath so fetid? Why your tongue so coated? Why have you no appetite? Why do you feel so low-spirited? Why do you have those nervous twitchings? Why do you have those cold chills creeping over you? Why do you have those burning fevers? Why do you have those night sweats? Why do you waste away? Why do you cough? Why have you those horrible dreams? Why do you have those troublesome eruptions? Why do you have those ringing sounds in your ears? Why do you have those pains in your back, side, and limbs? Why do you have those fearful palpitations? Why do you have those dizzy spells? Why do you have those fits of despondency? Why do you have those blotches, boils, pimples, and sores? Why? Because your blood is impure, and your system needs a good purifier. SULPHUR BITTERS are a vegetable preparation, and are the best and purest blood purifier ever made. They are composed of the choicest roots, barks and herbs, combined with the extract of SULPHUR in such proportions as to make it a perfect specific for all diseases of the blood, liver, stomach, and kidneys. SULPHUR BITTERS are a mild but sure purgative, and act as a tonic upon the most delicate constitution. They are a sure cure for all those diseases which result from a disordered liver and stomach, such as Constipation, Dyspepsia, Sick Headache, Jaundice, Biliousness, Fever and Ague, Fever Sores, Erysipelas, Scaly Eruptions, Tetter, Salt Rheum, Scald Head, Ringworm, Boils, Carbuncles, Pimples, Blotches, Tumors, Swelling, Rheumatism, Neuralgia, Sick Headache, Female Complaints, Nervous Debility, Sleeplessness, Loss of Appetite, Dizziness, Cold Feet, Cold Hands, Cold Chills, Chills and Fever

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Advertising Reform.

The editor of the Portsmouth *Journal* calls upon the New Hampshire newspapers to combine in regard to foreign advertising, in the matter of giving positions, etc. The question before all others is, "will the publishers stick?" Rates for advertising may be established and agreed to, but before long some one will cut under. We know this from experience, when we find in the columns of our cotemporaries many advertisements which have been refused insertion in our paper because the advertising agents would not pay our prices. The better way is for each establishment to have a fixed rate, and stick to it. Of course, it is of more value to advertisers to deal with papers whose circulation is local, and can aid in sending to buyers the knowledge of what is to be sold. Consequently we have agents and others often say, "we can get our ad. inserted in the so-and-so paper at less rates than yours.' This we at once admit. Advertisers are continually being deceived by the assertions of a certain class of agents who over-state the circulation of one paper, whose publishers perhaps may not be over-scrupulous as to accuracy, and understate that of another, whose managers will not submit to be governed by the terms the agents offer for business.

The Press Association of this state was formed to secure unity of action in advertising rates, but it has long since become simply a means of affording a large body of outsiders, who can afford to pay their bills at proper rates, an opportunity to go on a summer jaunt at reduced cost, as an "editorial party." This is now so well understood by hotel men and others, that the rates made are simply those given to the average excursionists. They enjoy it, but the printer and hard-worked editor, "Oh! where is he?" He toils at home, and while his paper is "represented" perhaps by some accomplished substitute, he has no advantage of co-operative action with his fellow publishers and co-laborers, because they to are not two be found present in any considerable numbers on these occasions.

The result is, that each publisher of a newspaper should be governed by his own ideas of expediency. We have never found that the craft would be bound by agreements as to rates, etc, because of the inequality of the circulation and the need of advertising to help out the weaker papers. The best way is for every paper to decline the numberless offers for advertising to be paid for in truck, to receive cash only, and to do justice to local advertisers by compelling foreign customers to pay the same rates as are charged patrons at home. We decline every week offers of ads. which shortly after we see conspicuously placed in the columns of our cotemporaries, who we know must get for them a rate of payment far below the established prices for other business.

The War in Egypt.

The following is Gen. Wolseley's official report of the battle of Tel-el-Kebir, to the London war office, under date of Sept. 13th: "We struck camp at Kassassin Lock last evening, and bivouacked on a high ridge above the camp until 1:30 this morning. We then advanced upon a very extensive and very strongly fortified position held by Arabi Pasha with 20,000 regulars, of whom 2,500 were cavalry, with seventy guns, and 6,000 Bedouins and irregulars. My force was about 11,000 bayonets, 2,000 sabres and sixty guns. To have attacked so strong a position by daylight, with the troops I could place in the field, would have entailed very great loss. I resolved therefore to attack before daybreak, marching the six miles that intervened between my camp and the enemy's position in the darkness. The cavalry and two batteries of horse artillery on the right had orders to sweep round the enemy's line at daybreak. The first division of the second brigade, under Gen. Graham, supported by the foot guards under the Duke of Connaught; seven batteries of artillery, numbering forty-two guns, with a supporting brigade; the second division of the Highland brigade, leading the Indian contingent; and the naval brigade on the railway, advanced. Great emulation was evinced by the regiments to be the first in the enemy's works. All of them went at them straight; the Royal Irish notably distinguished itself by its dash, and the manner in which it closed with the enemy. All the enemy's works and camp are now in our possession. I do yet know exactly the number of guns captured, but it is considerable. Several trains with immense quantities of supplies were captured. The enemy ran away in thousands, throwing away their arms when overtaken by our cavalry. Their loss is very great."

On the 14th Toulba Pasha, commanding at Kafr-el-Dwar, sent in a flag of truce offering to surrender. All Arabi's papers were captured at Tel-el-Kebir, and sixty guns. Many fugitives, including officers, came into the British camps on the 14.h. The Arab chiefs opened the sweet-water canal, and the total collapse of the war on the part of the Egyptians seemed evident.

News and Notes.

The international rifle match at Creedmoor commenced on the 14th inst., the British team winning in the 200-yards match by a score of 340, to 331 for the American team.

Yellow fever of the most malignant type has broken out at Mier, Mexico. The fever was carried to the town from Matamoras by the shipment of merchandise. The inhabitants are leaving in every direction. Much uneasiness is felt in Laredo, and all the towns on the Rio Grande have quarantined against Mier.

Great excitement exists in East St. Louis, Mo., on the question whether colored children shall be sent to the public schools where white children are taught. The school board rented a building to serve as a school for colored children, but the negroes would not send their children there, claiming the right to have them enrolled in the white schools. Fights have occurred between white and colored children. The excitement is growing, and it is not known how matters will terminate.

John R. Morris, treasurer of Long Island City, N. Y., committed suicide Sept. 13th by throwing himself into the East river at Astoria, near his residence. Domestic trouble is supposed to have caused temporary insanity. His son William recently threatened to shoot him. Mr. Morris was about sixty-five years old.

Robert Greason, while doing some mechanical work on one of the electric light poles in Newport, R. I., on the 13th inst., was felled to the ground by the force of electricity. He was picked up in an insensible condition, having fallen on the pavement. No bones were broken.

Charles A. Lee, recently reported at Providence, R. I., as probably drowned while bathing, it now appears had personated another and an older man before a life insurance agent, and had been insured for $5,000 under the name of O'Neil. O'Neil died, and the agent discovered the fraud. Lee is supposed to have fled to Pennsylvania.

Charles King of Housatonic, Mass., has eloped with Jennie Brown, a pretty milliner eighteen years old.

The breach of promise suit of Hattie Engley against Dr. Wilson of Uxbridge, Mass., has been settled, it is said, by the payment of $7,000.

Mary Glynn of East Hampden, Me., has been sent to the state prison for life, for infanticide.

While M. W. Butler, son of M. S. Butler of Lenox, Mass., was preparing to lead a bull to the cattle show at Lee, the bull gored him, injuring him fatally.

While the personal effects of the late Mrs. Francis Niles of Greenfield, Mass., were being removed, for sale at auction, a will was found among some old papers which changed the aspect of things, and stopped the proposed sale.

The Selma, Ala., cotton mills have just shipped five carloads of cotton goods to China.

Photographic counterfeit $5 notes on the Bank of Nova Scotia, of issue prior to 1881, are in circulation.

A bicycle, ridden by an unknown man at Long Branch, N. J., caused a runaway which resulted in the death of the coachman of Mr. Edward W. Scott of New York, and the serious injury of the latter's son.

A lad named William Tapper and another lad named John Cogan, while playing at the corner of Boston and Cottage streets, Lynn, Mass., on the 12th inst., forcibly struck their heads together while running around the corner. Tapper went home complaining of a headache, and died at 12:15 A.M. next day. Cogan seriously feels the effects of the collision.

Mr. Sally Wolffsohn of Belize, British Honduras, who is on a visit to the United States, after an agreeable interview with Gov. Long of Massachusetts on the 13th inst. was appointed by him a commissioner of deeds, etc., in British Honduras.

The war department is informed that the river at Camp Brown, near Brownsville, Texas, is higher than ever before, and that the troops stationed there have been ordered to proceed to Santa Maria, about thirty miles from Brownsville. They could not be taken inland on account of state quarantine. The situation at Camp Brown is represented as alarming. The soldiers have been there twenty days surrounded by water, and were protected from the flood by embankments. No cases of fever have yet occurred in the camp.

Benjamin H. Hill, Jr., son of the late Senator Hill of Georgia, who has been named by Gov. Colquitt to succeed Senator Hill for the short term, is a district attorney of Georgia, and said to be a young man of excellent parts and refined aspirations.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from paucity of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from inactivity and weakness, the result of disease, over-study, or nervous shock, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for restoring health, and restoring strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither pulls upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It regulates the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial nourishment especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from Alcohol. It is readily retained by the stomach and contains more but wholesome and nourishing ingredients. The genuine preparation bears on the label a blue curved fascsimile of BARON VON LIEBIG, and a fac-simile of his Signature, as well as that of J. VOGELER & CO., NASHUA, N. H., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
September 15, 12:00 A. M.

Probabilities for New England:—

Partly cloudy weather and local rains, southerly shifting to westerly winds, becoming stationary or lower temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 56 degrees above zero.

Cloudy.

THE STORM.

Not long after the departure of the U. S. S. Despatch on the morning of the 14th, with President Arthur on board, the wind commenced to breeze up from the southward and eastward, and before noon it was blowing a gale, which increased througbout the rest of the day, detaining in the harbor a large fleet of vessels, including fishermen and coasters, the North Atlantic squadron, and the U. S. S. Tallapoosa, which was ready to start westward, Secretary Chandler having left her and gone to the mountains.

During the afternoon vessels continued to swarm into the harbor, until at nightfall there were many hundreds of them at anchor in the river, from the narrows down to the lowest point where a safe shelter from the storm could be found; so thickly was the river sprinkled with them that even a tow-boat would have had to run very carefully in order to pick her way through in safety, while the passage of a tow would hardly have been possible. The number of fishing vessels in the lower harbor was variously estimated at from two to four hundred, old fishing skippers saying they never saw so many crafts in the harbor before. Many of the smaller schooners ran up to the city, and the south end wharves and docks were all lined with them. No accidents of any moment were reported as having occurred in the harbor, up to a late hour at night.

Of the vessels which came to the wharves a number had fares of mackerel, the aggregate being quite large. The Lizzie D. Saunders had fifty barrels, the W. B. Keen forty, the Paul & Essie and J. W. Bradly thirty each, caught off York ledge; and many others had catches of greater or less amount.

Hundreds of the fishermen were ashore, Water street presenting a crowded appearance in the afternoon; in the evening, as the street lights were not lighted, it was hard to tell how the street appeared. The seamen were of all ages, from mahogany-faced, white-headed old veterans of sixty or seventy years, to boys of fourteen—the latter having the most pronounced roll in their gait, wearing the most wonderful boots, and chewing the biggest quids of tobacco.

THE "MASCOTTE."

This popular and pleasing comic opera is to be given at Music hall next Monday evening by the Wilbur Opera Co., who first produced it in this country, and played it for 150 consecutive nights in Haverly's theatre, New York, to large audiences. The plot of the piece is one of the most amusing of the light comic operas of the day, and the music is bright and pleasing. The company is a large one, and of general excellence — not made up of one "star" and a lot of "sticks." This being the first opera given here this season, there will no doubt be a very large audience, and an early call on Mr. Myers for tickets is advisable.

OUR DISTINGUISHED VISITORS.

After the President had decided to leave Bar Harbor and make his journey by land, in view of a protracted storm, the weather cleared, and the Despatch put to sea. The President had the start, with the advantage of a fast train from Bangor, but the Despatch was equal to her name. The steamer arrived in our lower harbor early Wednesday morning, the 13th, and Commander Greene came to the city; and when the morning Pullman train reached the Eastern railroad station in this city, Commander Greene was in waiting. The President was informed that the commander of the Despatch was at the station, and he of course was much surprised at the unexpected meeting, not supposing that the steamer he had left at Bar Harbor could have arrived at Portsmouth.

The Tallapoosa came in shortly after the Despatch, and remained in the lower harbor. In the afternoon of Wednesday, Secretary Chandler entertained the commanding officers of the squadron at a lunch, the officers boarding the Tallapoosa by means of their various steam launches. Afterward the Tallapoosa steamed around the squadron; the men of the various ships were in the rigging, and greeted the secretary of the navy with cheers, while the band on the flagship played an appropriate air. The secretary then came to the navy yard, and gave his attention to his official correspondence.

On Thursday morning the secretary, Mrs. Chandler accompanying, left the Tallapoosa at the navy yard, and came by the Emerald to the navy yard landing, where the party took carriages for the Concord railroad station, and left by the train at 7:55 for Warner. At Newmarket junction the party were met by Senator Rollins and Col. Andrew H. Young of Dover, and after a delay caused by the detention of the Boston & Maine train, the party proceeded toward Mr. Chandler's summer home.

A YACHTING CRUISE.

The schooner yacht Wm. H. Russell, of Portsmouth, Charles S. Drown master, sailed from this port on Wednesday morning, the 6th inst., with a party of ten gentlemen from Lawrence, Mass., on board, bound to the eastward on a cruise, and intending to be absent ten days or two weeks. One of the party, enthused by the sea-air of Portsmouth (he is a teetotaller, and of course did not hoist in any other kind of Portsmouth enthusiasm) and elated by the prospect of perils and privations on the ocean, "dropped into poetry" (!!?) and perpetrated the following:

MT. DESERT PARTY.

The following "bloods"
From Lawrence bound
Will make the woods
Of Maine resound:
The medicine man
With them will go;
The dry goods boy
Makes one in the row;
Of clerks they have
A bounteous share;
The attorney-at-law
Makes all act square;
While grocers, machinists,
And others too
Will not return till
Vacation's through.

Notwithstanding the above, no disaster happened on the trip east, and the yacht came to an anchor in Bar Harbor, Mt. Desert, on the 9th, all well. It is some satisfaction, however, to know that the "poet" was terribly seasick for part of the passage.

Not long after the arrival of the yacht at Bar Harbor the North Atlantic squadron steamed in and came to anchor. Deeply touched with this delicate attention, the yachtsmen held a meeting and passed a resolution of thanks to the commodore commanding the squadron; but the man delegated to present the commodore with a copy of the resolution, while pulling to the flagship in a dory saw on shore a girl whom he thought he knew, and in his eagerness to reach the beach he ran the dory on top of a lobster-car and was capsized, getting thoroughly soused and losing the official copy, and drawing forth shrieks of laughter from the young lady; and on getting back on board the yacht he spoke disrespectfully of the lobster-car, the squadron, the commodore and things generally, and a large part of the Jamaica ginger in the medicine chest was expended before his ruffled feelings were soothed.

The yacht sailed from Bar Harbor for her home port on the 12th, intending to run into Portland, where she arrived all right on the 13th.

The names of the excursionists are as follows: C. F. Sargent, E. W. Hodgkins, A. L. Barnes, A. A. Lawrence, S. B. Eaton, J. H. Emery, A. L. Snell, F. Pearl, D. W. Scott and E. A. DeMars.

A large shade tree opposite the house of Hon. Marcellus Eldredge on Islington street was blown down in the gale on the 14th, and blocked the street for some time. It was old and rotten.

The White mountain excursion train over the Eastern railroad, last Thursday, comprised seven passenger cars, all well filled in spite of the storm.

J. W. Baird's Mammoth Minstrels will appear in Music hall Sept. 30th. This company last year gave one of the best variety entertainments ever offered in that hall.

A boy named Lombard fell overboard in the dock just astern of the schooner Mary Willey, lying at Broughton's wharf, on the 13th inst., and was sinking for the third time when Capt. Nat Danielson climbed over the schooner's stern, and hanging at arm's length from the taffrail managed to reach the drowning boy with his boot, to which the lad clung until rescued by a boat.

The U. S. S. Cohasset arrived at the navy yard at 6:20 o'clock on Wednesday afternoon of this week, with stores for the equipment department, and a draft of men for one of the ships of the North Atlantic squadron. She left for Boston on Thursday morning at half-past nine o'clock.

The democratic convention of the first councillor district met at Dover on the 14th inst., and Charles E. Sleeper of Rye was nominated.

The schooner Joseph O. Proctor, commanded by Capt. Edward Jameson, of this city, arrived at Gloucester, Mass., from the Western banks, on the 13th inst., with 70,000 lbs. of cod.

The fishing schooner Grace Choate, in coming up the river on the 14th inst., in the gale, capsized her seine-boat, containing her seine; with the assistance of another boat, the seine was afterward recovered.

Mrs. Fanny Leavitt, wife of Hon. Thomas Leavitt of Exeter, judge of probate for this county, was found dead in her bed at her residence in Exeter on Wednesday morning, the 13th inst. The deceased was subject to occasional fits, and it is supposed that she died from the effects of one. In consequence of the death of Mrs. Leavitt there was no session of the probate court on Wednesday at Exeter, but it will be held on the 27th inst.

A number of "horse men" went from this city to Boston on the 14th inst., to attend the race at Beacon park for the Blanchard prize of $10,000.

It Toughens.

SOZODONT toughens the gums and makes them healthy, so that they hold in the teeth firmly. It removes the tartar, gives comfort, is economical of health and money, and when once used will never be given up. Try SOZODONT.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. 'Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan82

WHEAT BITTERS

THE BEST AND The Richest

BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richer in the Phosphates than the starch and sugar, which are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal properties, combined to make the tonic and bitter. It is at once healthful, pleasant and nourishing, and is now founded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Many have to double effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

New Hampshire Items.

Stilson Hutchins, of the Washington *Post*, was president of the New Hampshire democratic convention.

The Boston *Post*, speaking of the democratic state convention at Concord on the 13th inst., says: "It was not an enthusiastic body, but by no means a despondent one. The Maine election didn't appear to dampen its courage in the least; in fact, it was hardly mentioned." The Maine election could hardly have been considered a very enlivening topic in a democratic convention.

Gen. Sherman arrived at Concord on the 14th, on his way to the Veterans' reunion at Weirs.

The Peterboro' fair opened on the 13th inst., with a good attendance, the display of fruits and vegetables being beyond expectation; cattle, swine and poultry made less show than usual.

A Bad Case of Shrinkage.

One morning several years ago Uncle Job, who lived near the Mississippi, rose early and went to visit his fishing lines. Pulling up the first, he found a 30-pound catfish, which he carefully placed on the bank, while he proceeded further up stream to examine his others. No sooner was his back turned than a darkey neighbor slipped up, and, taking the patriarch's mammoth prize from the hook, substituted for it a 10-inch sucker, which was the only result his troll-lines had brought forth, and stole in triumph away. Presently Uncle Job came shuffling back, with eyes glistening in anticipation of the ample breakfast in store, although his other lines were profitless. Arriving on the spot, he peered around, then put on spectacles, and finally saw the miserable little sucker. He threw up both hands in astonishment, then gave the ground a deliberate survey, with the following summary: "Dat am my troll line, an' dis heah am my hook—but goramity how dat fish am swunk!"

—The tramp is said to be unpleasantly numerous and ubiquitous in all parts of Illinois.

—Young folks tell what they do, old ones what they have done, and fools what they intend to do.

Beware of Swindlers.

We have exposed during the last year, many swindlers who declare that "woman is the Sunday of man," thought he would compliment and please his wife by shouting to her one morning: "Daisy, you are my Sunday!" Daisy glared at him as though she imagined he was daft, and then quietly said: "Dan, I may be your Sunday, but I'm not going to give you any rest until you buy me a bonnet that's fit to wear to church." Dan now keeps his quotations to himself, but he was compelled to get the headgear.

"A coward can be a hero at a distance; presence of danger tests presence of mind." Presence of disease test the value of a curative. Kidney-Wort challenges this test always and everywhere, so far as all complaints of the bowels, liver and kidneys are concerned. It cures all, nor asks any odds.

—The argument of Senator Hoar's defence is compared by the Virginia *Chronicle* to the eulogy pronounced on Colonel Yell in the Texas legislature. "While it is true," cried the obituary orator, "that the deceased member, Colonel Yell of Yellville, could not satisfactorily explain the disappearance of the funds of the busted First National Bank of Yellville, of which he was president, yet his remarks upon that yer memorable occasion showed that his heart beat warmly for his native land."

"Persons whose blood has been corrupted, and the circulation deranged by foul secretions—the result of the disordered chemistry of the body—need for their purification something like an inward baptism at the hands of Mrs. Lydia E. Pinkham, whose laboratory is at No. 233 Western Avenue, Lynn, Mass. Her Vegetable Compound is fairly inundating the country as with a river of life.

—Dialogue in a summer hotel in Rhode Island at midnight, recently: "Ma?" "What, dear?" "Is that you, ma?" "Yes, dear," "Pa?" "What, dear?" "Is that you, pa?" "Yes, dear." "Good night, ma." "Good night, dear. "Good night, pa." "Good night, dear." The dialogue had been repeated at intervals of fifteen minutes for two hours, when an elderly man in an adjacent room, who had been trying to sleep all that time, rolled out of bed with a thud, climed up into the transom, and, putting his head out, shouted out at the top of his lungs: "Yes, it's me, maw, and it's me, paw; now go to sleep, you little brat, or I'll come in there and chew you up!" Five minutes later a holy calm brooded over the house.

After eating each meal take a dose of Brown's Iron Bitters. It helps digestion, relieves the full feeling about the stomach.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in the youthful prime may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all curable diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 4 stc. cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!

THE ONLY REMEDY KNOWN

To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of adjoining country, have been great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify thatnever is all our need and speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alternative medicine in the world. For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Roudout, N. Y., some time since, in a condition to excite the pity of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The War in Egypt.

The following account of the fight was sent to a London paper from Tel-el-Kebir: "The rebels discovered our men when about a mile from their works, and opened a heavy rifle fire. Our men paused for a moment on the line of the sand hills, then with a gallant rush they were among the rebels. Acting on Gen. Wolseley's orders, they reserved their fire and went in with the bayonet. The slaughter for the time was very great. The rebels could not stand it and broke and fled, pursued hotly. I followed the Royal Irish regiment into the trenches before one of the forts. They were filled with Arabi's followers, dead and dying. * * The first fire of the rebels was very wild. It came from both infantry and artillery and passed over our heads, they being disconcerted by the sudden attack. With daylight the enemy's fire improved, and became like a hailstorm. Many men fell, but not for a second did our advance stop. * * The Egyptians were terror-stricken. Many of them hid in the corners of the works, while others fled at their utmost speed, throwing everything from them. Our work, however, was not yet ended. A large inner redoubt on Arabi's left, well-manned and armed, still remained intact, but the British troops were not to be daunted; with another brilliant rush they were among the enemy, bayonetting the gunners at their guns, and captured the heavy artillery. Thus we captured the key of the position. * * In a few minutes one rushing stream of fugitives was making for Zagazig, flying out of all their entrenchments. A little later Gen. McPherson's Indian brigade burst upon the flying foe from the south, and the rout was complete. The artillery coming up at a gallop, unlimbered and sent their shot and shell after the rebels, adding to the confusion."

After the fight was over at Tel-el-Kebir, a British detachment made a forced march and captured Zagazig, seventeen miles away. A despatch of the 14th, from Zagazig, said "The British troops are now entering Cairo." A despatch of the same date from Ismailia reported that Toulba Pasha and Arabi Pasha arrived at Cairo the previous night, and were made prisoners by the chief of police. The British took possession of Kafr-el-Dwar on the afternoon of the 14th.

On the 15th Gen. Wolseley telegraphed to the British war office from Benha as follows: "I have just arrived. Gen. Lowe occupied Cairo yesterday afternoon. Arabi Pasha and Toulba Pasha have surrendered unconditionally. Ten thousand troops at Cairo have laid down their arms. The prefect of police has undertaken to maintain order. I go on to Cairo at once."

New Hampshire Veterans' Association.

The third day of the annual reunion at Weirs opened with a violent rain.

The election of officers took place, the following being chosen: President, J. N. Patterson of Concord; vice president, J. S. Rowell of Exeter; secretary, Nathaniel Shackford of Lake Village; treasurer, Dana W. King of Nashua; camp commander, W. H. Trickey of Dover; musical director, J. C. Linehan of Fisherville; necrologist, A. C. Hardy of Concord.

Addresses were made by Maj. Chandler, Chaplain Hardy, Col. Larkin, Col. Hapgood and others. Subsequently various regimental associations elected officers.

At 12:15 the train bearing Gen. Sherman and party rolled into the station, while a salute of thirteen guns was being fired. Gen. Sherman, supported by Gov. Bell and Col. Patterson, proceeded to Hotel Weirs, the whole square being densely packed. At 1:30 a meeting took place at the grove, and Col. Patterson introduced Gen. Sherman, who made an eloquent speech to the veterans.

A PORTSMOUTH MAN IN COLORADO.

From the *Express* of Fort Collins, Colorado, we take the following notice of an enterprise in which Mr. E. H. Hall, late of this city, is engaged. Mr. Hall, we are informed, is owner of one-third of the stock of the company referred to:

The Loveland Elevator company was incorporated early this week. The incorporators are John J. Ryan, Herzinger & Harter and E. H. Hall. Messrs. Ryan, Herzinger & Harter are too well known to need any introduction. Mr. Hall is a brother of Mrs. Professor Blount, and recently came from Portsmouth, N. H., where he was teller in the National Mechanics' & Traders' bank. His father is a well known physician of Portsmouth. The elevator is now building upon an improved plan. Its storage capacity will be 60,000 bushels, and it will be run by a ten-horse-power engine. It will have a separator which has a capacity of cleaning 400 bushels per hour, which enables the company to put the grain into the bins perfectly clean and merchantable. A car can be loaded from the elevator in twenty minutes. When completed it will be one of the most convenient and well-built elevators in the state. Another feature of the elevator is that it has a corrugated iron roof, which will be a great protection against fire.

AROUND HOME.

Secretary Chandler, on his recent trip from Portsmouth to Warner, was paid great attention by the employes of the Concord railroad. The conductors were in neat uniform, with gold lace on their caps, and an unusually clean car was run over the Portsmouth road. As the secretary stepped to the ticket office and laid down the cost of eight tickets, a look of surprise was seen on the countenance of the ticket master at the station in this city, at the novel sight of a prominent public functionary paying his fare over the Concord railroad, but the official recovered himself in season to hand back the correct change, and the man who deals in coupon tickets made note of the singular circumstance. Lt. Merry, of the Tallapoosa, accompanied the secretary to Concord.

The brick schooners D. K. Ham, Garland master, and Ocean Eagle, Maxwell master, in coming down the river on Friday each broke her fore-gaff in jibing; the D. K. Ham stopped at Portsmouth bridge to repair damages, and the Ocean Eagle proceeded to the lower harbor. Tae Triton, Freeman master, and the J. M. Eaton, Parsons master, also came down the river with cargoes, the latter remaining at the bridge and the former going down below. The Satellite, which has been lying loaded at the bridge for about two weeks on account of the illness of Capt. Aderton, still remained there on Friday, but was expected soon to sail, as Capt. Aderton is rapidly improving.

Mrs. Henry Fernald of Kittery, a relative of Mr. Martin Robbins of Vinalhaven, Me., —whose dead body was recently found in the river near the Newington shore, and buried like a dog by the selectmen of the town, without inquest, or service or envelope, below high water mark,—on Friday had the remains of her unfortunate relative decently interred in the cemetery near the Newington church. Mrs. Fernald desires to express her heartfelt thanks to Mr. Valentine Coleman of Newington, and his family, for their marked kindness and courtesy to her while on her sad errand.

The Appledore landing stage was towed in on Wednesday of this week by the steamer Appledore, assisted up the river by the tug Clara Batemen, and moored for the winter alongside the old fish wharf at Noble's island. Mr. Wm. H. Berry, the veteran boatman of the hotel, came in with it, being the last of the employes to leave, as he was the first one to go out at the commencement of the season.

The schooner Albert Woodbury, of this port, Capt. Levi Downs, came out of Boston on the 12th inst., and arrived here on the 14th. From Friday, the 8th inst., to Monday, the 11th, she stocked $1400 at mackereling; on Monday alone she stocked $822.30. On one day previous, this season, the schooner stocked $578. She came in for an outfit.

Mr. George Herbert shipped to Boston and New York, one day this week, a hundred barrels of choice mackerel.

The Biddeford *Times* says: "The statement recently published that the venerable Increase Sumner Kimball, of Sanford, is the oldest surviving member of the York county bar, was incorrect, as the Nester of that bar is the Hon. Hiram H. Hobbs of South Berwick, who was admitted in 1827. Mr. Hobbs, who is now rising four-score years of age, graduated at Bowdoin college in the class of 1823, and is still in excellent health."

SUNDAY SERVICES.

Rev. J. Herbert Yeoman's subject at the Sunday service of the Pearl street church will be "Christ's kingdom."

Rev. G. Hill will preach in the Advent church.

Rev. Howard M. Brown, of Brookline, Mass., will preach for the South Parish.

Rev. Horatio Gray will preach in St. John's church.

Lecture at the Court street Christian church at 7:30 o'clock Sunday evening; praise service at seven o'clock. Subject of the lecture, "The rich man and Lazarus." All are welcome.

Wm. J. Fletcher, of Boston, will speak in Mechanics' hall under the auspices of the Society of Spiritualists, at 2:30 and 7:30 P. M.; admission free in the afternoon, (collection taken;) evening, ten cents admission. Tests given at close of each lecture.

The honest, old fashioned town of Exeter, N. H., has a paper of doubtful influence called "Matrimonial Times." It circulates all over the Union. Its purpose is to publish advertisements for correspondents. It may be that some well meaning people are willing to take the risk that such a course incurs, but it can safely be affirmed that their number is very few. Since this sheet circulates largely in this state it will not be out of place to warn our readers that they run a great risk when they reply to advertisements for correspondents, either with or without a "view to matrimony," and the fact that the advertisers represent themselves as "Christian" gentlemen or ladies, should have no weight whatever. Of the more than a thousand copies which are distributed in this state doubtless a few papers, more or less, come to this city. If any of our readers pay attention to the advertisements in this "matrimonial" sheet, in about four cases out of five they will regret it.—*Newburyport Herald.*

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

SECRETARY CHANDLER'S INSPECTION.

The recent inspection of the navy yards made by Secretary Chandler has certainly been the most searching and thorough of any ever made by any secretary of the navy. There has been less of the social and more of the practical, in the stay at this station at least, than has been seen in times past. Mr. Chandler seems to be thoroughly posted in regard to the capacity of the yards, and the opportunities for work at the respective stations. What he seems most desirous to accomplish is, a move in increasing the efficiency of the navy, in propartion to the sums expended at the navy yards. He holds that if certain sums are appropriated for work, there should be a corresponding result, and nothing be wasted. This may seem to some a new departure, but the present secretary does not intend to have his department, in efficiency or in repute, a whit behind the other branches of the government. In this, we trust he will be sustained. It is better for our mechanics, better for our whole community, on either side of the Piscataqua, that for every dollar expended at this naval station in labor, the government should receive a good, honest day's work in exchange Any exception to this rule is a loss to everyone, but more especially to the man who draws the pay without rendering the equivalent therefor.

THE PRESIDENT'S BOUQUET.

A large night-blooming cereus which has been in the possession of Mrs. S. E. Pearson, the florist, for a number of years, and never showed any inclination to bloom either day or night, recently gave indication of its intention to do something in that line, and on Tuesday evening of this week it was supposed a fine flower would appear during the night; but the plant, possibly to keep up its reputation for eccentricity, deferred the operation until between eight and nine o'clock Wednesday morning, at which time there was developed a magnificent and unusually fragrant flower, nine inches across, and with a calyx nearly a foot long. Miss Helen Pearson, a girl of eleven years, when on her way to school took the big flower along, to show to some of her friends the great curiosity —a night-blooming cereus produced in the daytime; and learning that President Arthur had that morning arrived in the city, and was at the Rockingham, she determined to present it to him. Arriving at the hotel she was informed that the president was at breakfast, and would start for Rye beach in a team as soon as he was through; so seeing a gentleman with whom she was acquainted she secured a formal introduction to the driver of the team, (Mr. Edgar D. Stoddard,) and delivered the flower to him, with strict injunctions that he tender it to the president, with her regrets that she was unable to present it in person, as she had to be in school at nine o'clock. Undoubtedly Edgar fulfilled his trust, for when the president entered the carriage he held in one hand a "bouquet" consisting of a single flower about the size of a cabbage, of which he occasionally smelt with evident satisfaction.

HOW MANY?

The *Times* of Friday evening says:

Despatches to some of the Boston papers state that 500 vessels were at anchor in the lower harbor last evening. The CHRONICLE called it 400. The reporters of these papers must have seen double, or not at all. We couldn't count any such number.

The *Times* man may see very well, but he certainly reads very poorly; the CHRONICLE made no such statement as he asserts, but simply said the number of vessels was "variously estimated at from two to four hundred." [We counted three hundred and thirty-four vessels on Friday from one point on shore, without stirring out of our tracks.]

POLICE COURT.

FRIDAY, Sept. 15; *Batchelder J.*

George H. Smith was brought before the court on a charge of breaking and entering the dwelling of Calvin Boardman in Salem, N. H., and stealing therefrom a sum of money. Defendant was held in $500 for his appearance at the term of the supreme court to open in this city on the 17th of October, and failing to procure sureties, went to jail.

BICYCLE MEET AND RACE.

The Rockingham Bicycle club have sent out invitations to New Hampshire wheelmen to a bicycle meet in this city on Monday next. The programme includes drill and parade at ten o'clock A. M.; a marine bicycle race from Church Point towards Portsmouth bridge at twelve o'clock; and a complimentary dinner by the Rockingham club to the visiting wheelmen at the Rockingham house. A run will also be made through Newcastle and Rye. The marine bicycle race will be a novelty, and will attract many to the Market street wharves.

THE "MASCOTTE."

The grand treat of music and fun, "The Mascotte" as performed by the Wilbur Opera Co., will be given in Music hall on Monday evening. The company sang last night in Portland to a large and delighted audience, and will sing there again to-night; they will sing but one night in this city. Tickets at Myers' bookstore.

The southeasterly storm of Thursday wound up with a smart thunder shower in the evening, the sky clearing, and the wind moderating and hauling to the westward, before midnight. Friday was bright and sunny, but most of the vessels in the lower harbor remained at their anchors, the wind blowing a gale from the northwest, and the sea outside the harbor tumbling in heavily from the southeast. The steamer Acushnet made her regular trip from Boston on Thursday, in spite of the storm, and sailed for Boston on Friday morning, on schedule time. Four schooners, whose names our informant did not get, dragged their anchors Thursday night and went ashore, two on Clark's island, one in "crooked lane" and one on Preble's island; but all came off at the turn of the tide, unhurt. A small schooner (reported as the "Lewis D. Orr," a name which does not appear in the United States treasury list of merchant vessels,) on Friday forenoon fouled the U. S. S. Tennessee, and had a boat smashed and received other damage; the big man-of-war was not hurt. The steamer Fearless did not make her regular trips to Kittery Point on Thursday, as she could not make her landing there on account of the sea. The yacht Cassie broke out her anchors in the lower harbor on Thursday, and had her after house stove by drifting against a large schooner.

Remember the temperance meeting at Bow Mission hall this evening.

The U. S. S. Tallapoosa, Comdr. Kellogg commanding, sailed from the navy yard about half-past two o'clock on Friday afternoon, for Washington and intermediate naval stations.

The Despatch, with President Arthur on board, arrived at Martha's Vineyard on the evening of the 14th inst., from this port, and anchored for the night. The president did not go on shore, and early Friday morning the steamer sailed for New York.

Kelp in vast quantities was piled up on the beaches from Odiorne's point to Boar's Head, (and probably all along the coast,) by the storm of Thursday last, and on Friday it seemed as if every available vehicle in Hampton, North Hampton and Rye was in use transporting the valued fertilizer from the shore to the fields.

The British schooner Cordelia Vogler, which arrived at this port on Thursday last, brought 1600 ties for the Eastern railroad. This is the first importation of ties since last spring; about 2400 more will arrive this month, and a very large number in October, the immense quantity landed in the spring having been nearly all expended.

At the annual meeting of the regimental association of the 16th Reg't N. H. Volunteers, held in the barracks at Weirs during the Veterans' Reunion, a committee, consisting of one member from each company, was appointed to gather the names of all the survivors of the regiment. Rev. William A. Rand of South Seabrook was chosen to collect the statistics of Co. K, and survivors of that company are requested to communicate with him. Thirty-two members of the regiment were present at the reunion, Mr. Rand being the only one from this vicinity.

Rev. Howard N. Brown, who preaches at the South Parish to-morrow, is the successor of Rev. Dr. Hedge at Brookline, and one of the most distinguished of the younger Unitarian clergyman. The Sunday School of the South Parish will meet at the chapel on Court street, at quarter before three o'clock.

The new public gas-light on Congress street, lighted for the first time, shone brightly on Friday evening, and is a great improvement to the locality.

The wild geese have commenced their southward flight; it is unusually early for them to be seen, and their appearance is taken to indicate very severe weather in the regions of the north.

Rev. William W. Dow, now settled at Norfolk, Mass., has received a call from the Congregationalist society at Kittery Point.

Orders have been received at the navy yard to have the Vandalia ready for sea on the 26th of September.

On Wednesday, the 13th inst., a train on the Eastern railroad ran into a handcar near Wells, smashing it and badly injuring three men who were on the car at the time; the injured men were James Thurston of East Deering, Hiram Hatch of Wells, and Robert G. Bryant of Portland. Mr. Thurston was hurt the worst, his leg being badly broken.

The small steamer Nellie, which left Wolfeborough for Alton on Wednesday evening, the 13th inst., was capsized on Lake Winnipesaukee half an hour after. The Nellie was an excursion boat connected with a hotel at Alton Bay. She had fourteen passengers, from whom nothing had been heard on the 14th. [A despatch of the 15th, from Dover, says the passengers have all arrived in that city, where they belong. The boat anchored a few miles from Weirs, on account of the intense darkness.]

A barn in Dover belonging to Mrs. S. H. Hanson was struck by lightning on Thursday evening last, and totally destroyed, with its contents.

The William Chase steam fire engine company of Salem, Mass., with guests, arrived in Nashua last Thursday at noon, and were received at the station by a delegation of the fire department, and proceeded to the engine house where they were welcomed by Mayor Fletcher. They partook of dinner as guests of the Nashua department. The afternoon arrangements for their entertainment were somewhat interfered with by the storm.

The census shows that the number of persons in a family in the United States is a small fraction over five. In some families the husband is the small fraction over.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

While the sheriff of Chattanooga county, Tenn., and one of his deputies, was conveying a murderer named John Taylor to Knoxville on the 14th inst. on a railway train, the two officers were shot dead and another man wounded by Taylor's brothers, Bob and Andy, and all the murderers escaped, making for North Carolina with a large number of armed men in pursuit.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

The Hillsdale crew of oarsmen (American) were beaten at London on the 15th inst. by the crew of the Thames rowing club, by two lengths.

Choice Extracts from Druggists.

"We know the value of malt, hops, quinine bark and asparagus composing Malt Bitters."

"Best kidney medicine on our shelves."

"Our lady customers highly praise them."

"Physicians prescribe them in this town."

"The largest bottle and best medicine."

"Our best people take 'Malt Bitters.'"

"Sure cure for chills and liver disease."

A new comet has been discovered in the constellation of the Twins. It is quite bright, but its motion is not yet determined.

Sick headache, nausea, rising of food, flatulency, seasickness, cramps and pains, hysteria, nervousness, languor, and loss of sleep call for prompt use of Sanford's Ginger, "the delicious."

Henry Massey, thirty years old, married and having four children, was run over by the cars and cut to pieces at Burlington, Vt., Sept. 14th, while lying drunk on the track.

An attempt to swindle the Massachusetts Baptist association of Boston out of $5,000 has come to light in Providence, R. I. Mrs. Charles H. Lee procured of a sub-agent a policy for $5,000 on the life of "Harry O'Neil," one-half payable to herself and the rest to O'Neil's wife. Three weeks later Mrs. Lee reported that O'Neil had died, having been ill only one week. An investigation shows that it is true that "Harry O'Neil" is dead, but that the man who was examined by the medical examiner and whose risk was accepted is none other than Mrs. Lee's husband, who is alive and well. Lee has absconded.

After eating each meal take a dose of Brown's Iron Bitters. It helps digestion, relieves the full feeling about the stomach.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of manhood, impotency, implied by the errors of youth, or too close application to business, may be restored and manhood regained.

Second edition, just published, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, who was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 6x cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not expelled. As a protective in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alcerative medicine in the world. STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells, depend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and workshops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

Quite Romantic.

Salmon Falls is agog over the particulars concerning a romantic marriage. Some time ago a young man named Tighe was a sailor on board the U. S. S. Galena, and being taken sick, he was sent to the hospital, where he was tenderly cared for by a comrade, David A. Van Allen. During young Tighe's illness frequent letters from his sister, Miss Alice, were received and read to the invalid by Van Allen. Tighe died, but Miss Tighe and Van Allen continued to correspond. A few weeks ago Van Allen was honorably discharged from Uncle Sam's service, went to Salmon Falls, hunted up Miss Tighe, procured a special dispensation from Bishop Healy, and married her in St. Mary's church. Mr. Van Allen, who is "well fixed" financially, has taken his bride to Philmont-on-the-Hudson, which is to be their home.

New Hampshire Items.

Mart Edgerly thinks that if one-fifth of the republicans who on the sly tell him they intend to vote for him should cast their votes as they pretend they will, he could be elected, and not lose sight of Stilson Hutchins' good advice about spending the corruption fund.

Hon. Samuel W. Hale, republican candidate for governor of New Hampshire, gave a brilliant reception at Keene on the 15th inst., in honor of his nomination.

There is at least one democrat in the state who has learned wisdom by experience, to wit, Hon. J. W. Fellows, who warned the brethren against building any castles on the idea that the republicans are going to cut each other's throats, or that any democrat, however popular, can carry Manchester. Mr. Fellows used to cherish pleasing delusions of this kind, but he knows better now.—*Manchester Mirror.*

A Reader's Complaint.

I have never wished that I had been born in some other century than the nineteenth. Our age, if not a picturesque one,—and I think it has its picturesque aspects,—is without doubt the most comfortable to live in, take it on the whole, the world has yet known. It seems to me that persons of rational mind and humane disposition cannot be too thankful to belong to it, for it is hard to see how such persons could ever have enjoyed life in earlier times as we of the latest days can. The world has certainly gone forward, and the feature of its progress that I chiefly rejoice in is its advance in humanity. The elder world—the world but a very little elder than our own—was such a terribly cruel one!

The only objection to living in the present time that I know of is the increased quantity of things one must know or would like to know. Eighteenth century people didn't have to read Lecky's history of their times in four volumes, or a thousand other books it now seems obligatory upon all cultivated persons to acquaint themselves with. Nowadays one is required to read a small library every year, if one would have even a smattering knowledge of the various subjects that invite an intelligent man's interest. The specialists, in the abundance of whom we glory, carry investigation so far forward, each in his own line, that the general reader cannot hope to do more than accept a number of things at second hand, or be content to have no understanding of them at all. It is hard to resign one's self to ignorance of so many interesting matters, and yet that is what one seems driven to. One finds that the first thing to learn is "how much need not be known," which is perhaps, a sort of sour-grapes wisdom, but apparently the only wisdom attainable.—*Atlantic Monthly.*

—Some men have tact. Said the bridegroom who didn't wish either to offend his bride or die of internal disturbance: "My dear, this bread looks delicious; but it is the first you have ever made. ***"Facts speak plainer than words." Proof:—"The Doctor told me to take a blue pill, but I didn't, for I had already been poisoned twice by mercury. The druggist told me to try Kidney-Wort, and I did. It was just the thing for my biliousness and constipation, and now I am as well as ever."—A. P. Sanford. Sold in both dry and liquid form.

—When Dr. Norman McLeod was minister of the Barony parish in Glasgow, and loved as few men have been by his flock, another minister in the city was called upon to visit a case of sickness. As the applicants were strangers, and seemed decent, God-fearing people, he asked if they did not attend any church. "Deed, aye," they said, "we gang to the Barony, but this is a bad case of typhoid and we couldn't risk Norman!"

All health generally comes from lack of the proper life forces in the blood. To restore the blood to a healthy state use Brown's Iron Bitters.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofula-us Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age. Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., the time since, in a condition to excite the of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Mr. Robeson Renominated.

The republicans of the first congressional district of New Jersey on Friday last renominated Mr. Robeson by acclamation as their candidate for Congress. There had been rumors afloat that this nomination would be contested, and that it would be a neck-and-neck race between the jolly Jerseyman and some other competitor for the honor. But it will be a frigid day when the genial George gets left. The Ex-Secretary of the Navy, after the nomination, in an address he was invited to make to the convention, poured a broadside of hot shot into the grasping monopolies which have sought to abridge his political powers; and while spreading wide the wings of the American eagle, the advocate of economy in our naval expenditures seemed to gather the people of New Jersey under the protecting shelter of the bird in a manner which defied the machinations of "the organized and consolidated power of immense capital in individual hands," etc., toward which the representative of the iron-clad interests shook a defiant fist, composed of a hand which holds too many trumps to be defeated by any railroad or other ring which may seek to curtail his political influence either in the state of New Jersey or in the halls of Congress.

The Maine Election.

Returns from all but eleven small towns, which in 1880 cast less than 450 votes, give Robie, republican, for governor, 73,005; Plaisted, 63,418; scattering 1043. Robie's majority, 8,844; Robie's plurality over Plaisted, 9,587; Plaisted's minority, 10,630.

The War in Egypt.

Gen. Wolseley has arrived at Cairo, and telegraphed to the British war office that "The war is over. Send no more men from England." The collapse of the "rebellion" is total, the "holy war" threatened to be waged by the Mahometans not amounting to a row of pins.

New Hampshire Savings Banks.

From the annual report of the state bank commissioners we obtain the following: Whole number of savings institutions, sixty-five; number of depositors, 104,432; net increase since 1881, 8743; amount of deposits, $36,181,186.70; increase during the year, $4,312,860.10; surplus, $1,309,662.49; guaranty fund, $1,162,653.78; miscellaneous indebtedness, $280,157.45; total liabilities, $38,933,660.42. The amount of deposits is about $4,000,000 larger than ever before.

News and Notes.

The verdict against Miner and Burdell, the convicted star routers, has been set aside, and a new trial granted them.

The international rifle match at Creedmoor was won by the British team, by a grand total of 1875, to 1805 for the American team.—170 points in favor of the British team. This is the worst defeat ever given to any rifle team that we remember.

President Arthur arrived in the East river, near Newport, R. I., on the afternoon of the 15th inst., in the steamer Despatch, it being too rough for the boat to go around into Newport harbor. He rode to town in an express wagon, and immediately went to a telegraph office. In company with his private secretary, he left for New York by rail.

This week the romantic drama of "Youth" will be produced at the Boston theatre. One feature of the representation will be a tally-ho coach drawn by four horses, and there will be a full military band and other novel and entertaining features during the play.

The new ship John Currier, of 2000 tons, was successfully launched from the yard of John Currier at Newburyport on Thursday. The ship lay at anchor just above the Newburyport bridge on Friday, and it was a rare sight to see.

Four persons are reported killed by the tornado at Winsted, Conn., last Thursday night.

Ex-Secretary of the Navy Robeson has been unanimously renominated for Congress from New Jersey.

Steamer Harlem, which has during the summer plied between Boston and the Point of Pines, ran on a ledge near Wood's Hole, Mass., Sept. 15th, on her way to New York, and it was feared would prove a total loss.

The British man-of-war Phenix has been totally wrecked on the rocks at the easterly end of Prince Edward island. Crew saved.

Land & Fleming's oil works and Donaldson's oil works on Kingsland avenue, Brooklyn, were struck by lightning on the 14th inst., and set on fire. An oil tank exploded, instantly killing two men; and a number of oil barges and lighters in Newton creek were burned by the blazing oil floating on the water. Loss to the two oil firms, $250,000; loss on shipping unknown. A bridge across Newton creek was destroyed.

Monson, Mass., has been stirred, socially, over a brilliant wedding. The contracting parties were J. W. Cumnock, agent of the Dwight mills, Chicopee, and Miss Lovie F. Best, the beautiful and accomplished daughter of a Methodist parson.

Deacon Joseph Flanders, station agent at the freight depot in Haverhill, Mass., has been at work for the Boston & Maine railroad for forty-five years. Not a solitary person is now connected with the business department of the road who filled a position when he entered the service. Mr. Flanders will retire Nov. 1st.

Capt. Mayne Reid, the delight of story-reading boys of the last generation, has received a pension of $15 per month on account of wounds received at Chepultepec. He was second lieutenant of a New York regiment in the Mexican war, and rendered gallant service. He is living in England on a rented farm, and is quite poor.

The Providence *Journal*, speaking of the career of President Arthur as quartermaster-general of New York, says that when he took the office "he was poor, but when his term of office expired he was poorer still. Contracts larger than the world had ever seen were at his disposal. He had to provide for the clothing, arming and transportation of hundreds of thousands of men. So jealous, says a friend, was he of his integrity that I have known instances where he could have made thousands of dollars legitimately, and yet refused to do it, on the ground that he was a public officer, and meant to be, like Cæsar's wife, above suspicion. His own words to me, adds this friend, in regard to this matter, amply illustrate his character. If I had misappropriated five cents, and on walking down town saw two men talking together, I would imagine they were talking of my dishonesty, and the very thought would drive me mad."

Hon. Isaac Humphreys, who was the first union governor of Arkansas after the war, died a few days ago on his farm in Madison county, Ark., where he had lived since his retirement from office. He was first chosen early in 1864, by the constitutional convention, and later in that year re-elected by a popular vote. In 1867, during the reconstruction process, the powers of his office were absorbed by military commanders, and after reconstruction he was succeeded by Powell Clayton. Gov. Humphreys was several times in the legislature before the war, and, as a member of the Arkansas state convention called to consider the question of secession, in 1861, was the only man who on the final vote voted against adopting the secession ordinance. He soon afterward went north, and, returning, succeeded John S. Phelps of Missouri as provisional governor. On retiring from office he sought his farm, and afterward lived so quietly as to be almost forgotten.

The *Journal's* New York correspondent writes that Jay Gould is taking a hand at New York politics, and with the aid of Mr. Conkling is trying to oust Cornell from the governorship, probably in revenge for the governor's opposition to some of Gould's wicked schemes before the New York legislature.

"The North American Review" for October opens with an article on "The Coming Revolution in England," by H. M. Hyndman, the English radical leader, giving an instructive account of the agitation now going on among the English working classes for a reconstruction of the whole politico-social fabric of that country. O. B. Frothingham writes of "The Objectionable in Literature," and endeavors to point out the distinction between literature which is per se corrupting, and that which is simply coarse. Dr. Henry Schliemann tells the interesting story of one year's "Discoveries at Troy." Senator John I. Mitchell, of Pennsylvania, treats of the rise and progress of the rule of "Political Bosses." Prof. George L. Vose, of the Massachusetts Institute of Technology, contributes an article of exceptional value on "Safety in Railway Travel," and Prof. Charles S. Sargent, of the Harvard College Arboretum, contributes an instructive essay on "The Protection of Forests." The Review is sold by booksellers and newsdealers generally.

William J. Quinn, whose sudden death occurred recently at Minneapolis, Minn., was a son of Patrick J. Quinn of South Newmarket, where the deceased was born. This son was a volunteer in one of the New Hampshire regiments in the late war, and only returned at its close. He was a young man of marked ability, studied law, and was admitted to practice in Lawrence, Mass. He was an excellent public speaker, and was prominent in his native town on all public occasions previous to his removal to the west.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and secures a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from insomnia and weariness, the result of disease, over-study, or other causes, will derive substantial benefit from its use. It renovates the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It quickens pale cases the appetite and rebuilds the tissues.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Cough and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole testimony of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the muscular frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fac simile signature of Baron von Liebig, and a red seal of his Signature, as well as that of A. VOGELER & CO., Baltimore, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE "MASCOTTE."

This evening, at Music hall, the first opera of the season will be produced by the Wilbur Opera Co., who will give "the Mascotte," one of the brightest and most pleasing of the modern comic operas. The company is an excellent one, and a most enjoyable musical and dramatic feast may be confidently predicted. Tickets can be had of Mr. Myers.

COLLISIONS.

The schooner Sarah Glass, McKean master, from St. Stephens, N. B., for Boston with lumber, was in collision with an unknown vessel in the lower harbor on Friday, and lost her bowsprit; she was towed to the city on Saturday, for repairs.

As the steamer Clara Batemen was proceeding down the river on Saturday forenoon, picking her way through the numerous vessels at anchor, a fishing schooner reported as the Ella F. Morrison took a sheer at exactly the wrong moment, when there was no time for the steamer to alter her course or stop her headway, and the two vessels came into collision; the schooner's jib-boom swept all the buckets off the top of the steamer's pilot-house, tore the keel out of her boat, which was lashed bottom up on the after house, and carried away her smoke-stack, which went overboard; the steamer's house also was injured by the end of the schooner's bow-sprit. The schooner had her jibboom carried away and her bowsprit sprung.

BICYCLE PARADE.

Six members of the Nashua bicycle club, under command of Capt. Gilman, reached this city on Saturday afternoon, having ridden from Epping; two members of the Rochester club, using the American Star bicycles, (which have the small wheel in front,) rode down from that town in the afternoon; and seven members of the Manchester club arrived at six o'clock in the evening. The Rockingham house was selected as headquarters for the wheelmen. The programme for to-day is as follows:

The wheelmen will form at ten o'clock A. M. on State street, between Cass and Union streets, and wheel through Cabot, Islington and Middle streets, Richards avenue, South, Pleasant, Court, Middle, Cass, State, Middle, Congress, Pleasant, State, Middle, Bridge, Deer and Market streets to Appledore wharf. Marine bicycle race at twelve o'clock, noon. Complimentary dinner by the local club to the visitors at the Rockingham in the afternoon.

The marine bicycle race will be in full view from any of the north end wharves.

"Alvin Joslin" will be at Music hall on Thursday evening, Sept. 21st. Of this character the Boston *Herald* says: "Mr. Davis' impersonation of 'Uncle Alvin' is a wonderful creation. He is a capital representative of the Yankee character, bringing to his task a genuine talent for impersonating old men parts, and having an excellent Yankee dialect and an abundant store of quaint New Englandisms to enrich the dialogue, a remarkable make-up, and a fine stage presence." Tickets now on sale at Myers' bookstore, Congress block.

The steamer Startled Fawn arrived at this port early Saturday morning to take a party of excursionists to Haverhill, Mass., and back; but only four persons (one young man and three young women) appeared as passengers. The manager of the boat told them of course she could not return here with that "crowd," but said anyone who chose could make the trip to Newburyport, and return transportation would be furnished by rail; three of the intending excursionists declined the offer, but the fourth one,—one of the young women,—said she had planned for a steamboat excursion, and a steamboat excursion she was bound to have; so the Startled Fawn made her home run with one passenger.

The clerk of the Circuit court of the United States for the district of New Hampshire has issued a writ of error upon the judgment of the Supreme court of the state on the petition between E. S. Cole and the town of Errol, wherein was drawn in question the construction of a clause in the constitution of the United States. The writ is returnable before the Supreme court of the United States at Washington on the second Monday of October next.

The new schooner Annie F. Conlon had her outfit put on board last week by George T. Vaughan & Co., and was ready for sea on Saturday night. She is commanded by Capt. Horace Seaward, with George Carter as mate, Daniel O. Seaward as second mate, and Augustus Tobey as cook and steward; her foremast hands are Joseph Pruett, William Tobey, Franklin Spears, John Wentworth and Jacob Fletcher.

A line of telegraph between this city and Dover, belonging to the Western Union Telegraph Co., has been disposed of to the Boston & Northern Telephone Co.

The gondola Alice, Capt. Fernald, of Exeter, while being towed up the river to Exeter with a load of coal on Friday, by the steamer Three Brothers, was obliged to come to an anchor on account of the wind and sea.

The present time table of the Eastern railroad will continue until October 15th, thus affording tourists excellent opportunity for visiting the mountain region at the season of its greatest beauty and most invigorating atmosphere. The Profile house is to remain open until the first of October. The expeditious mode of reaching the White mountain region, furnished by the Eastern and the Boston, Concord & Montreal railroads, and the low rates of fare, are an inducement to many to makethe trip at a season when more comfort can be derived from the journey than at any other time in the year.

The schooner yacht Wm. H. Russell, Drown master, arrived home on Friday evening from Mt. Desert via Portland, her company being all well, and reporting the enjoyment of a most excellent time during the cruise. The staunch little schooner "made the dust fly" at a lively rate as she worked up along shore Friday afternoon, but she arrived back at her wharf without having parted a ropeyarn during the trip.

A reception is to be given the officers of the North Atlantic squadron by prominent gentlemen of this city, probably on Tuesday.

On Saturday evening next, in Music hall, Mr. Lawrence Barrett will appear in Shakespeare's tragedy of Hamlet, supported by Mr. Louis James and a strong company. Tickets at Myers', on and after Wednesday.

Col. Jerome C. Butler of this city has, after long nogotiation, succeeded in effecting the purchase of the largest and best portion of the water front of Wallis' sands, near this city, for the purpose of immediately converting the same into a summer resort. This tract of land has long been considered the most valuable along this coast for that purpose, and efforts have many times been made by monied parties to buy it, but as many times failed. The deed of the property has been executed and delivered to Col. Butler, who has already disposed of cottage lots thereon, and who in conjunction with his son-in-law, William N. Dickinson, Esq., broker, of New York, will immediately commence the erection of a tasty house which will be ready for occupancy next season. Other lot sales are pending. The price paid for the property is not stated.—*Journal.*

A board of appraisal has been appointed in each department at the navy yard, to make an inventory of the materials on hand, showing the original cost and estimated present value, and indicating such as should be sold, in accordance with the provisions of the naval appropriation bill. Chief Engr. D. B. Macomb is president of one of the boards, and Comdr. A. R. Yates of another; Comdr. M. L. Johnson is a member of one board.

Capt. Nason's gondola, the Sturgeon, arrived at Sturgeon creek, Eliot, on Wednesday of last week, with lumber from T. E. Call & Son for Mr. Hooper; and on Friday she was loading bricks at E. W. Rowe's brickyard in Eliot for A. Brackett Trefethen of this city.

Mr. Thompson, proprietor of the Thompson house at York beach, died very suddenly on Saturday morning last.

Work will commence on the grading of the Kennebunk & Kennebunkport rail road early the present autumn, and it is the intention of the directors to have it completed and ready for business by the first of June next,

In Eliot, Friday of last week, Mrs. John W. Knight, a lady between fifty and sixty years of age, fell through a hatchway in the floor of the barnloft, striking on a wagon that was standing in the floor below. She was insensible for over an hour, and though the attending physician reported no bones broken it was feared she was dangerously injured internally.

It Toughens.

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Mrs. Pinkham.

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is absolutely devoted to her work, which is the outcome of a life-study, and is obliged to keep six fairly assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief found from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of the claims made.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure a woman suffering from all forms of the ulcerated, leucorrhoea, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5, and is sold by druggists. Any advice required as to special cases, and the name of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says the writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and their fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Marry a Gentleman.

A writer in *Women at Work* advises girls, if they would be happy in the married life, to marry a gentleman. He thus defines what he means by the term: A true gentleman is generous and unselfish. He regards another's happiness and welfare as well as his own. You will see the trait running through all his actions. A man who is a bear at home among his sisters, and discourteous to his mother, is just the man to avoid when you come to the great question which is to be answered "yes" or "no." A man may be ever so rustic in his early surroundings, if he is a true gentleman he will not bring a blush to your cheek in any society by his absurd behavior. There is an inherent politeness in such a character, which everywhere commands respect, and makes its owner pass for what he is, one of nature's noblemen. Do not despair, girls; there are such men still in the world. You need not all die old maids. But wait until the princes pass. No harm in a delay. You will not be apt to find him in a ball-room, and I know he will never be seen walking up from the liquor saloon. Nor is he a champion billiard-player. He has not had time to become a "champion," for he has had too much honest, earnest work to do in the world. I have always observed that these "champions" were seldom good for much else. Be very wary in choosing, girls, when so much is at stake. Do not mistake a passing fancy for undying love. Marrying in haste rarely ends well.

German Corn Remover enables you to wear nice close-fitting boots with ease and comfort. 25c.

—The following occurred in a San Francisco court: "Have you," asked the judge of a recently convicted man, "anything to offer the court before the sentence is passed?" "No, your honor," replied the prisoner; "my lawyer took my last cent."

Don't Die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

—Senator Hill's physicians say that the cancer which killed him was caused by tobacco. He had a habit of holding a cigar almost constantly in his mouth, and keeping the nicotine-coated end against the left side of his tongue.

When the scalp is covered with dandruff, Glenn's Sulphur Soap will be found infallible. Hill's Hair Dye, black or brown, 50 cts. A remedy for Indigestion, Consumption, Dyspepsia, Weakness, Fever, Ague, etc., Colden's Liquid Beef Tonic.

—At a Cleveland hotel arrived lately a newly-married couple, and the bridegroom, not content with adding, "and wife" to his name on the register, supplemented the line with "bride and groom."

The weak, worn, and dyspeptic should take Colden's Liquid Beef Tonic. Ask for Colden's, of druggists.

Hale's Honey of Horehound and Tar overpowers the most troublesome cough.

Pike's Toothache Drops cure in one minute.

—An ancient tomb was discovered a few months ago near the city of Malmo, in Sweden. An investigation led to the conclusion that the stone sarcophagus it contained belonged to the bronze age and is at least 2500 years old. One of the two skeletons found in it had a massive bronze ring around its right arm.

From B. Frank Swan, son of M. M. Swan, formerly Jeweller, 154 Water St., Augusta, Maine.

I have been troubled with Asthma for twelve years, and have employed skillful physicians of Boston, also two of the leading physicians of Augusta, without effect. I have felt nothing of this trouble since taking Adanson's Botanic Cough Balsam.

—"Ma" said a youth, as he came skipping into the house, "it's wicked to take anything, ain't it?" "Yes, my son, it is wicked to take anything, but don't be so boisterous." "Whoop! Well, I've been swimming, and don't ask me to take a lickin', cause it's wicked. I'm after a piece of pie." And before his parent could get hold of a slipper he had slipped out through the pantry with it and was sicking the dog on to a scissors-grinder down the street.

In the Diamond Dyes more coloring is given for 10 cts. than in any 15 or 25-cent dyes, and they give faster and more brilliant colors.

—No, you cannot raise chickens from egg plants. You might as well try to raise calves from a cowcatcher.

After eating each meal take a dose of Brown's Iron Bitters. It helps digestion, relieves the full feeling about the stomach.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or any impediment to the pleasures of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MALARIA!

THE ONLY REMEDY KNOWN To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted, and enfeebled body and even insanity are the direr effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, suffered long great sufferers from Malaria. Not until a few years past did they find a reliable remedy. Now thousands testify that Hostetter's Stomach Bitters is a speedy cure for malarial poisoning and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

LETTER FROM THE SEA SHORE.

RYE BEACH, Sept. 18th, 1882.

The season at Rye has not been as profitable as in the years past. The positive loss occasioned by the destruction of the Farragut, has been felt at every hand. One man who has horses and carriages to let and carries passengers, informed me that his loss in the month of June alone was two hundred dollars. But we hope for better results next year. Mr. Philbrick keeps his own counsel, but from his known breadth of ideas, we trust that the new Farragut will be all our fancy can paint.

Already at Little Boar's head is the preparation for the next season. The cellar for Miss Baker's new cottage next west of Gov. Bell's location, is being prepared. On the grounds of Geo. W. Hill's at the corner of the road, near by, a new circular drive way has been laid, and at this point there will be other improvements. And this reminds me, that the sea is encroaching upon this most beautiful bluff on the Atlantic coast. The washing away by the action of old ocean causes the bluff to gradually wear and diminish. The only remedy is a sea wall at the base, and I understand that at the next town meeting our citizens will be asked to appropriate a small sum of money to have a wall built here. There are plenty of rocks, and with well directed labor, a rubble wall can be made

"That shall laugh at all disaster
And with wave and whirlwind wrestle!"

This is something which every citizen should gladly endorse. Our material interests are so much enhanced by the appreciation by non-residents of our beautiful bluff; our home markets so greatly contributing to our common weal by our summer sojourners, that an outlay like the one asked should be made, not grudging but heartily, and with unanimous interest in the preservation of the spot which has done so much to attract visitors to our borders.

The summer inmates of the cottages yet linger. Prof. Parsons of Philadelphia, and Mr. R. B. Bowler of Cincinnati, who has occupied N. G. White's cottage this season, will remain till the first of October. At Mr. Albert Bachelder's about forty or fifty guests are still entertained, including Mrs. Robeson wife of Congressman Robeson, the children of Senator Cameron, etc. The Bachelder cottages have been filled by a large company, and guests as usual have been well cared for, but what we need is the large and well provided hotel so essential in all similar resorts.

The attractive cottage of Major Stott of Lowell, and its counterpart to be erected for Miss Baker, will add much to the appearance of Little Boar's head, but nothing can be done to beautify our sea view and our splendid sunset scene. Nature has done wonders for this spot, and if the town will only take seasonable steps to resist the encroachments of old neptune, by the erection of a wall of defence, nothing will be needed to render perfect this celebrated spot known as

LITTLE BOAR'S HEAD.

The speediest remedy for indigestion is the one you want. Wheat Bitters will cure it seven days in the week. See advt.

The President, it is announced, will be in Washington from Monday to Wednesday of this week, returning to New York on the latter day. A cabinet meeting will be held on Tuesday.

Hay Fever.

Messrs. Ely Bros., Druggists, Owego N. Y.—I have been afflicted for twenty years, during the months of August and September, with Hay Fever, and have tried various remedies for its relief without success. I was induced to try your Cream Balm; have used it with favorable results, and can confidently recommend it to all similarly afflicted. ROBERT W. TOWNLEY, (ex-Mayor) Elizabeth, N. Y.

TRENTON, N. J., Oct. 23, 1880.

I have suffered for eight years with Hay Fever, during July, August and September. In the beginning of July, this year, I resorted to Ely's Cream Balm, and have been entirely free from the fever since the first application. I can recommend it as a cure. EDWARD C. HILLMAN, at the New Jersey State Arsenal. Price 50 cents.

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat but not boil.

—At a Cleveland hotel arrived lately a newly-married couple, and the bridegroom, not content with adding, "and wife" to his name on the register, supplemented the line with "bride and groom."

Pedestrianism made easy by using German Corn Remover. Get the genuine. 25c. Druggists.

—An ancient tomb was discovered a few months ago near the city of Malmo, in Sweden. An investigation led to the conclusion that the stone sarcophagus it contained belonged to the bronze age and is at least 2500 years old. One of the two skeletons found in it had a massive bronze ring around its right arm.

A Loss Prevented.

Many lose their beauty from the hair falling or fading. Parker's Hair Balsam supplies necessary nourishment, prevents falling and grayness and is an elegant dressing.

—A fan is indispensable to a woman who can no longer blush.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will at moderate cost give them the strength and will to perform their duties satisfactorily.—*Ed.*

—Theologians resemble dogs, which gnaw large bones for the sake of a very little meat.

Ill health generally comes from lack of the proper life forces in the blood. To restore the blood to a healthy state use Brown's Iron Bitters.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL, Conductor L. & B. R. R.

I consider Swedish Botanic Compound the best Blood Purifier and Spring Medicine in use. W. B. WATSON, Lynn, Mass.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age. Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., a time since, in a condition to excite the of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

MIRACULOUS!

Wonderful Escape of a Number of Our P ominent Citizens.

AN ARCH ENEMY FOULLY CONSPIRES TO DESTROY THEIR LIVES.

FULL STATEMENTS BY THE SURVIVORS--THEIR PAINFUL EXPERIENCE.

An alarming state of affairs has been discovered in our midst. Hundreds of our citizens have been seized with mysterious symptoms of illness, which have puzzled learned physicians and scientists alike. Some have rapidly succumbed and fallen by the wayside, like parched and thirsting plants under the scorching and withering rays of a pitiless midsummer sun. Others have suffered all the pangs and torments of the horrible inquisition. Their limbs have been racked with excruciating pains, while their bodies have burned with an inward and consuming fire, unquenchable, unconquerable, until, when mind has been destroyed, and the body tortured beyond human endurance, they have died a death of misery and anguish. Some of their friends have suggested poison, but this opinion, perhaps, on certain startling revelations made by recent chemical analyses conducted in this city, still no traces could be found of mineral poisoning, and the only question remaining to be answered were, "Are these cases of blood-poisoning, and if so, in what manner or form was the contamination brought about? Some our friends, who have been so ruthlessly taken away from us, been made the unwilling victims of treacherous men, who, under the guise of friendship, have sought their acquaintance, and in secret packed them with the poisoned polgnard?" A reporter was put upon the trail, given plenty of time to investigate the affair, and commanded to probe the mystery to its very bottom, sparing no body in prosecuting the inquiry. It was successful, first to interview some of those who had passed through this terrifying ordeal in safety, and obtain from them an account of their several experiences. The first person interviewed was Mr. Frank Dixon, a tonsorial artist known to almost all our principal business men. He is now engaged at Lawson's tonsorial rooms, on North Main street. Mr. Dixon said that the malady completely used him up. "Why," said he, "I couldn't turn over in my bed, whenever I desired to vacate my bed I had to be lifted out of it, and I could not go up and down stairs without the aid of others. I had Dr. Smith and Dr. ——— attending me. They dosed me with this medicine and then with that, but without giving me any relief. Finally, when I had about given up all in a of getting better, some one asked me why I did not try Hunt's Remedy. I had little faith in the compound, still I was persuaded to get a bottle of it. Before I had taken two thirds of the quantity contained in that one bottle I began to feel its good effects, and by the time I had finished it, I was able to go down town and attend to my business. I bought another bottle of the Remedy and took half of it, and since then I have never been troubled with the malady, which proved in the end to have been an uncommonly severe attack of the kidney complaint. I see people every day walking about town who, I know, if they had not used Hunt's Remedy, would have been laid away to sleep the long sleep months ago. My attack was some or eight years ago, and I tell you it was a pretty tough one and left me in very bad shape. Some idea of what I suffered can be gained from the fact that my weight fell from 170 pounds down to 122 pounds."

Still more wonderful was the experience of Mr. Stephen G. Jackson, of No. 319 South Main street. Mr. Mason said that in 1880 he was attacked with inflammatory rheumatism, which was of so severe a nature that he did not take a step in four months. His physicians thought that he was paralyzed on one side of his body. From that time until February, 1880, he suffered very much with pains in his knees, which had become decidedly stiff. He was told that he could never recover. In February, 1880, he was in his office talking with Mr. William R. Clarke, proprietor of Hunt's Remedy, when Mr. Clarke said that he could be cured if he knew I cannot," said Mr. Mason, "I have taken every thing, and the physicians say a cure is impossible." Mr. Clarke again claimed that a cure would be made, and that Hunt's Remedy would do the business. Mr. Mason laughed at the idea, but Mr. Clarke asserting that it was kidney complaint and not rheumatism which was causing Mr. Mason's sufferings, and that all his troubles originated in those organs being disarranged, induced him to try Hunt's Remedy. Mr. Mason took the medicine for six weeks, and since then he has not been troubled with "rheumatism" of any kind or nature whatsoever. "I must attribute my relief from pain and suffering to Hunt's Remedy," said Mr. Mason, in narrating his experience to the reporter. "I used to be greatly troubled in damp weather, and it was often a question with me how am I to get out of bed to-day, but that is a matter of the past now. During the past year I frequently had wet feet while traveling about in inclement weather, but I felt no bad effects from it."

Captain Nathaniel Grant, the manufacturing jeweler, everybody knows that he is the very prince of good fellows, told the reporter that he knows that Hunt's Remedy is an invaluable medicine.

A friend of his had been a great sufferer, dating back to infancy. The family physician had attended the sufferer faithfully several years, but could afford only temporary relief.

Finally, the physician advised his patient to try Hunt's Remedy. Capt. Grant resented the idea, considering the Remedy "a snide," as he expressed it. Still, wishing to follow the advice of his physician he purchased two bottles of Hunt's Remedy, and is now better than at any time during the past five years, and so far as present indications are concerned, has obtained permanent relief. In fact, considers himself cured.

Mr. C. A. P. Mason, the well-known druggist, doing business at No. 633 High street, said: "I have known the medicine (Hunt's Remedy) for more than ten years. I never saw anything for which this medicine is recommended that would give as quick relief. I know of many persons who have used it, and all of them speak of it in the same way, as being worth all it costs to obtain quick relief. One man said he would have given $10 a bottle rather than have been without Hunt's Remedy."

Mr. George F. Clark, employed in the dress goods department at Ladd, Davis & Drummond's establishment, said that he suffered extremely with kidney disease, but that after using Hunt's Remedy just two days he was enabled to attend to his business again. He placed a high value on the Remedy, and considered it a most important acquisition to the list of the really meritorious and standard remedies of the day.

Capt. Augustus J. Winship of the City Police Department told the reporter that he had been a great sufferer from kidney disease, which first attacked him four or five years ago. He had taken Hunt's Remedy, and had been cured by it. He considered that it could be taken by any man having kidney disease with benefit and results. There were hundreds of people afflicted with kidney disease who, by neglecting to attend to the matter in time, had allowed it to become so advanced as to kill them. The attack. He mentioned the late Chief of Police Ayer's case. Mr. Ayer died of kidney disease, and when the autopsy was made it was found that one kidney was entirely gone and the other seriously affected. Hunt's Remedy, if taken in time, might have saved his life. Mr. Clarke

Capt. Winship said that Hunt's Remedy was, in his opinion, a most valuable medicine.

Mr. William R. Harding, the wholesale druggist, Nos. 34 and 36 Weybosset street, told the reporter that he had sold Hunt's Remedy for years, so that it will be seen that the medicine is no cheap trap invention intended for a day only. He said Hunt's Remedy was an article of unusual merit, and probably the best remedy for the diseases it is advertised to cure. He had, no doubt, sold a number of bottles during the past year alone, his sales in two particular years aggregating thirty-three thousand one hundred and twenty (33,120) bottles. Taking the whole year he had dealt in Hunt's Remedy some most wonderful cures made by it had come to his knowledge. In conclusion, he would recommend it very highly to all sufferers from kidney complications.

Among the remarkable instances of cure related to the reporter was that of a Mrs. Goodspeed. Four years ago, when she was in very destitute circumstances, she was afflicted with kidney disease. The physician attending her said that she could not live more than forty eight hours, and that when she left her bed it would be for the grave; she was, according to the doctor's opinion, doomed to die, as she was suffering from an aggravated attack of Bright's disease of the kidneys. While she was in this condition and calmly awaiting the end, a kind lady interested herself in behalf of the sufferer, and called upon Mr. Sullivan Peaslee, Cashier of the Northern Bank, No. 50 Weybosset street, asked him to go with her Mr. Clarke's office for the purpose of collecting his assistance to the end that out of sweet charity a package or two of Hunt's Remedy might be given to Mrs. Goodspeed. Three bottles were sent to the sufferer, who took the Remedy, began to mend almost instantly, and in a few days, instead of being taken from her home in an unconscious condition, was enabled to walk about and is now doing her own housework. Mr. Peaslee was most surprising this case, and is ready to speak of his own experience with the Remedy. He said that he liked the Remedy very much. He had been kidney disease for a long time, back as years ago. He had employed various physicians without reaping any benefit from the pecuniary outlay. Finally he heard that a medicine had come into relief, but its effects were short lasting and soon were away. Despairing of ever obtaining a respite from pain, he was induced to try Hunt's Remedy. In the Remedy he found a valuable curative agent. Its effects were lasting and decided. For the past three or four years he had been in good health, so that he did not have to use much of the Remedy. Formerly every little cold he caught would settle in his kidneys and gave him great pain, but latterly he had escaped such experience. One dose of the Remedy seemed all necessary to relieve him in a single day.—*Providence Evening Press.*

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a billious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. AROUND HOME.

Mr. John R. Holbrook is making a full suit of sails for the schooner Grace Choate, and all the sailmakers in the city are busy just now. Several of the men employed in the sailmaker's gang at the navy yard put in a few hours every evening working for Mr. Holbrook and Mr. Charles S. Drown.

Mr. J. Albert Walker has six horses—two driving horses and four draught horses—which average 1300 lbs. weight each, and are all very fine animals. One draught mare, "Bessie," weighs 1350 lbs.

Some of the leading citizens of Newcastle say they are bound to make this city pay the town taxes on Pest island, and that the island will be sold for back taxes unless Portsmouth "comes down;" they also threaten to have the island indicted as a nuisance, or to indict the city for maintaining a nuisance there, or something of that kind, we don't know exactly what.

Steamer Acushnet brought on her last trip from Boston, 210 barrels of bread, consigned to Paymaster Chas. E. Guild, inspector of provisions at the navy yard. The bread goes on board the U. S. S Vandalia.

Mark Dennett, Esq., of Kittery, voted for governor on the 11th inst. for the 75th time, never having missed casting his ballot for a candidate for that office since his first vote. Sixty-two of these votes were for governor of Maine, the first thirteen having been thrown for governor of Massachusetts, what is now Maine not having been separated from that state at that time. Mr. Dennett celebrated his 98th birthday on the 28th of August, and is remarkably hale for a man of his years; he spent the 7th inst. at York beach, with his daughter, Mrs. Burnham, and evidently enjoyed the day as much as any of the young people.

One day a week or so ago, Mr. Benjamin Carter of this city, who is himself eighty years old, called at Mr. Dennett's house in Kittery to see a relative who happened to be there that day; and while they were conversing Mr. Dennett looked into the room, and enquired if the lady wanted him to chop any more wood! She informed him that what he had chopped that morning was amply sufficient for the day's use, and introduced the two old gentlemen,—who had never met before that either remembered, though living so near each other for so many years,—and incidents of sixty or seventy years ago were recalled with pleasure to both.

Mr. Dennett had considerable to say of Elder Eliss Smith, who established the Christian church in this city, of which Mr. Dennett was one of the original members. The house in which he lives was built (a portion of it at least, which is still in good condition) by his great-grandfather in 1708, and his grandfather was born in it.

"Alvin Joslin," a homespun comedy of the "Joshua Whitcomb" order, was performed at the Windsor theatre last night, with Charles L. Davis as the central figure. "Alvin Joslin" so nearly resembles "Joshua Whitcomb" that they might be taken for twin brothers of theatrical parentage. "Alvin Joslin" pleased the audience immensely, and Mr. Davis deserves the success he met with.—*New York Herald.*

At Music hall Thursday evening.

A correspondent in York writes us as follows: "Mr. Peter Tilton, a former resident of your city, but now of Ogle, Ill., is with his estimable wife on a visit with their adopted daughter, Mrs. T. A. Whittle, near Mt. Agamenticus. Your correspondent is of the opinion that the venerable gentleman, now seventy-three years of age, and of perfect erect form and comeliness, is deserving the premium for picking berries. On Aug. 11th he picked ten quarts, notwithstanding the scorching rays of the sun and the intense heat, and from that time, till the berries failed, averaged eight quarts a day. The old gentleman is wealthy, and need not pick berries for a living. The worthy couple have never been blessed with any issue, but have carefully raised and well settled three adopted children, and have enough of this world's goods for number four. They have recently endowed Mrs. Whittle with a farm in Illinois, costing $4400, and Mr. and Mrs. Whittle expect to leave for the west this fall. We are very sorry to have them go."

The Vandalia has had a new smoke stack built at the navy yard. The ward room has received extensive alterations. The outer part of the ship has been smoothed and the vessel now presents a creditable appearance, having been materially improved during her stay at the navy yard.

Dr. John W. Parsons started for a week's vacation on Monday morning, intending to visit Saratoga, and return by way of New York city.

On account of the accident to the steamer City of Bangor, she is to be withdrawn from the Boston line, and the Acushnet will run on the winter schedule, leaving this port on Wednesdays and Saturdays at five o'clock, A. M.

The steamer Asia of the Great Northern Transit Company, foundered in a storm on Lake Huron, Sept. 14th. She was crowded with passengers, horses and lumbermen's supplies. Only two persons are known to be saved out of one hundred supposed to be on board.

It has just been learned that the Maverick National bank of Boston has been recently victimized to the extent of nearly $6000 on a raised draft. Some time ago a well dressed and very respectable appearing man opened an account at the bank, depositing some $2000 which he drew against and replenished until he had established his credit. Within a week or two he deposited a draft for $5800, drawn by a Portland man against a New York bank, and the next day drew $5000 against it. The draft was sent to New York for collection, where it was found to have been raised from an original amount of $17 to $5800. Before advices to this effect had reached Boston the depositor had closed his account, drawing all his balance, and left the city.

For "Our Boys in India," a new book for boys written by Harry W. French, the famous traveller and lecturer, nearly all the illustrations are from special photographs taken for the author while he was in India. The book is full of stirring adventures, as well as of interesting and instructive matter.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
September 19, 12:00 A. M.

Probabilities for New England:—Fair weather followed by increasing cloudiness and local rain, winds mostly southerly, stationary or lower barometer, slight rise in temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 56 degrees above zero.

Cloudy.

AN EDITOR'S OFF DAY.

The great event in Boston on Monday, was the arrival in that city of Mr. I. P. Miller, the editor of the CHRONICLE, who made the trip to the hub in the steamer Acushnet. The steamer left the wharf at 8:30 A. M. Mr. Miller, who is not an early riser, being by some miracle seasonably on board. On the arrival of the steamer at Comey's wharf in Boston, a committee of reception waited upon the traveller, who visiting the New England metropolis for the first time in seven years, naturally stared about considerably. The knight of the scissors was escorted to the horse cars and transported to Young's hotel where a sumptious banquet (we believe this is the term applied to the character of dinners in the new part) was served. Mr. S. R. Niles presided, and Wm. M. Thayer, Esq., of the Boston *Post* acted as toast-master. The occasion was one of much enjoyment, and like all editorial banquets incapable of being reported. Letters were received from Tomkins' & Hill of the Boston theatre, R. M. Field, Esq., of the Museum, and from Treas. Wood of the Mechanics' fair, urging a visit to their several attractive places of resort. The manager of the Eastern railroad also sent a note requesting Mr. Miller to return over their road. The ovations to the newly arrived editor were frequent and hearty. Representatives of the city government called and hinted as to a dinner at Parker's; indeed, Boston was profuse in individual and municipal hospitality, all of which in a measure overcome the modest paragraph builder of our third story. The sights of Boston, the meeting of old friends and the many enjoyments of the visit kept the editor on the *qui vive*, so that rest did not come to him much earlier than if he had remained at his post at home. But we must all have our "vacation" season and the subs. at home are happy that the laborious editor in chief has taken what is facetiously termed "a day of rest."

SCHOONER "ANNIE F. CONLON."

The new schooner "Annie F. Conlon" was towed to the lower harbor on Monday afternoon by tug Clara Bateman. The following is a list of her owners: Captain, H. M. Sewards, Kittery point; Agent, Charles E. Walker, Portsmouth; Charles Walker, John P. Pray, George Bilbruck, Daniel Littlefield, H. L. Garret, George T. Vaughan, Ed. S. Fay, Charles E. Simpson, John R. Holbrook, Benjamin F. Webster, James R. Morrison, Mrs. Andrew Lowd, John S. Rand, John Conlon, George Scott, T. E. Call, William F. Fernald, George A. Blaisdell, of Portsmouth; Daniel Parry, Joseph Cox, Joseph E. Cox, S. B. Decatur, Fred A. Billings, of Kittery; Mrs. Emily D. Rodgers, Benjamin Kennard of Eliot, and Nathan Jones of Newington.

SUPREME COURT.

The trial term of the supreme court for this county will begin in this city on the 17th of October, before Judge Blodgett, of Franklin.

The term promises to be the shortest of any fall term of this court in this county for many years. There has been entered on the docket in the clerk's office, but one bill in equity since the April term; this is entered by a Manchester firm of attorneys. One petition for license to file a claim against a town for damages on account of a defective highway has also been entered, and four libels for divorce.

There are 159 actions on the civil docket, thirty-seven on the equity docket, and five on the sessions docket. At the January term, 1877, there were 549 actions on the continued docket, showing that either by reason of the referee law, or a decline in law practice, or perhaps a less litigious spirit in the county, the number of legal contests has largely diminished of late.

BICYCLE MEET.

The parade of the New Hampshire wheelmen formed at ten o'clock A. M on State street, and wheeled over the published route, headed by the Rockingham club with ten men, the Nashua wheel club with six uniformed men, the Manchester bicycle club with four men, followed by wheelmen from Fisherville, East Rochester, Goffstown and North Weare, numbering twenty-six men in line. On the parade several evolutions were performed very creditably. The wheelmen were photographed by Davis Brothers' in front of the post office.

At 12:15 a marine bicycle race was run between the captain and president of the Rockingham club, the course being from Church point to the Concord railroad wharf and return to the landing. The contestants were very evenly matched, the captan winning by a few inches.

A race between the Gilman brothers of Nashua was won by the younger brother, Edward M. Gilman.

The complimentary dinner at the Rockingham house was an excellent one. Remarks were made by Capt. Hazlett, Mayor Treat, President Gilman of the *Bicycling World*, Captain Gilman the treasurer of the League of American Wheelmen; Secretary Wilkins of the Manchester club, and several others. The visiting wheelmen were presented with button-hole boquets by Mrs. Frank Jones at her residence previous to the parade. Sec. Wilkins wheeled from Manchester, making a run of sixty miles the day previous to the meet, and the Rochester wheelmen came and returned on their American Stars, running nearly one hundred miles.

After the banquet the League of New Hampshire Wheelmen was organized, and C. A. Hazlett was chief consul, E. M. Gilman, representative, and C. H. Wilkins of Manchester secretary and treasurer.

The Nashua Wheel club extended a formal invitation to the New Hampshire wheelmen to meet in that city at the 2d annual gathering in 1883.

Miss A. C. Morgan arrived home from her European trip on Monday.

The train on the Boston & Maine railroad came near being thrown from the track by large stones placed on the rails on Saturday evening, as is supposed by some boys, who were subsequently arrested.

Four hundred men employed at Steinways frame works in New York, struck on Saturday last, because they disliked the superintendent.

Reports from the west show that the corn crop has been improved by the recent fine weather and the crop will prove a fair average.

During the State fair, round trip tickets to and from Concord including admission to the fair and Eagle hall, will be sold at the ticket office at the Concord railroad station in this city, for $2.10.

The mackerel fleet, to the number of one hundred and twenty sail, were cruising between the Shoals and Thachers' island on Sunday last. They formed a very pretty picture as seen from the New Hampshire shore.

William A. Payson, for several years past the genial and obliging head salesman with Messrs. Ayers & Locke, concluded his services at their establishmen on Saturday last, to accept a responsible position in R. H. White, Boston.

Work is very brisk at the Portsmouth shoe factory.

The band from the flag-ship Tennessee gave an open air concert on Haymarket square last evening.

The coaling of the fleet of the U. S. ships of the North Atlantic squadron has required 672 tons, besides about 100 tons on board the Vandalia. The Tallapoosa took fifty tons. The fleet will be in readiness to sail on Wednesday, with the exception of the Vandalia, which vessel can be sent to sea in a week.

Capt. Swett of the schooner Clara E. Simpson, desires to render his thanks to Capt. Bradford of the U. S. Flag-ship Tennessee, for aid rendered him on Friday night of last week, in the lower harbor, while his vessel was in collision with the schooner Louise A. Orr. Capt. Bradford promptly sent steam launches and men, and run an anchor and cleared the Simpson, and saved much damage and loss, which would have occurred without his assistance.

The schooner James Barrett, of Bristol, Me., Capt. L. F. Jones, from Perth Amboy, loaded with coal, bound to Gardiner, Me., came to anchor off Rye beach Saturday afternoon, about three-quarters of a mile from shore, and hoisted a signal of distress. One of the crew of the United States life-saving station, Capt. Caswell, immediately put off to her, and found she had lost her port anchor, had her decks swept, her sails split and her bowsprit broken during the violent northwest gale. The station crew took the vessel to Portsmouth on the 17th inst.

"The Mascotte" was given by the Wilbur Opera company, at Music hall on Monday evening, and was enjoyed by all present.

Mr. E. J. Goodwin of the Portsmouth high school, declines an offer to take charge of the Lynn high school at a salary of $2,500.

Invalids, Epicures,

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who should be known to all other human beings may be truthfully called the "Dear Friend of Woman," so some of her correspondents love to call her. She is modestly devoted to her work, which is the outcome of a life-study, and is enabled to keep her busy assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound has been a blessing for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headache, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only a dollar for one six for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

WHEAT BITTERS

THE Great LIQUID FOOD

FOR BLOOD, BRAIN AND NERVES.

IS A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEMICAL COMPOUND. Physicians are recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system, and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies and enriches the blood, and thereby makes only the best flesh, bone and muscle. It works wonders in curing

NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA.

Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influence, and is therefore invaluable in all pulmonary and bronchial diffi-culties. Beverages in a Jury Room.

Clarance Gray, undergoing sentence in the state prison of twenty-five years for murder, has been granted a new trial by the supreme court. After the trial it transpired that the jurors had been liberally supplied with liquor during the trial, and that liquor was furnished to them in the jury room when they retired to consider their verdict. An appeal was made to the supreme court. Affidavits accompanied the motion, showing that during eight days of the trial the jury consumed four five-gallon kegs of beer, two gallons of wine, two bottles of claret, and a large quantity of whiskey. The supreme court ruled that a new trial was proper on this account.—*San Francisco Chronicle.*

James S. Lawson, Esq., 1006 Morris street, Philadelphia, Clerk of the Phila. *Press*, suffered terribly with rheumatism, receiving no benefit from anything until he tried St. Jacobs Oil. "I used it for two days" said Mr. L., "and was entirely cured."

Defaulter Albee of Winchester, is to stand trial at Manchester, Nov. 14th, it having been conclusively demonstrated to the court that his physical prostration is feigned.

Persons afflicted with nausea and vomiting in the morning, should take Wheat Bitters.

Linda Brown has recovered a verdict of $2,450 damages against the town of Farmington, for injuries caused by a defective highway.

Beware of Swindlers.

We have exposed during the last year, many swindlers who advertise under the name of medicine, vile compounds which only increase human suffering. To all who need a pure medicine and blood purifier, we can honestly recommend Sulphur Bitters.—*Editor Sun.*

A telegram from Salmon Falls announces that Ralph Doe, oldest son of Chief Justice Doe, was badly burned by a prairie fire last Friday at North Platte, Neb., where he is engaged in stock raising.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and heaviness everybody feels more or less as the warm season approaches.—*Adv.*

President Arthur remained quietly at home Saturday morning and received callers. He rode out in the afternoon and in the evening dined with Gen. Grant, Police Commissioner French and others.

An Explanation.

The delicate, flowery and lasting fragrance of Floreston Cologne explain why it is such a favorite with the ladies.

Three years ago three young men from Maine, Messrs. John B. Donovan, James E. Hewey and Charles H. Prescott, were classmates at the Boston law school. Donovan was from Alfred, Hewey from Bath and Prescott from North Berwick. Subsequently they all removed to Biddeford and at the recent election in Maine all three were elected to public office, Hewey clerk of courts and Donovan and Prescott members of the legislature.

A Big Success.

"My wife was sick two years with a complication of disorders her physicians could not cure, when I was led to try Parker's Ginger Tonic. It was a big success. Three bottles cured her, at a cost of a dollar and fifty cents, and she is now as strong as any woman."—R. D., Buffalo.

In Dover Sept. 16th, the blacksmith and carriage painting establishment of Charles Tarr, on Union street was burned. Tarr rented the shop, and his loss is $550; insured for $300. The building is owned by Mrs. Smith Brown. Her loss is $500, on which there is no insurance.

After eating each meal take a dose of Brown's Iron Bitters. It helps digestion, relieves the full feeling about the stomach.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in youth, early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

288th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

MALARIA!

THE ONLY REMEDY KNOWN

To Destroy this Deadly Pest.

The most alarming fact in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The boatmen on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria, but until a few years past did they find a reliable remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning, and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy tone to the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver and kidney complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alternative medicine in the world. STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

SULPHUR BITTERS

THE GREAT

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells, depend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and workshops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

Mother Died from it

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

Psoriasis.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful cases on record. Cure certified to before a justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

Salt Rheum.

Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally.

State of New Hampshire, Rockingham, ss.

By the Judge of Probate for said County.

TO the heirs at law and creditors to the estate of Lydia Wilson, late of North Hampton, in said County, deceased, testate, and all persons interested in said estate, GREETING.

YOU are hereby notified that Joel Wilson, executor of the will of said deceased, has filed his account of administering said estate in the Probate office for said County, and will present the same at a Court of Probate to be holden at Portsmouth in and for said County, on the second Tuesday of November next, at 10 o'clock A. M., for examination and allowance.

YOU are therefore hereby cited to appear at said court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the NEW HAMPSHIRE GAZETTE, a newspaper printed at Portsmouth, in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge,

Dated Sept. 12th, A. D. 1882.

WOODBURY M. DURGIN, Register of Probate.

Mr. Wm. Westfall,

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age, pain and disease are a sad combination. Yet Mr. William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., a few days since, in a condition to excite the pity of the most cold-blooded and hard-hearted person in the world. We say he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of and aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows: It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by change of age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business. In your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Portsmouth Chronicle.

WEDNESDAY, SEPT. 20, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

The democracy of Massachusetts nominated Benjamin F. Butler as their candidate for governor, on the 19th inst.

Prof E. E. Barnard, of Nashville, Tenn., on the 14th inst. discovered a new comet located near the star Lambda, in the constellation of the Twins. His discovery was announced by telegraph to Mr. H. H. Warner, at the Warner Observatory, Rochester, N. Y., and almost at the same moment Prof. Lewis Swift, director of the Warner Observatory, received intelligence that a large naked eye comet has been discovered in Rio Janeiro, South America. Prof. Barnard is the first person the present year to receive the Warner prize of $200.

Another effort is to be made for the release of Sergeant Mason, who is undergoing sentence for shooting at Gilteau, by a petition to Judge Cox, United States district judge of the northern district of New York.

A counterfeit half dollar made of Babbitt metal and glass is in circulation. It has a good ring and is dangerous.

Pittsburg, Pa., has a most exciting boom in oil. The sales Monday aggregated 6,657,000 barrels. A considerable advance was realized, and operators were wild with excitement. Everybody who could raise money enough to go in on margin, made investments in hope of further rise. Pittsburg is a community of oil speculators.

At various places in England and in this country a comet was plainly seen with the naked eye on Monday, Sept. 18th, throughout the day, about five degrees from the sun.

Books, Magazines, Etc.

Lee & Shepard have selected eight of their original series of illustrated hymns and songs, including "Ring out, Wild Bells," "Abide with me," "He Giveth His Beloved Sleep," "Home, Sweet Home," etc., and will bring them out this season in a style combining the illustrated poem and Christmas card. Each book is in a rich and novel dress, with heavily fringed, beautiful cover designs in gold and colors.

The *Atlantic Monthly* for October has an excellent variety of serial and short stories, poems, essays, and criticism. Thomas Hardy's story, "Two on a Tower," advances five chapters, and well maintains the interest which has characterized the earlier chapters. Mr. Bishop gives two additional chapters in his "House of a Merchant Prince," which is a somewhat pungent discussion of New York society. Harriet W. Preston, who is now in Europe, writes a delightful article entitled "Among the Sabine Hills." The eighth article of the "Studies in the South" is marked by the same close and accurate observation, and the same singular candor which have made the previous studies so valuable, and which have justly secured for them most respectful attention both at the north and at the south. Lieutenant Cushing concludes his interesting account of the "Nation of the Willows," which is not the Zunis but the Na-ra-supai. Prof. W. T. Hewett contributes an article on "University Administration." The short story of the number is entitled "And Mrs. Somersham," by Agnes Paton. The number is rich in poetry by Mr. Whittier, Miss Larcom, John McCarty Pleasants, T. W. Parsons, and Arlo Bates. Mr. Horace E. Scudder has a very interesting article entitled "An English Interpreter," describing the decorations and paintings made by Mr. Frederick James Shields for Eaton Hall Chapel, the private chapel of the Duke of Westminister. The number contains some reviews of important new books, and the usual variety of the Contributors' Club.

Some years ago, Lee & Shepard began the publication of a series of illustrated hymns and songs, including such favorites as "Nearer my God to Thee," "Rock of Ages," "Home, Sweet Home," etc. This series has proved the most popular set of Holiday Annuals, probably, ever issued in this country. This year, two new books are added,—Tennyson's "Ring out, Wild Bells," with illustrations by Miss Humphrey, and Dr. Sears' "That Glorious Song of Old," illustrated by Fredericks.

Unlike other cathartics, Dr. Pierce's "Pellets" do not render the bowels costive after operation, but, on the contrary, establish a permanently healthy action. Being entirely vegetable no particular care is required while using them. By druggists.

At Mountairy, N. C., Sept. 18th, during a circus performance to an audience of fifteen hundred persons the seats fell, throwing the audience to the ground. More than fifty people were injured, some of them critically.

A Lucky Accident to a R. R. Station Master.

Mr. J. A. Burks, the Station Agent at Robeline, was the lucky holder of one-fifth of ticket No. 56,021, which drew the capital prize of $75,000 in The Louisiana State Lottery Drawing of August 8. He forwarded the ticket to N. O., and the sum of $15,000 was paid in cash. He is a comparatively young man; has a wife and two children, and is a native of Sonora, Ky., where he owns some real estate. He takes his good fortune quite nonchalantly, and in a sensible manner will retain his present position for some time to come. This is but one of the invariable instances showing that The Louisiana State Lottery Company deal honestly with the lucky holders of tickets drawing prizes in the wheel of fortune.—*Natchitoches, La., People's Vindicator, August 19.*

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their trouble. It stimulates the digestive, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from lassitude and weariness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It renews the system in its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nutriment the Extract will prove an excellent substitute for food. It neither pals upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the system, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of Nourishing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved fac-simile of Baron von Liebig's name, and a signature across the face as well as that of A. VOGELER & CO., Baltimore, Md., Sole Agents for America.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

F. W. A. BERGENGREN, M. D., Proprietor. Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL, Conductor L. & B. R. R.

I consider Swedish Botanic Compound the best Blood Purifier and Spring Medicine in use. W. B. WATSON, Lynn, Mass.

THE RECEPTION.

A brilliant reception and ball was given on Tuesday evening, the 19th inst., at Franklin hall, in honor of Rear Adm. Cooper and the officers of the North Atlantic squadron, now in port. The officers stationed at the navy yard were also invited, and were present quite generally. The affair was in the hands of a committee of gentlemen, all in civil life, and was intended as a return for the compliment of the invitation to visit the flagship Tennessee some time since by the officers of the squadron, as well as to the reception given to Secretary Chandler by the officers attached to the station. Among the guests invited were the Secretary of the navy and Ex-Sec. Robeson. There were present Rear Adm. Cooper and his staff, Commodore Wells, Captain R. B. Bradford, commanding the flagship, and the other commanders, with a very large number of officers from the various ships in the harbor. The hall was tastefully decorated with flags and pennants, and adorned with flowers and rare plants; the dancing was to the music of Harlow's orchestra. Refreshments were served during the evening, and the officers appeared to enjoy the affair to the full extent. Several ladies of our city were seleted to receive the guests on their arrival, which was most gracefully and satisfactorily performed.

As the fleet puts to sea we trust the recollection of the reception will be one of the pleasant reminders to the officers of their stay in Portsmouth.

This evening at the meeting of Strawberry Bank Lodge of Good Templars a full attendance is requested.

Mr. Charles L. Davis will appear as "Alvin Joslin" at Music hall on Thursday evening.

Now is the time for sweet cider, the late high winds having shaken off a large amount of apples.

A marine on board the U. S. S. Tennessee fell on Monday and broke his leg. A seaman on the same ship was severely bruised about the head; both of the men were brought to the hospital at the navy yard.

In the neighboring towns full one-half of the apple and pear crop were blown from the trees by the gale of the 15th and 16th insts.

Mr. William Ward has purchased and is expensively fitting up a burial lot in Sagamore cemetery.

At Music hall, on Saturday evening, Mr. Lawrence Barrett will play "Hamlet." This tragedy has not been performed in this city for many years, and no other opportunity will be offered this season for our citizens to see this great tragedian, his New Hampshire engagements including only one in Manchester and one here.

Alvah Jelleson, the fireman employed in the engine room of the boiler shop on the navy yard, while cleaning the engine on Monday last had his right hand caught under the piston rod, crushing it in such a manner that he will probably lose several fingers, if not the hand.

The telegraph announces the death in Colorado of George F. Bean, formerly conductor on the Boston and Montreal railroad, afterward landlord of the Elm House in Concord, and more recently for several years a resident of this city. Mr. Bean went to Colorado last spring.

A new patent hand car is introduced all along the line of the Eastern railroad.

On account of the large amount of freight to be taken to this city on Saturday night, the Acushnet took the place of steamer City of Bangor for Saturday's trip. The latter steamer was disabled on her passage and was obliged to proceed part of the way under sail. The passengers were taken to Provincetown by a yacht, and the City of Bangor was towed back to Boston by steamer Hercules.

The North Atlantic squadron will sail from the lower harbor to-day about twelve o'clock, to rendezvous at New York after a cruise of eight days.

A signal of distress was sighted from the Tennessee on board the yacht Tarantula on Tuesday morning, and a boat was sent to her assistance from the flagship, but found that the yacht had set her ensign union down by mistake.

A draft of seamen for the Vandalia, and another for the Tennessee, arrived in this city by rail on Tuesday.

The democratic managers held a conference at Manchester on Tuesday evening, to decide if they should urge Frank Jones to run for Congress, to give strength to the state ticket.

The steamer Startled Fawn came to this city on Tuesday, with excursionists from Haverhill, Mass.

The republican senatorial convention of the Newmarket district, which includes ward three of this city, on Tuesday nominated John F. Hall for senator.

Mr. E. Chapman of York left his horse and carriage on Market square for a few minutes between twelve and one o'clock on Tuesday, to step into a store; when he came out his team was not to be found, and he could find no one who knew anything about it.

Mr. Arthur S. Hoyt of Newington has been doing some very good work in that town and vicinity, with a well-boring apparatus, which he purchased a short time ago; during the late drought, he never failed to furnish a good supply of water. He bored a well for B. S. Hoyt to the depth of twenty-two feet, and got sixteen feet of water. Others were dug at a depth of eleven feet, furnishing seven feet of water. Diameter of hole three inches. It makes an excellent well and is very cheap.

Commodore Oscar C. Badger, at the Boston yard, will shortly go on a leave of absence for three months. The commodore intends to be present at the marriage of his son, Master Chas. J. Badger, U. S. N., at St. Louis. Master Badger entered the naval school while his father resided in this city, and was on duty at this station.

Captain Ralph Chandler, executive of the Boston yard; Naval Constructor Mintoyne, and Assistant Constructor John F. Hanscom have been constituted a board to make a careful survey of the hull, spars, boats, etc., of the U. S. S. "Shenandoah," preparatory to estimating the cost of repair. As the employes have no special work in hand, in all probability this ship will be taken in hand for repairs. It will be remembered that the last Congress passed a law that before any old vessel shall be repaired and fitted out it must first be established by a board of survey that her condition is such as to warrant the cost on her not to exceed thirty per cent of her original cost. Prior to this act the established regulation was forty per cent. The board of survey ordered to report the condition of the "Shenandoah" soon after the vessel went out of commission, made a report based upon the latter basis. A number of the yard officials claim that she can be fitted out at a cost somewhat within the limits of the present law, and undoubtedly a new board will be ordered to resurvey her and report accordingly.

The republican county convention for nomination of commissioners, sheriff, treasures, register of deeds and register of probates, meets in Exeter to-day.

A bright fire was seen for a short time in the northeast from Kittery point last evening, supposed to be a small building in York.

Fruit of the tropic's burning clime,
Thy wondrous virtues, fadeless still,
Exert an influence sublime
In ministering to human ill;
And many a pang along our way
Sanford's Ginger doth allay.

The wife of Chief Engineer Melville of the Jeannette expedition is considered insane, and has been placed in an insane asylum.

Dr. Palmer, county attorney of Taylor Co., Louisville, Ky., strongly recommends St. Jacobs Oil for rheumatism. He personally experienced its benefits.

The preparations for the coronation of the czar are so far completed, that the time is fixed for Oct. 10th.

Nothing builds up shattered constitutions so quickly as Brown's Iron Bitters.

—The late Senator Ben Hill was once challenged by Alexander H. Stephens to fight a duel, and he replied: "I decline your challenge for the reason that I have a family to support and a soul to save. You have neither."

Invalids, Epicures,

and, in fact, everybody should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

& NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other women living may be truthfully called the "Dear Friend of Woman," because of her correspondence literally by the hundreds of thousands devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. It has personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and this fair to equal the Compound in its popularity.

All meet respect for so an Angel of Mercy whose sole ambition is to do good to all. sm

A Singular Case.

The St. Louis *Globe Democrat* tells a story of a two-sided person who lived some years ago in Floro, Clay county, Ill. He had never been sick since he was an infant, and had never had the slightest touch of paralysis. Notwithstanding, his face and chest on one side were profusely bathed in perspiration, even on the coldest days in winter, while on the other side, taking the nose for a dividing line, no sign of perspiration was ever seen, even in the hottest days of midsummer. This, of course excited considerable remark and amusement. But his appearance was still more striking when, sitting in one the country stores of an evening, he would go to sleep on one side, with that eye fast closed, while the other side would be wide awake and he would be keeping up his end of the conversation. When last seen he was to some extent outgrowing his peculiarity, but probably never fully did so. He had consulted one or two country physicians, but never laid his case before those competent to advise him. It is to be regretted, as he would have excited great interest in medical circles.

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decay of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, and has cost very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic. 'Of result of long years of experience and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

MALARIA!

THE ONLY REMEDY KNOWN

To Destroy this Deadly Pest.

The most alarming fact, in our sanitary conditions, is the prevalence of Malarial Poison not only in marshy, low-lying districts, but in the cities and upon elevated ground where, a few years since, it was unheard of. Frequently fatal disorders of the digestive functions, wasted and enfeebled body and even insanity are the dire effects of malarial poisoning, the sure precursors of death if the poison is not neutralized. The bottom on the Del. & Hudson Canal, as well as the inhabitants of the adjoining country, have been great sufferers from Malaria. Not only a few years past did they fall victims to the remedy. Now thousands testify that there is but one real and speedy cure for malarial poisoning, and that is Dr. Kennedy's "Favorite Remedy," which by its action upon the blood purifies it and restores a healthy flow in the entire system. As a preventive in localities where this danger lurks, it is invaluable. The "Favorite Remedy" also cures the worst liver complaints and all diseases caused by vitiated blood. For sale by all druggists, price $1 per bottle. It is an absolutely safe, purely vegetable remedy, the greatest alterative medicine in the world. STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

SULPHUR BITTERS

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells, depend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Giant Dyspepsia is slain by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and works shops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

After the "Sports."

Capt. Nathan Appleton, president of the Newport, (R. I.,) Society for the Prevention of Cruelty to Animals, is making an earnest effort to suppress the sport—so-called — of fox hunting, which the snobs who resort to Newport during the pleasure season have introduced in silly imitation of the English gentry. The sturdy farmers of Rhode Island naturally object to troops of horses and packs of hounds tearing through their harvest fields, that the drones of "fashionable society" may ape the customs of the idle spendthrifts across the Atlantic, and they meet the trampling invaders of their cornfields with pitchforks and other picked implements of husbandry; and as it is claimed that the cultivators of the soil have a right to protect their crops from trespassing "Cattle" with whatever farming tool is at hand, they have learned how to receive the charging steeds of the mighty [fox-]hunters—male and female—upon the sharp tines of hay forks. As Mr. Appleton thinks it cruel to expose horses and ponies to such tortures and death, in such an ignoble sport as the pursuit of an anise-seed-bag or an occasional tame fox, he has determined to arrest all who join in the chase as riders of the imperilled horses, and give them a "brush" with Rhode Island justice.

—It has been ungallantly said that the telephone does what society rules have always been unequal to—compels women who use it to talk one at a time.

—Here is an extract from a genuine love-letter which an exchange vouches for: "Dearest love, I have swallowed the postage stamp which was on your letter, because I knew that your lips had touched it."

—A young lady near Biggs, the Chico (Col.) *Record* says, named Bessie Donloy, wears her hair over seven feet long. The hair is blonde, and she is said to be beautiful, with pink lips and sparkling blue eyes. She is seventeen years old, and has admirers in all the land around.

—Two farmers living near Creedmoor met and engaged in a lengthy conversation upon the subject of crops. As they were about parting one of them said: "I noticed that you had all your cattle corralled behind the barn last Tuesday." "Ah, yes," returned the other, "I heard the American rifle team were going to practice."

Oyster Sauce.

Take one pint of oysters and scald them in their own broth; add salt, pepper and a blade of mace. Let them boil up once and skim them out. To the broth add a cup of cream in which you have mixed a teaspoonful of Sea Moss Farine, boil a few moments, add a piece of butter and return the oysters to heat but not boil.

The speediest remedy for indigestion is the one you want. Wheat Bitters will cure it seven days in the week. See advt.

The republicans of the Oregon legislature on the 18th inst. nominated John H. Mitchell for United States senator.

Esthetic Housekeepers, with critical eyes, know the value of Electro-Silicon, the famous silver polish. It produces a beautiful lustre with less labor than any article that is free from destructive chemicals. Avoid imitations. Druggists.

Miss Maude Crowley, a remarkably beautiful girl, the daughter of Richard Crowley, of New York, is engaged to be married to Chester A. Arthur, Jr.

Only Two Bottles.

Messrs. Johnson, Holloway & Co. wholesale druggists of Philadelphia, Pa. report that some time ago a gentleman handed them a dollar, with request to send a good catarrh cure to two officers in Arizona. Recently the same gentlemen told them that both the officers and the wife of Gen. John C. Fremont Gov. of Arizona, had been cured of catarrh by the two bottles of Ely's Cream Balm.

Messrs. Ely Bros., Druggists, Owego, N. Y.—A few days ago I saw a lady who had used your Cream Balm for Catarrh, and had found more relief in one bottle than from all other remedies she had tried. I enclose $1 for two bottles. Yours respectfully, JAMES HITCHEN, M. D., Providence, R. I.

Apply into nostrils with little finger.

By a collision of two trains on the Troy & Greenfield railroad in Massachusetts on the 19th inst., a conductor, brakeman and fireman were killed, and three other persons seriously injured. The engines and cars were badly smashed.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.
